

Alliance of Missouri Community Foundations

Transfer of Wealth Opportunity in Missouri by County and Foundation Region

April, 2023

AN INITIATIVE OF THE ST. LOUIS COMMUNITY FOUNDATION

Introduction

- The **Alliance of Missouri Community Foundations** commissioned a Transfer of Wealth study in 2022 to better understand the potential impact of the intergenerational wealth transfer on Missouri communities.
- This study seeks to provide insight into the expected transfer of wealth, the beneficiaries of this transfer, and the potential impact on local philanthropy.

Importance

- Understanding the expected transfer of wealth is essential for community foundations to plan and maximize their impact.
- With the anticipated intergenerational transfer of wealth, the Alliance can create strategic plans to capture a portion of this transfer for the benefit of their respective communities.
- By identifying potential beneficiaries of the wealth transfer, the Alliance can target their outreach and fundraising efforts to capture a larger share of the transfer.
- Working together, the Alliance of Missouri Community Foundations can create a legacy of philanthropy that will benefit Missouri for generations to come.

Executive Summary

- Missouri's population is aging, with a larger proportion of the population reaching retirement age in the coming decades.
 - [Missourians Aging with Dignity Initiative](#) announced by Governor Parson, January 19, 2023 validates these findings.
- This aging population is expected to lead to an increase in the amount of wealth transferred between generations, as older adults pass on their assets to their heirs.
- At the same time, Missouri is not growing in population and has experienced population loss in recent years, with some areas of the state, particularly rural counties, seeing dramatic declines.
- This population loss can have an impact on the transfer of wealth, as fewer households means less potential for intergenerational wealth transfer.
- Additionally, Missouri's average household size has been decreasing over time, which can also affect the amount of wealth that is transferred between generations as smaller households may have fewer potential heirs and may therefore transfer less wealth than larger households.
- However, it's worth noting that smaller households may also be more likely to direct their wealth towards charitable giving and community foundations.

Key Findings

- This study estimates the current Transfer of Wealth Opportunity in Missouri is over \$114 Billion, with a ten-year projected value of \$153.38 Billion.
 - Baby Boomers and older generations are expected to transfer the largest share of wealth, with an estimated \$137.5 Billion over the next ten years.
- Capturing 5% of the total transfer (all generations) over the next ten years would lead to the Alliance of Missouri Community Foundations collecting \$7.67 Billion and investing over \$383 Million in Missouri communities.
- Over the next 50 years these figures grow to a value of \$500 Billion and capturing \$25 Billion, while paying out \$1.25 Billion.
- 165,748 Missourians reside in eight counties currently undesignated by the Alliance.
 - The current Transfer of Wealth Opportunity among the undesignated counties stands at \$2.9 Billion – ranging from \$47.2 Million in Schuyler County to \$896 Million in Lincoln County.
 - Over the next ten years, over \$3.87 Billion of wealth is expected to transfer among families in undesignated counties and capturing 5% of this transfer of wealth would amount to \$193.5 Million for the Alliance.

Wealth Transfer Model

The wealth transfer model is a statistical approach that estimates the amount of wealth that will be transferred between generations based on household size, life expectancy, and wealth distribution.

The wealth transfer model considers several key factors, including:

1. **Demographics:** The model considers the age distribution of the population and the timing of intergenerational transfers of wealth based on life expectancy and mortality rates.
2. **Household Size:** The model considers changes in household size over time and how this affects the amount of wealth that will be transferred between generations.
3. **Life Expectancy and Mortality:** The study used life expectancy and mortality rates to estimate the number of deaths and the timing of intergenerational transfers of wealth.
4. **Income and Wealth Distribution:** The model uses data on income and wealth distribution to estimate the expected amount of wealth that will be transferred between generations. For example, households with higher incomes and wealth are expected to transfer more wealth than households with lower incomes and wealth.
5. **Charitable Giving:** The model also considers the potential impact of charitable giving on the transfer of wealth. The Alliance advised a 5% wealth transfer to be directed towards charitable giving and community foundations.
6. **Projections:** Based on the data and analysis techniques used, the study generated projections of the expected transfer of wealth in Missouri over the next ten and fifty years.

Data Sources

Federal Reserve: The study utilized the Federal Reserve's **Survey of Consumer Finances** - a nationally representative survey that collects information on the distribution of wealth among households in the United States.

US Census Bureau: The US Census Bureau provided data on the demographic characteristics of the US population, including population growth, aging, and household size.

ESRI: ArcGIS Business Analyst is a demographic mapping software tool used to estimate future changes in population and household and was the primary source of wealth estimates.

Center for Disease Control: The life expectancy and mortality rates used in the wealth transfer model are based on data from the most recent twenty years of CDC reporting.

Limitations

- It is important to note that this Transfer of Wealth study is based on assumptions and projections and may not reflect actual outcomes.
- The study relies on data sources and analysis techniques that may have limitations and biases.
- The study did not consider potential changes in public policy, economic conditions, or other factors that could impact the transfer of wealth in Missouri over time.

Missouri

Demographics and Net Worth

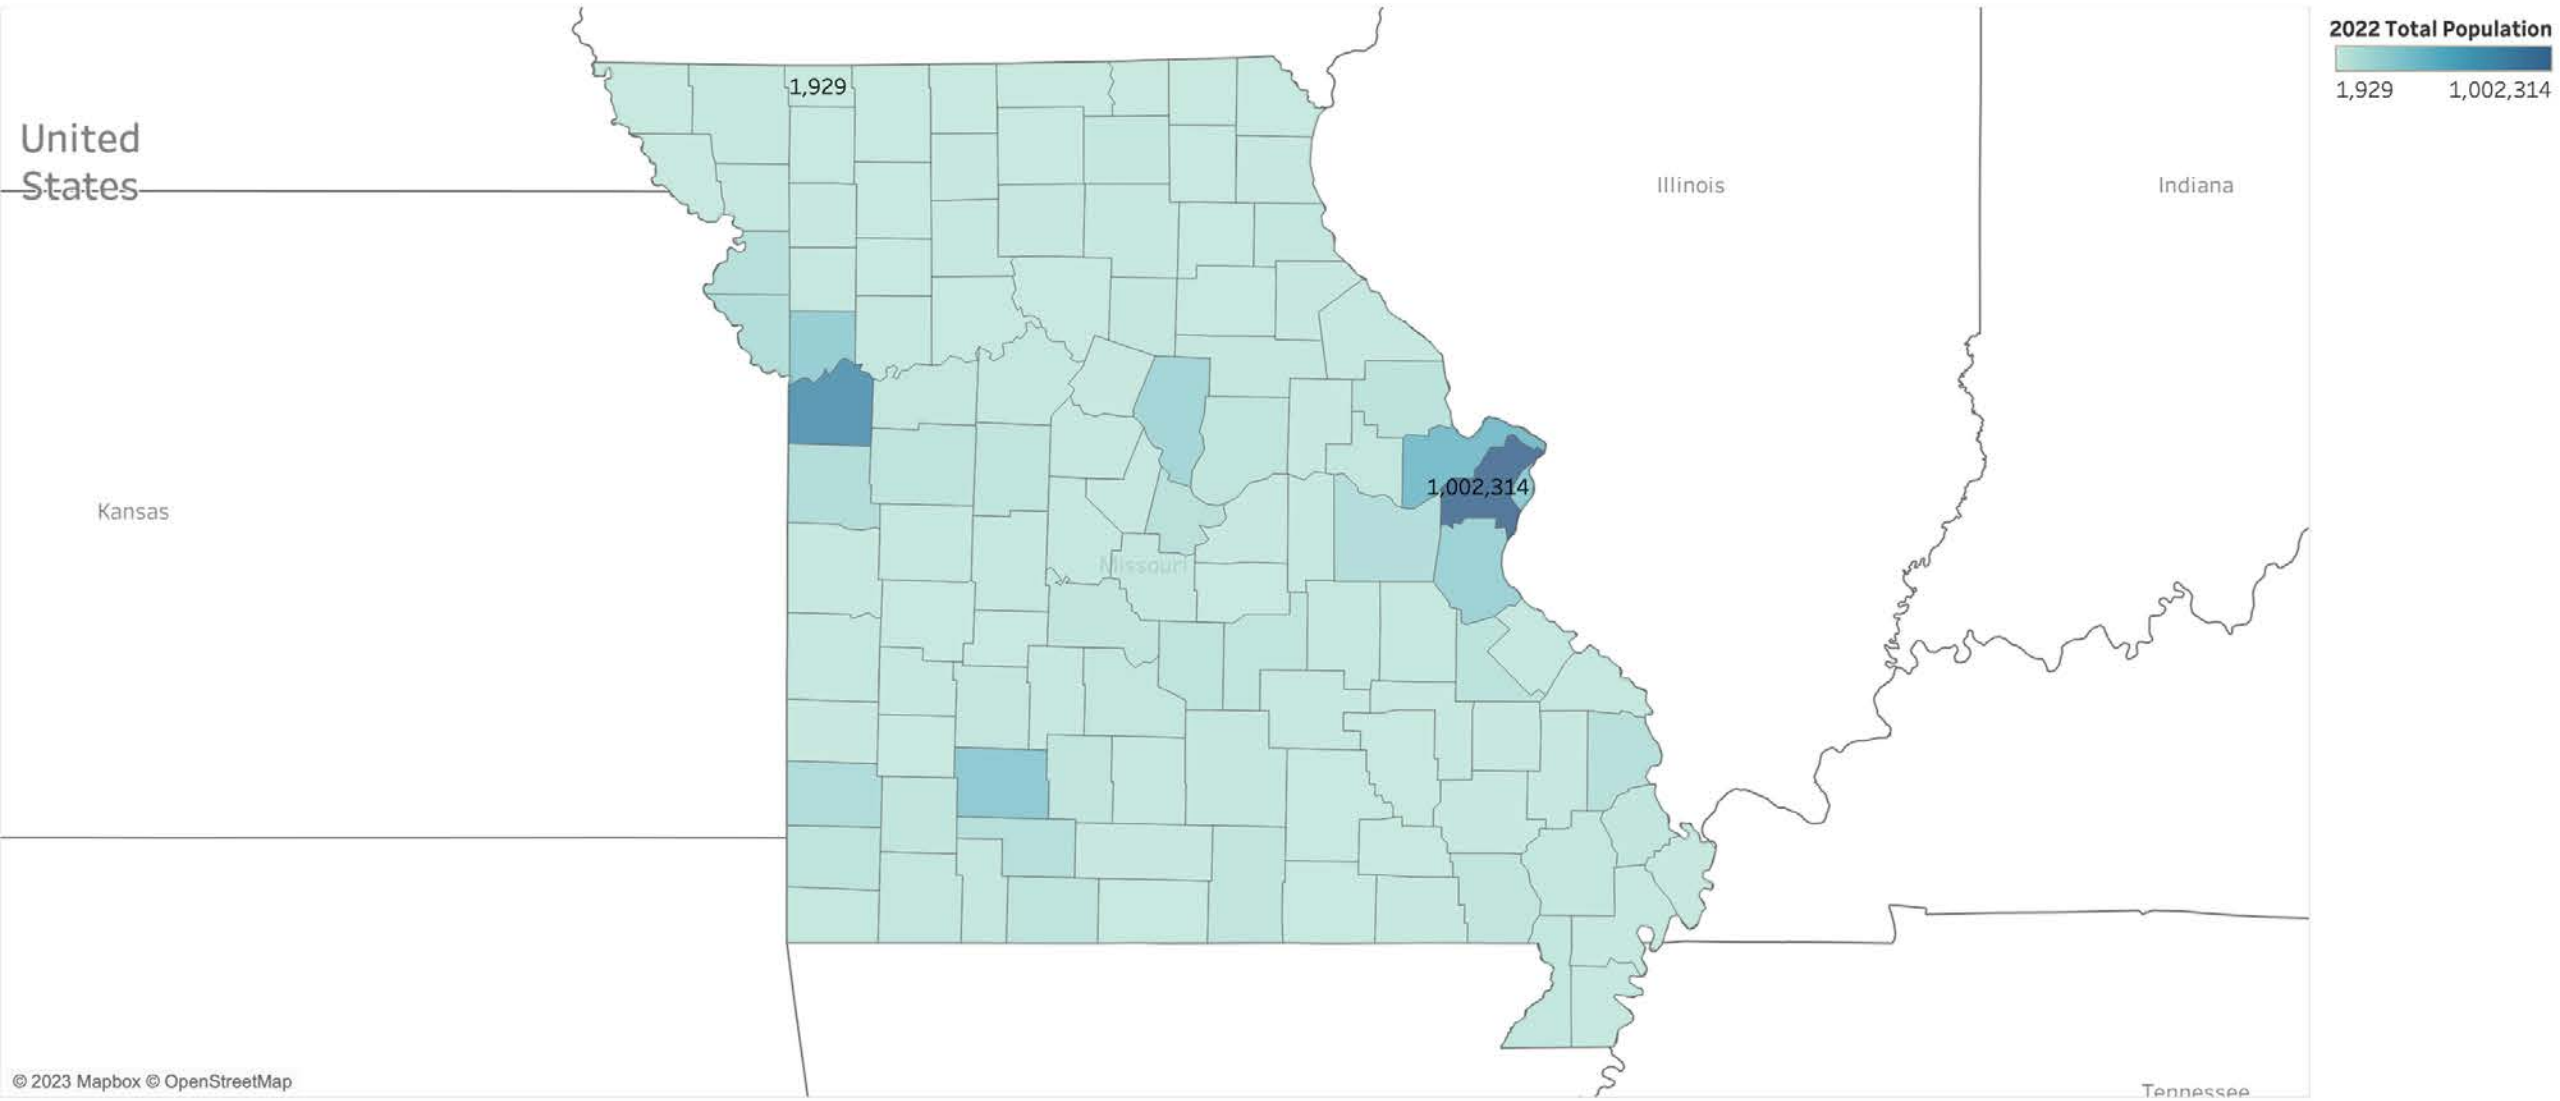

Missouri's population is not growing at the pace once projected. The State was expected to add around 712,000 people between 2010 and 2030. Since 2010, Missouri has grown by 197,655 with an additional 33,274 expected in the next five years – a total of 230,929 since 2010.

Source: ESRI

St. Louis County is the largest in Missouri with a population of just over a million residents. The smallest county is Worth in Northwestern Missouri, with a population of only 1,929.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

By levels of urbanization, Missouri counties have seen slight upticks in population – most significantly in counties defined as Large Fringe Metro. Rural counties, or those classified as noncore, are the only level of urbanization to experience population decline.

Source: ESRI

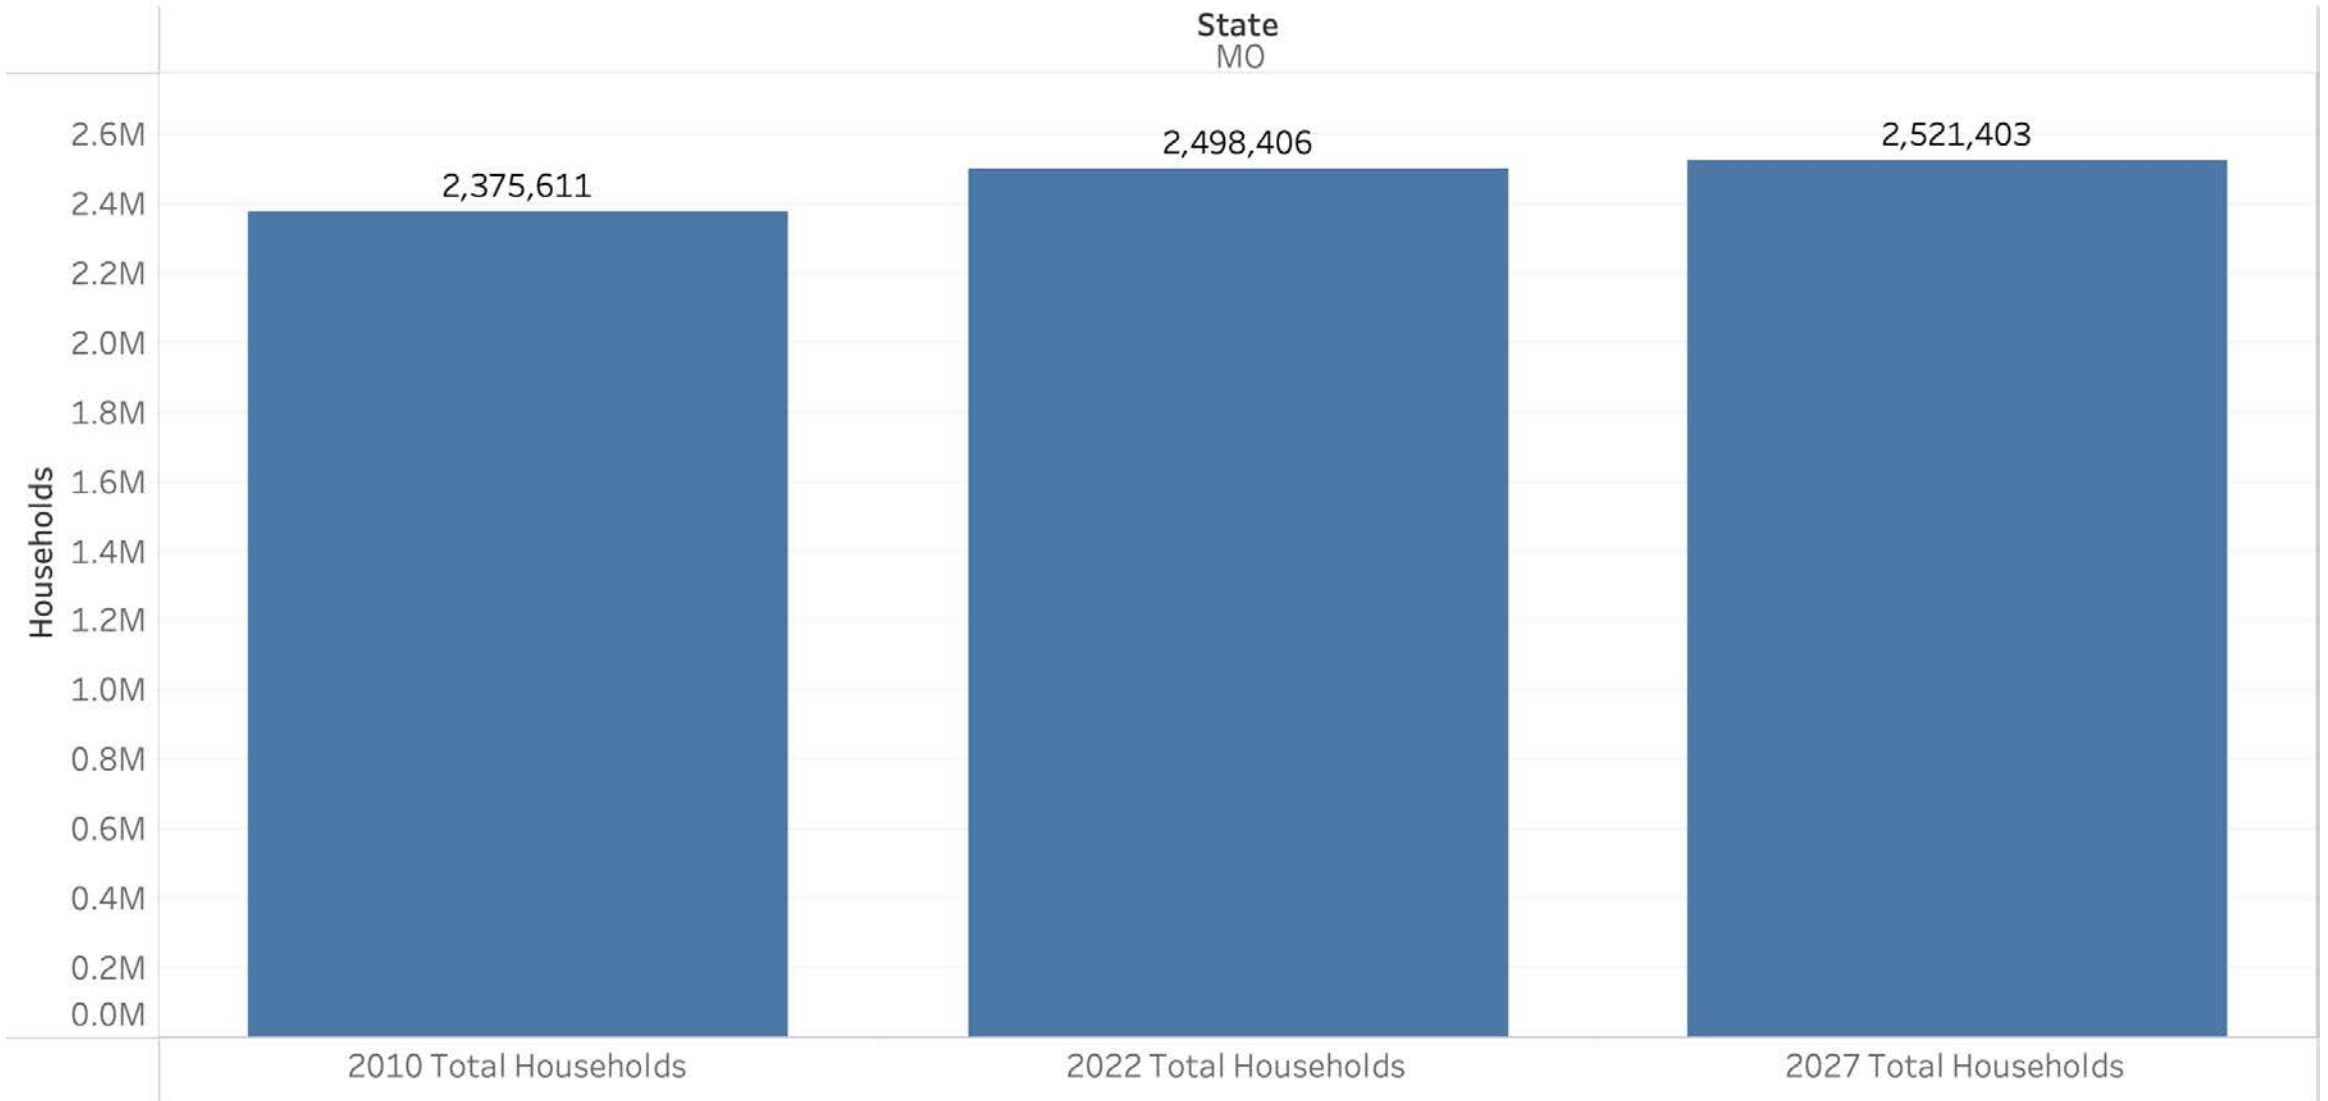

Most regions of the Alliance of Missouri Community Foundations have experienced and are projected to continue slight increases in population. The exceptions being Chariton County, Northwest and Northeast Missouri. St. Louis grew over the past decade but is projected to decline by roughly 5,000 residents in the next five years.

Source: ESRI

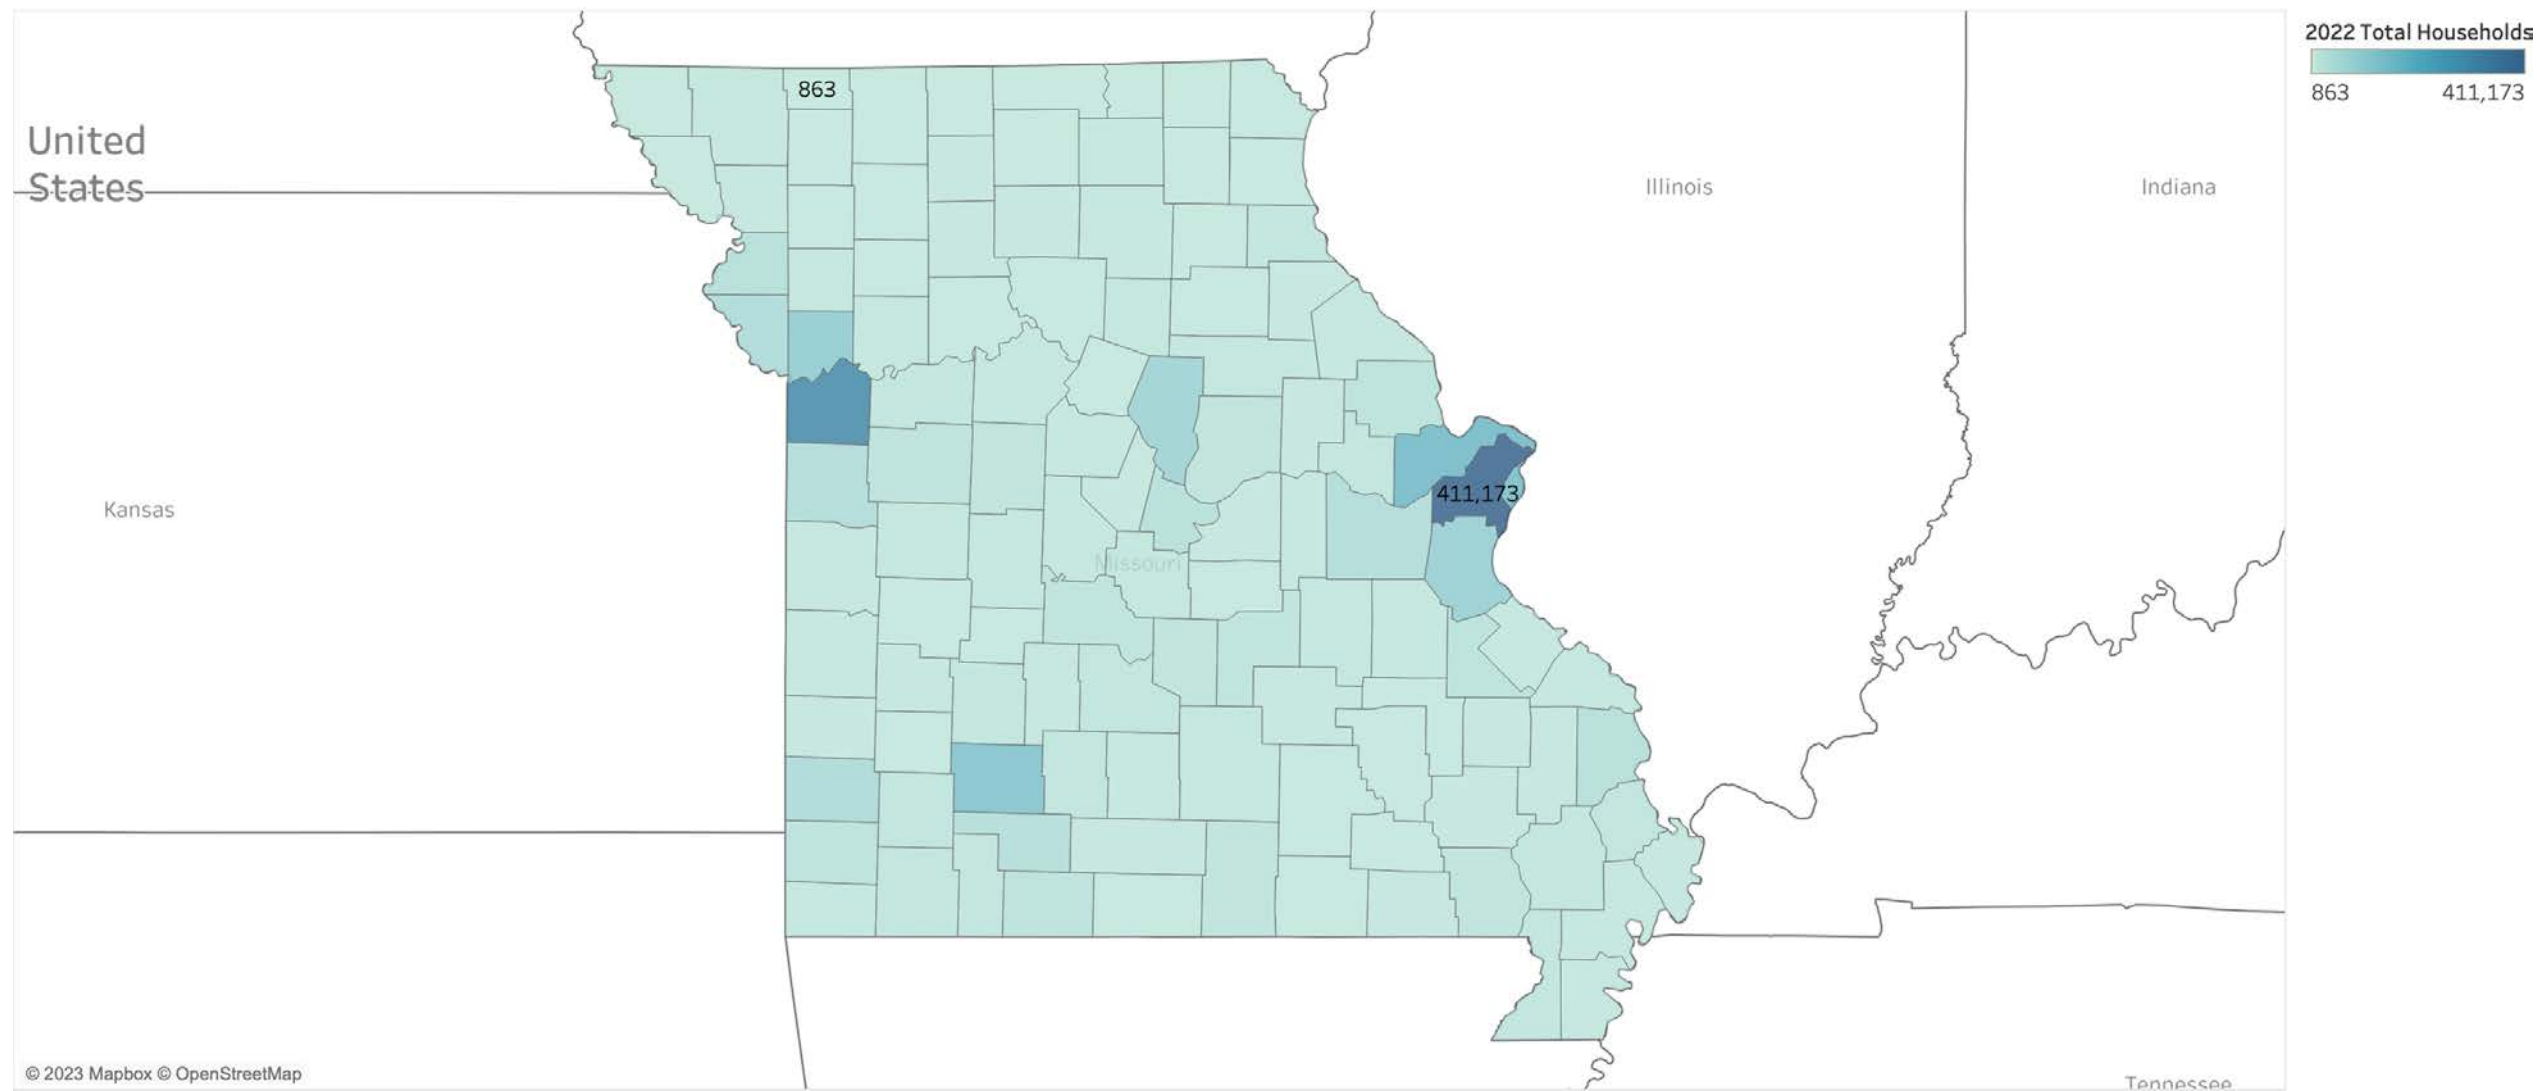

Total Missouri households grew by 122,795 since 2010 but is only expected to increase by 23,000 in the next five years.

Source: ESRI

Like population, substantial household totals are in Missouri's Large Fringe Metro counties.

Source: ESRI

Again, like population, household totals are expected to grow only slightly with the exception being rural, or noncore, counties.

Source: ESRI

Most foundation regions anticipate some increase in household totals except for Chariton County, Northwest and Northeast Missouri – underscoring population decline in these regions.

Source: ESRI

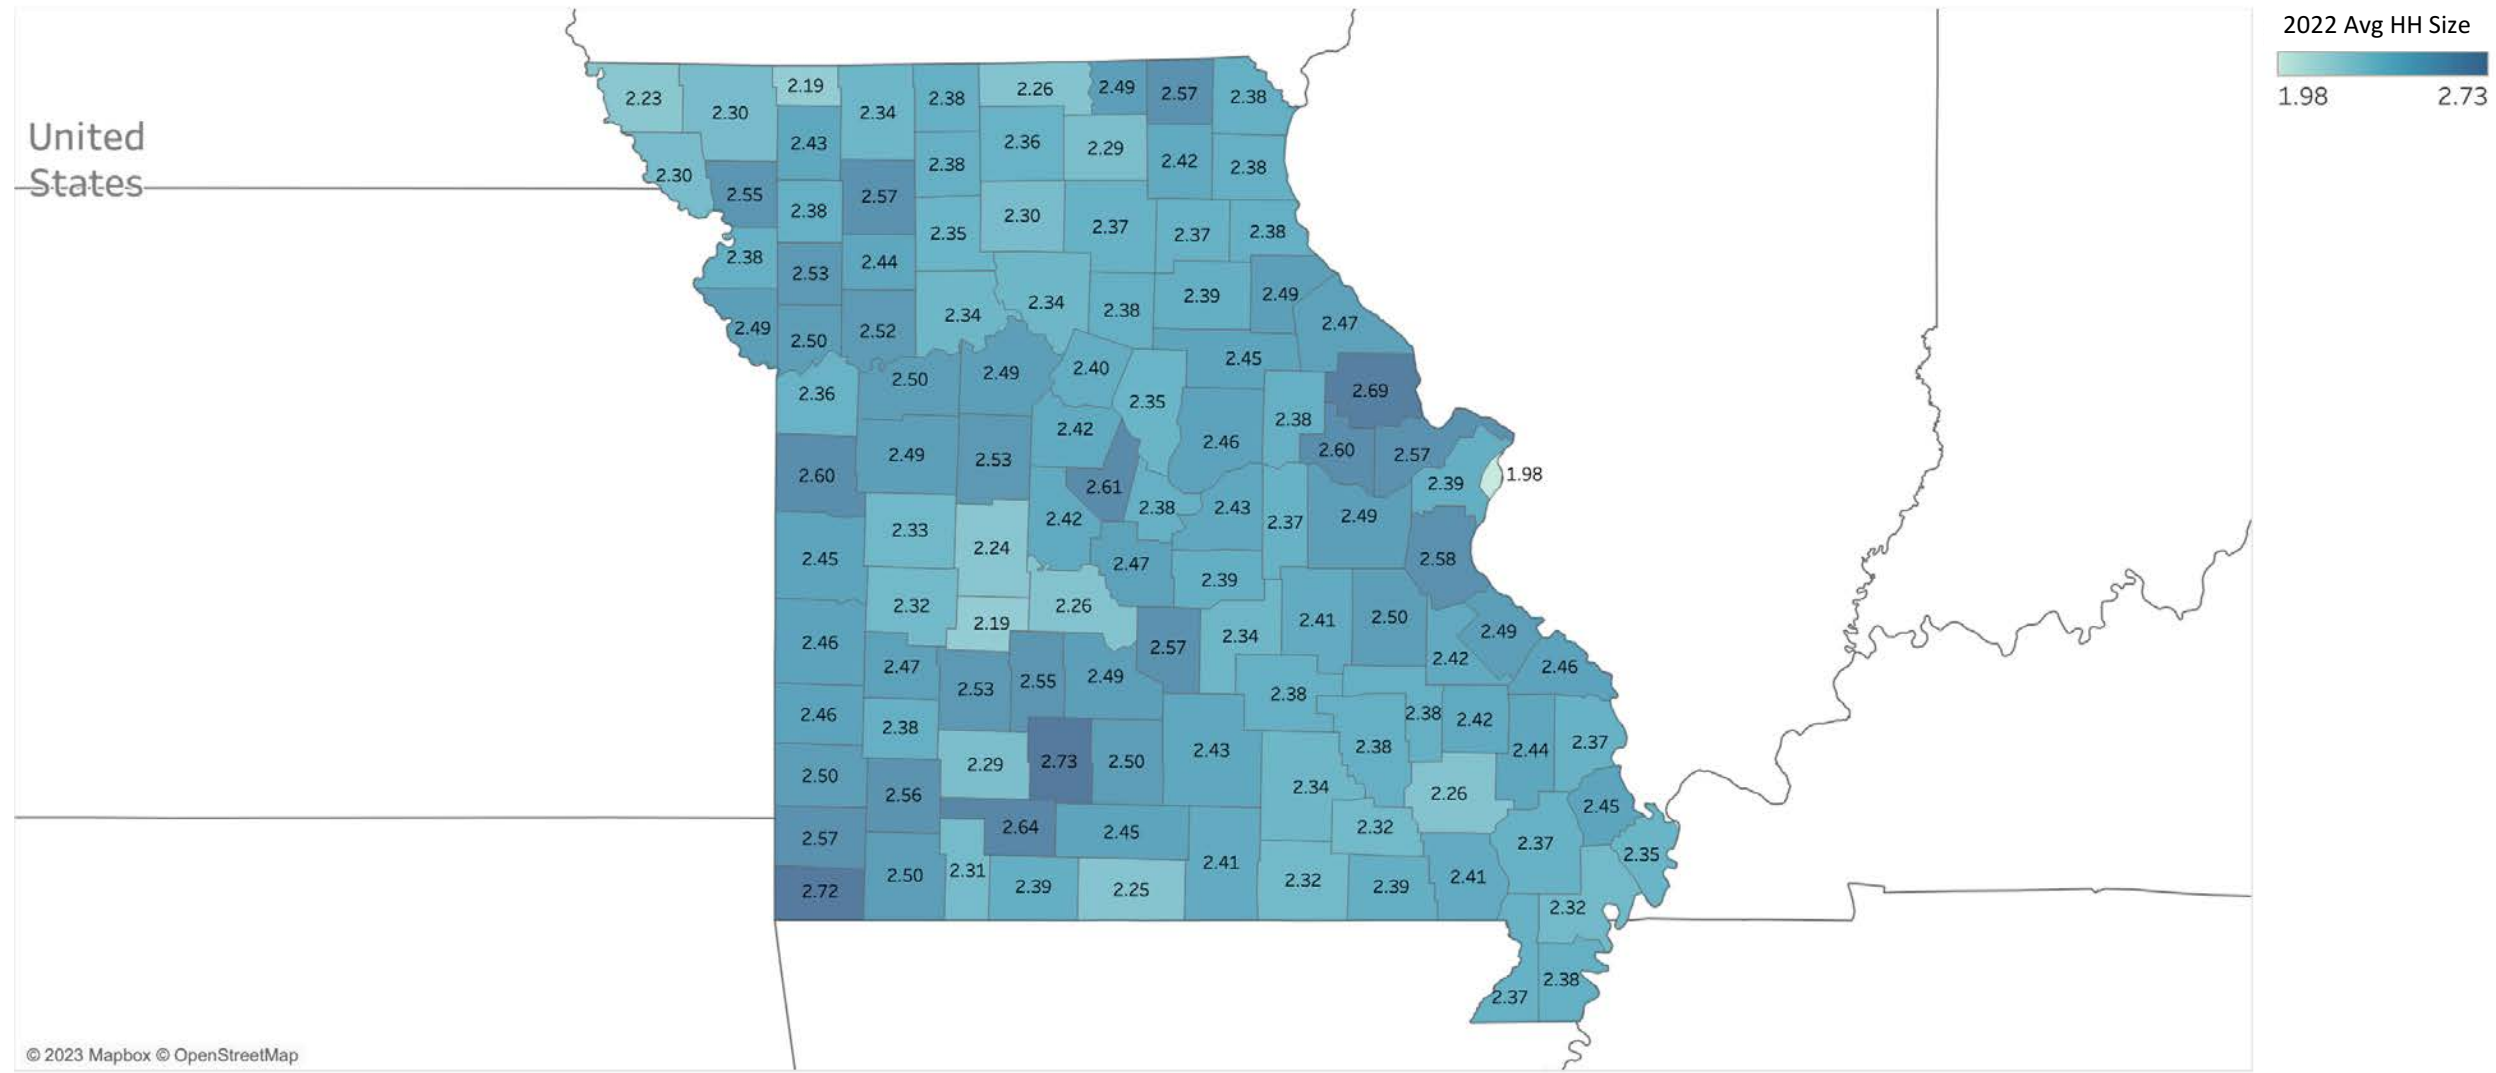

The average size of households in Missouri has remained relatively stagnant since 2010.

Source: ESRI

The largest average household sizes are in the Ozark region, primarily in Webster (2.73) and McDonald (2.72) counties. The smallest average household size is in the City of St. Louis (1.98).

Source: ESRI

© 2023 Mapbox © OpenStreetMap

All levels of urbanization have and are expected to continue to experience slight declines in average household size, with Large Central Metros – Kansas City and the City of St. Louis – experiencing the steepest decline (-0.12 between 2010 and 2027).

Source: ESRI

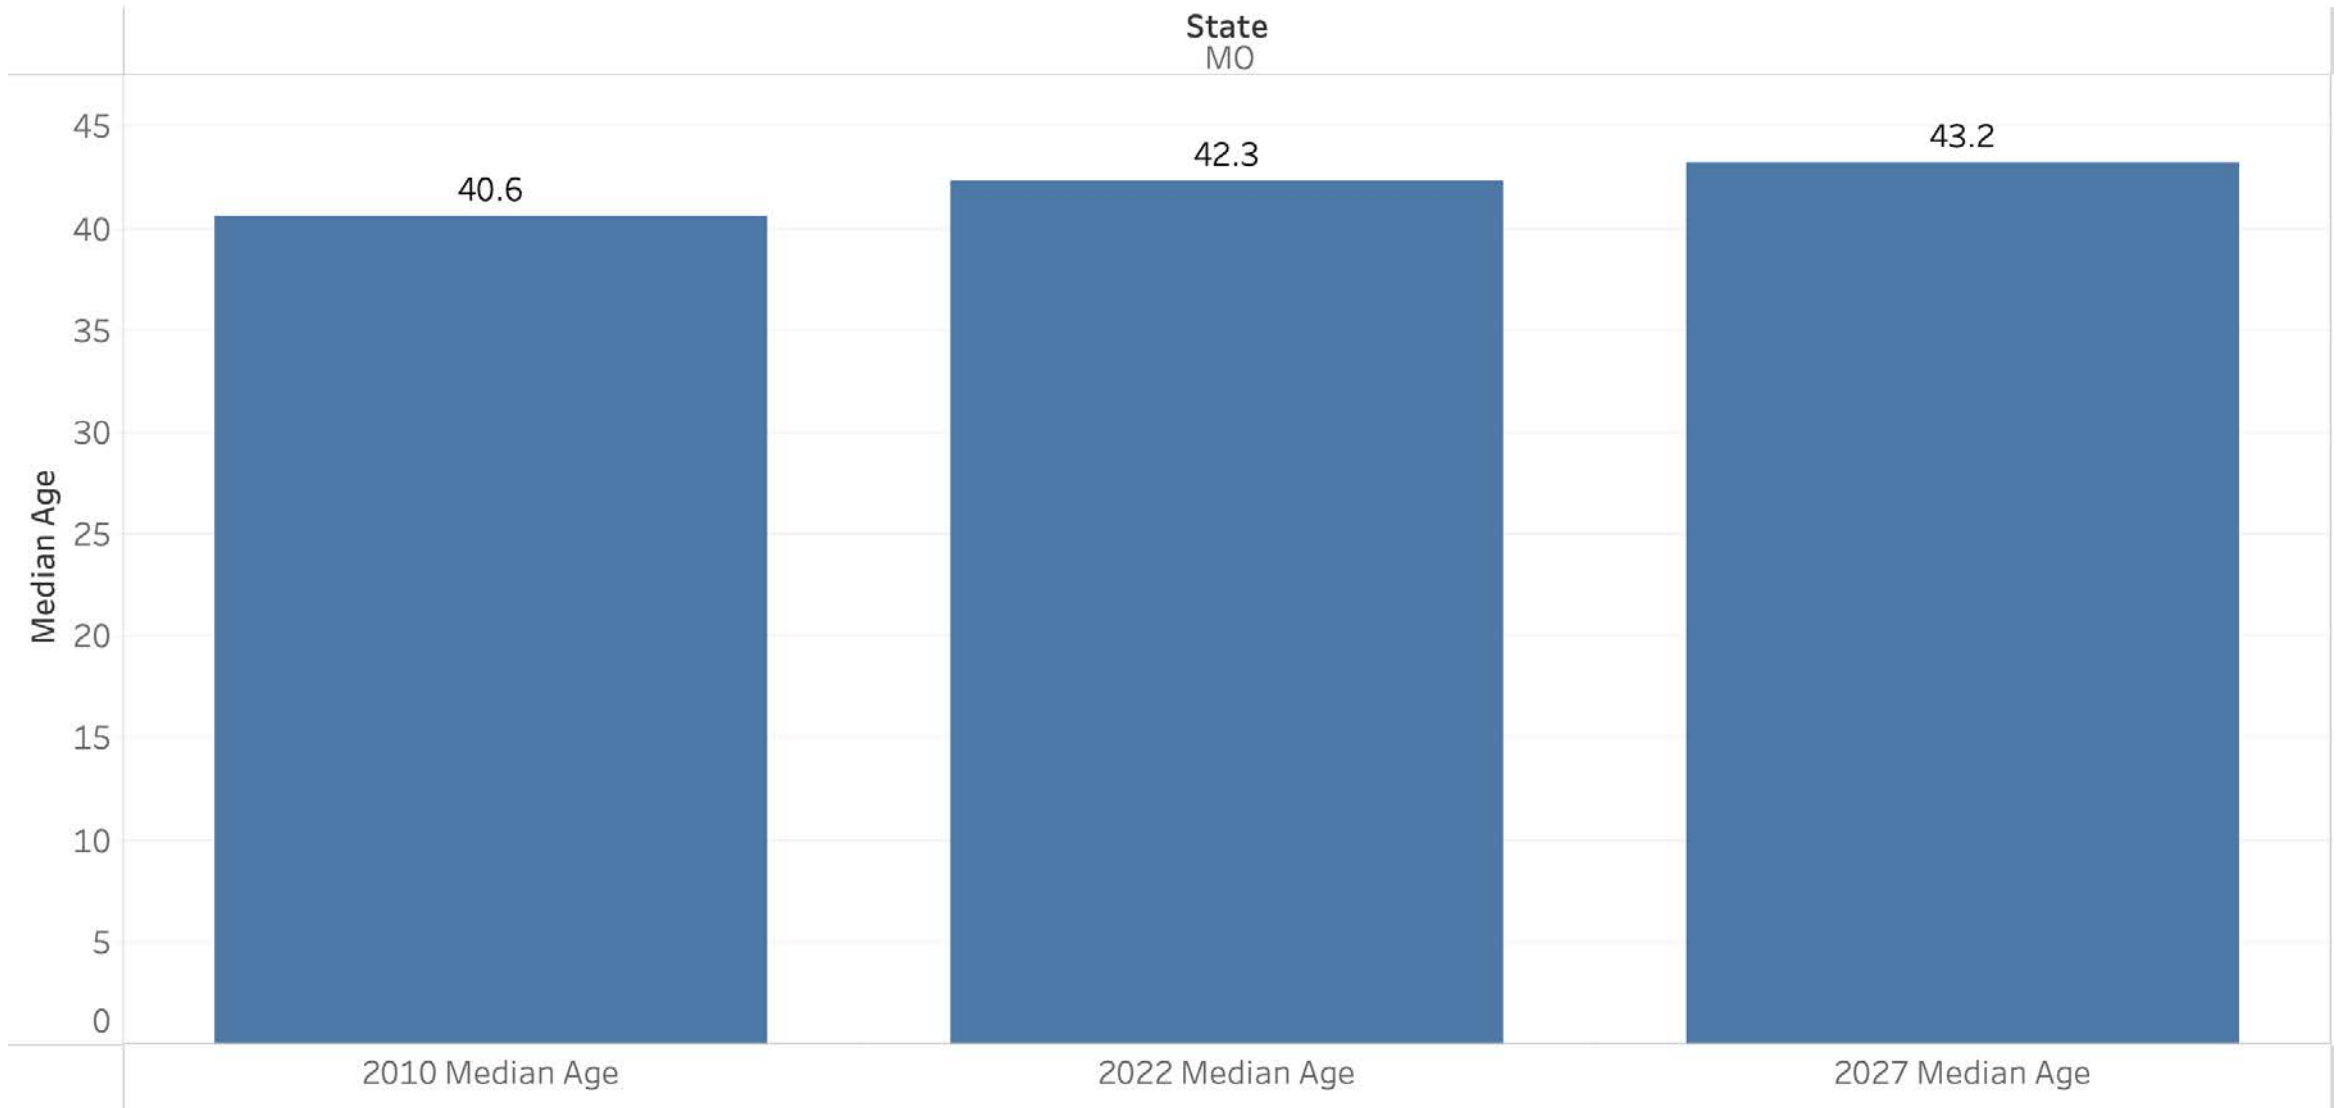

Similarly, by foundation region, each anticipate slight decreases in average household size with St. Louis experiencing the most significant decrease (-0.11 between 2010 and 2027).

Source: ESRI

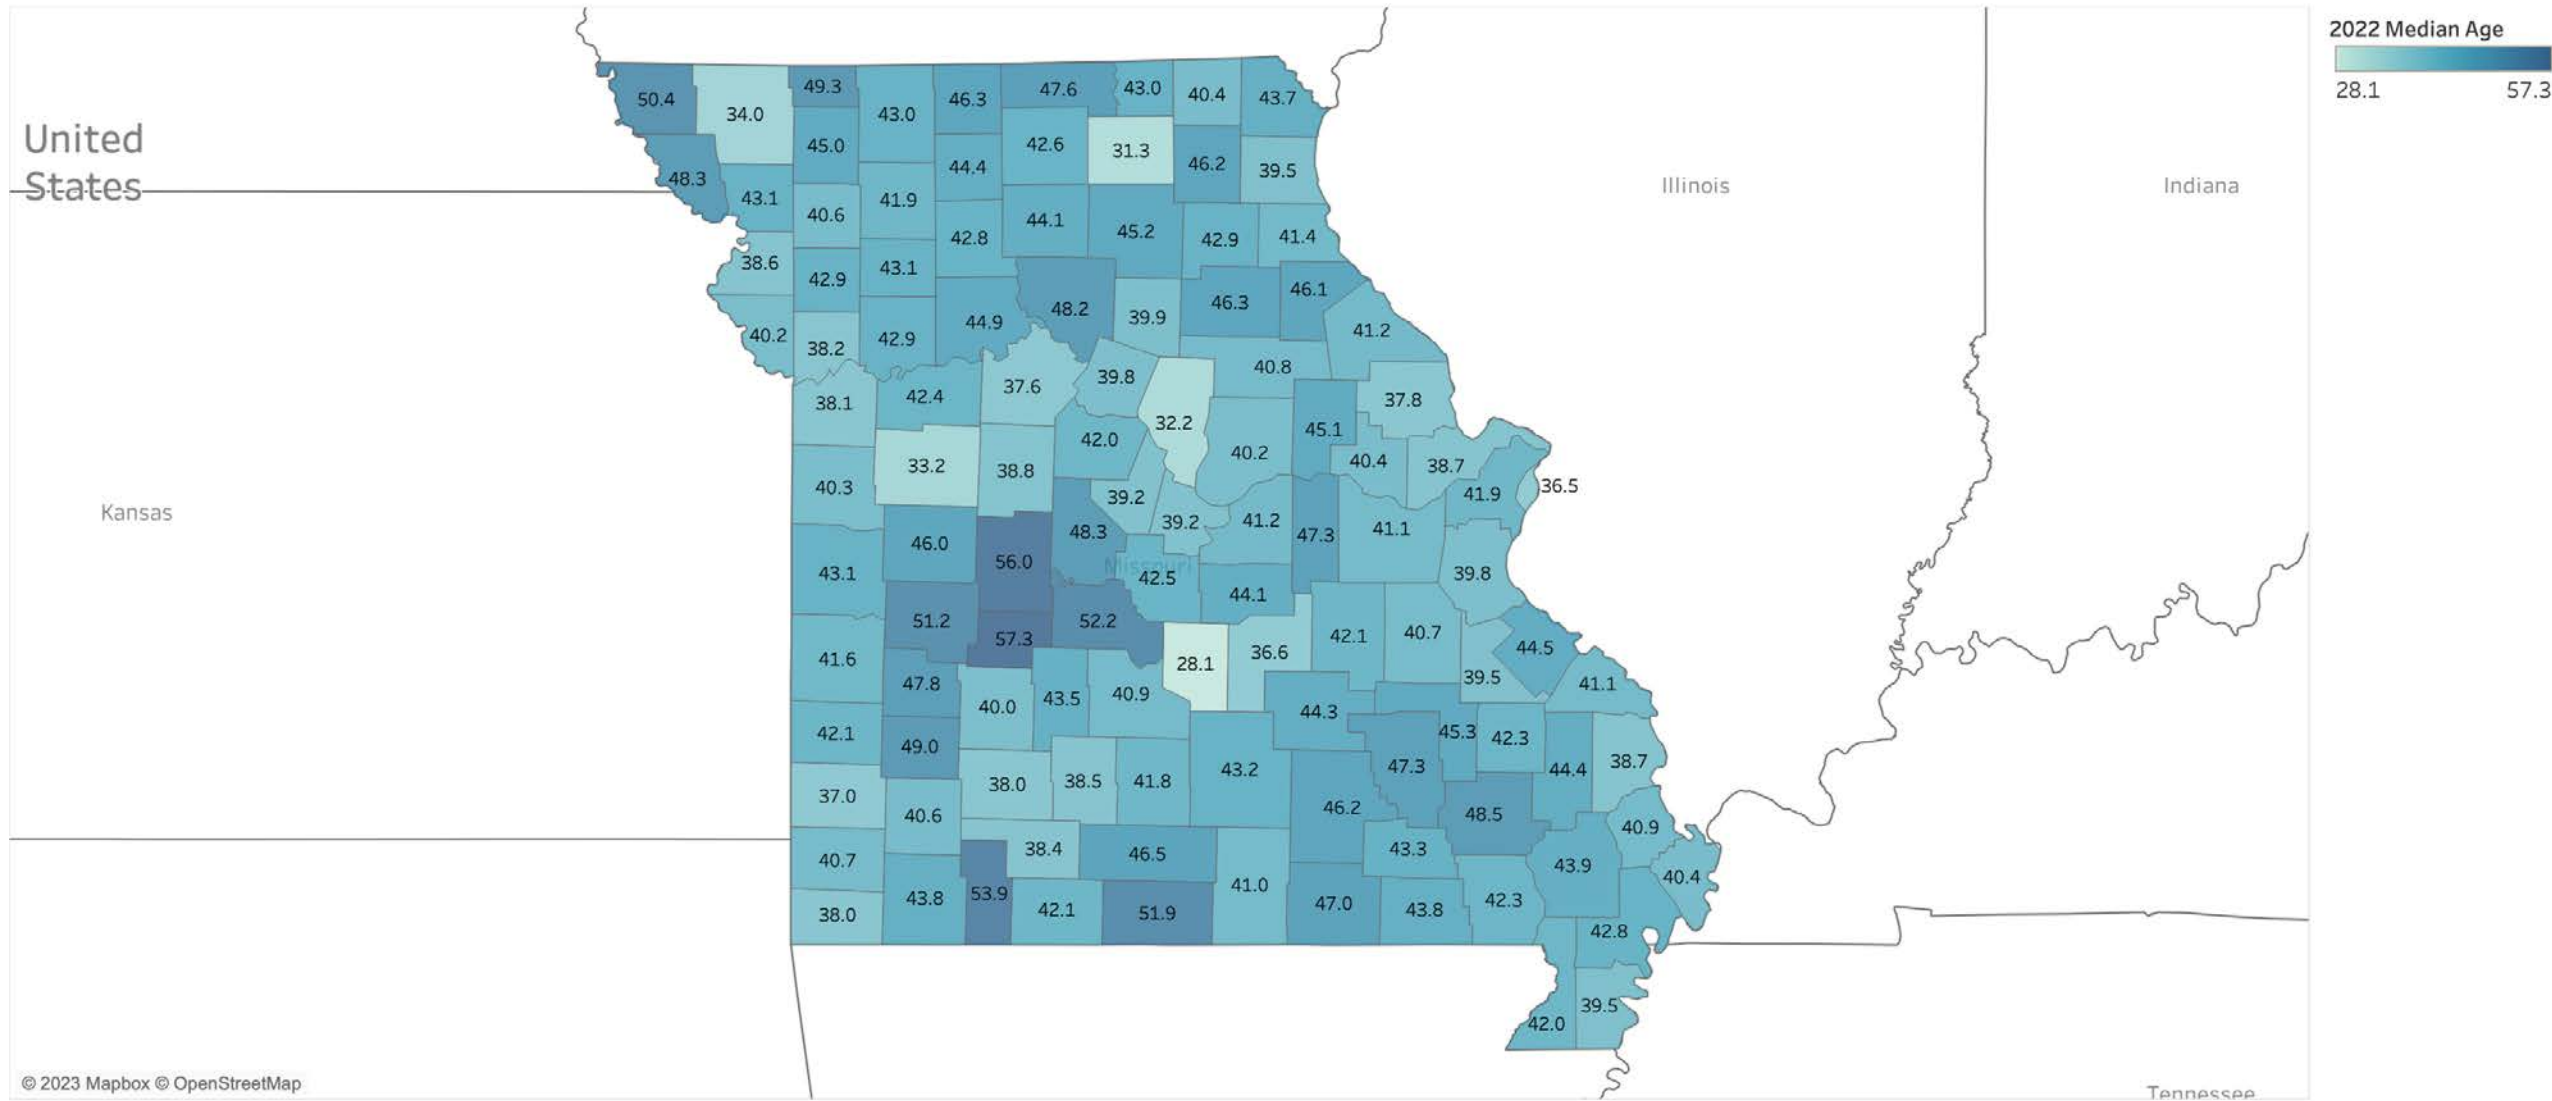

Missouri overall is getting slightly older, with the median age expected to increase by 2.6 years (8%) between 2010 and 2027.

Source: ESRI

The Ozark region is home to counties accounting for both the oldest (Hickory, 57.3) and youngest (Pulaski, 28.1) median age.

Source: ESRI

Every urbanization level has experienced and is projected to continue to experience an increase in median age, with Missouri's rural communities expected to have a Median Age over 45 years old by 2027 – over seven years older than its urban communities.

Source: ESRI

All foundation regions anticipate an increased median age.

Source: ESRI

Executive Order 23-01

WHEREAS, the State of Missouri is committed to ensuring that all citizens can age with dignity, safety, and independence;

WHEREAS, the State of Missouri intends to support all citizens as they age to ensure older adults and individuals with disabilities live as safely and independently as possible in the environment of their choice while fully participating in their community;

WHEREAS, there are **more than 1.1 million Missouri citizens over age 60**;

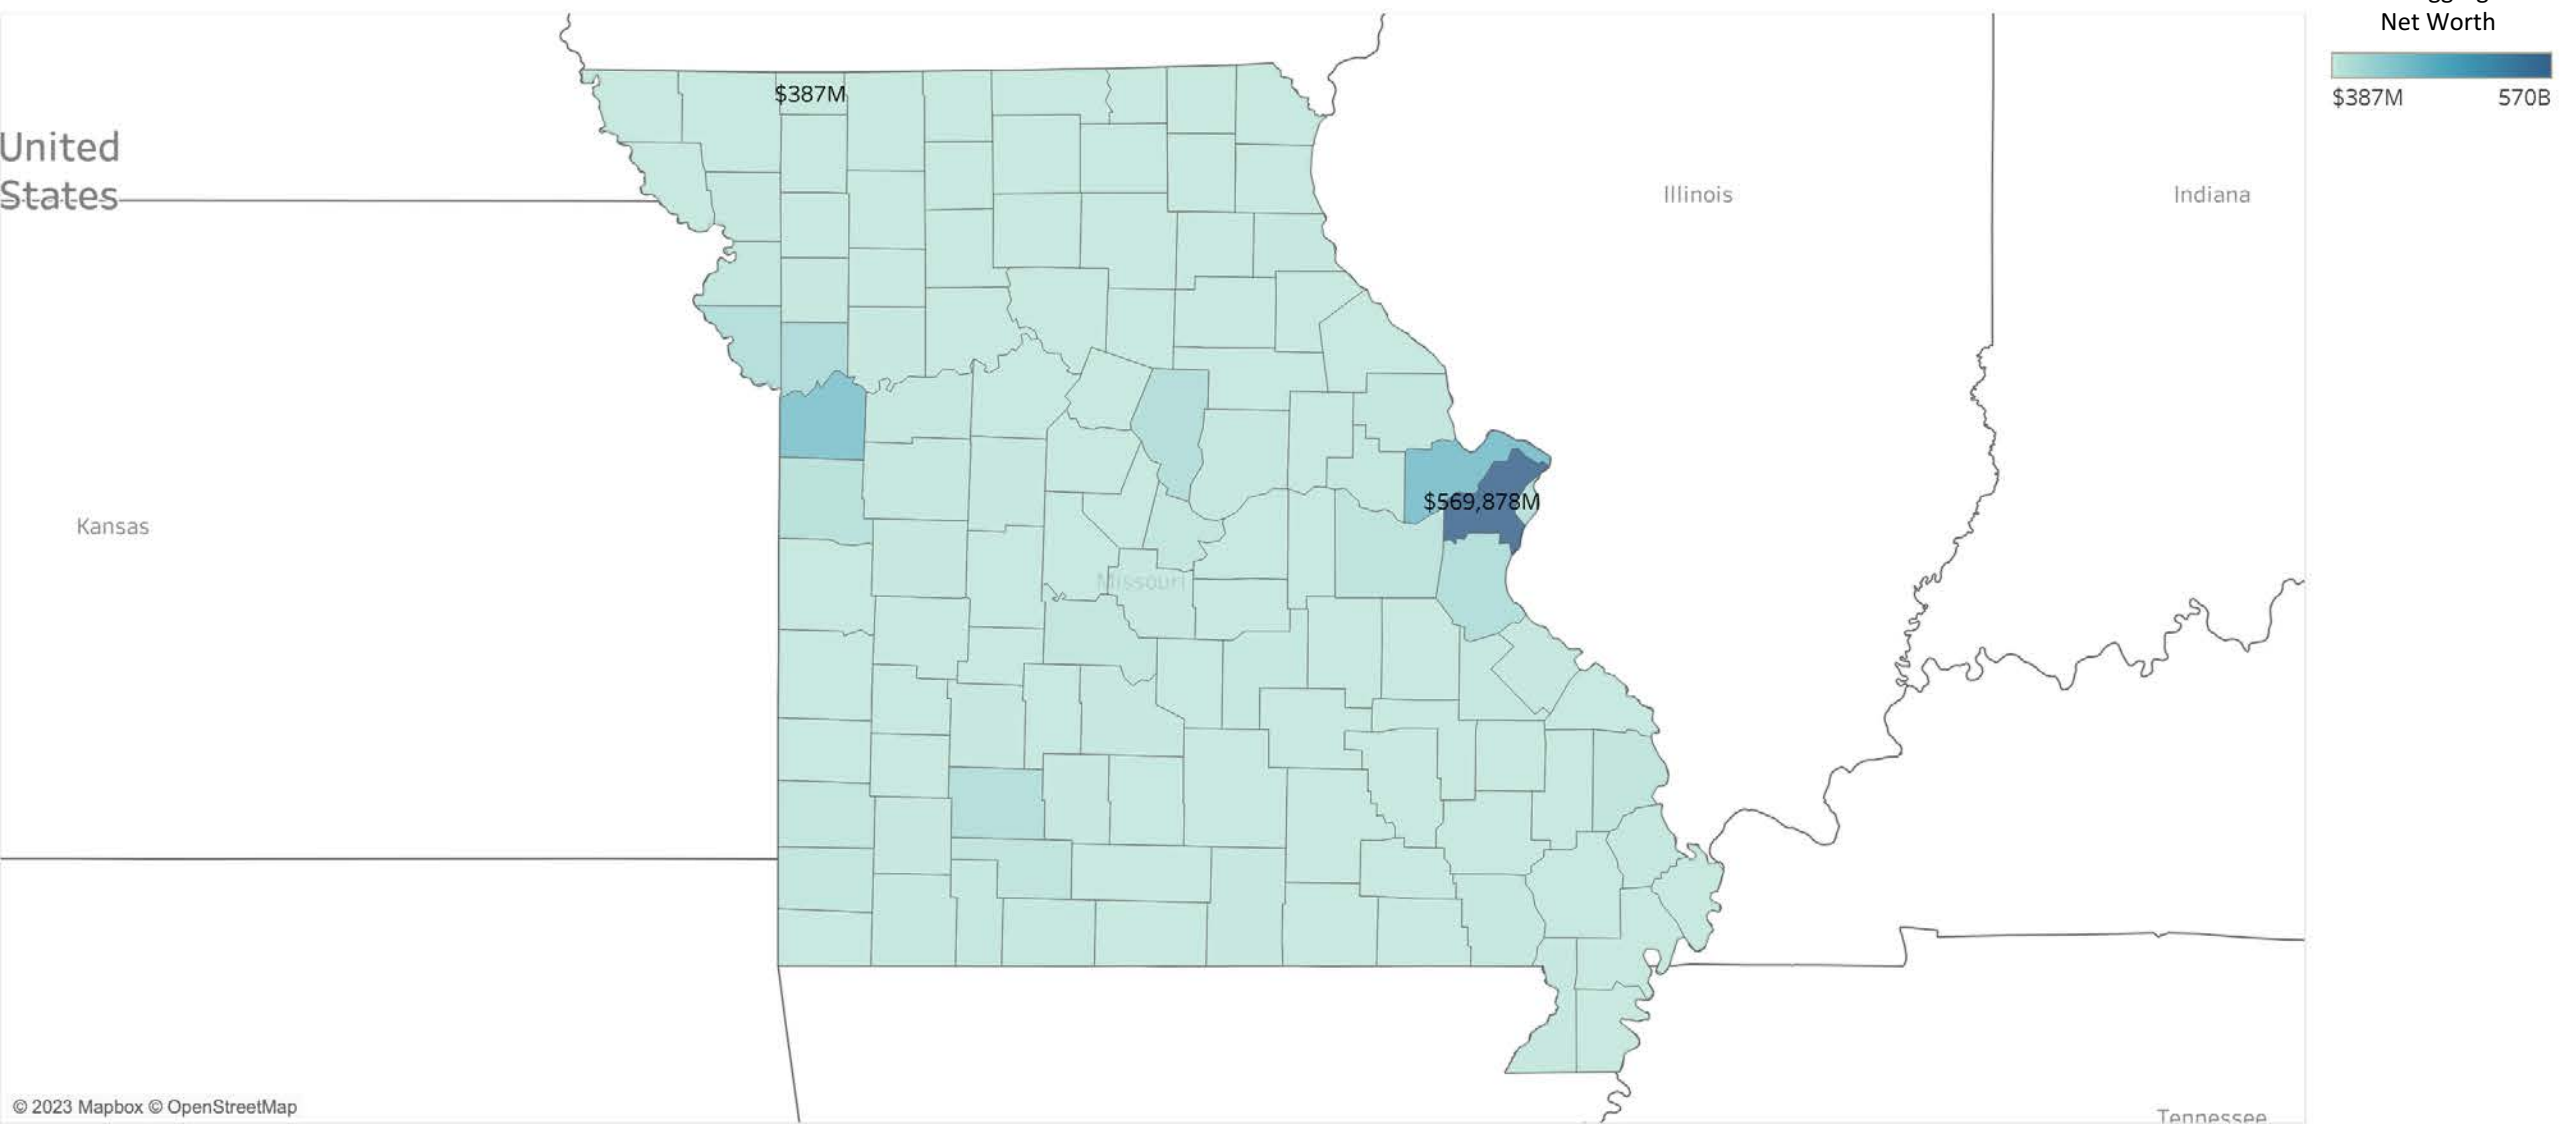

WHEREAS, the older adult population represents an increasingly diverse and rapidly growing group due to increased longevity;

WHEREAS, estimates suggest that **older adults will outnumber minors for the first time by 2030, and older adults will greatly outnumber minors by 2060...**

[Missourians Aging with Dignity Initiative](#) announced by Governor Parson, January 19, 2023

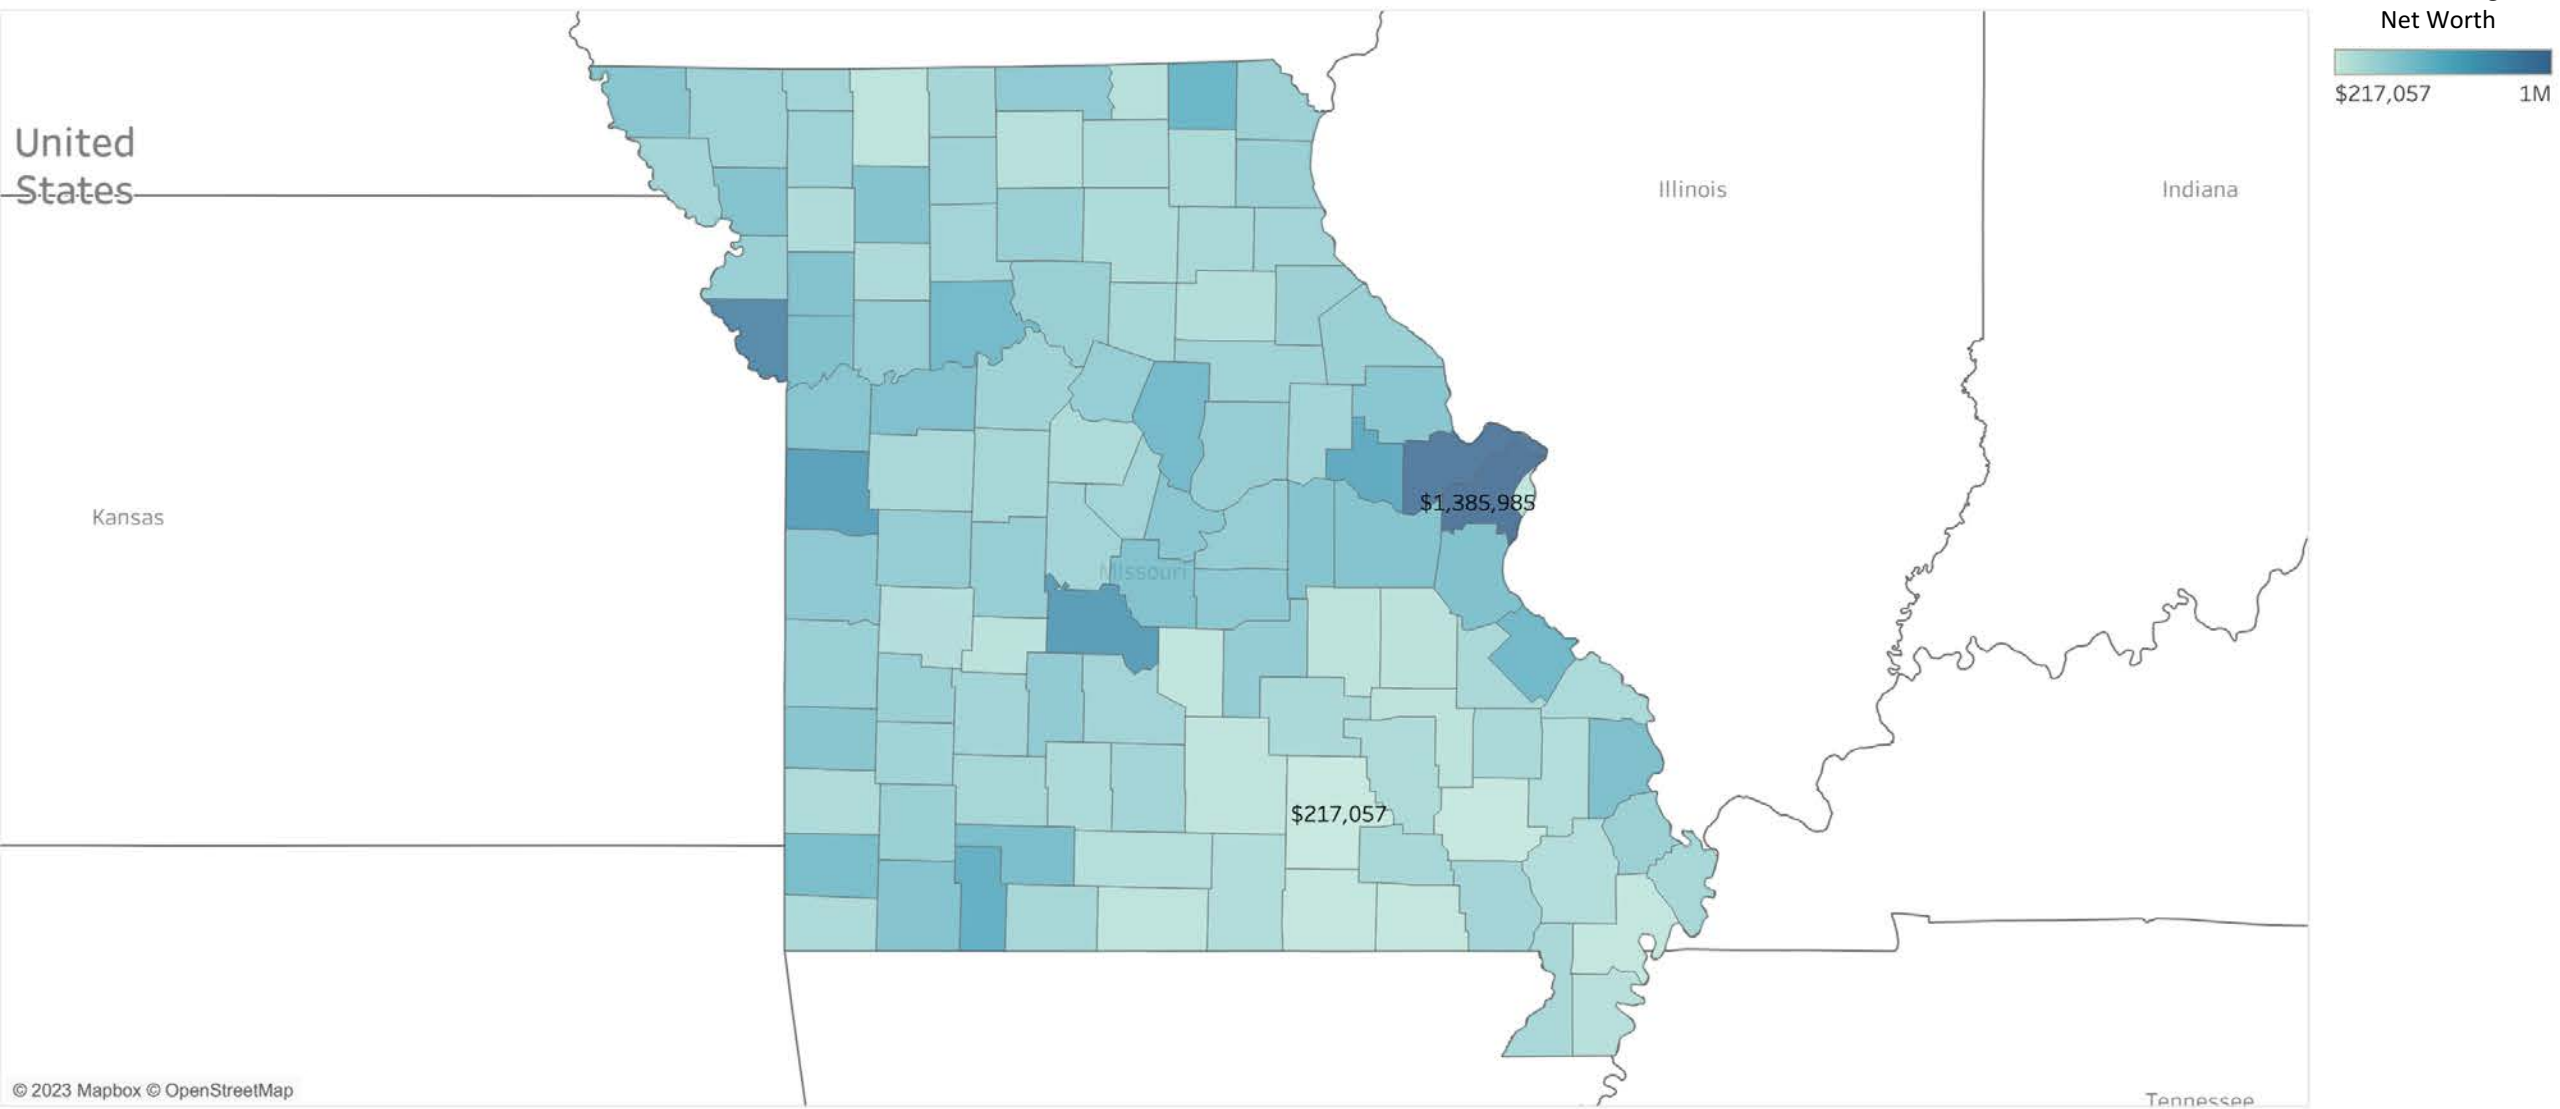

Total net worth by county ranges from \$386.6 Million (Worth) to nearly \$570 Billion (St. Louis County).

Source: ESRI

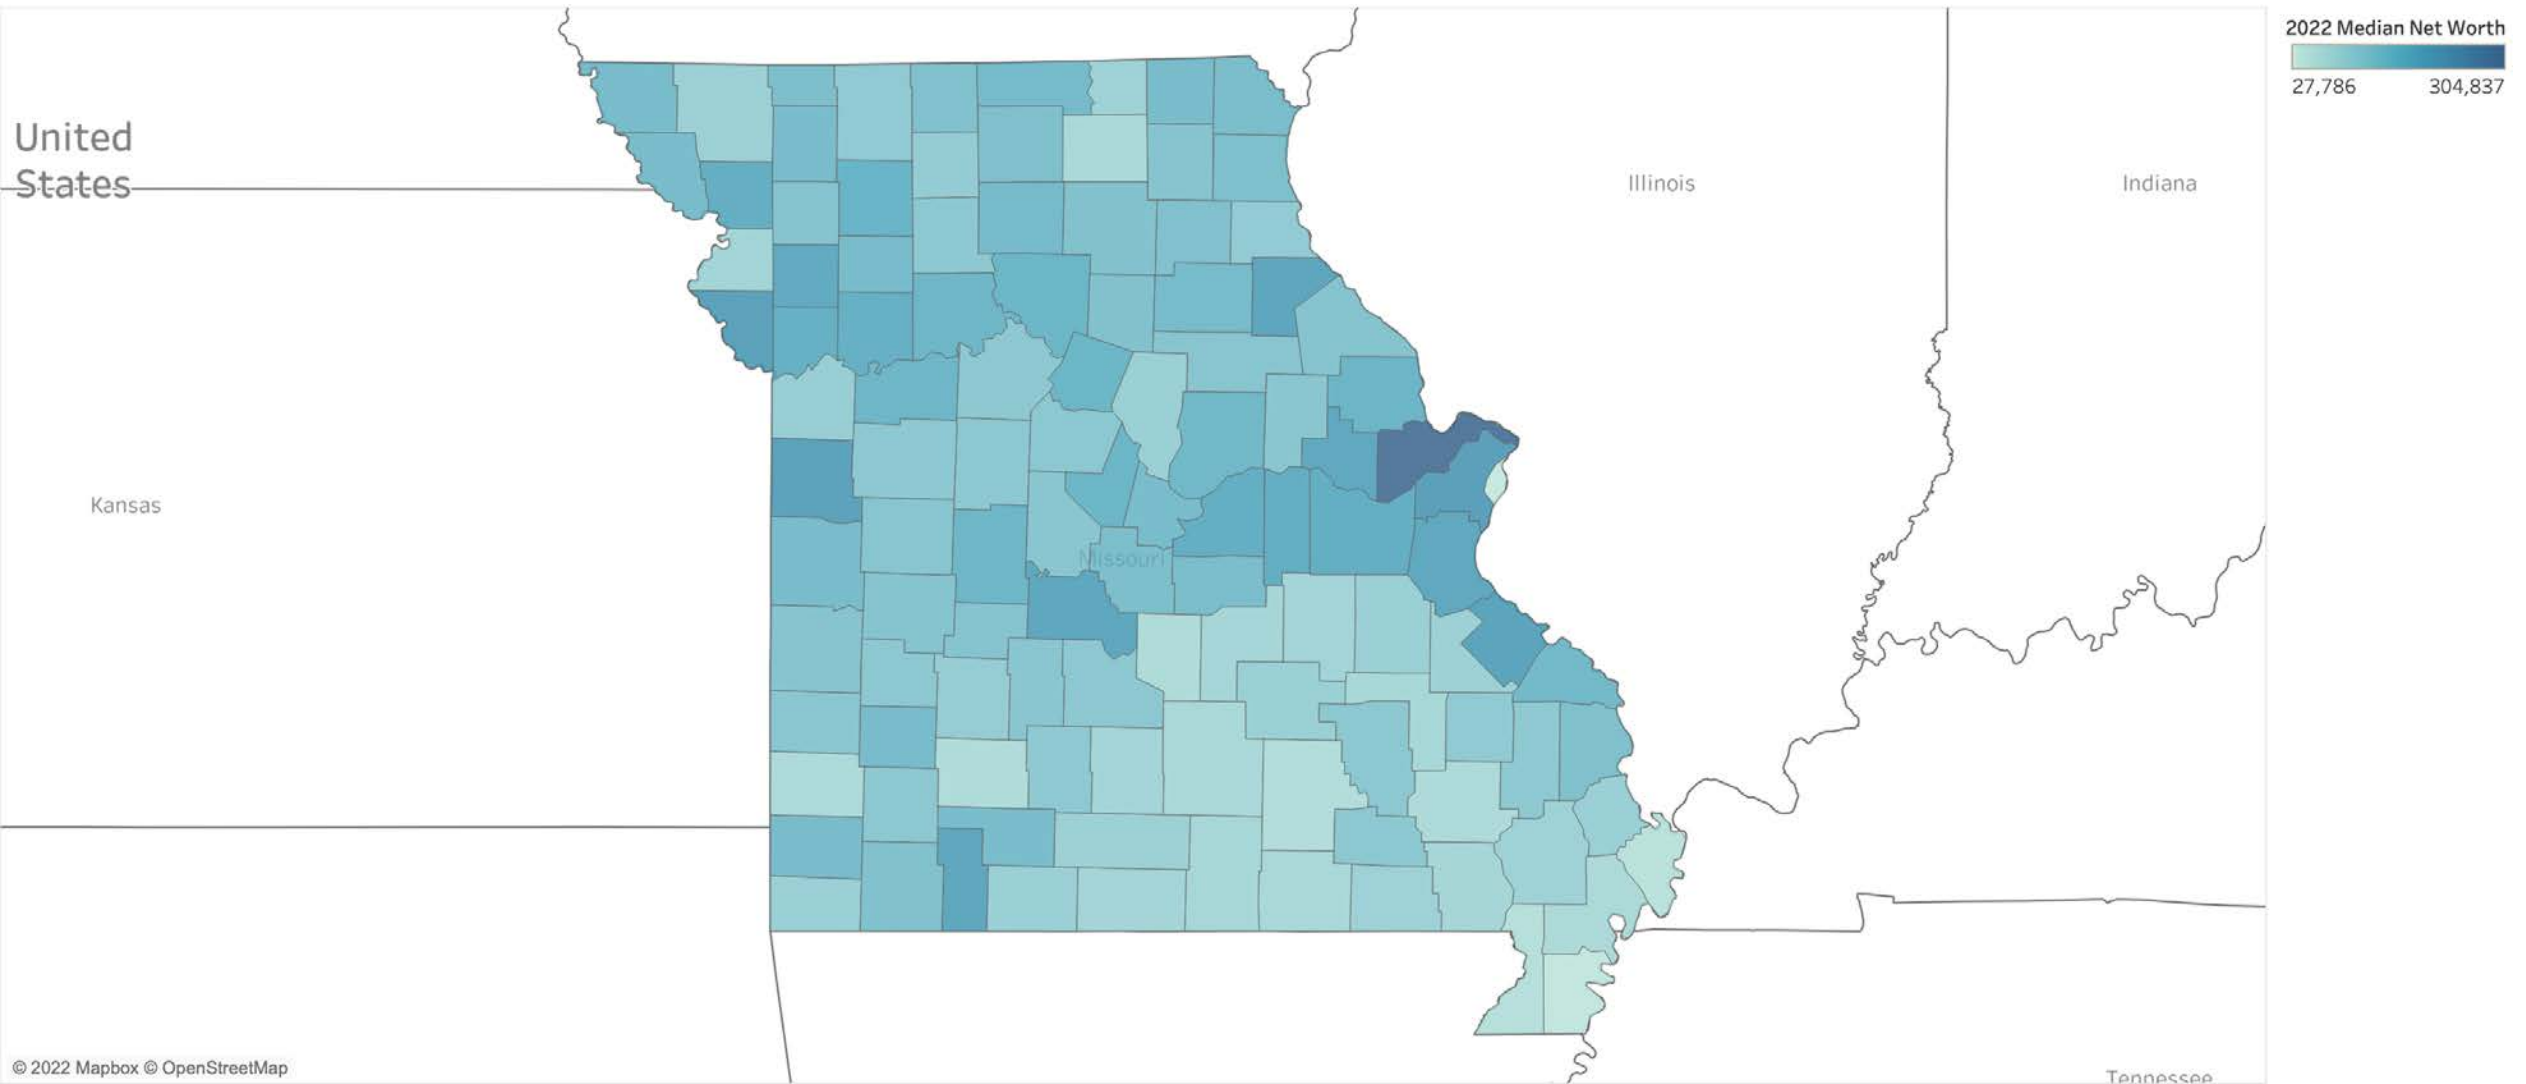

Average net worth by county is much more nuanced, ranging from \$217,057 (Shannon County) to \$1.4M (St. Louis County).

Source: ESRI

Median net worth is much lower than the average, ranging from \$27,786 in the City of St. Louis to over \$300,000 in St. Charles County, both in the St. Louis Community Foundation region.

Source: ESRI

Aggregated urbanization levels show a huge disparity in total net worth between Large Fringe Metro counties and all others.

Source: ESRI

The St. Louis region is by far the largest aggregate net worth with just over \$822 Billion, while Chariton County is just over \$1.5B.

Source: ESRI

Summary of population, households and net worth by Alliance of Missouri Community Foundation regions:

Source: ESRI

Region	2022 Total Population	2022 Total Households	2022 Aggregate Net Worth	2022 Average Net Worth	2022 Median Net Worth

Missouri

Transfer of Wealth

The current Transfer of Wealth Opportunity in Missouri is over \$114 Billion, with a ten-year projected value of \$153.38 Billion.

Capturing 5% of this transfer over the next ten years would lead to the Alliance of Missouri Community Foundations collecting \$7.67 Billion and investing over \$383 Million in Missouri communities.

Over the next 50 years these figures grow to a value of \$500 Billion and capturing \$25 Billion, while paying out \$1.25 Billion.

State	ToW Current Value	10-Year Value	10yr 5% Capture	10yr 5% Payout	50-Year Value	50yr 5% Capture	50yr 5% Payout

Central Missouri

Demographics and Net Worth

The nine counties forming the Central Missouri foundation region anticipate a population of 430,487 by 2027.

Source: ESRI

The entirety of the population increase is expected to take place in Boone County – a Small Metro by level of urbanization.

Source: ESRI

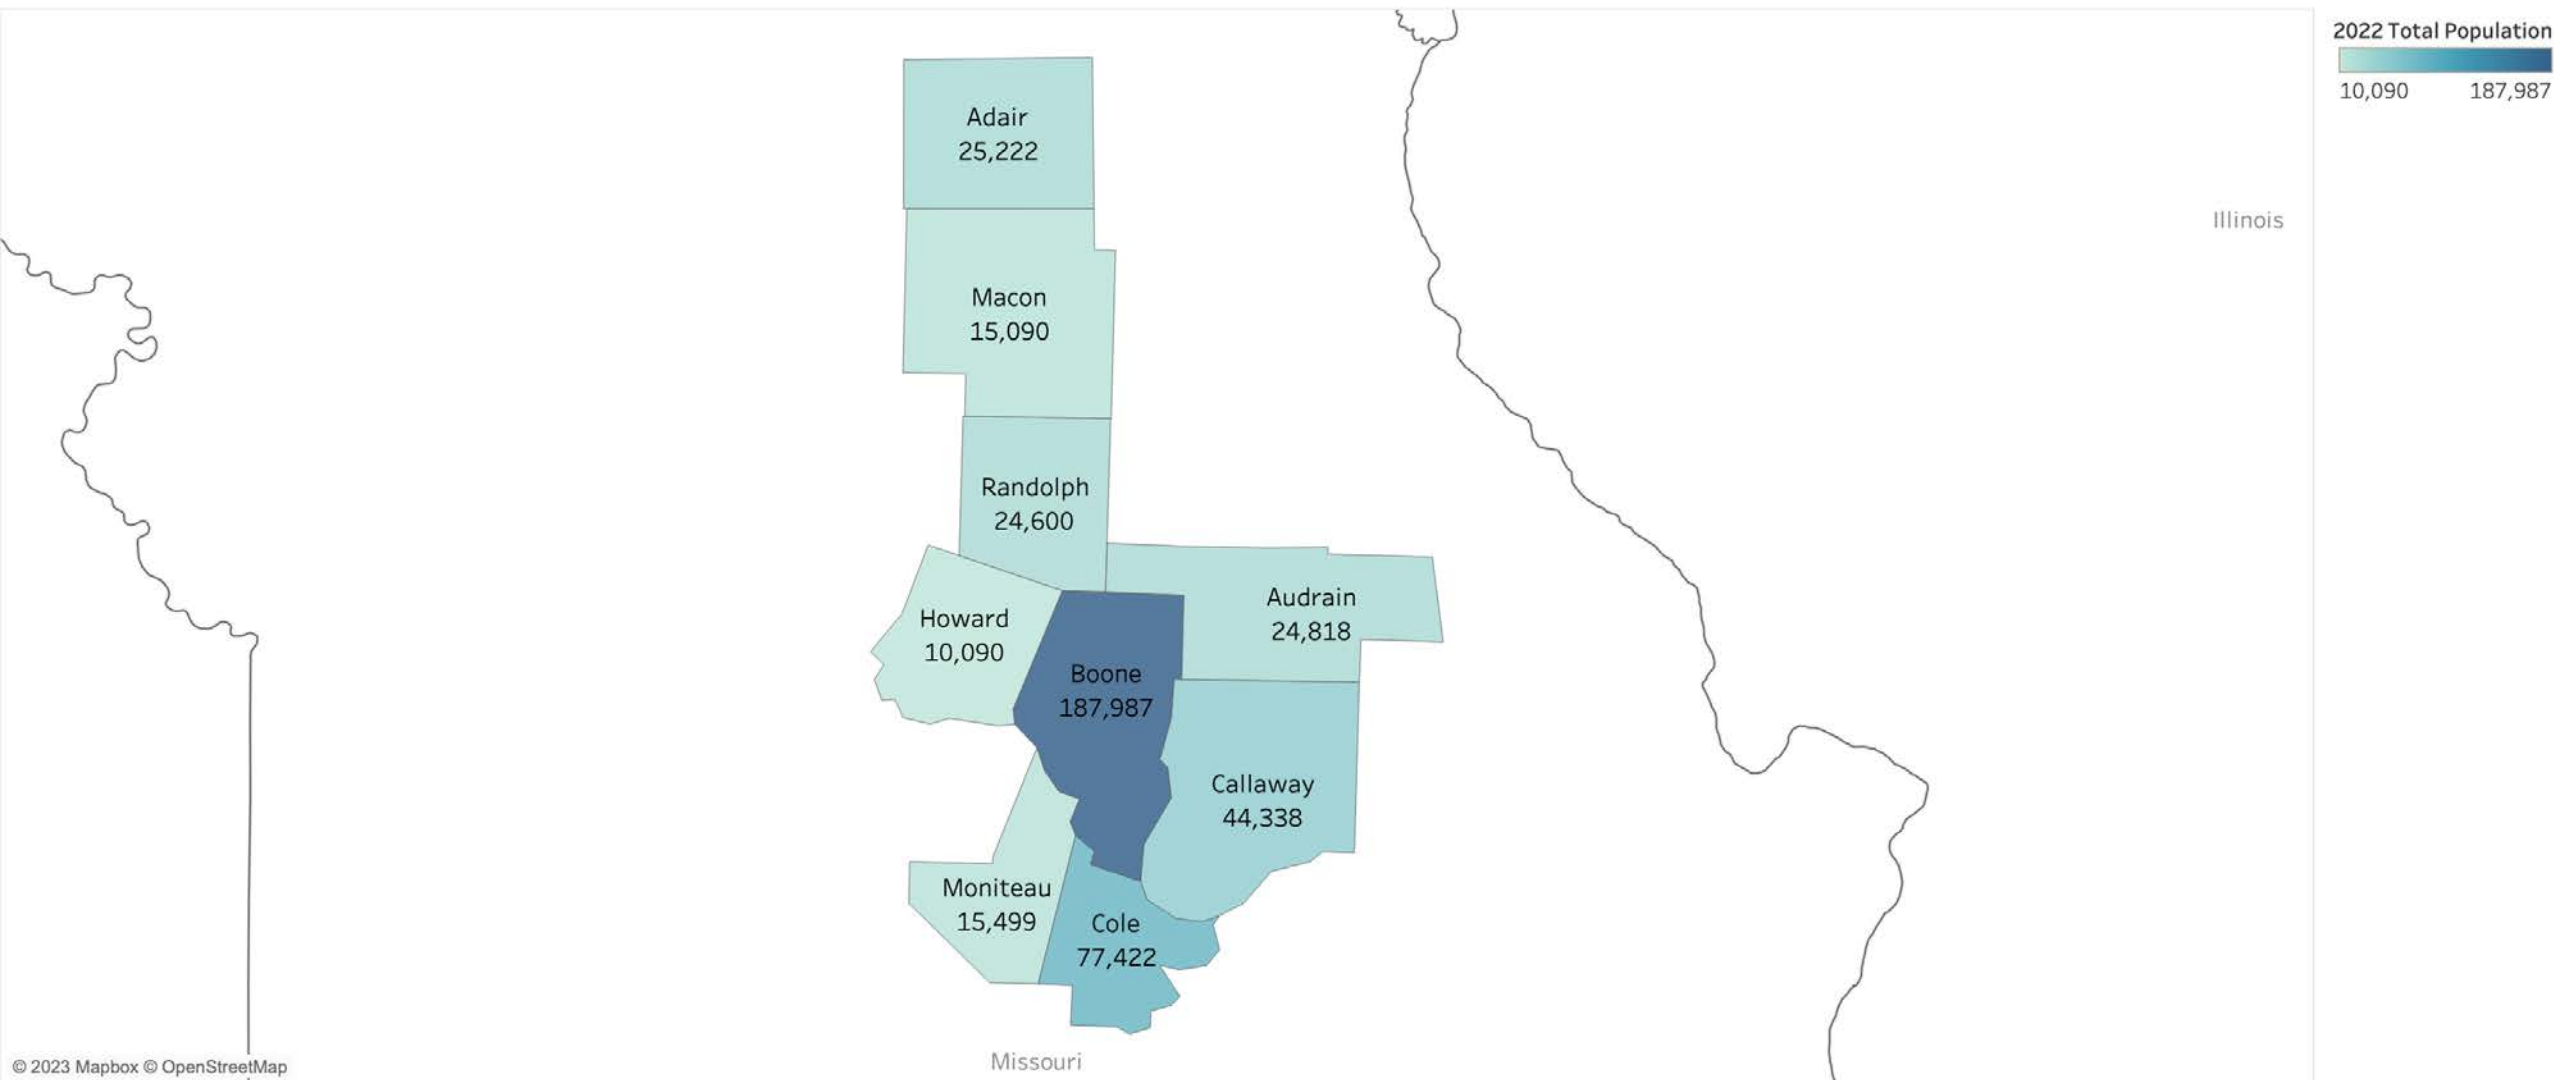

Other than Boone, Callaway and Cole counties anticipate an increase of about 1,500 residents, but all other counties in Central Missouri are likely to see population declines.

Source: ESRI

Boone County - home to the University of Missouri's flagship campus - is by far the largest of the region with nearly 188,000 residents.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

The growth in number of households is beginning to slow in Central Missouri, with only about 2,700 new households expected in the next five years.

Source: ESRI

Like population, total households are only increasing in the Small Metro level of urbanization, predominantly Boone County.

Source: ESRI

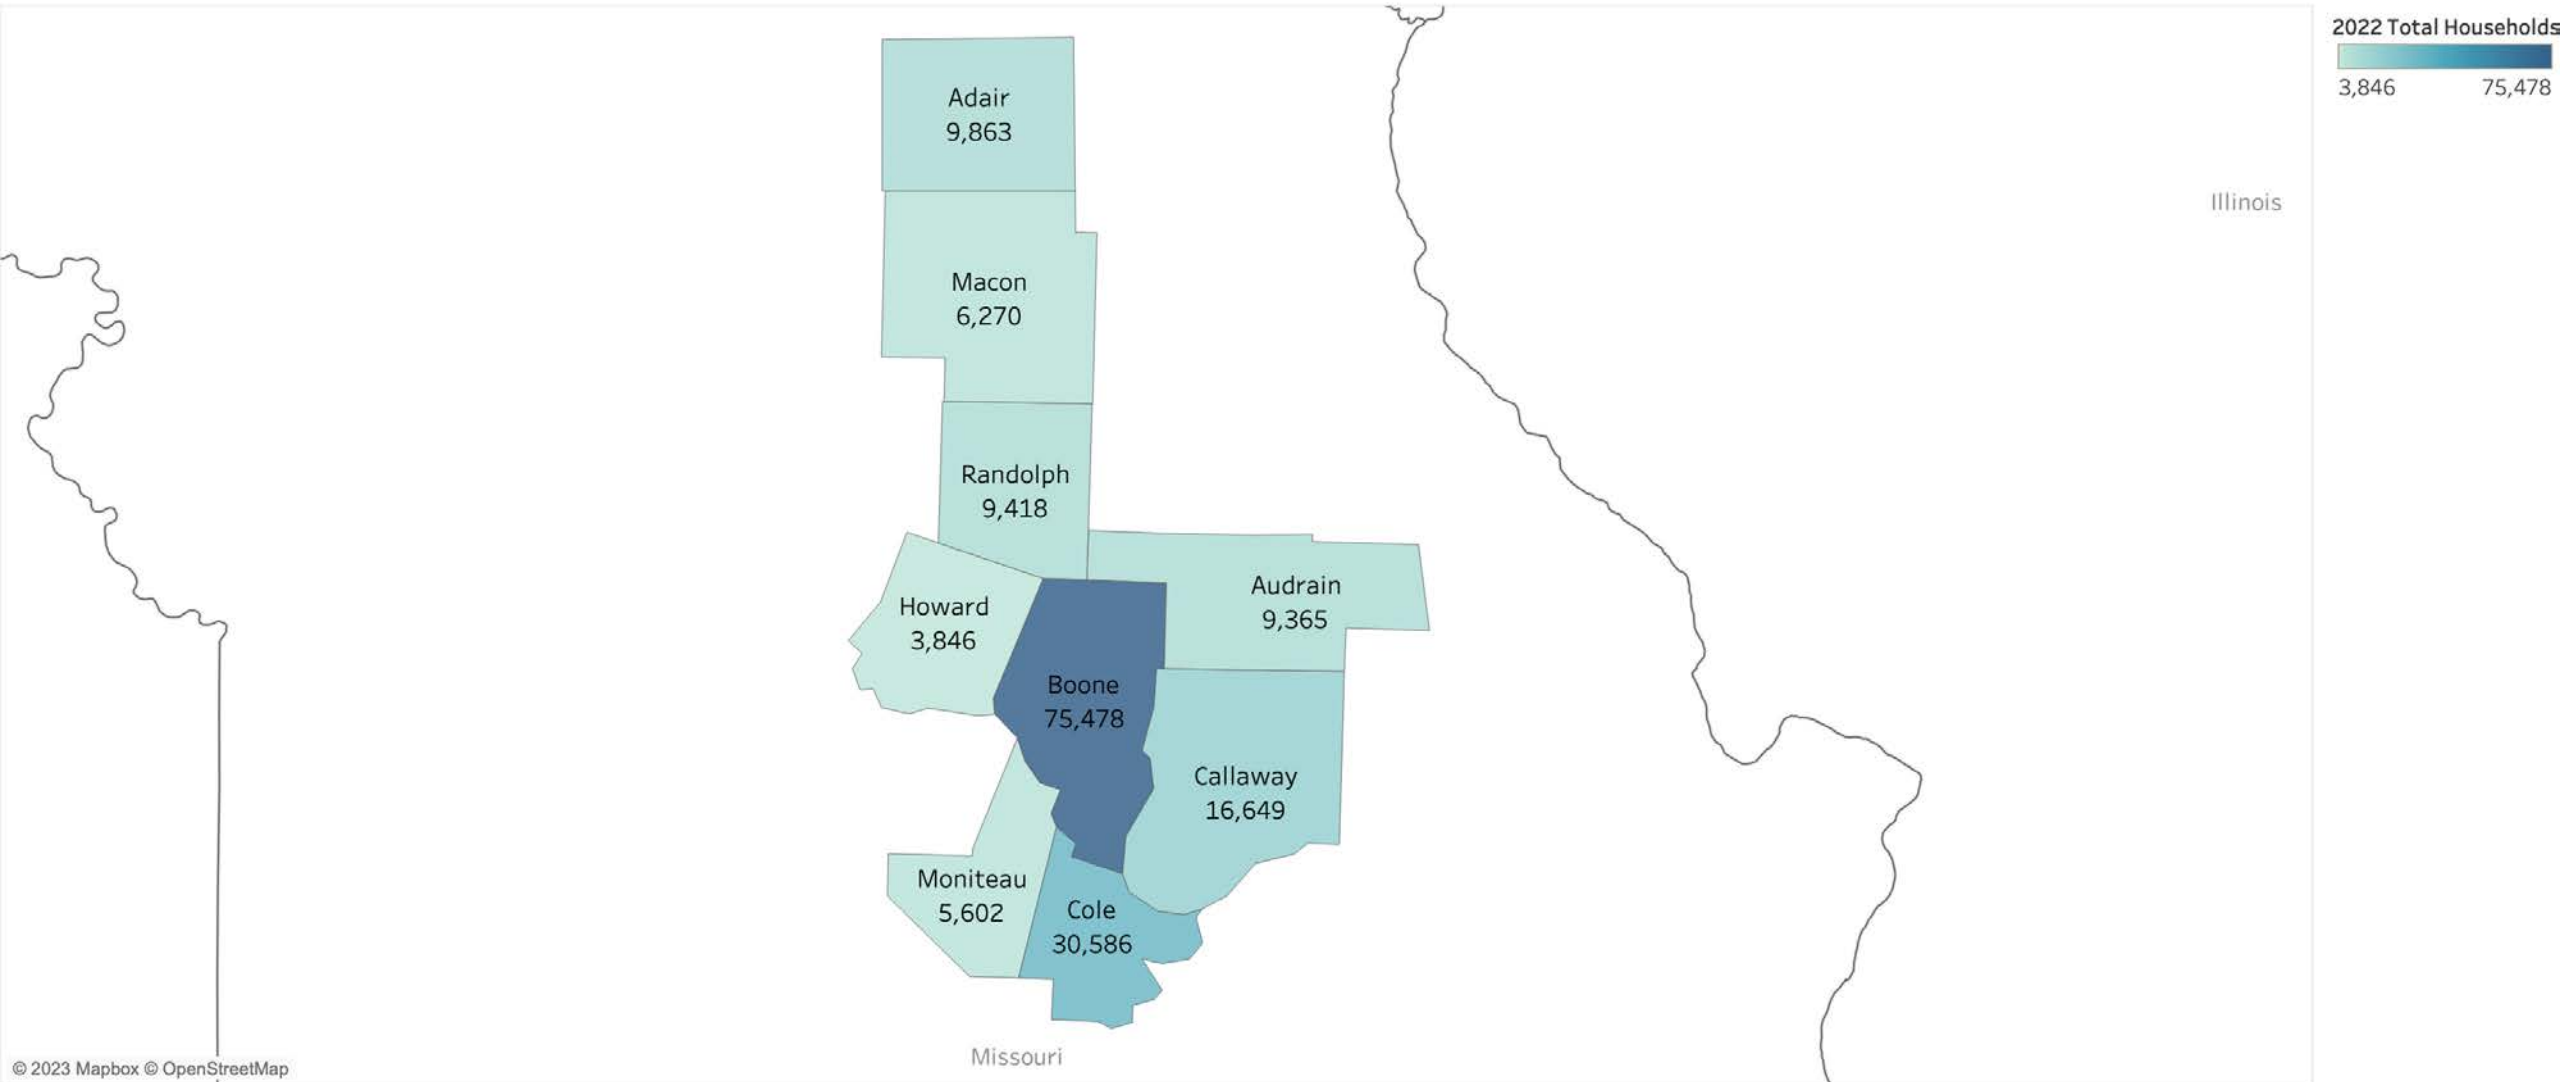

Boone County is expected to have over 78,000 households by 2027, with all other counties either stagnant or declining.

Source: ESRI

Current total households range from 3,846 in Howard County to 75,478 households in Boone County.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Average household size is remaining stagnate, with a current 2.41 persons per household on average in Central Missouri.

Source: ESRI

Each level of urbanization in Central Missouri is experiencing and is likely continue to experience declines in average household size.

Source: ESRI

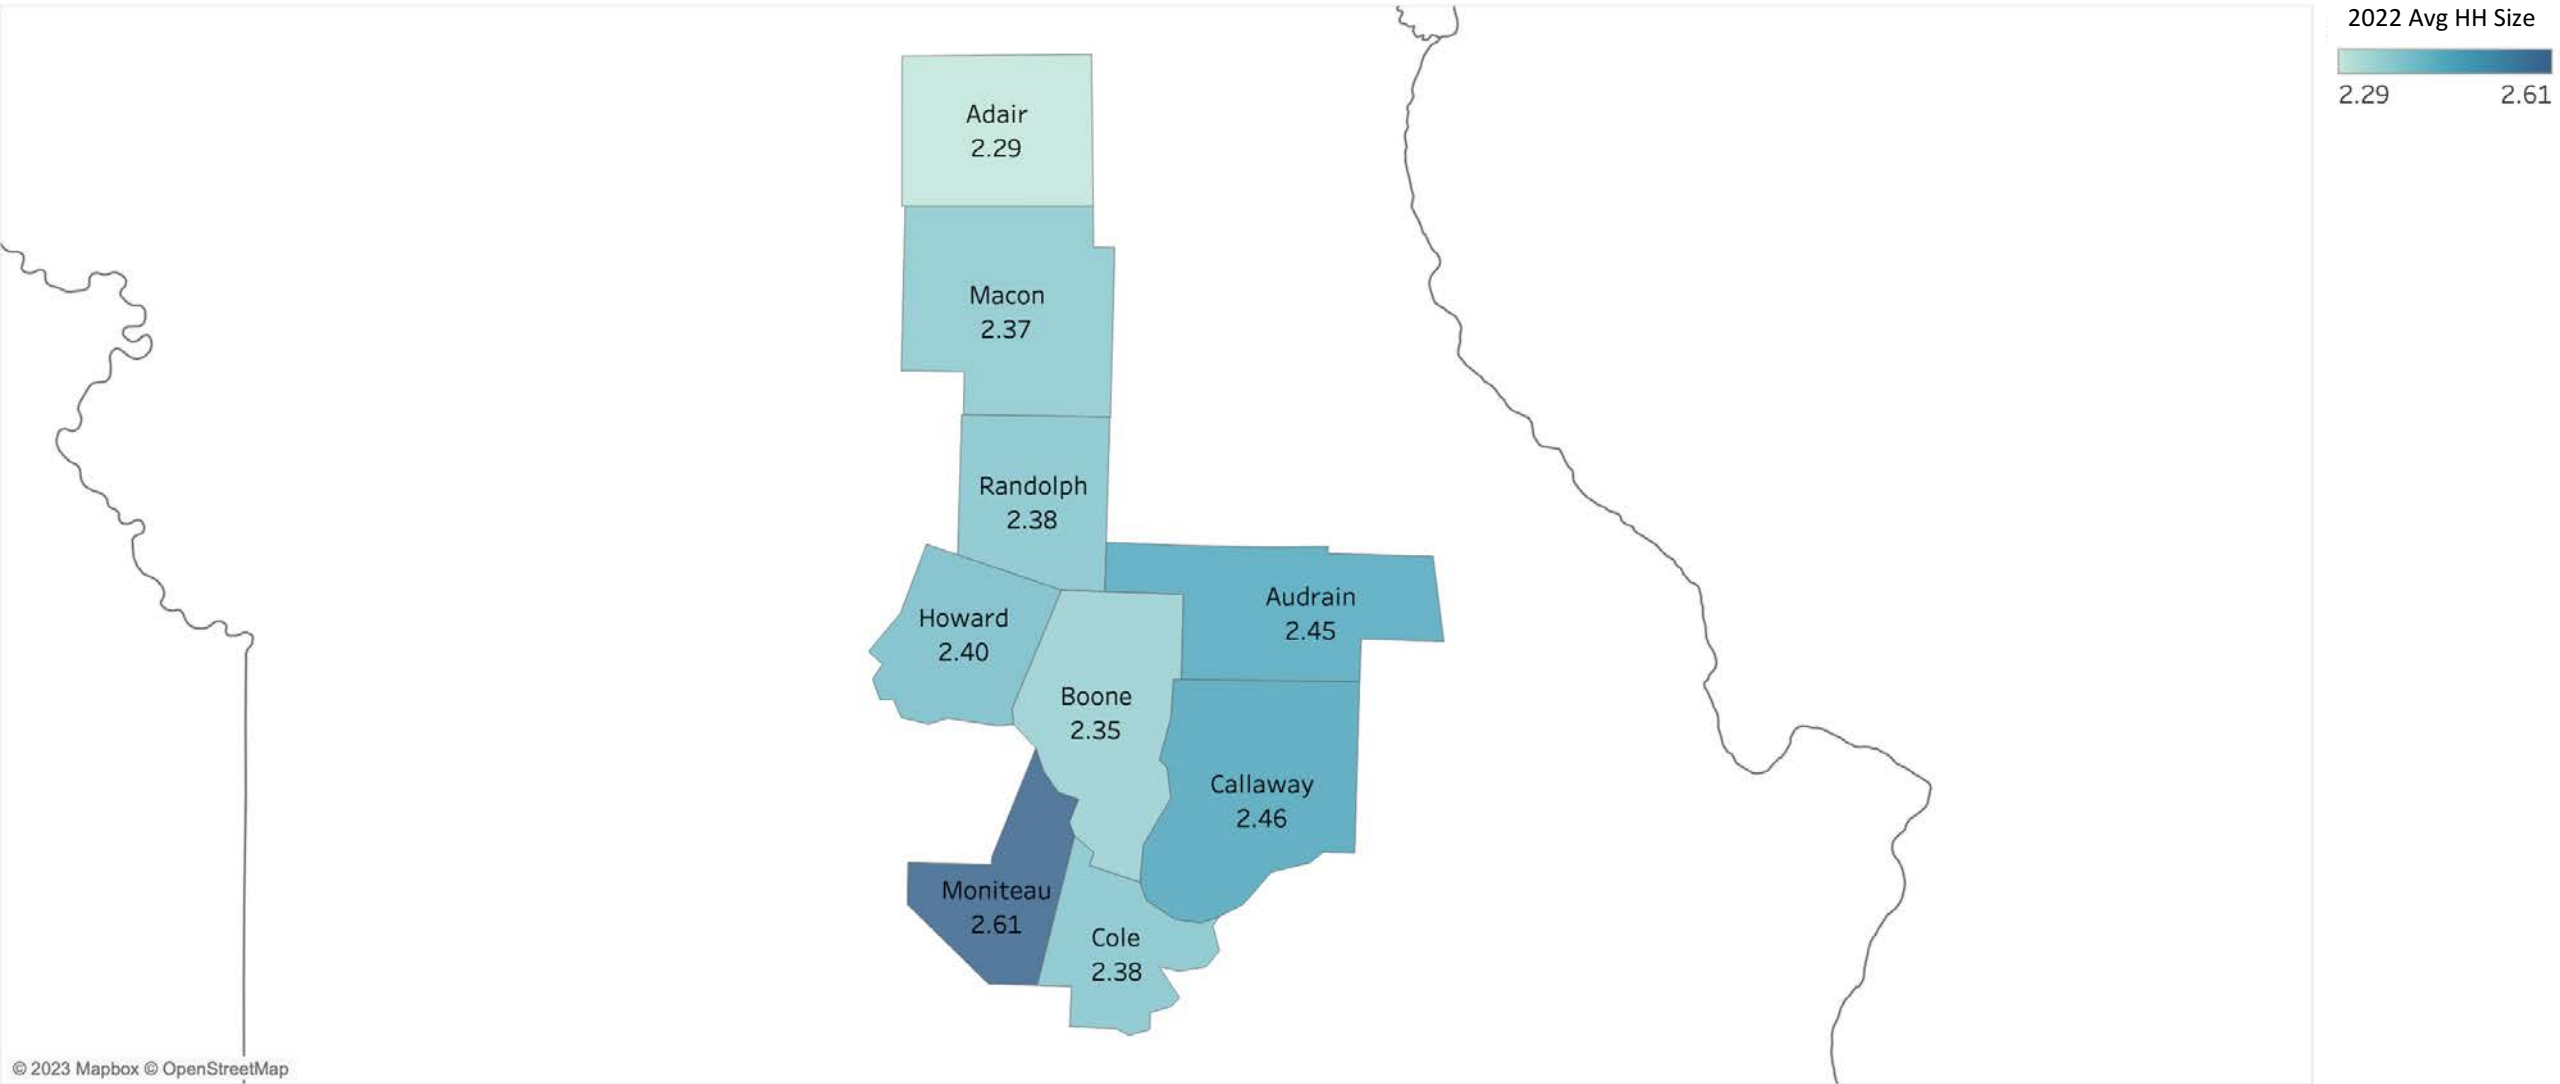

By county in Central Missouri, average household size have remained steady of the past decade and won't change much in the next five years.

Source: ESRI

In terms of average household size, Moniteau (2.61) currently is the largest in Central Missouri; and the lowest is Adair (2.29).

Source: ESRI

Median Age in Central Missouri has increased two years since 2010, and expected to increase another year by 2027.

Source: ESRI

All levels of urbanization are experiencing an increase in Median Age, with Noncore (or rural) counties climbing to 46 years by 2027.

Source: ESRI

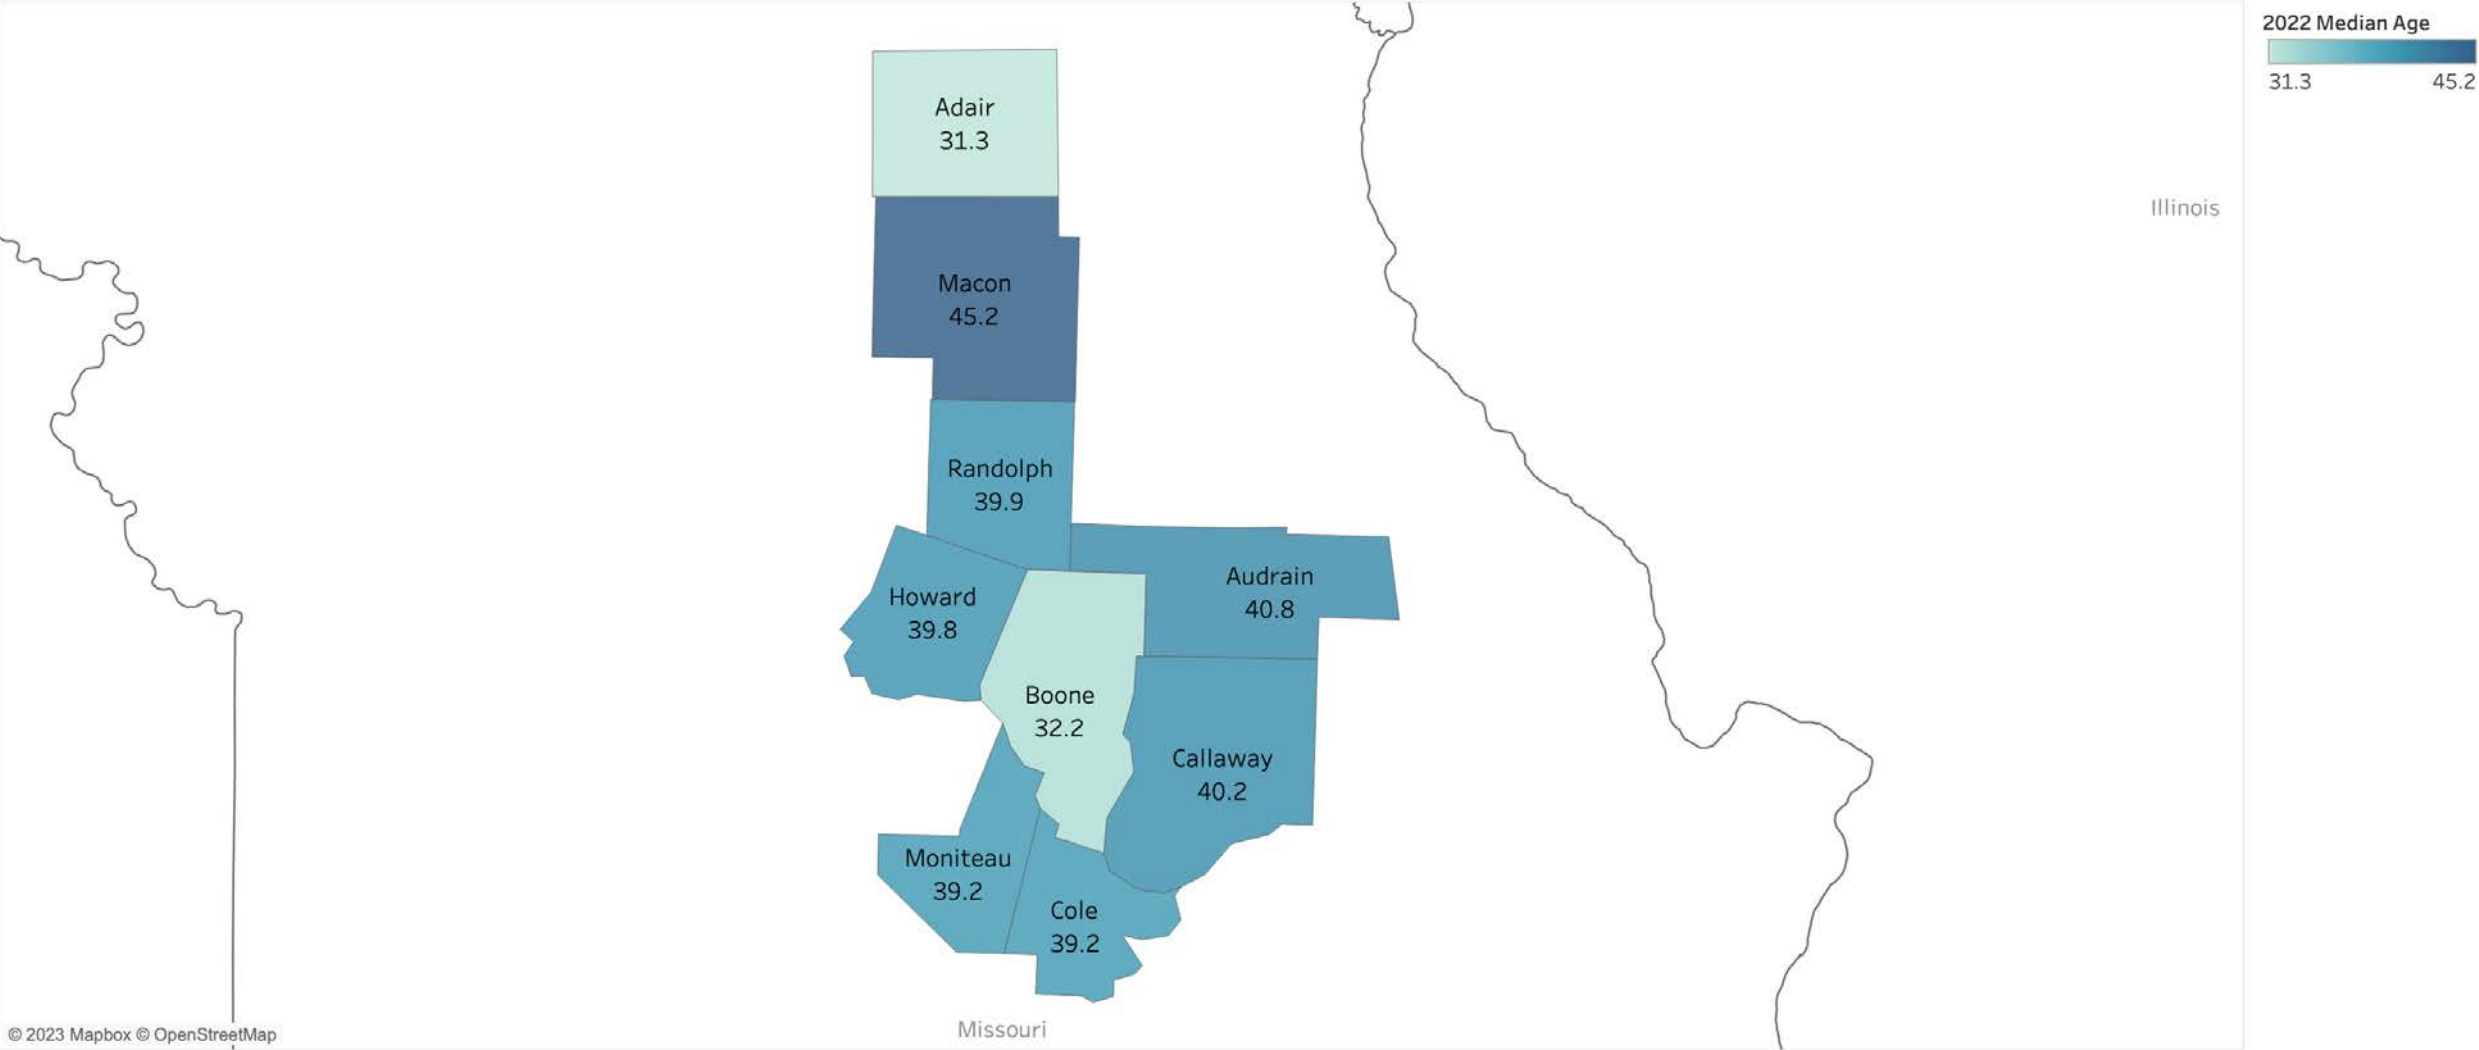

Nearly every county in Central Missouri is experiencing an approximate 10% increase in Median Age.

Source: ESRI

Adair and Boone counties have the lowest Median Ages within the region due to their respective university student populations.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Aggregate Net Worth by urbanization level of Central Missouri is dominated by the Small Metro counties of Boone and Cole.

Source: ESRI

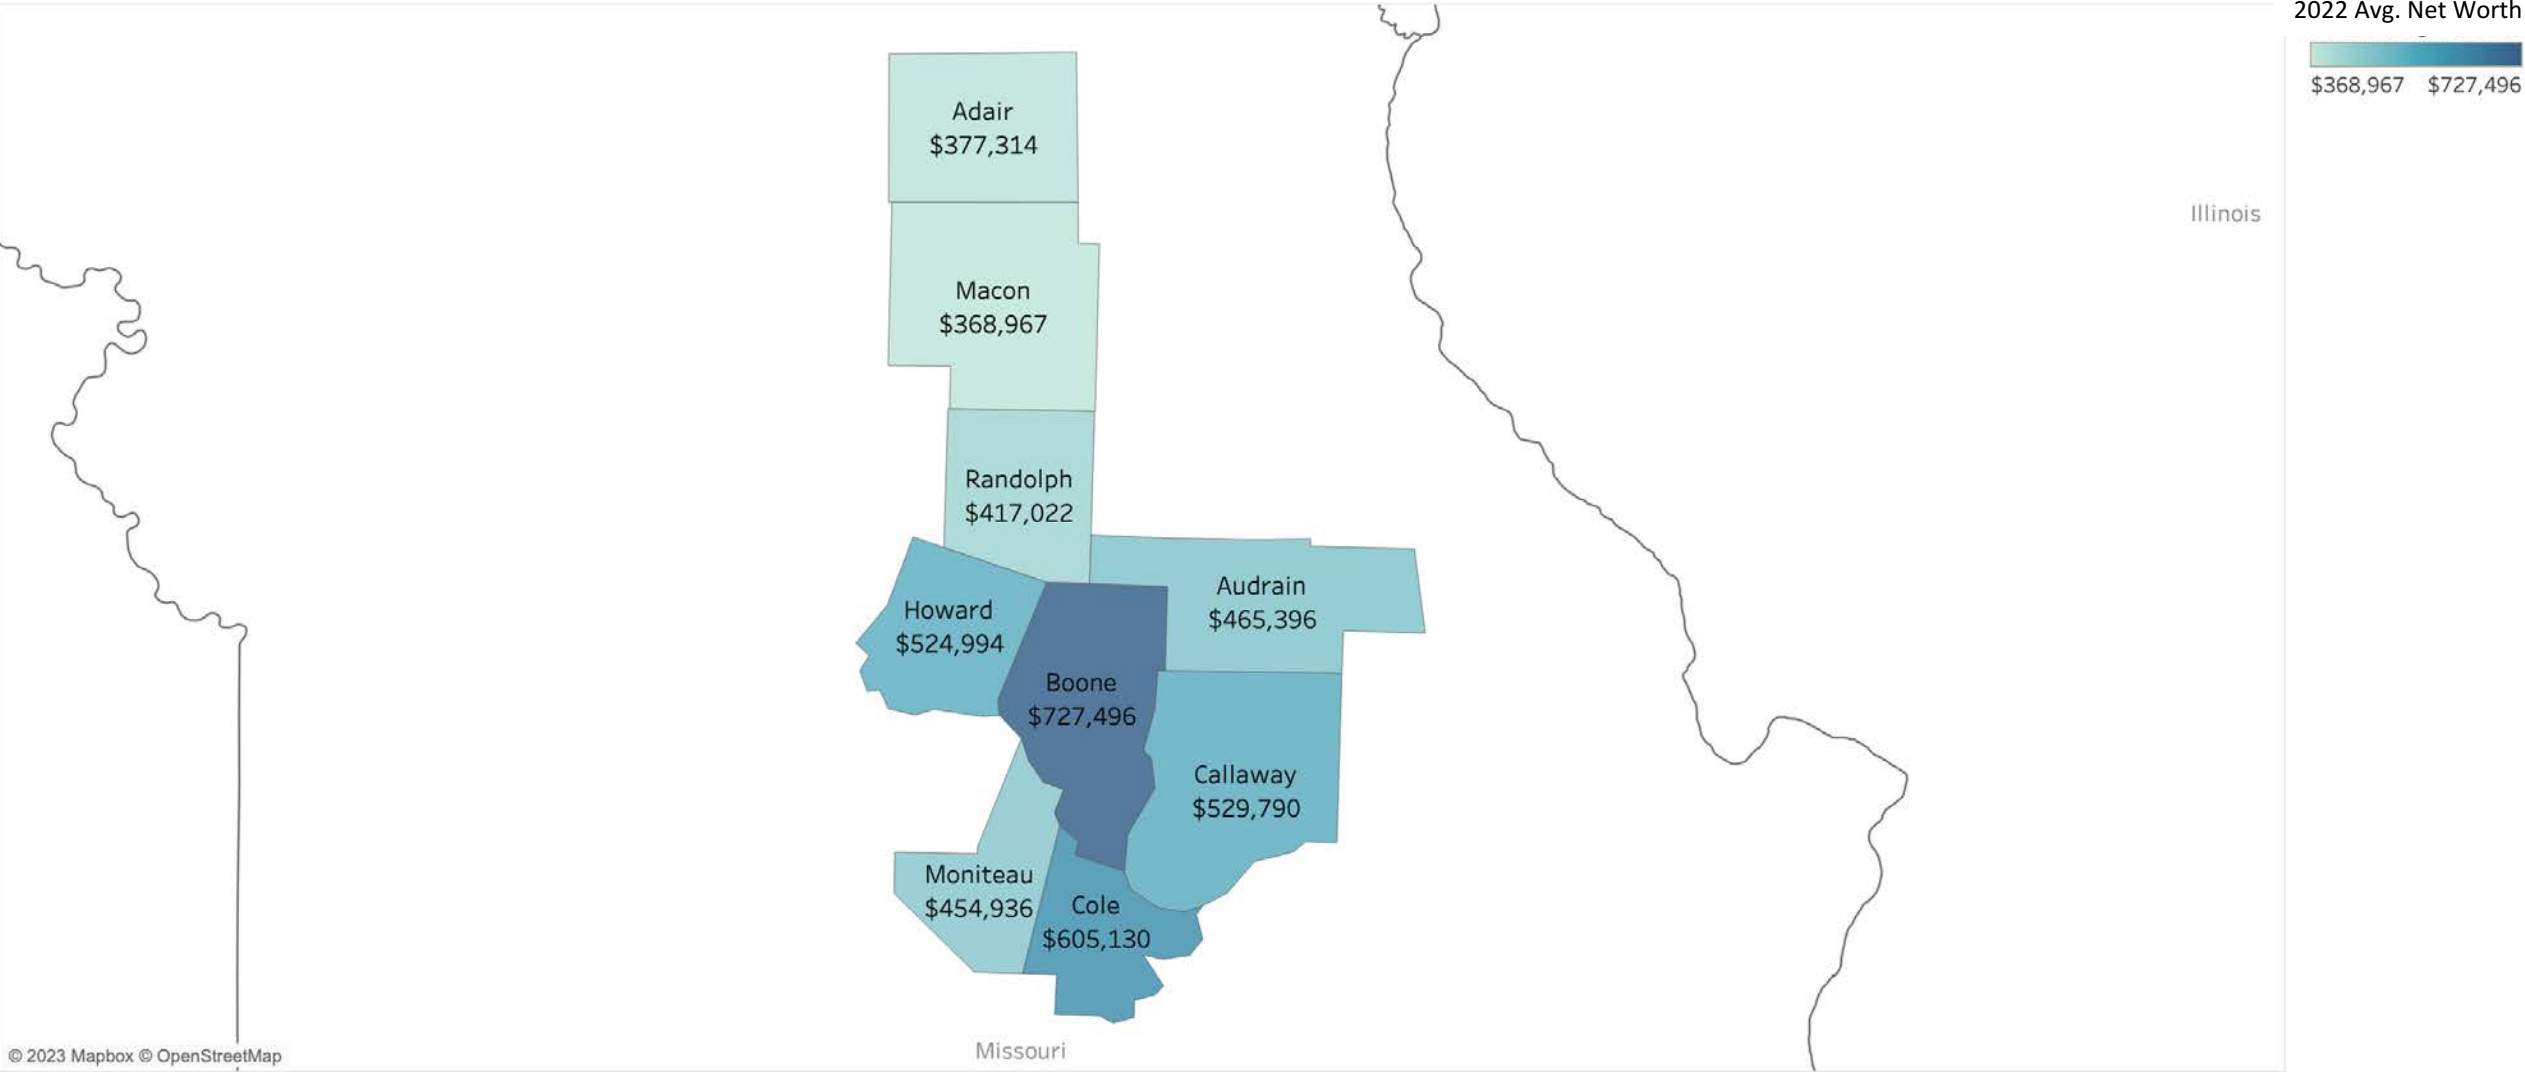

Boone County currently has an Aggregate Net Worth of nearly \$55B – by far the highest in Central Missouri.

Source: ESRI

Average Net Worth in Central Missouri ranges from \$368k (Macon) to over \$727k (Boone).

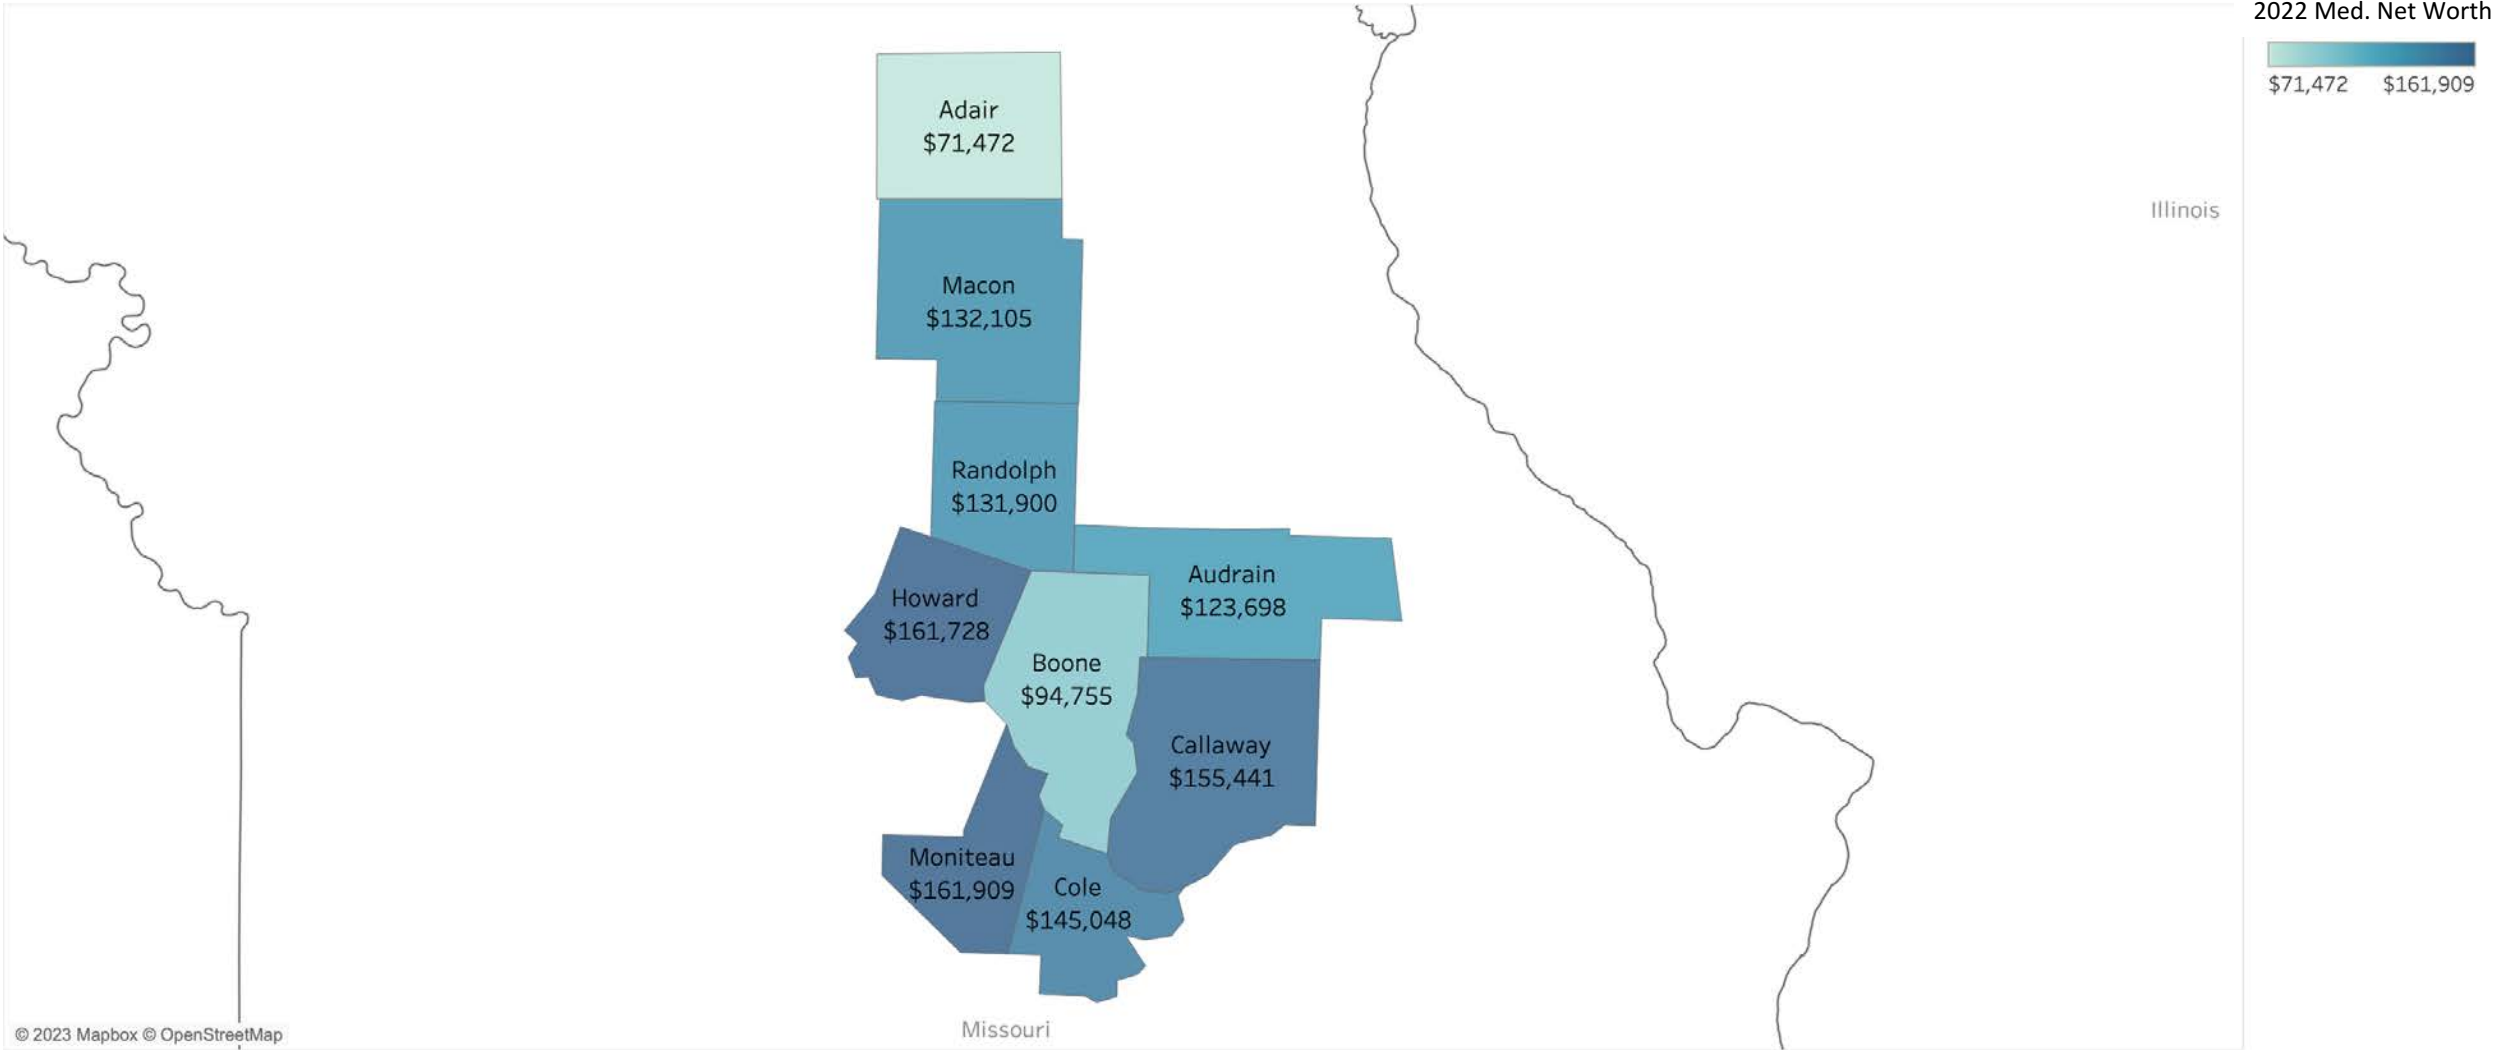

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Median Net Worth of the Central Missouri foundation region ranges from \$71,472 (Adair) to \$161,909 (Moniteau).

Central Missouri

Transfer of Wealth

CCRI CENTER FOR
CIVIC RESEARCH
AND INNOVATION

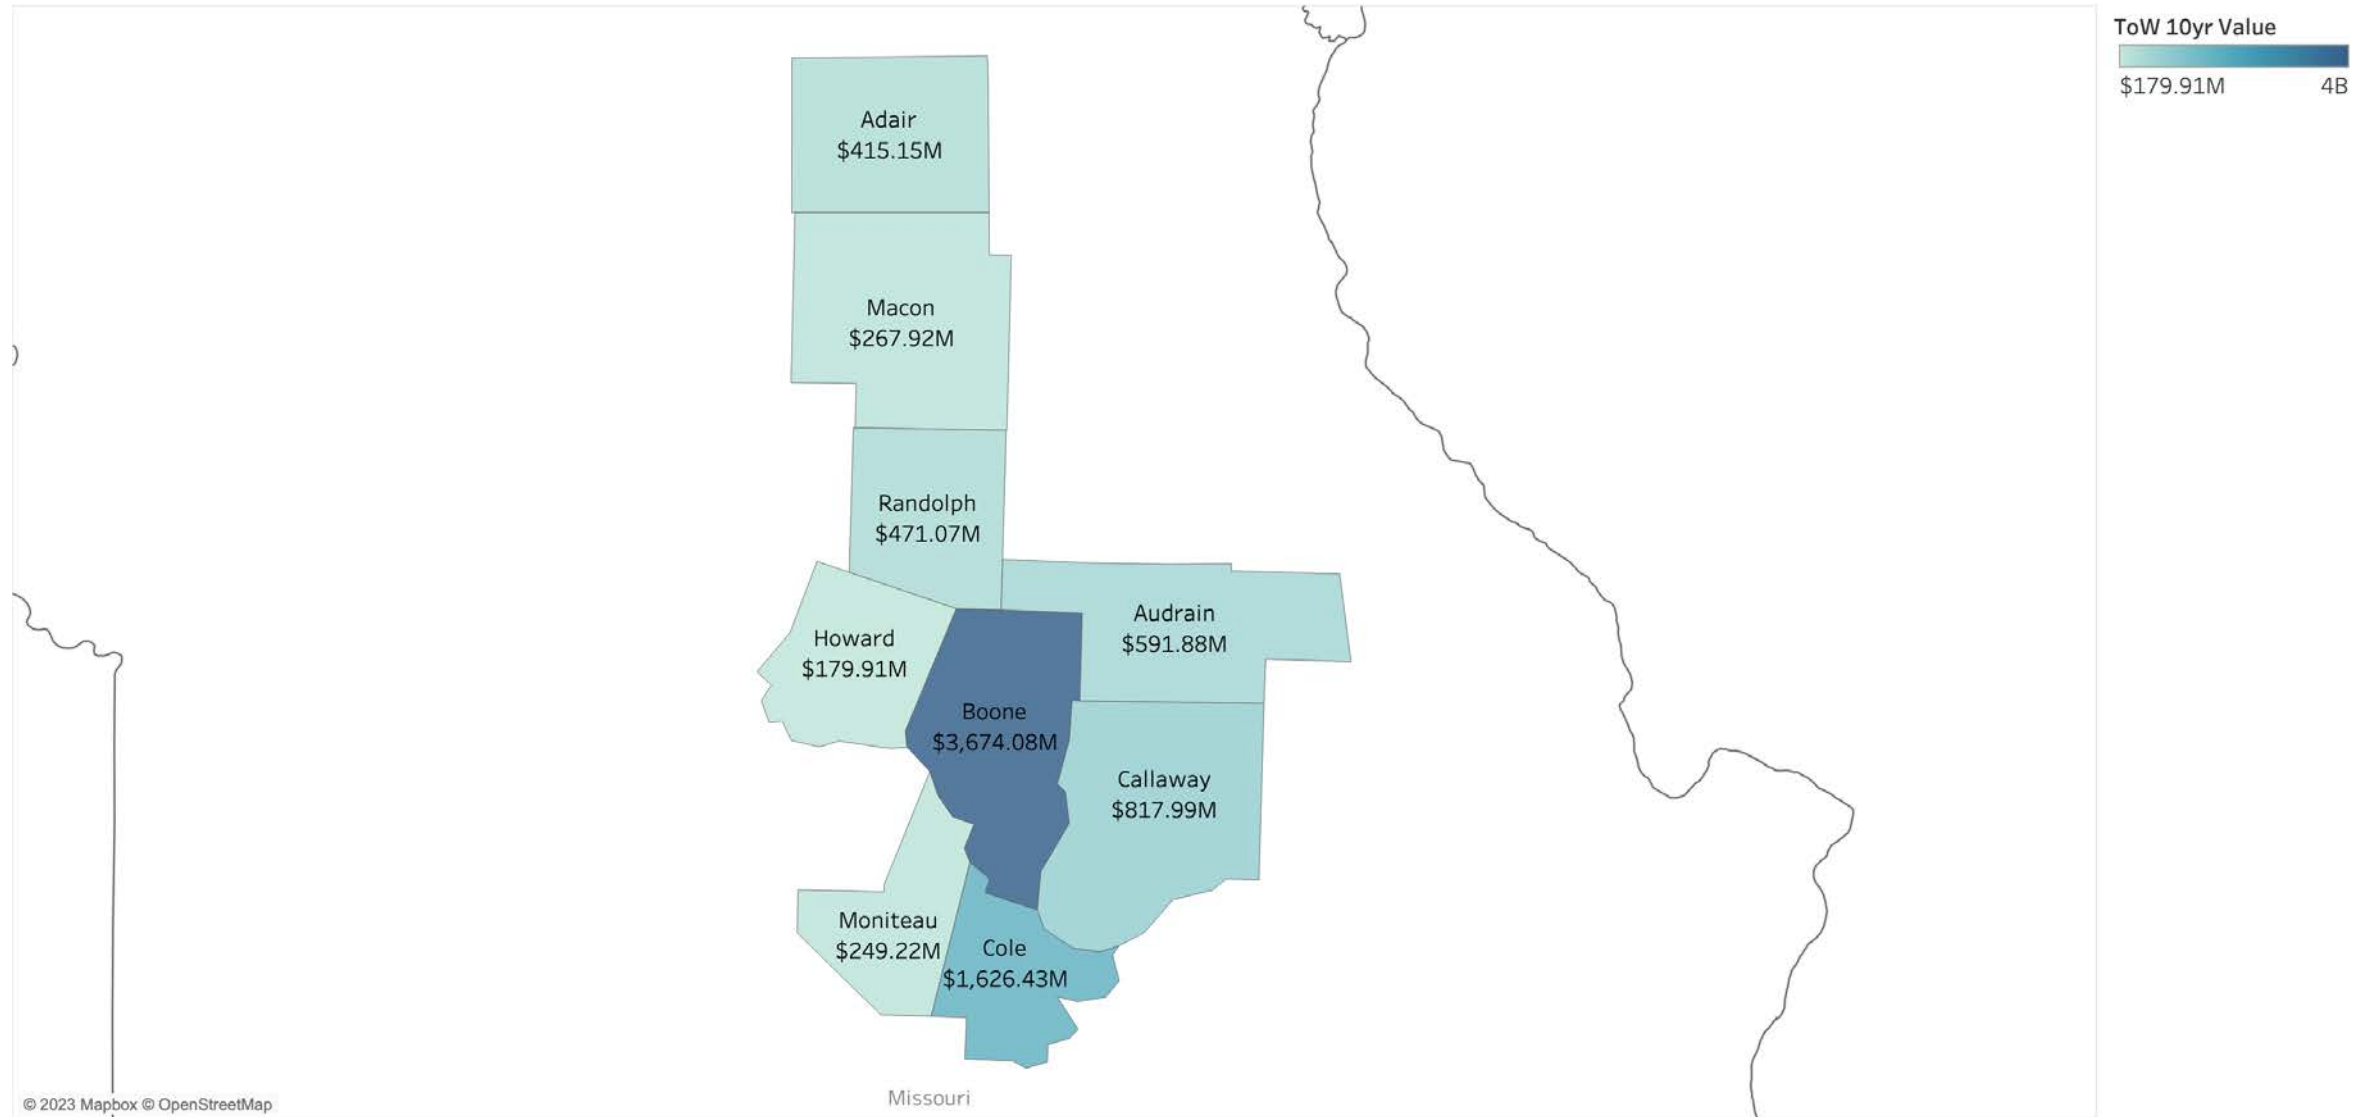

AN INITIATIVE OF THE ST. LOUIS COMMUNITY FOUNDATION

The Current Value of the Transfer of Wealth opportunity in Central Missouri is \$6.17 Billion.

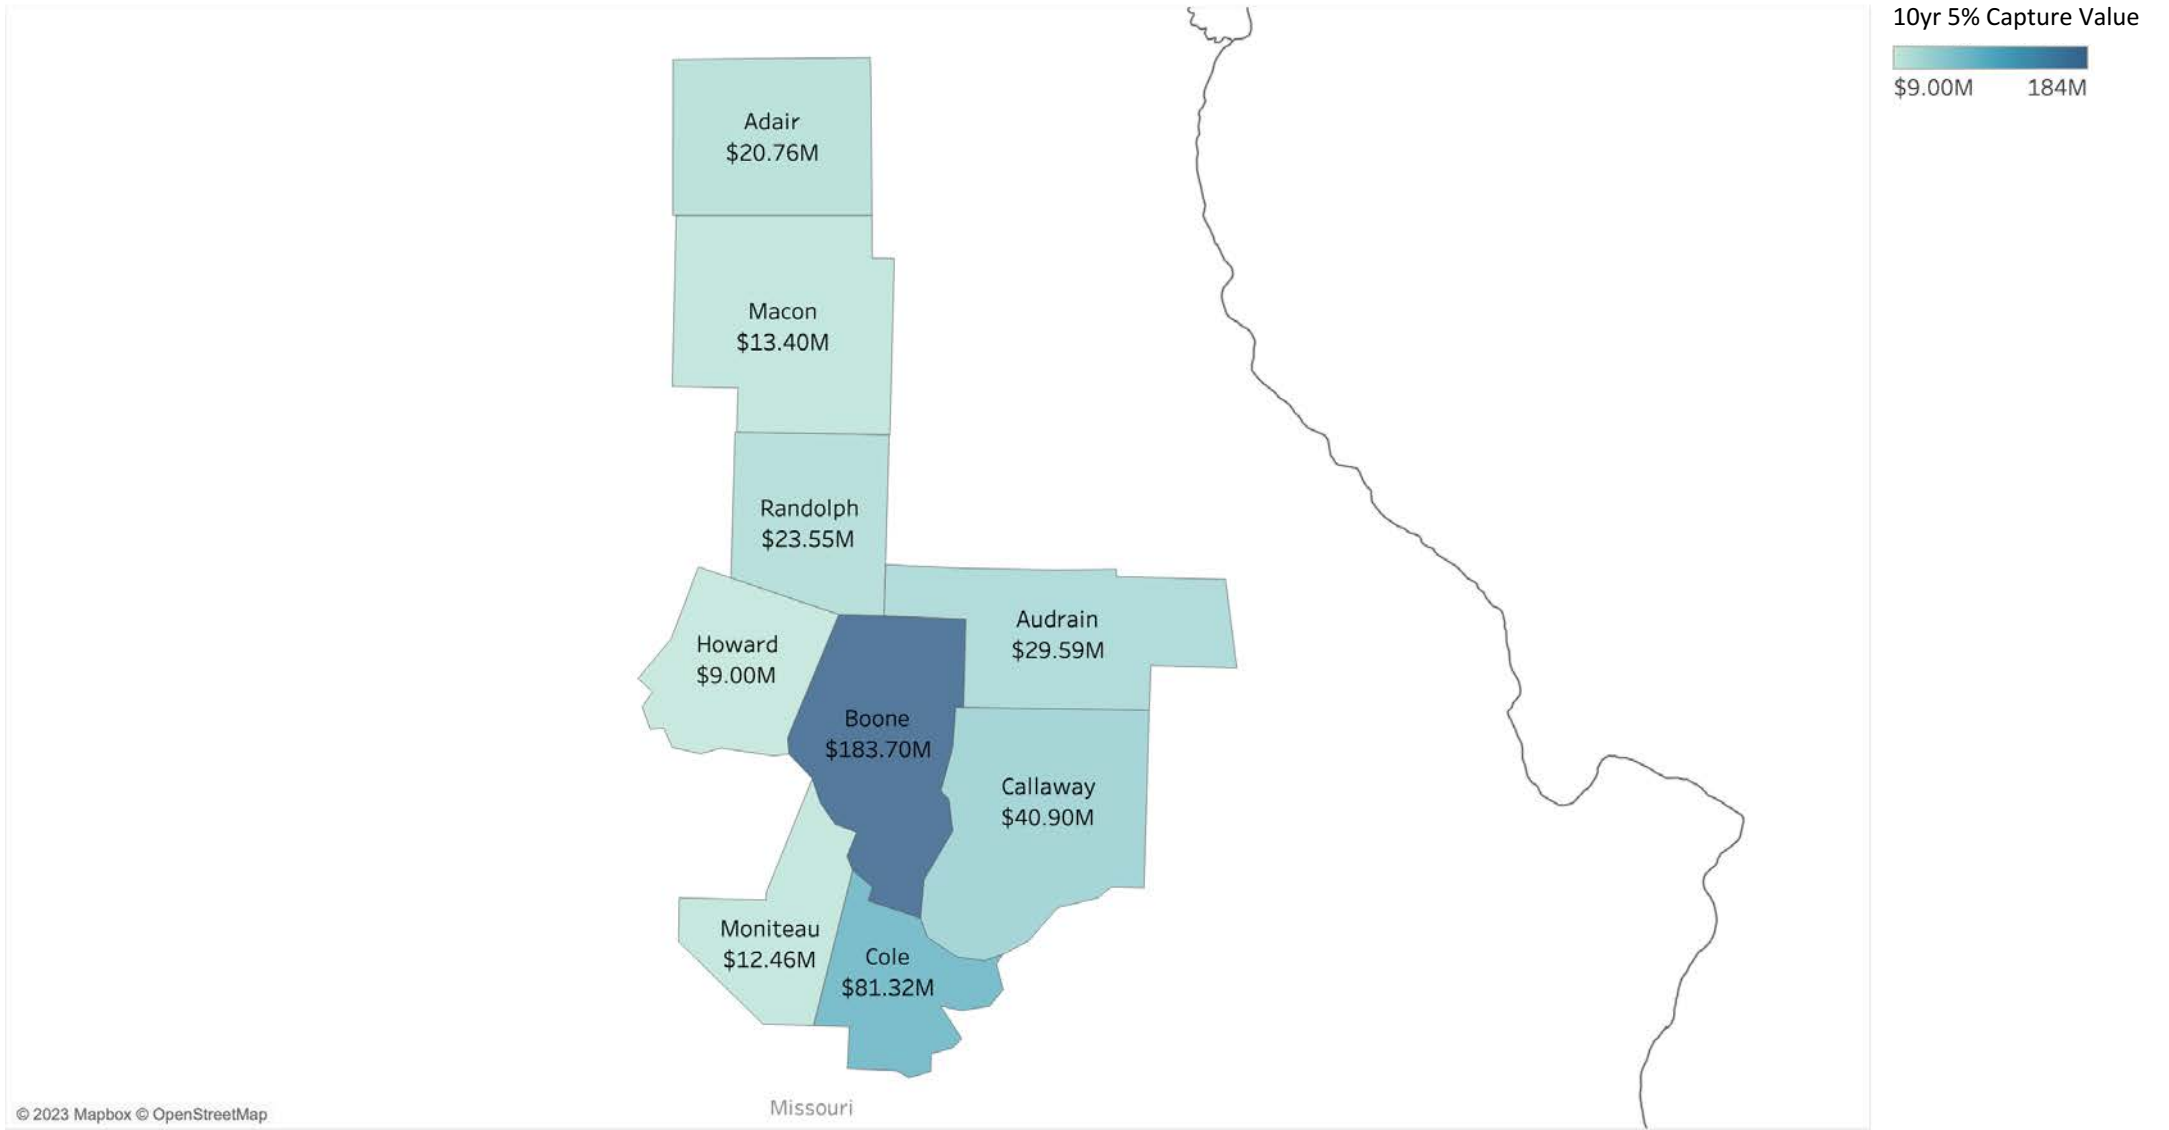

© 2023 Mapbox © OpenStreetMap

By 2032, estimates show \$8.29 Billion will have transferred in Central Missouri.

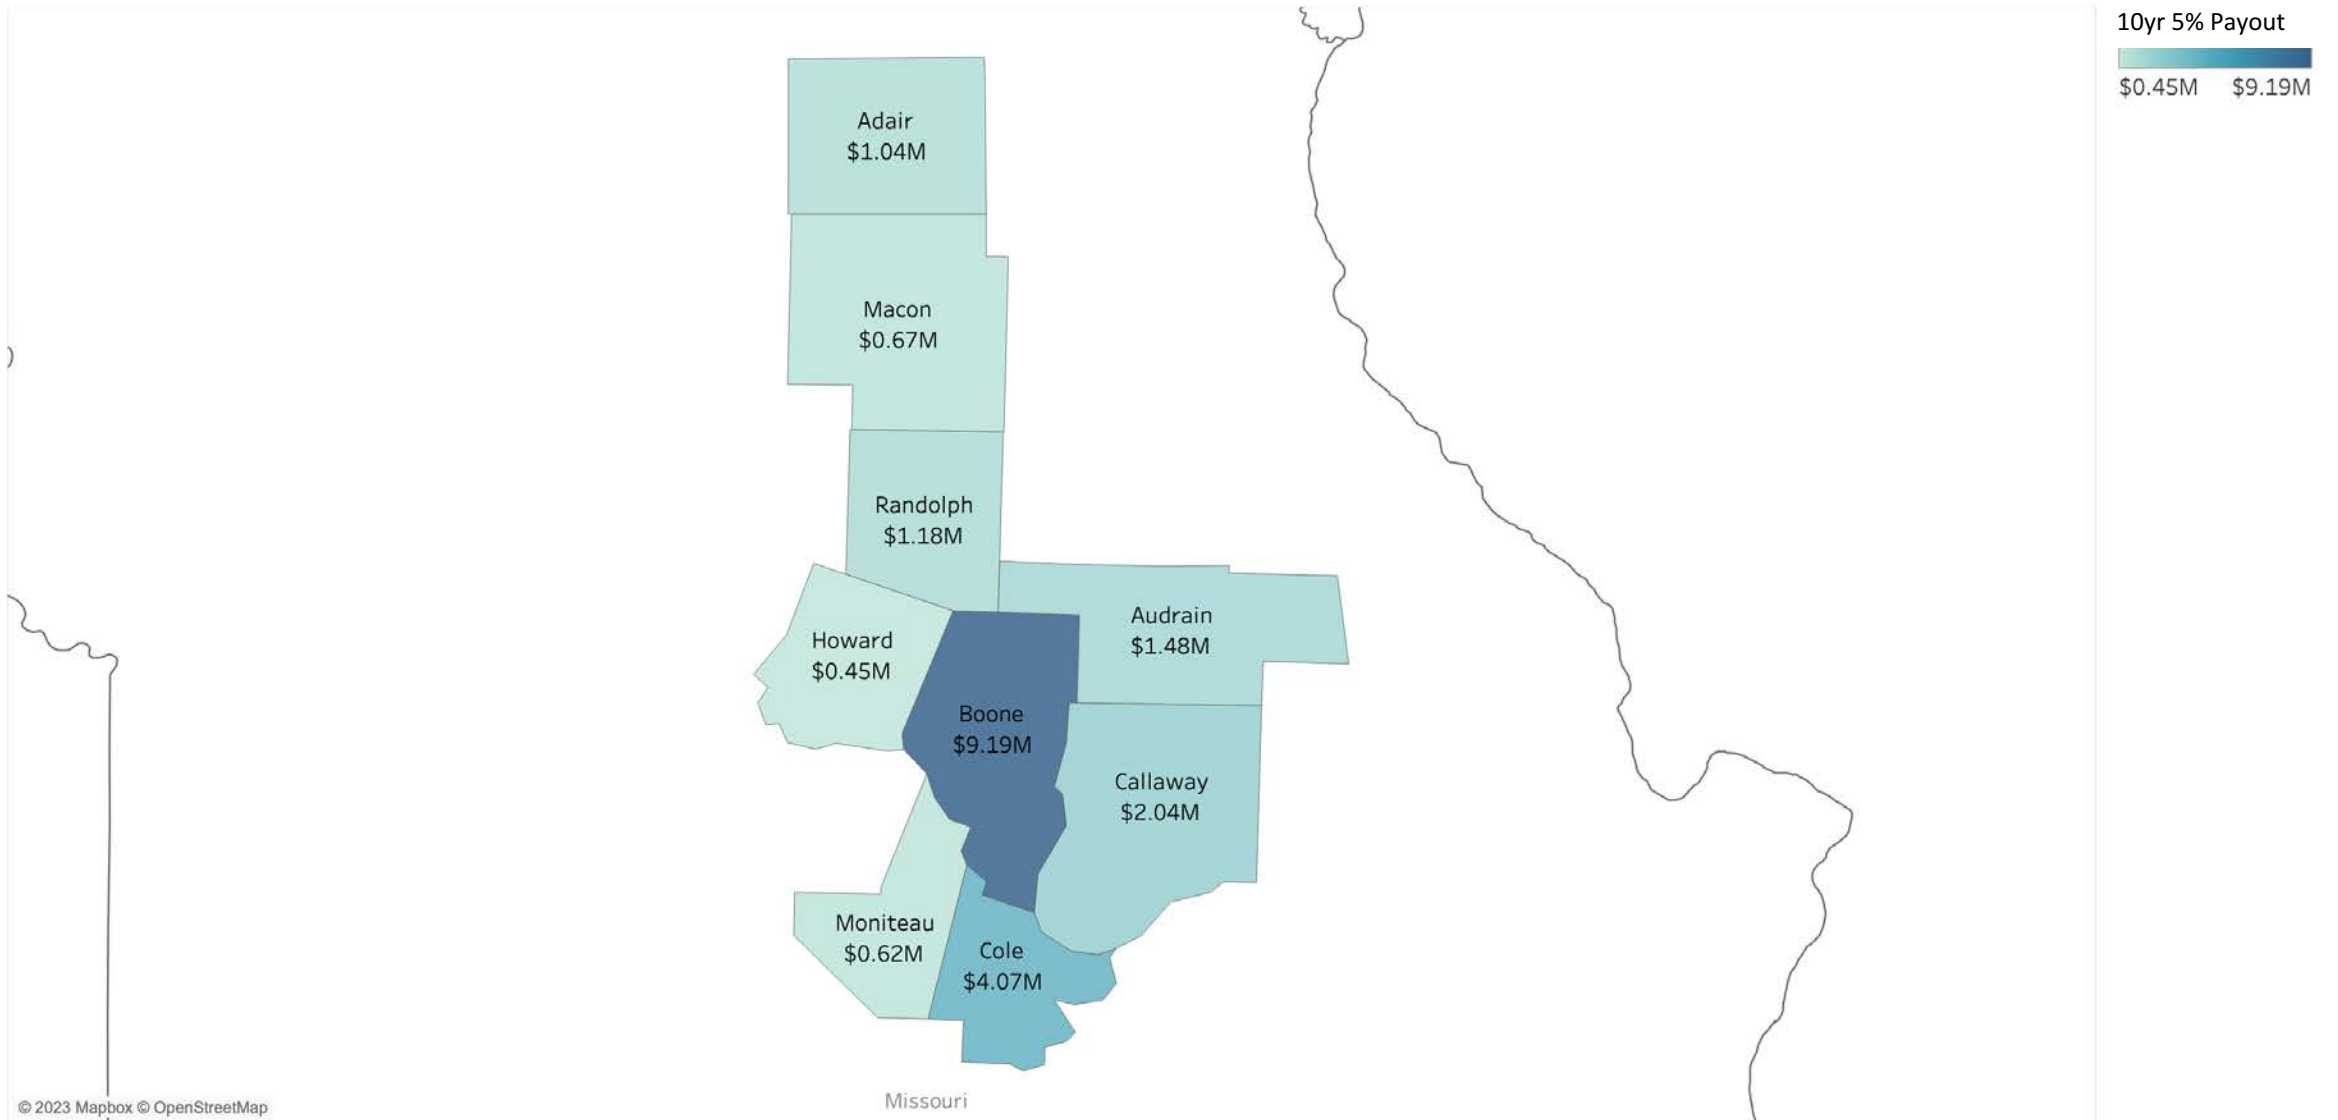

If the community foundation within Central Missouri region were to capture 5% of the transfer of wealth over the next ten years, that would amount to \$414.68 Million in captured funds, with Boone County accounting for \$183.7 Million.

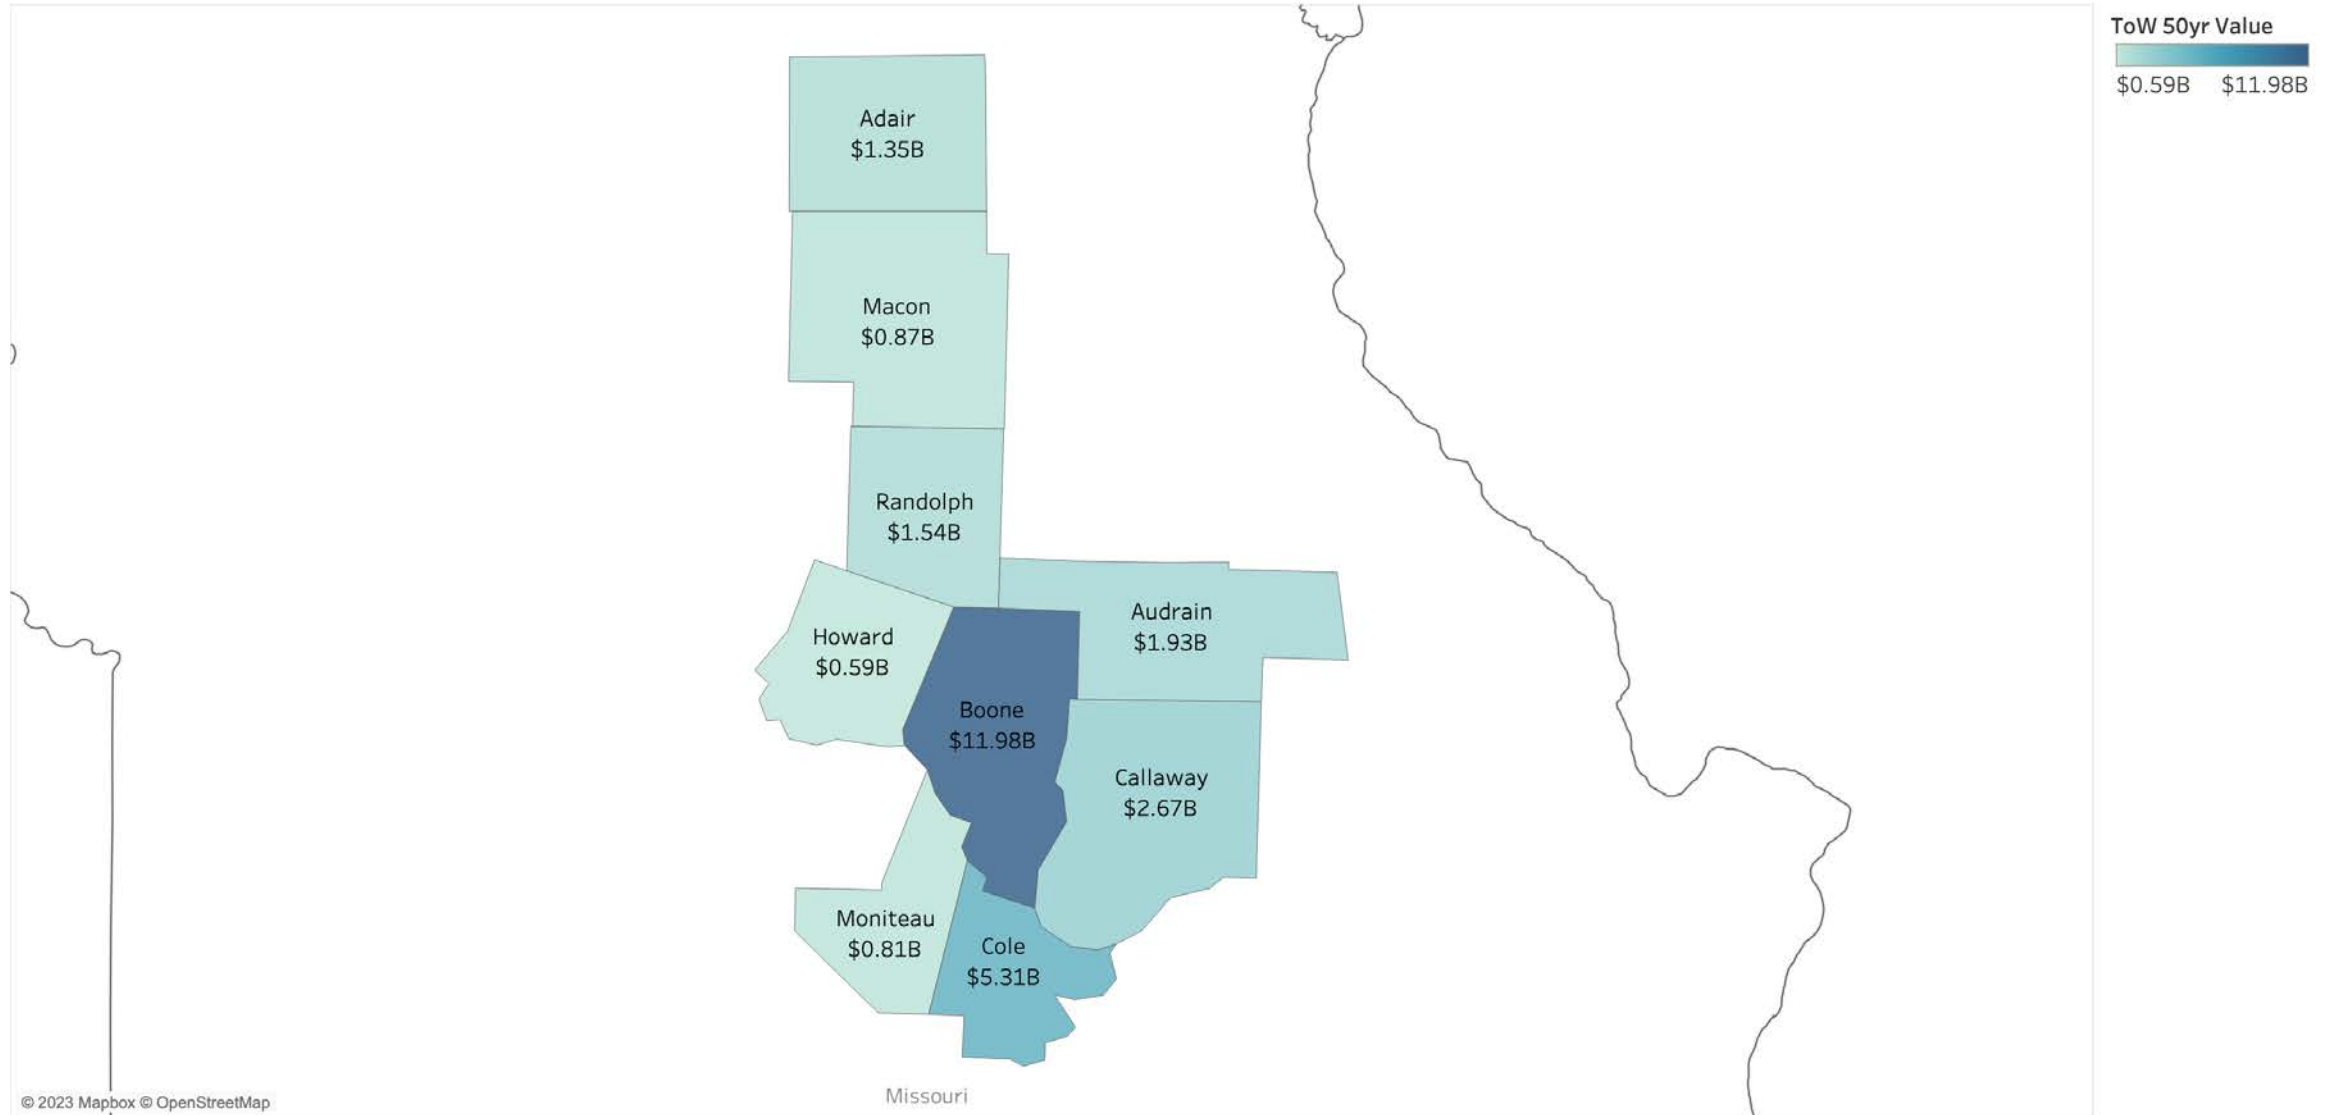

© 2023 Mapbox © OpenStreetMap

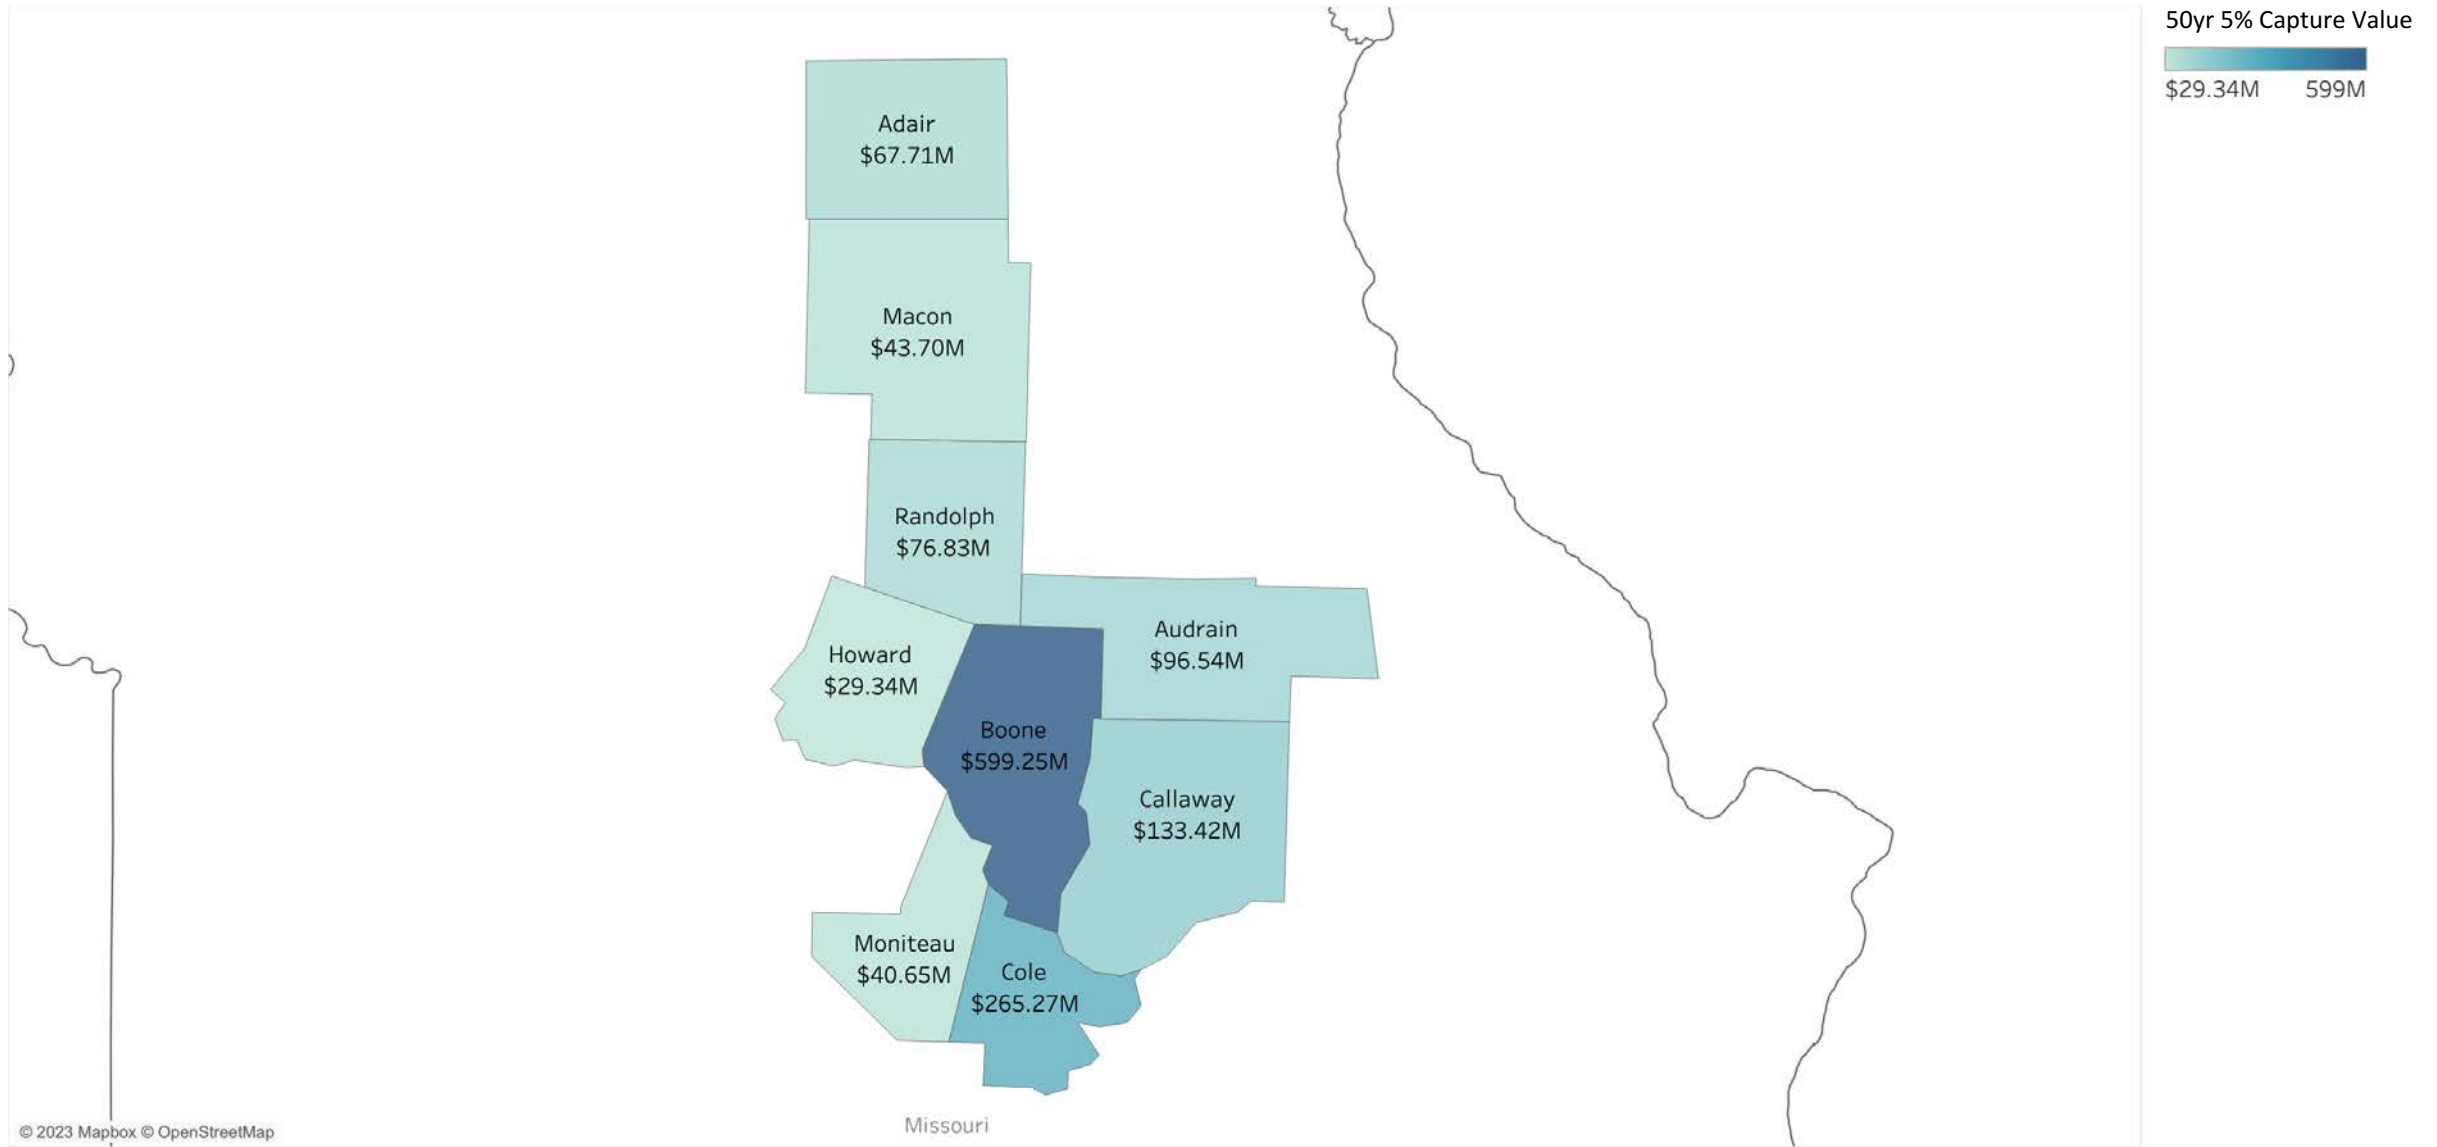

A 5% payout of the captured total would amount to over \$20.7 Million distributed throughout Central Missouri – ranging from \$450k in Howard County to over \$9 Million in Boone County over the next ten years.

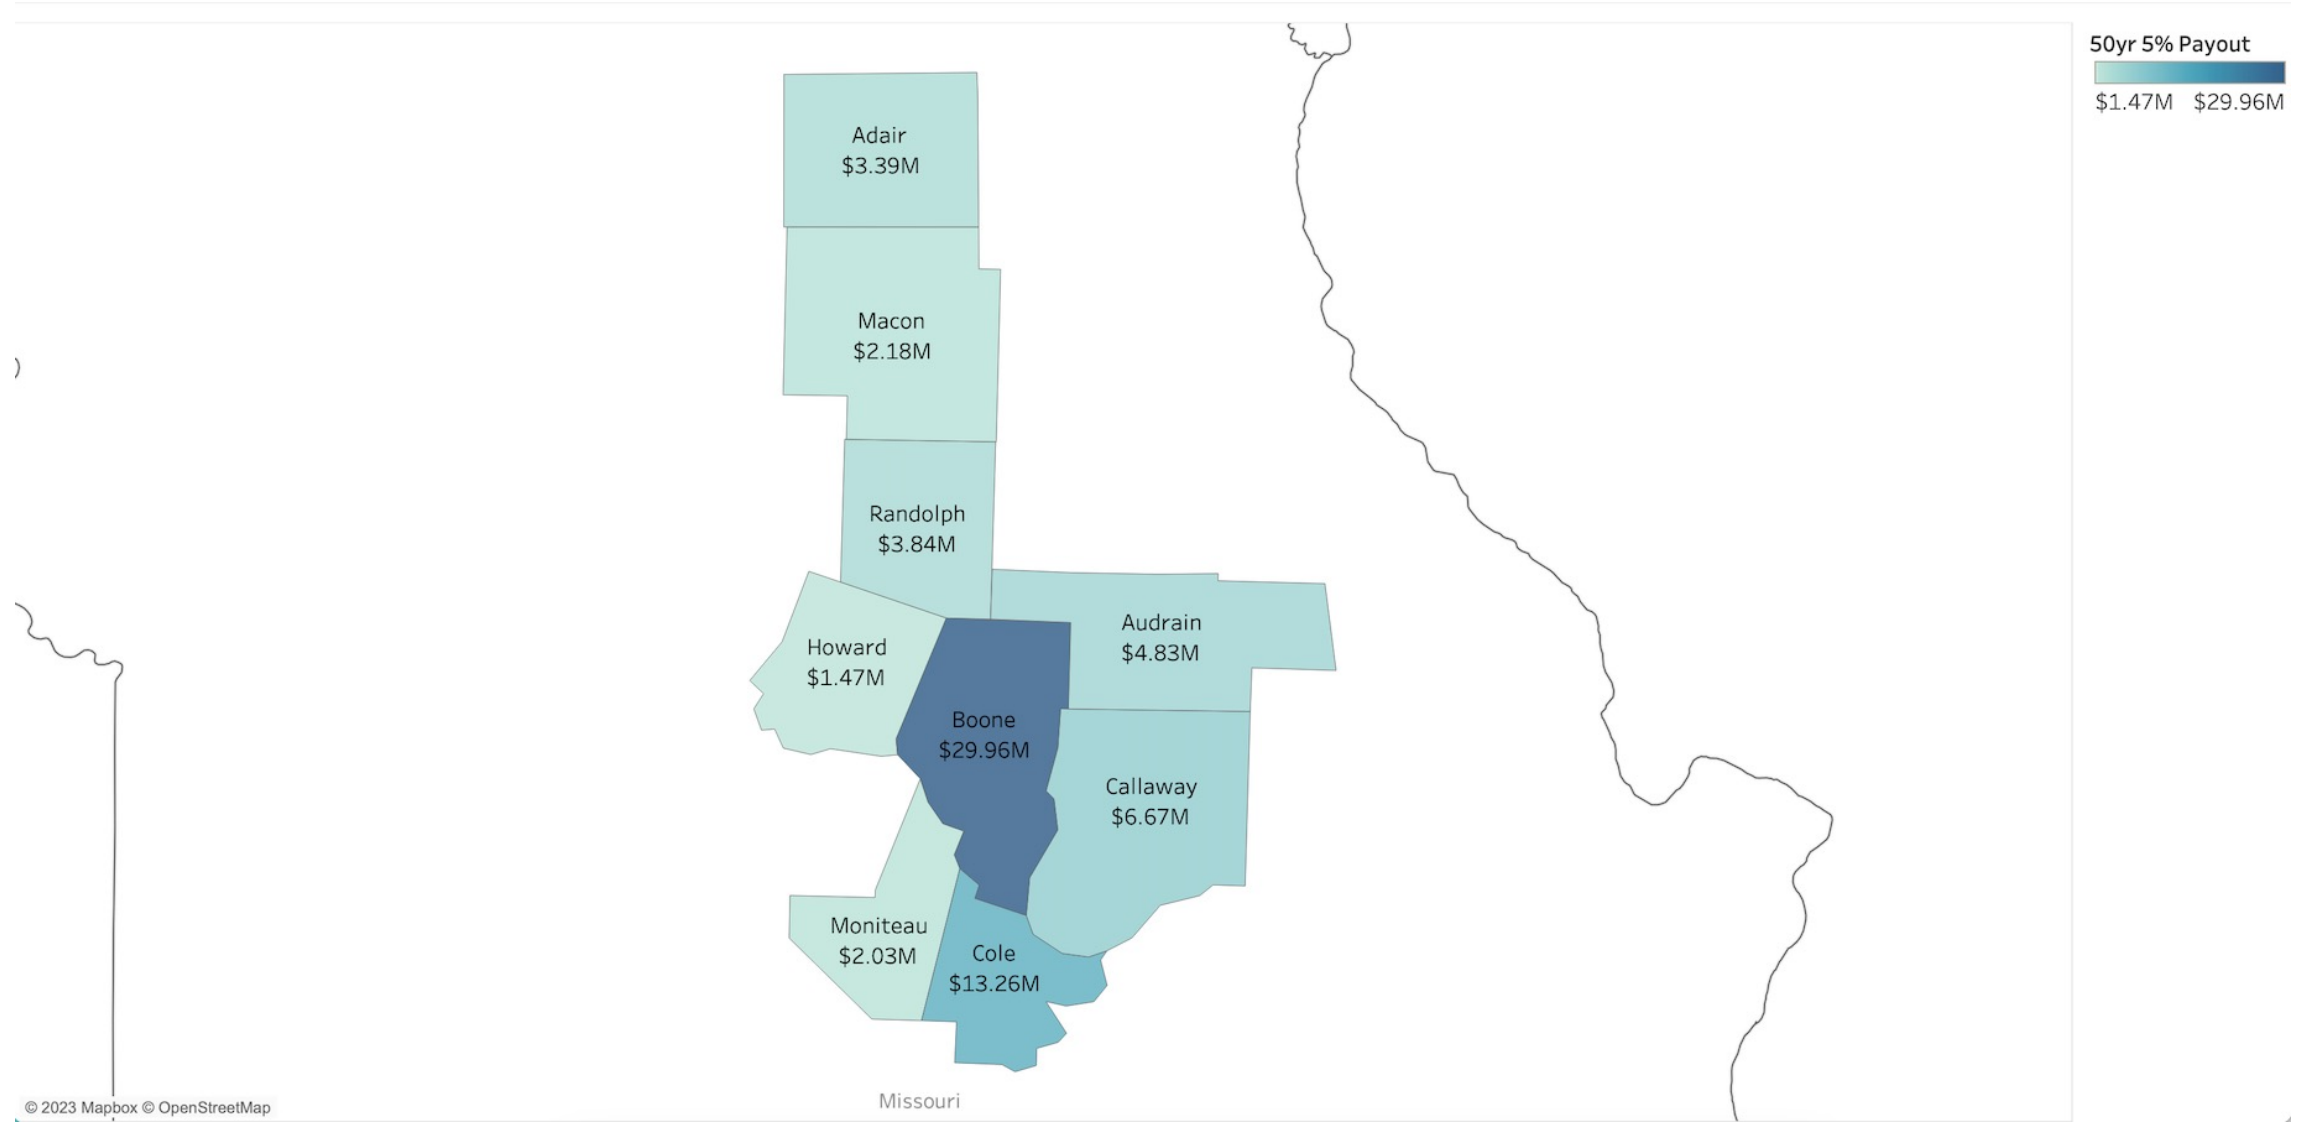

Over the next 50 years, Central Missouri's foundation region anticipates over \$27 Billion in wealth to transfer.

A 5% capture in Central Missouri over the next 50 years would amount to \$1.35 Billion collected by the community foundation.

In terms of payout, \$67.64 Million would account for 5% of the captured total being distributed throughout Central Missouri over the next 50 years – ranging from \$1.47 Million in Howard County to nearly \$30 Million in Boone County.

© 2023 Mapbox © OpenStreetMap

Chariton County

Demographics and Net Worth

The Chariton County Community Foundation, covering only Chariton County, currently serves 7,295 residents – a population that has is expected to decline 8% between 2010 and 2027.

Source: ESRI

Household totals have declined according to population, with Chariton County currently having 3,024 households.

Source: ESRI

On average, there are 2.34 people per household in Chariton County.

Source: ESRI

Median Age continue to rise in Chariton County, increasing by 2.5 years since 2010 (5%).

Source: ESRI

Greater Kansas City

Demographics and Net Worth

The population of the Greater Kansas City region has grown by 111,220 residents, with an expected increase of another 20k by 2027.

Source: ESRI

Each urbanization level in the Greater Kansas City region has grown since 2010, but the rate of growth is beginning to plateau.

Source: ESRI

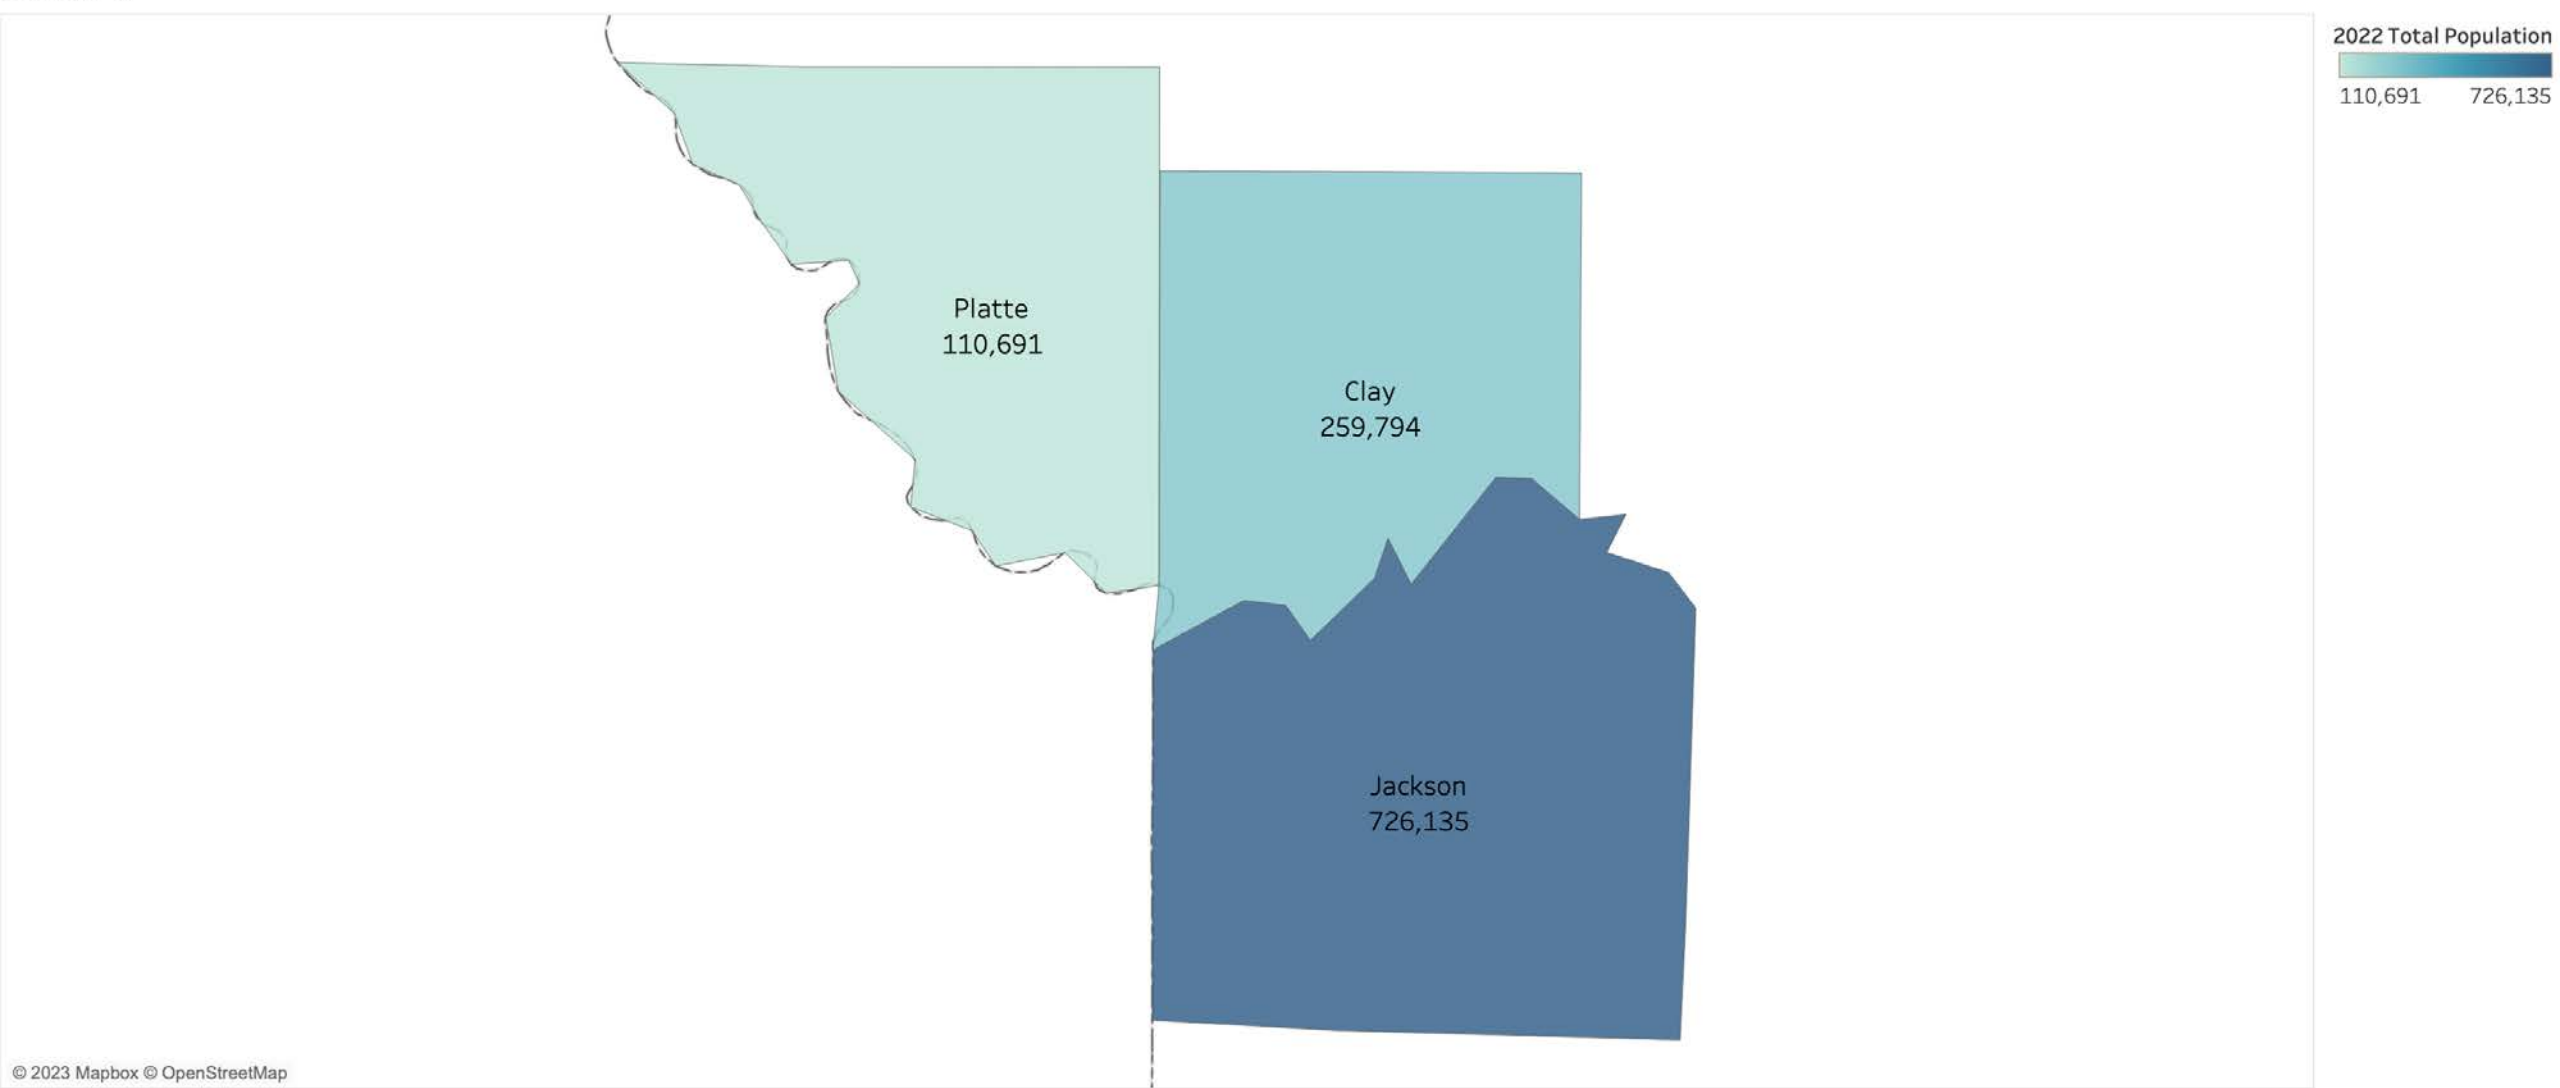

Jackson County has grown by 52k (7.7%) while Clay and Platte counties have grown by 17% and 24%, respectively.

Source: ESRI

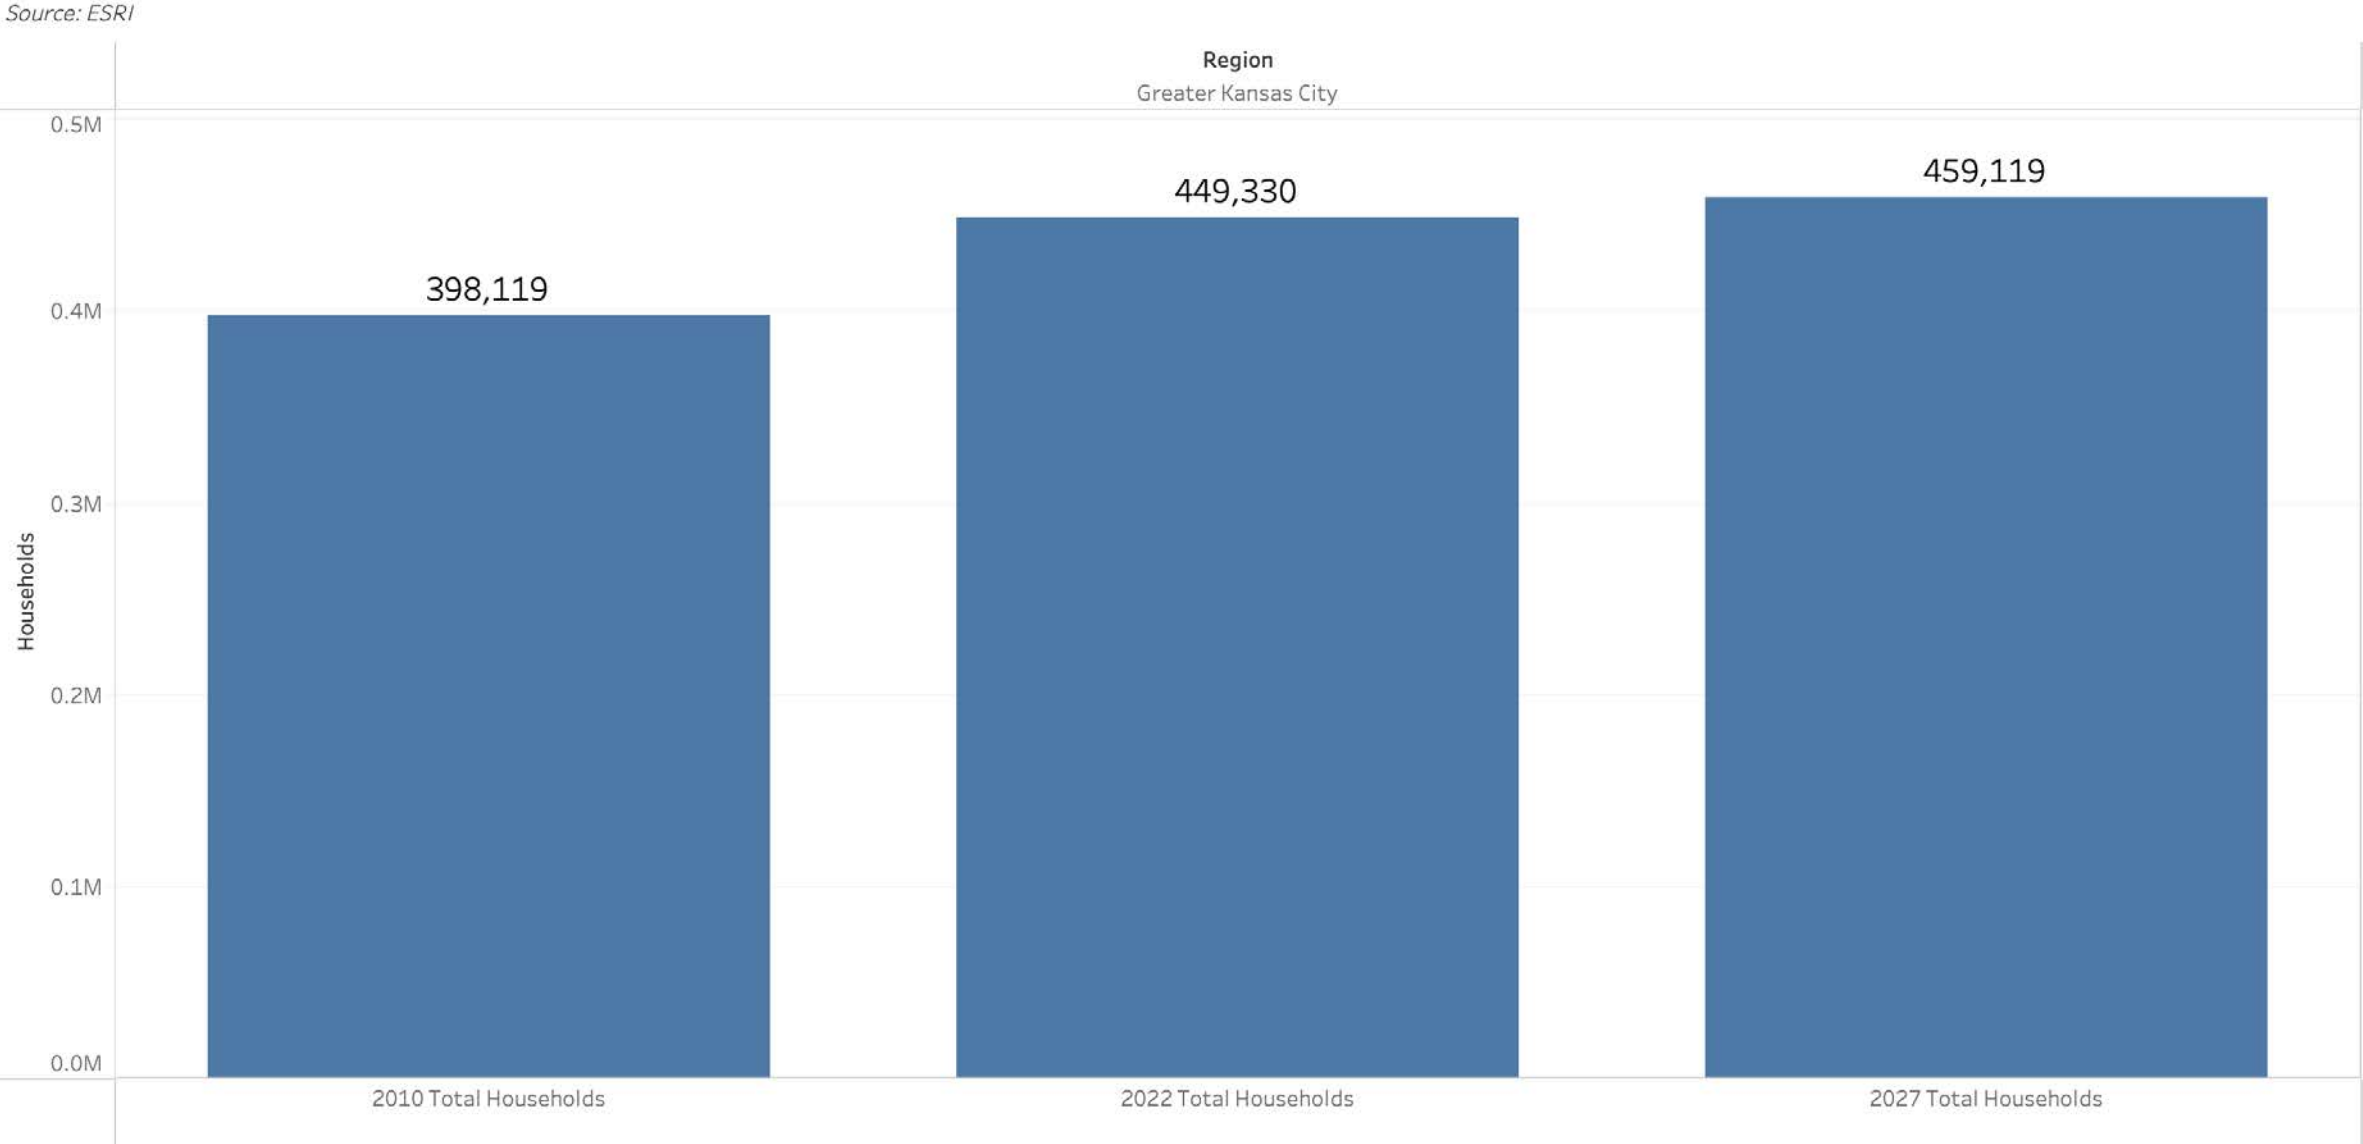

In Greater Kansas City, Jackson County has nearly twice the population as Clay and Platte counties combined.

Source: ESRI

Like population, the Greater Kansas City region has seen an uptick in number of households.

Increases in households are present in each level of urbanization in Greater Kansas City.

Each county in Greater Kansas City has had an increase in households, but like population, the rate of growth is slowing. In 2022, household totals ranged from 44,000 in Platte County to over 300,000 in Jackson County.

Source: ESRI

While population and households have increased, average household size has remained about 2.45.

Source: ESRI

The Large Central Metro of this region (Jackson County) has seen a slight decline in average household size.

Source: ESRI

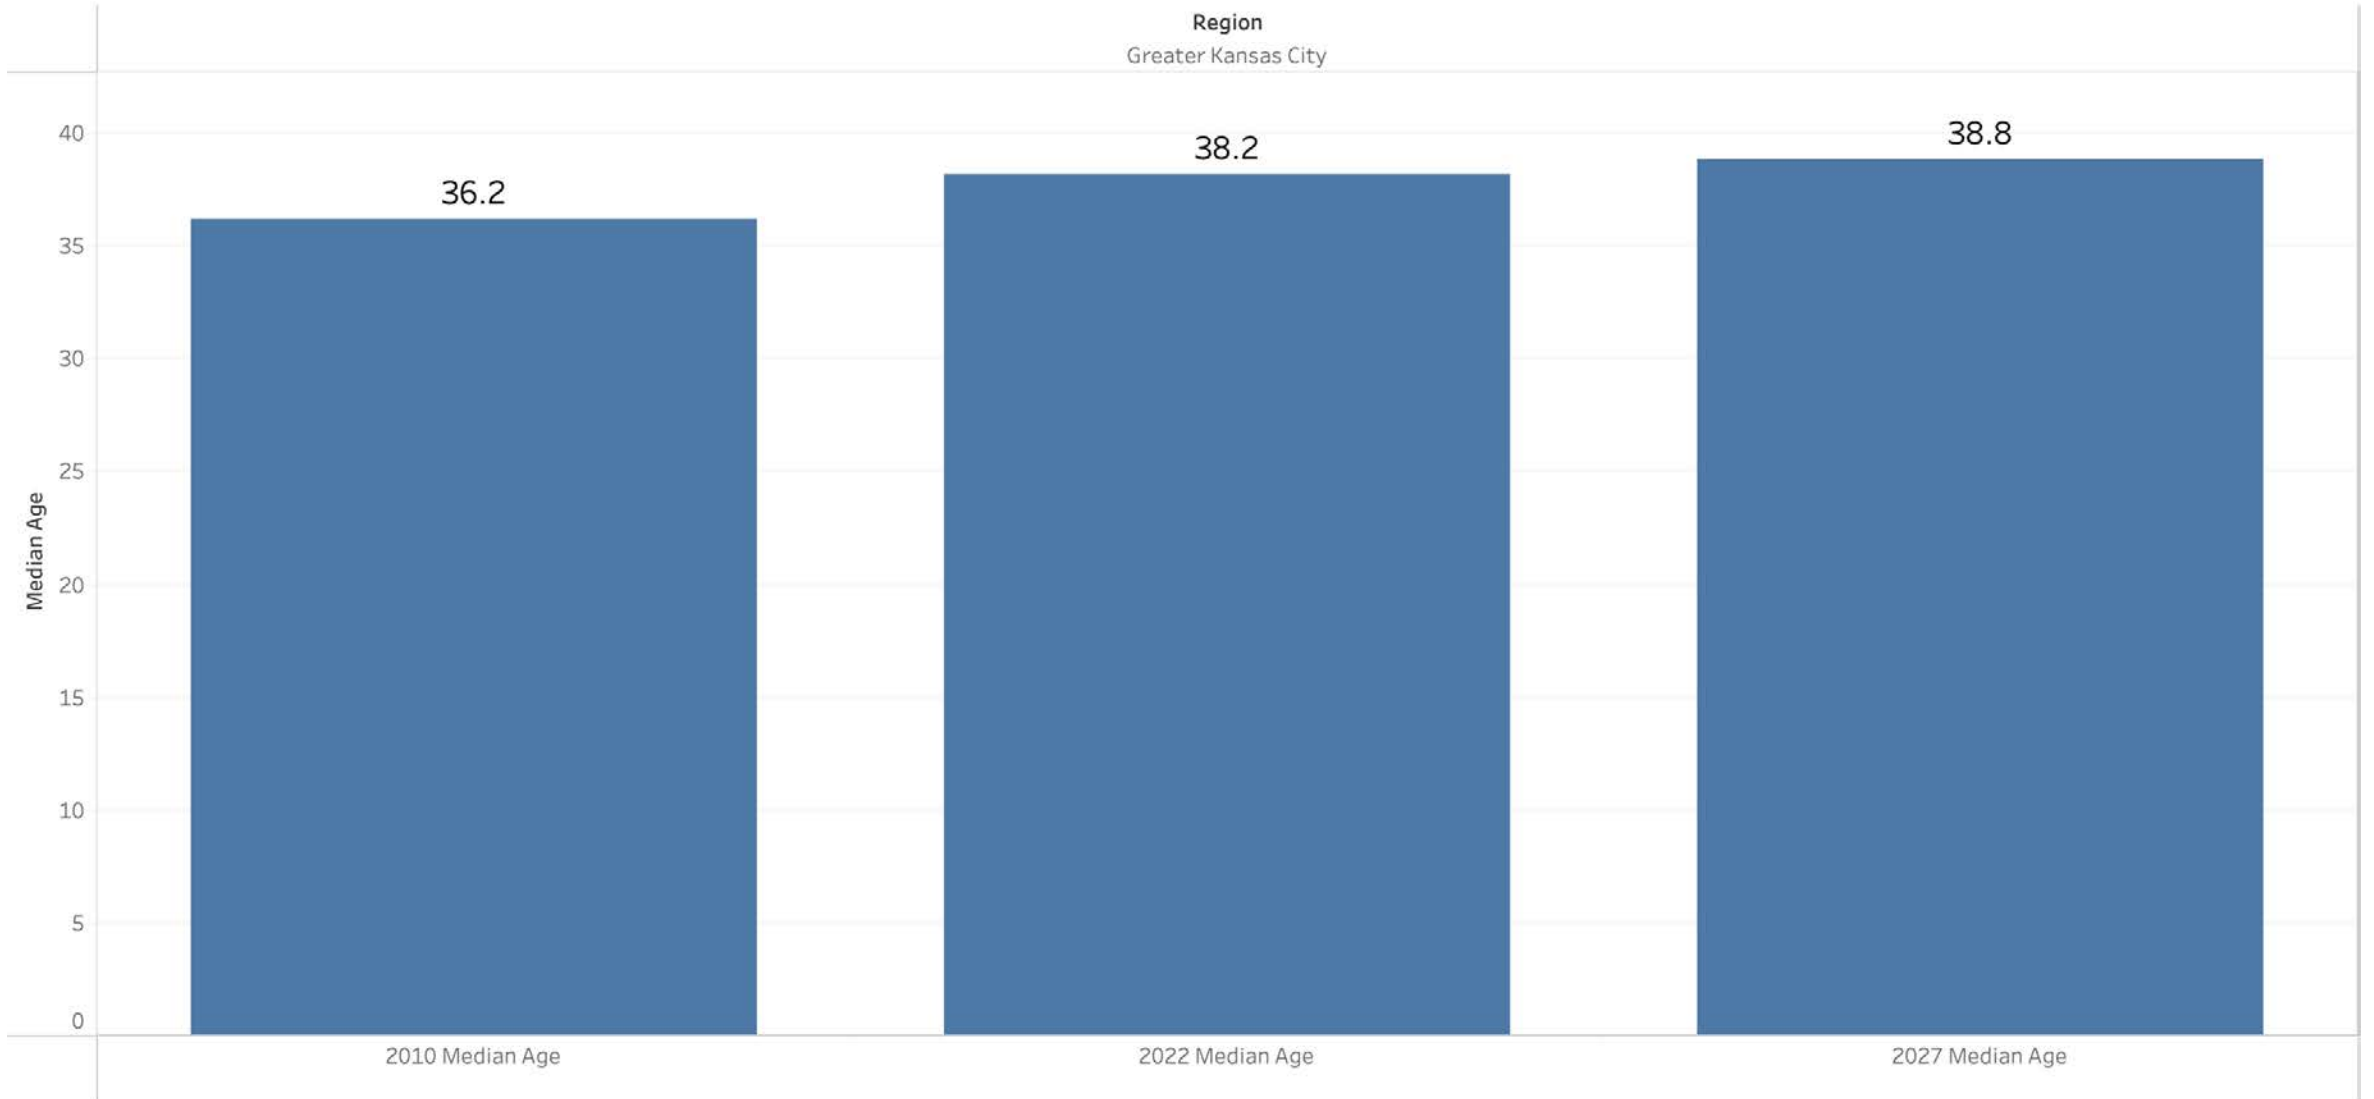

Clay and Platte counties have remained consistent, and very little change in average household size overall in Greater KC.

Source: ESRI

Median Age in the Greater Kansas City Region has increased by 2 years since 2010 and expected to increase another 0.6 by 2027.

Source: ESRI

Large Central Metros are generally younger than the Large Fringe Metro counties surrounding them, but in Greater Kansas City, the Median Age is just a year younger than its collar counties of Platte and Clay.

Source: ESRI

Each county within the Greater Kansas City region is becoming slightly older, but still relatively young for Missouri overall.

Source: ESRI

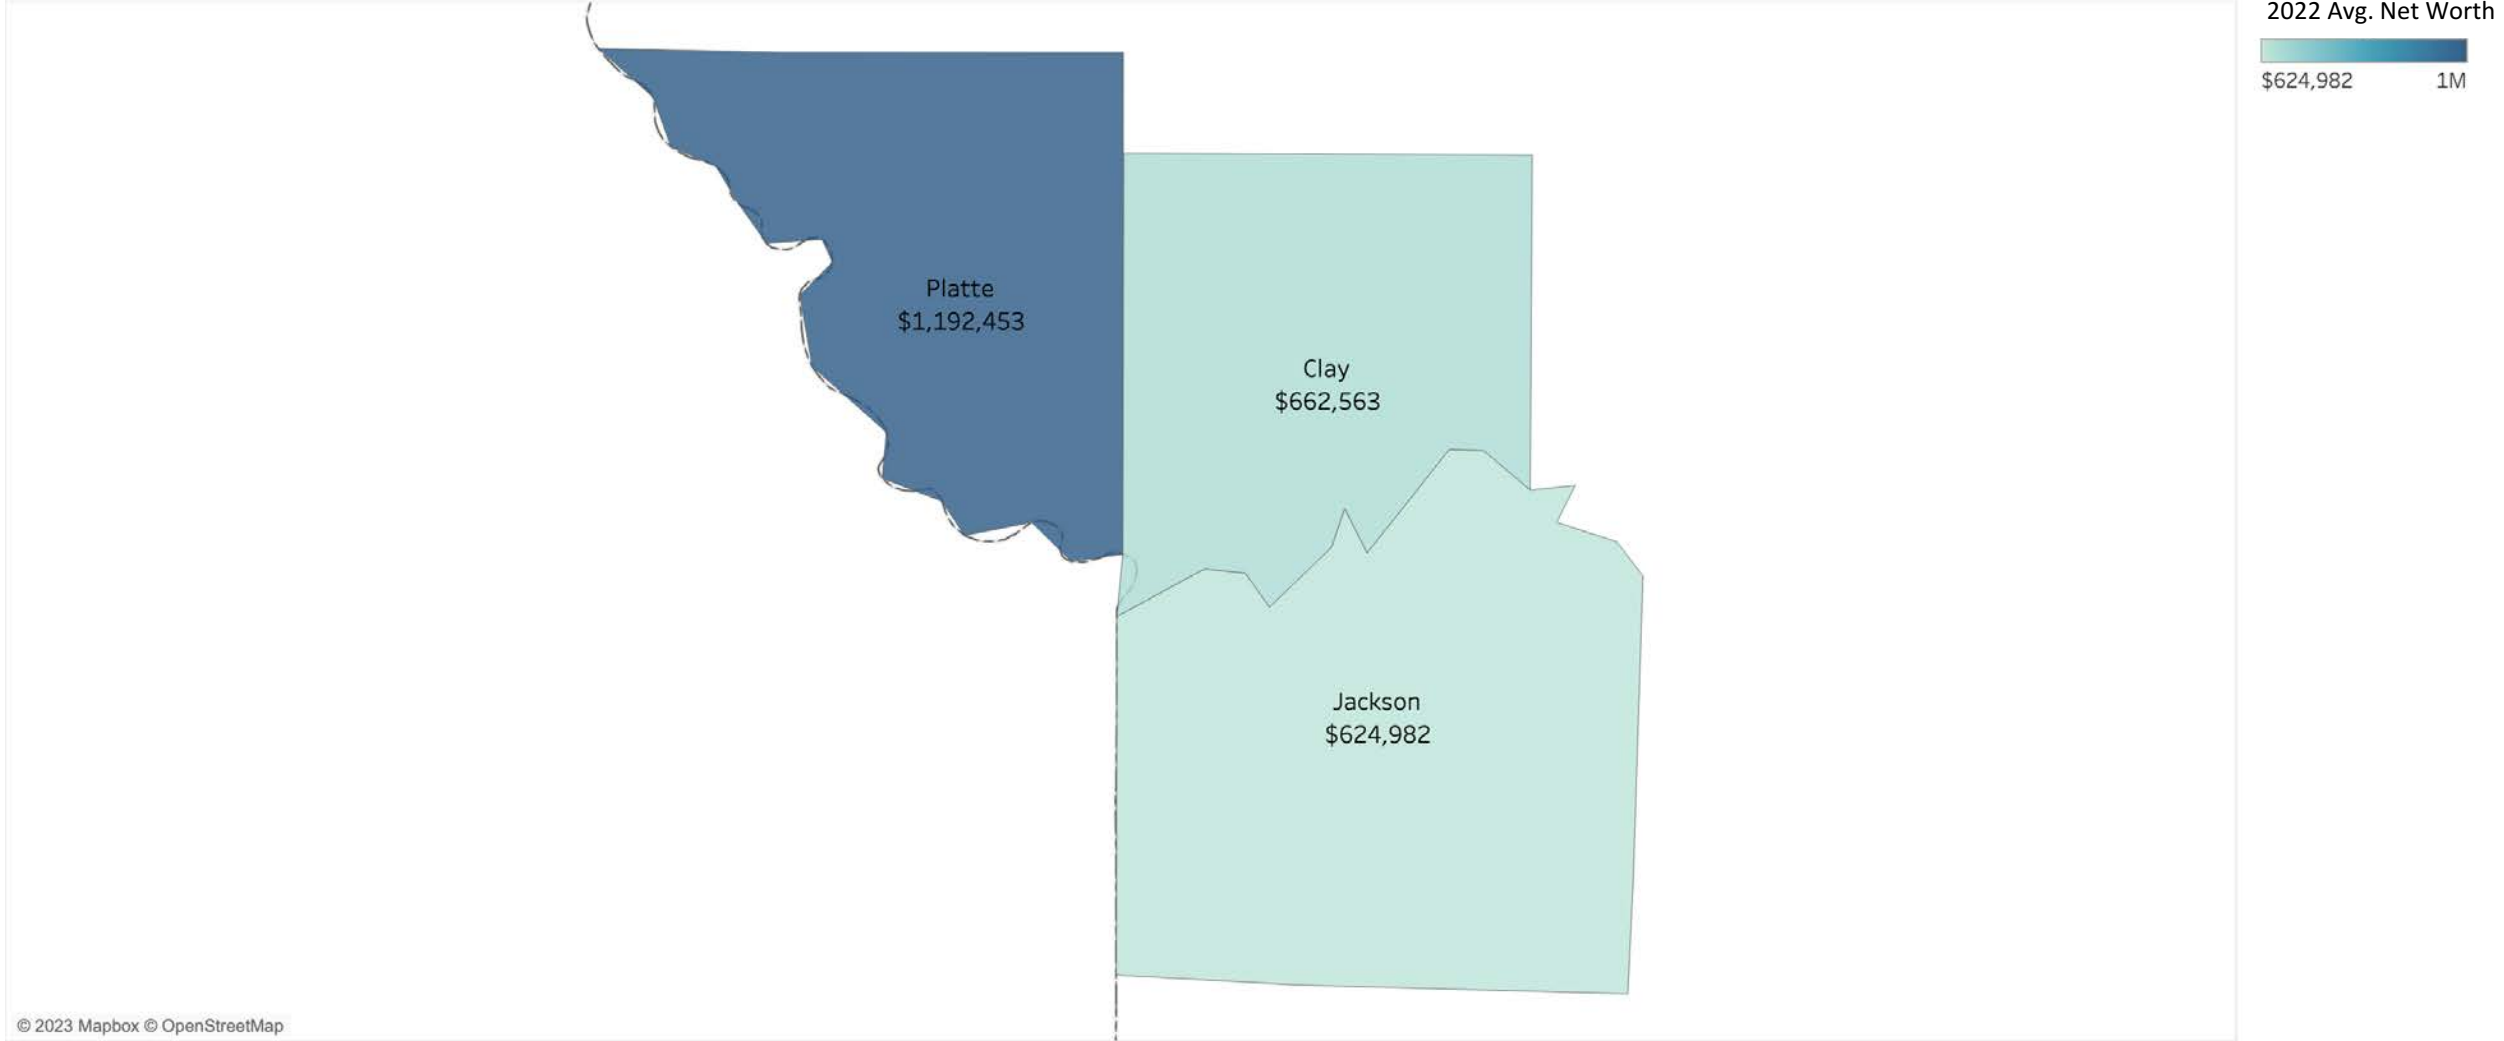

In 2022, Aggregate Net Worth in Greater Kansas City ranged from \$52.43B (Platte) to nearly \$189B in Jackson County.

Source: ESRI

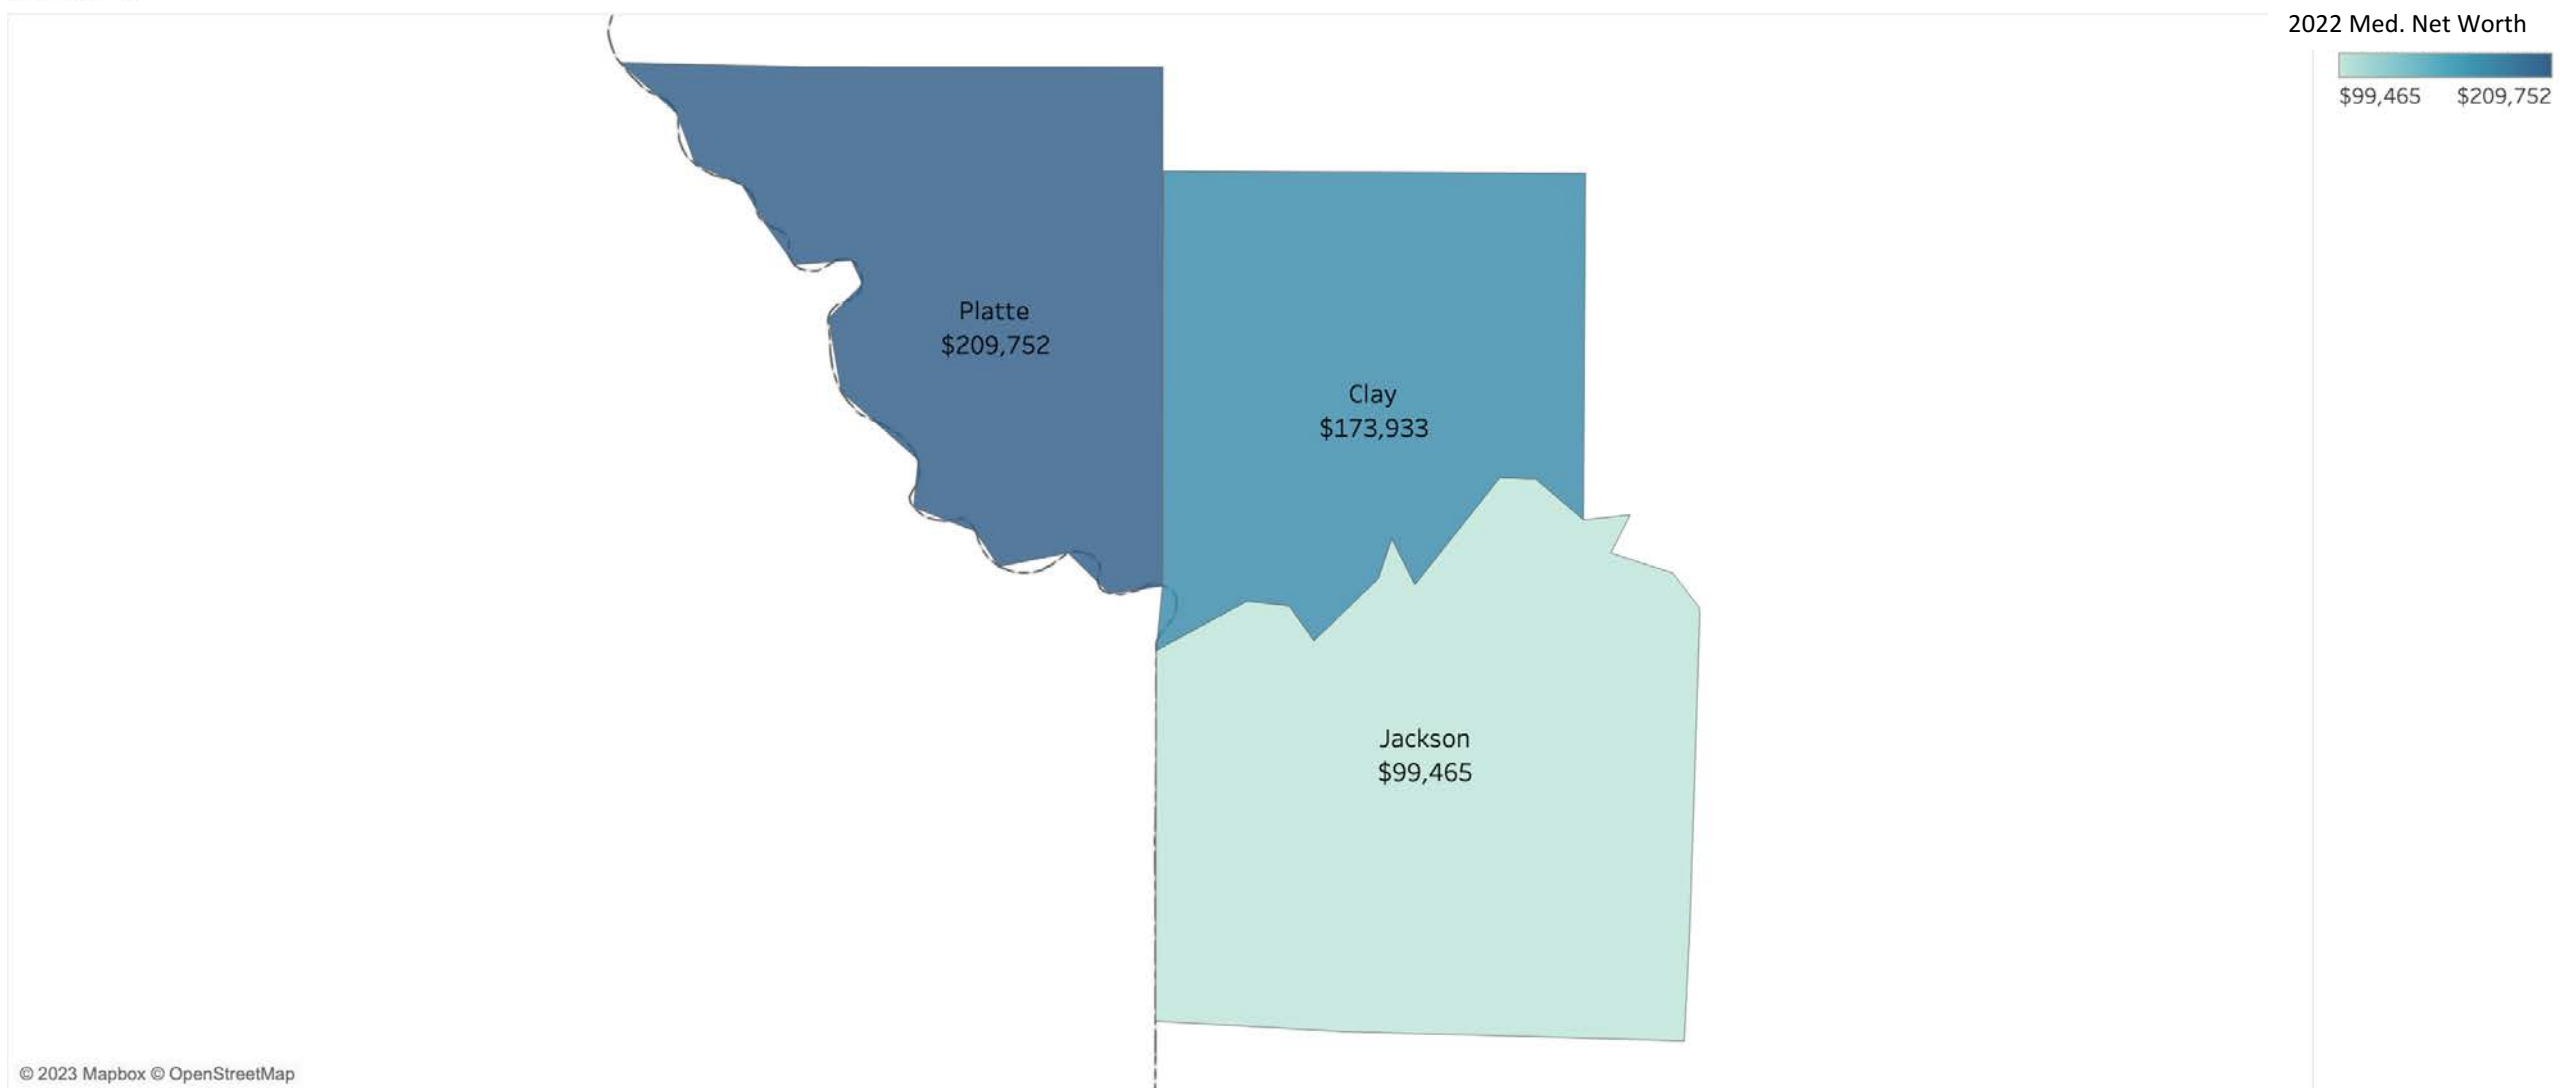

Average Net Worth in Greater Kansas City ranges from \$625,000 in Jackson County to \$1.2 Million in Platte County.

Source: ESRI

Median Net Worth ranges from \$99,465 in Jackson to about \$210,000 in Platte.

Source: ESRI

Summary of population, households, and net worth in the Greater Kansas City foundation region:

Source: ESRI

Region	County	2022 Total Population	2022 Total Households	2022 Aggregate Net Worth	2022 Average Net Worth	2022 Median Net Worth
Greater Kansas City	Clay	259,794	103,026	\$68,259,931,043	\$662,563	\$173,933
	Jackson	726,135	302,322	\$188,935,828,541	\$624,982	\$99,465
	Platte	110,691	43,982	\$52,429,777,199	\$1,192,453	\$209,752

Greater Kansas City

Transfer of Wealth

CCRI CENTER FOR
CIVIC RESEARCH
AND INNOVATION

AN INITIATIVE OF THE ST. LOUIS COMMUNITY FOUNDATION

The Current Value of the Transfer of Wealth opportunity in Greater Kansas City is \$17.13 Billion.

By 2032, estimates show \$23.03 Billion will have transferred in Greater Kansas City

If the Greater Kansas City Community Foundation were to capture 5% of the transfer of wealth over the next ten years, that would amount to \$1.15 Billion in captured funds, with Jackson County accounting for \$766.64 Million.

© 2023 Mapbox © OpenStreetMap

A 5% payout of the captured total would amount to over \$57.57 Million reinvested into the region's communities – ranging from \$7M in Platte County to over \$38 Million in Jackson County over the next ten years.

Over the next 50 years, the Greater Kansas City Community Foundation anticipates over \$75 Billion in wealth to transfer.

A 5% capture for Greater Kansas City over the next 50 years would amount to \$3.76 Billion collected by the community foundation.

In terms of payout, \$188 Million would account for 5% of the captured total being reinvested throughout Greater Kansas City over the next 50 years – ranging from \$23 Million in Platte County to over \$125 Million in Jackson County.

Northwest Missouri

Demographics and Net Worth

Population in the Northwest Missouri foundation region has declined by 6% since 2010, with a continued decrease expected.

Source: ESRI

All levels of urbanization experienced a population decline in Northwest Missouri, though that of the Large Fringe Metro is minimal.

Source: ESRI

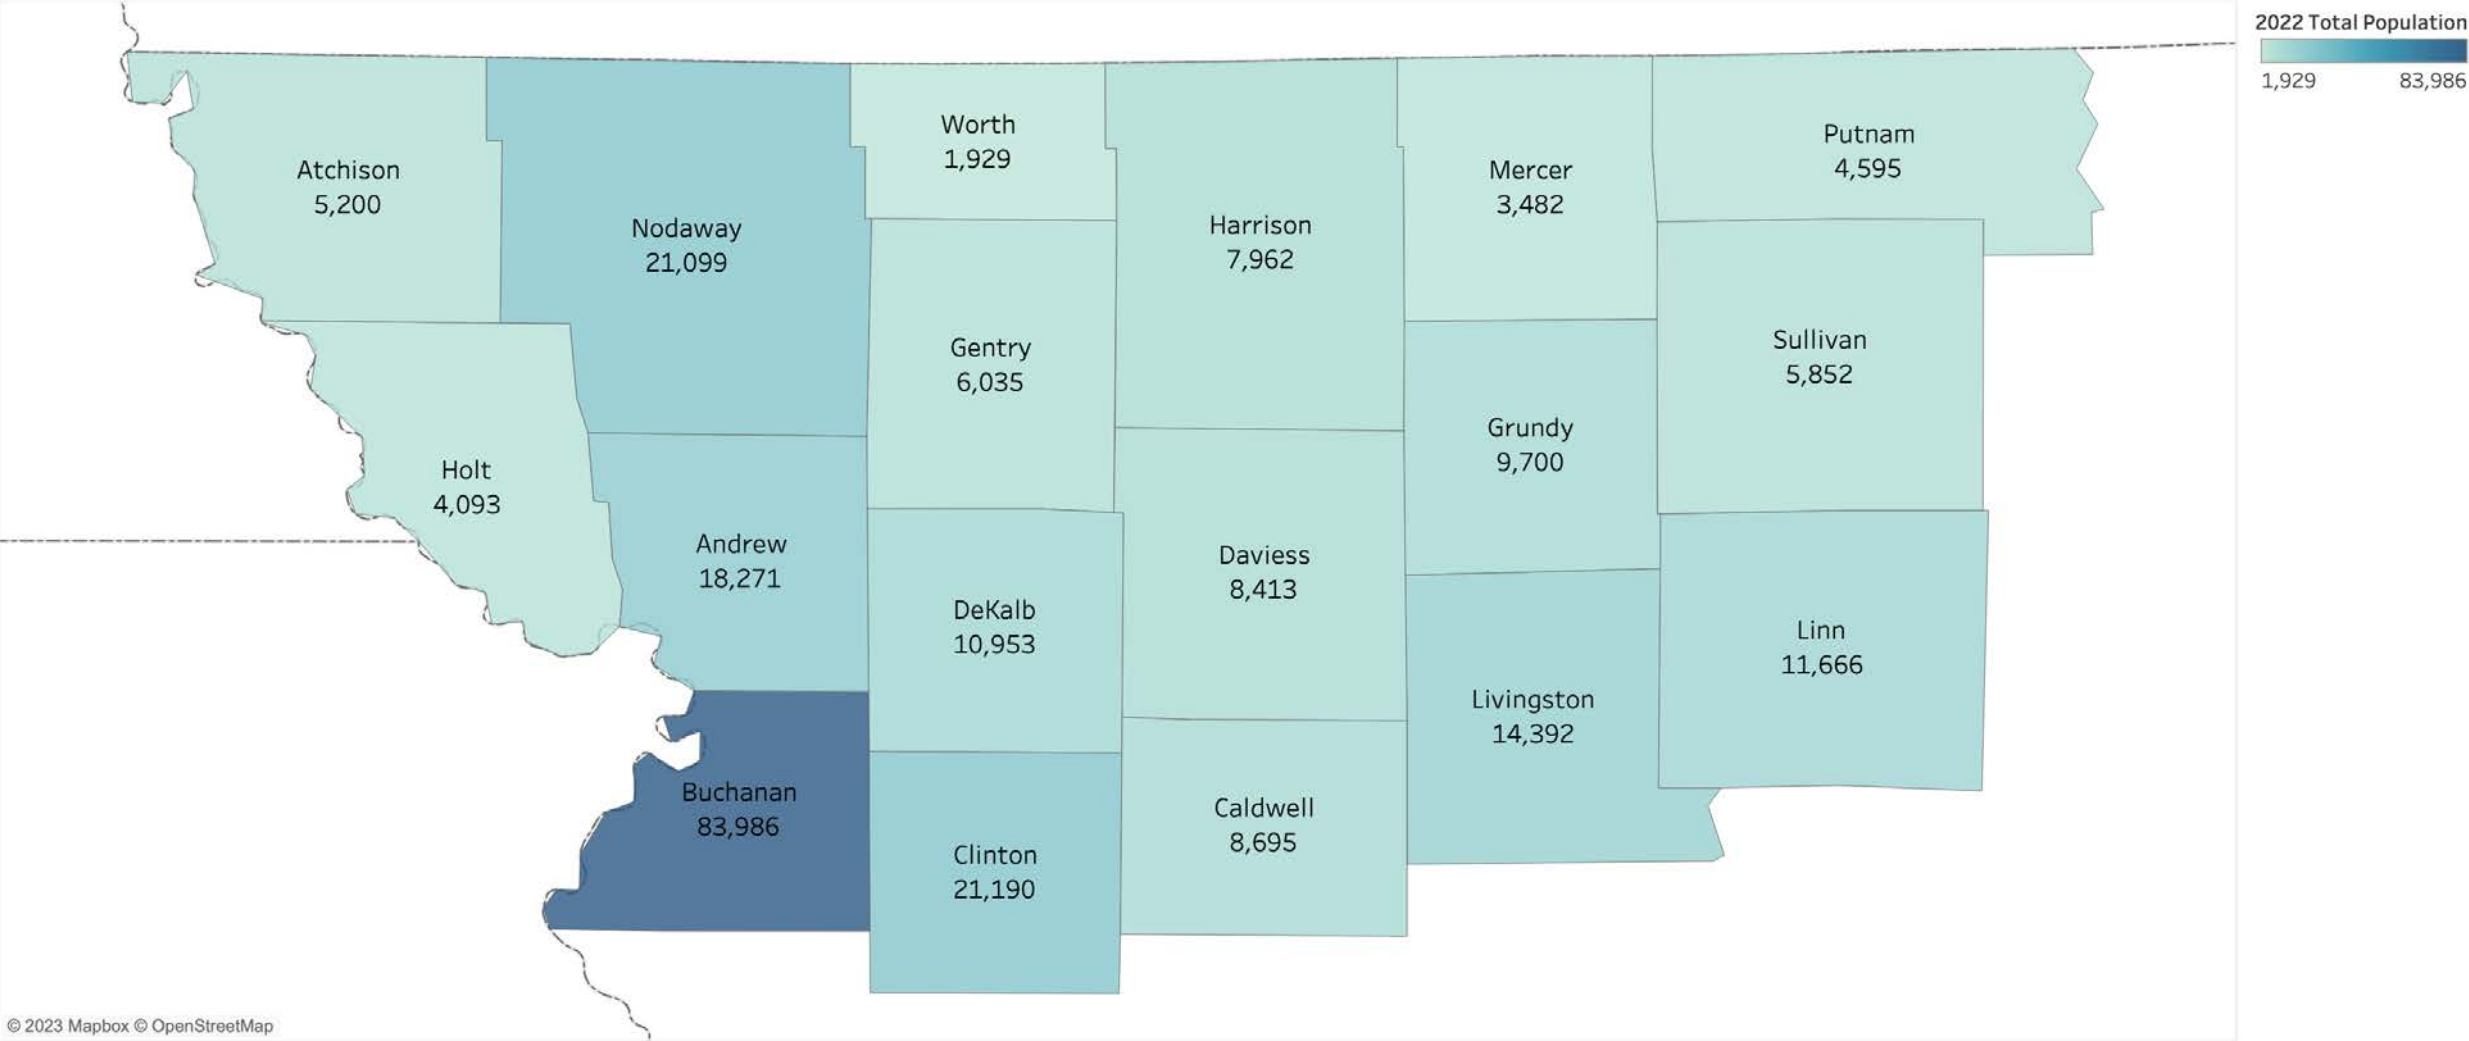

In raw totals, Buchanan County has experienced the steepest population loss – down over 5,000 residents since 2010.

Source: ESRI

Population in the Northwest Missouri region currently ranges from 1,929 in Worth County to nearly 84,000 in Buchanan County.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Population in the Northwest Missouri region currently ranges from 1,929 in Worth County to nearly 84,000 in Buchanan County.

Source: ESRI

While the Large Fringe Metro had a slight decline in population, it's seen a small uptick in number of households. Meanwhile, there are about 3,000 fewer households in the rural (noncore) counties of Northwest Missouri.

Source: ESRI

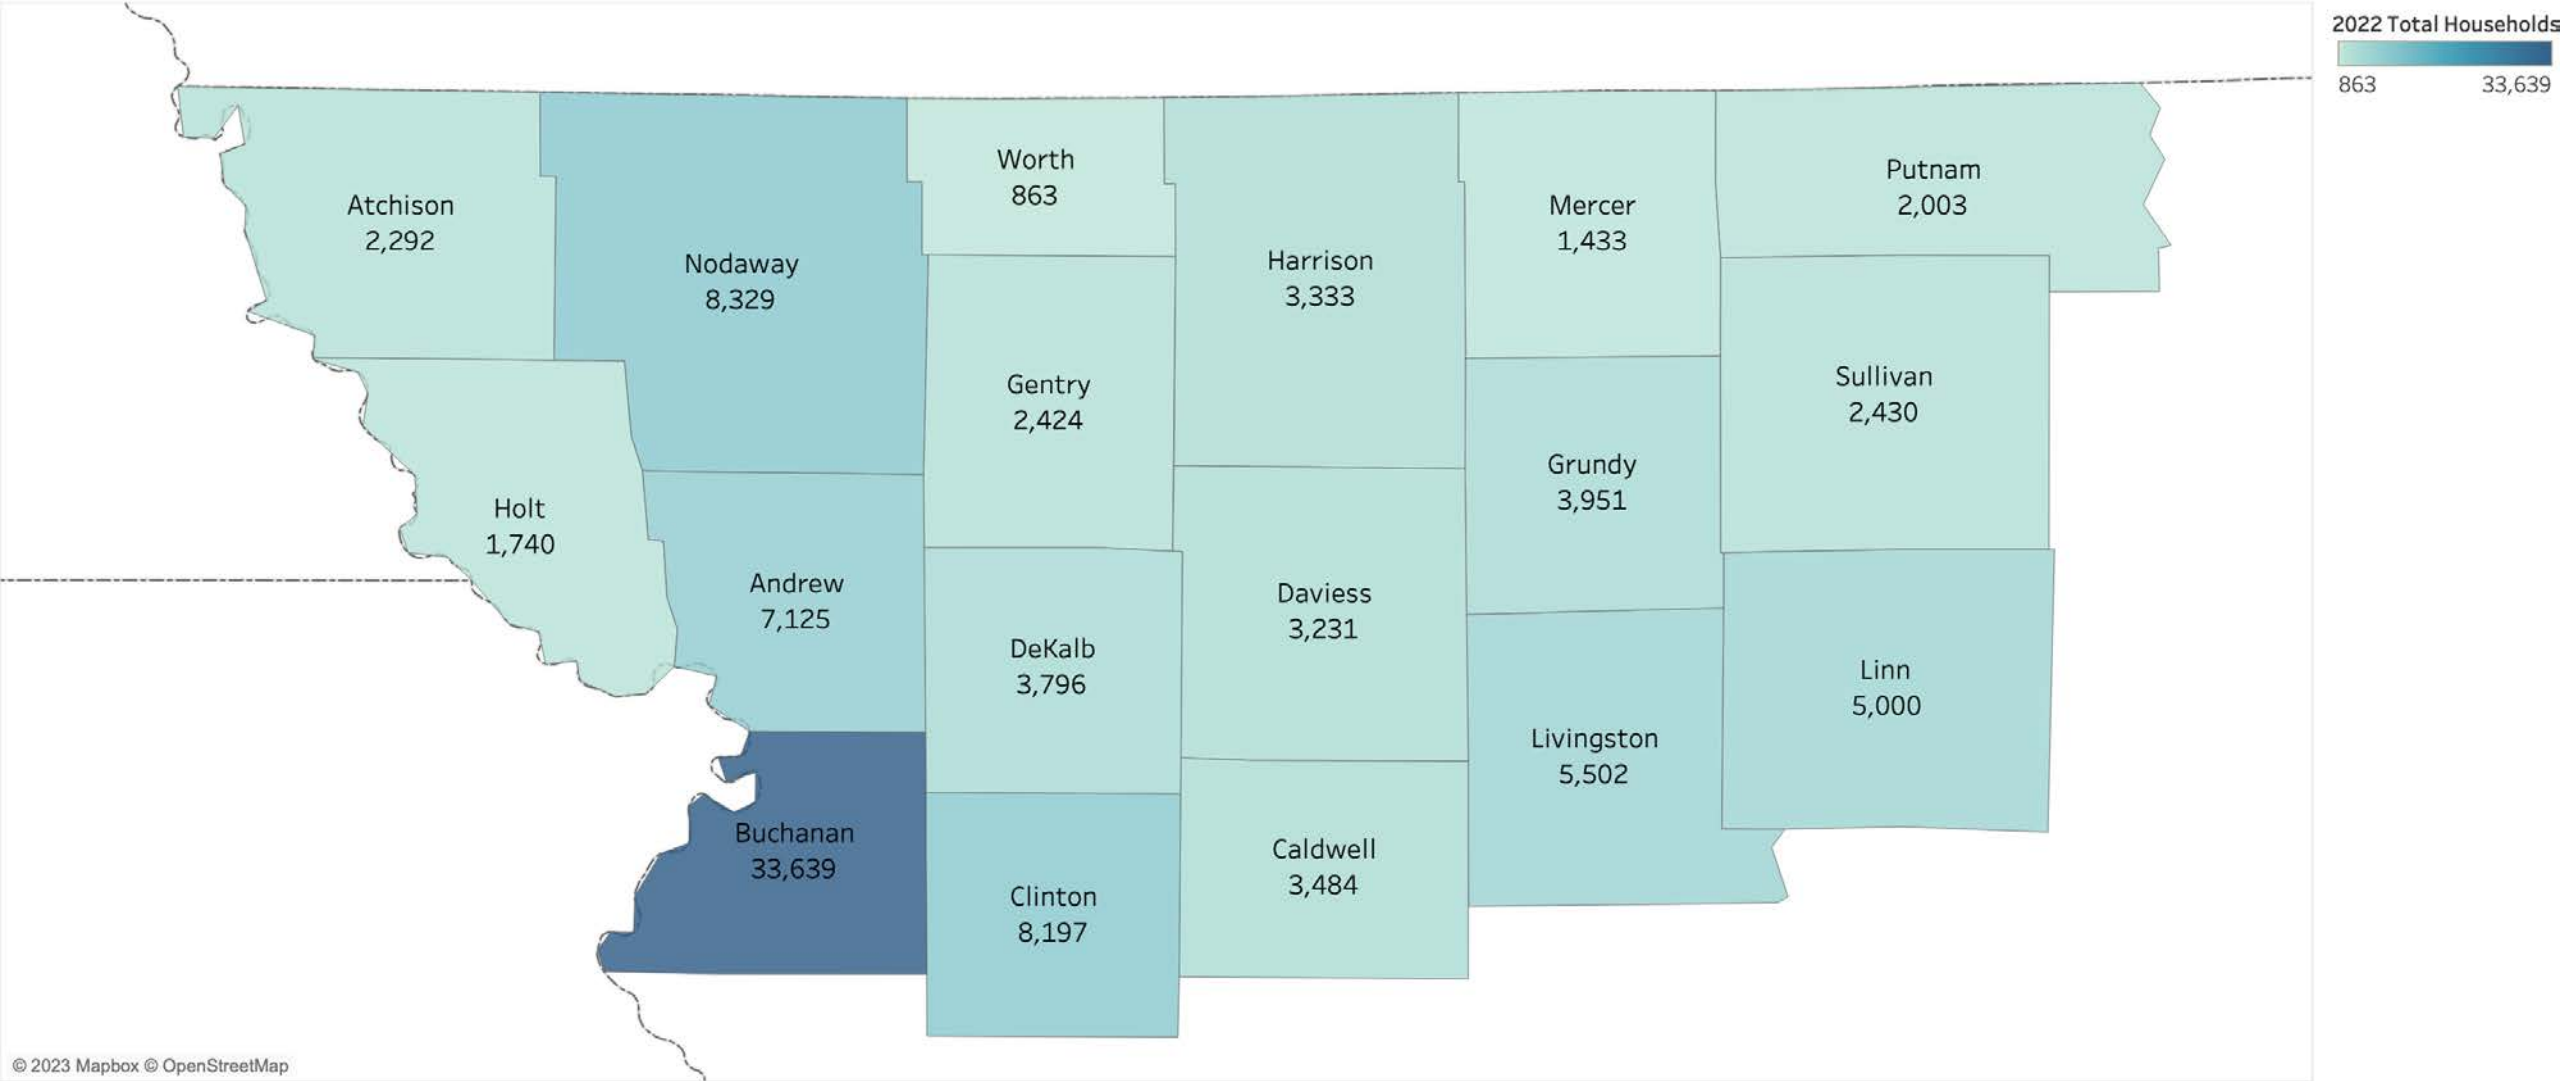

Andrew and Clinton counties have seen a noticeable increase in household totals, while others have declined or stayed consistent.

Source: ESRI

Current total households in Northwest Missouri range from 863 in Worth County to 33,639 in Buchanan County.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Average household size has declined slightly in Northwest Missouri, but relatively stable overall.

Source: ESRI

Stability in average household size is present in each level of urbanization throughout Northwest Missouri.

Source: ESRI

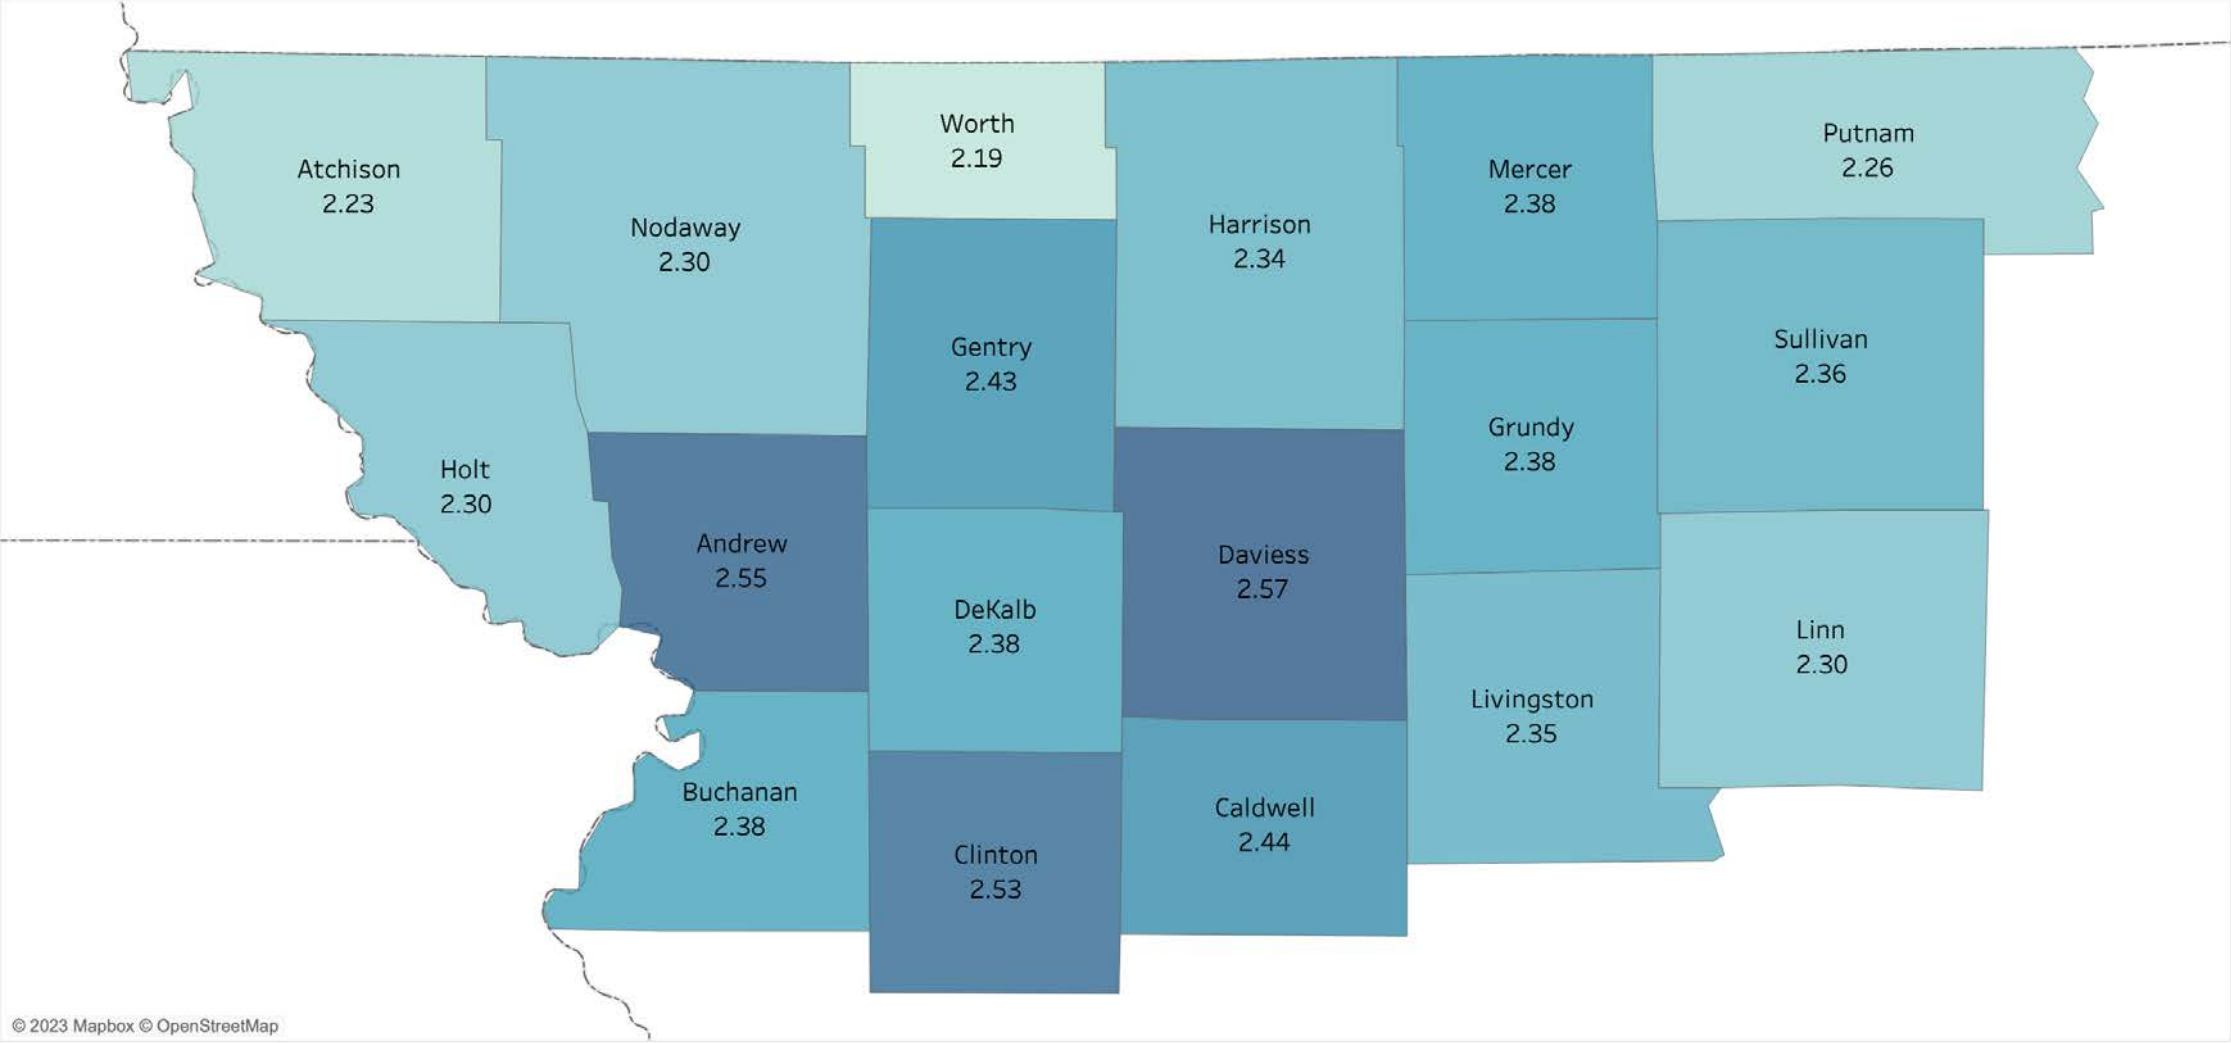

By county in Northwest Missouri, average household size varies, with some counties experiencing steeper declines.

Source: ESRI

Average household size in Northwest Missouri ranges from 2.19 in Worth County to 2.57 in Daviess County.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

The Northwest Missouri region is getting older overall, with an expected 2.5-year increase in Median Age between 2010-2027.

Source: ESRI

All levels of urbanization are aging, but Median Age in the Micropolitan counties of Northwest Missouri has jumped 18.8% since 2010.

Source: ESRI

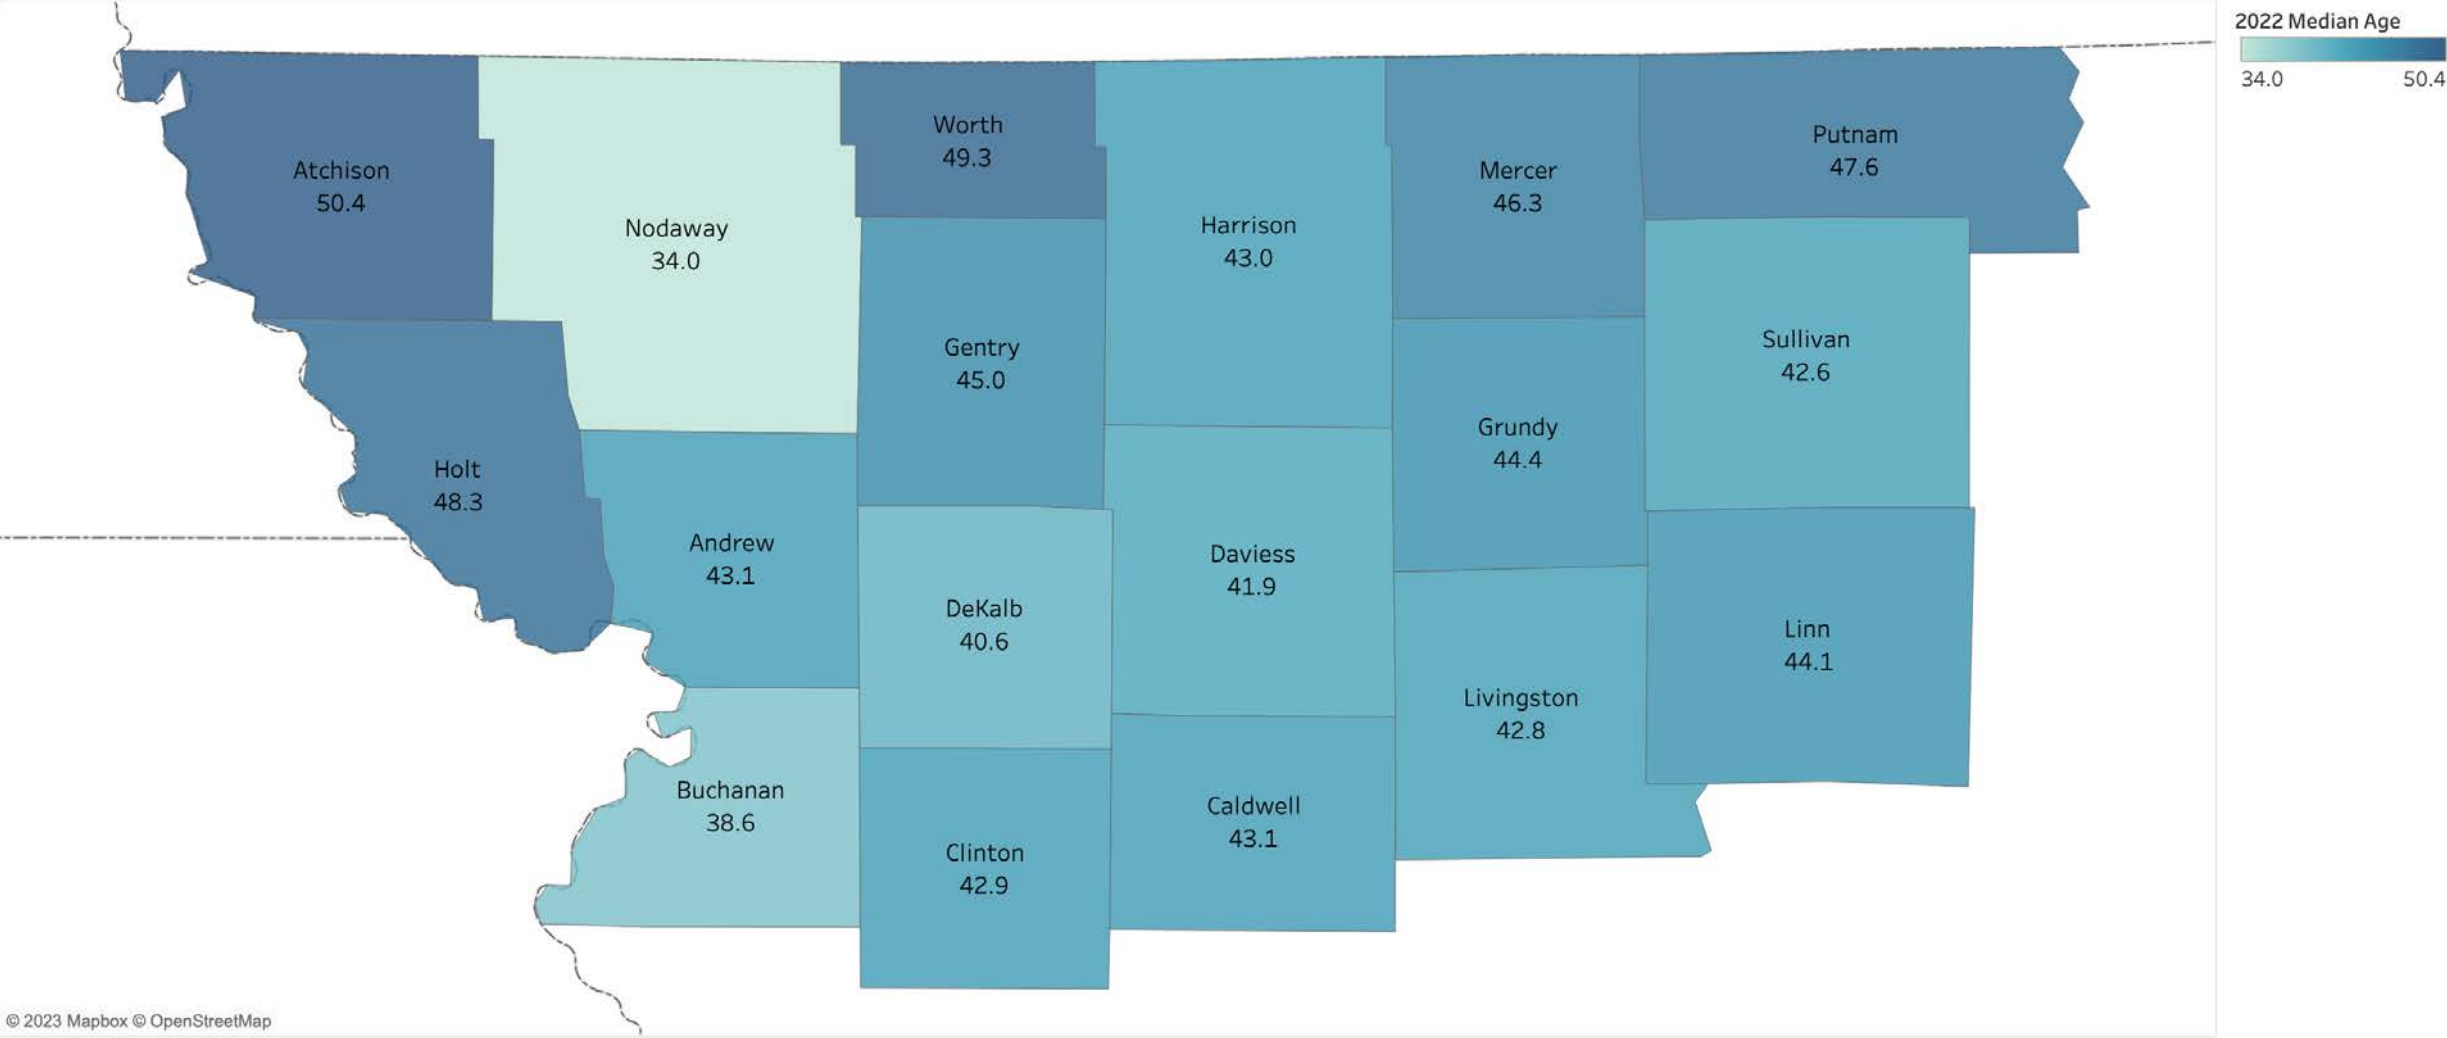

Except for Nodaway County, all counties in Northwest Missouri will have a Median Age of 40 or older by 2027. Atchison County is among the oldest in the state with a current Median Age of 50.4.

Source: ESRI

Current Median Age in Northwest Missouri ranges from 34 years in Nodaway County to 50.4 years in Atchison County.

Northwest Missouri

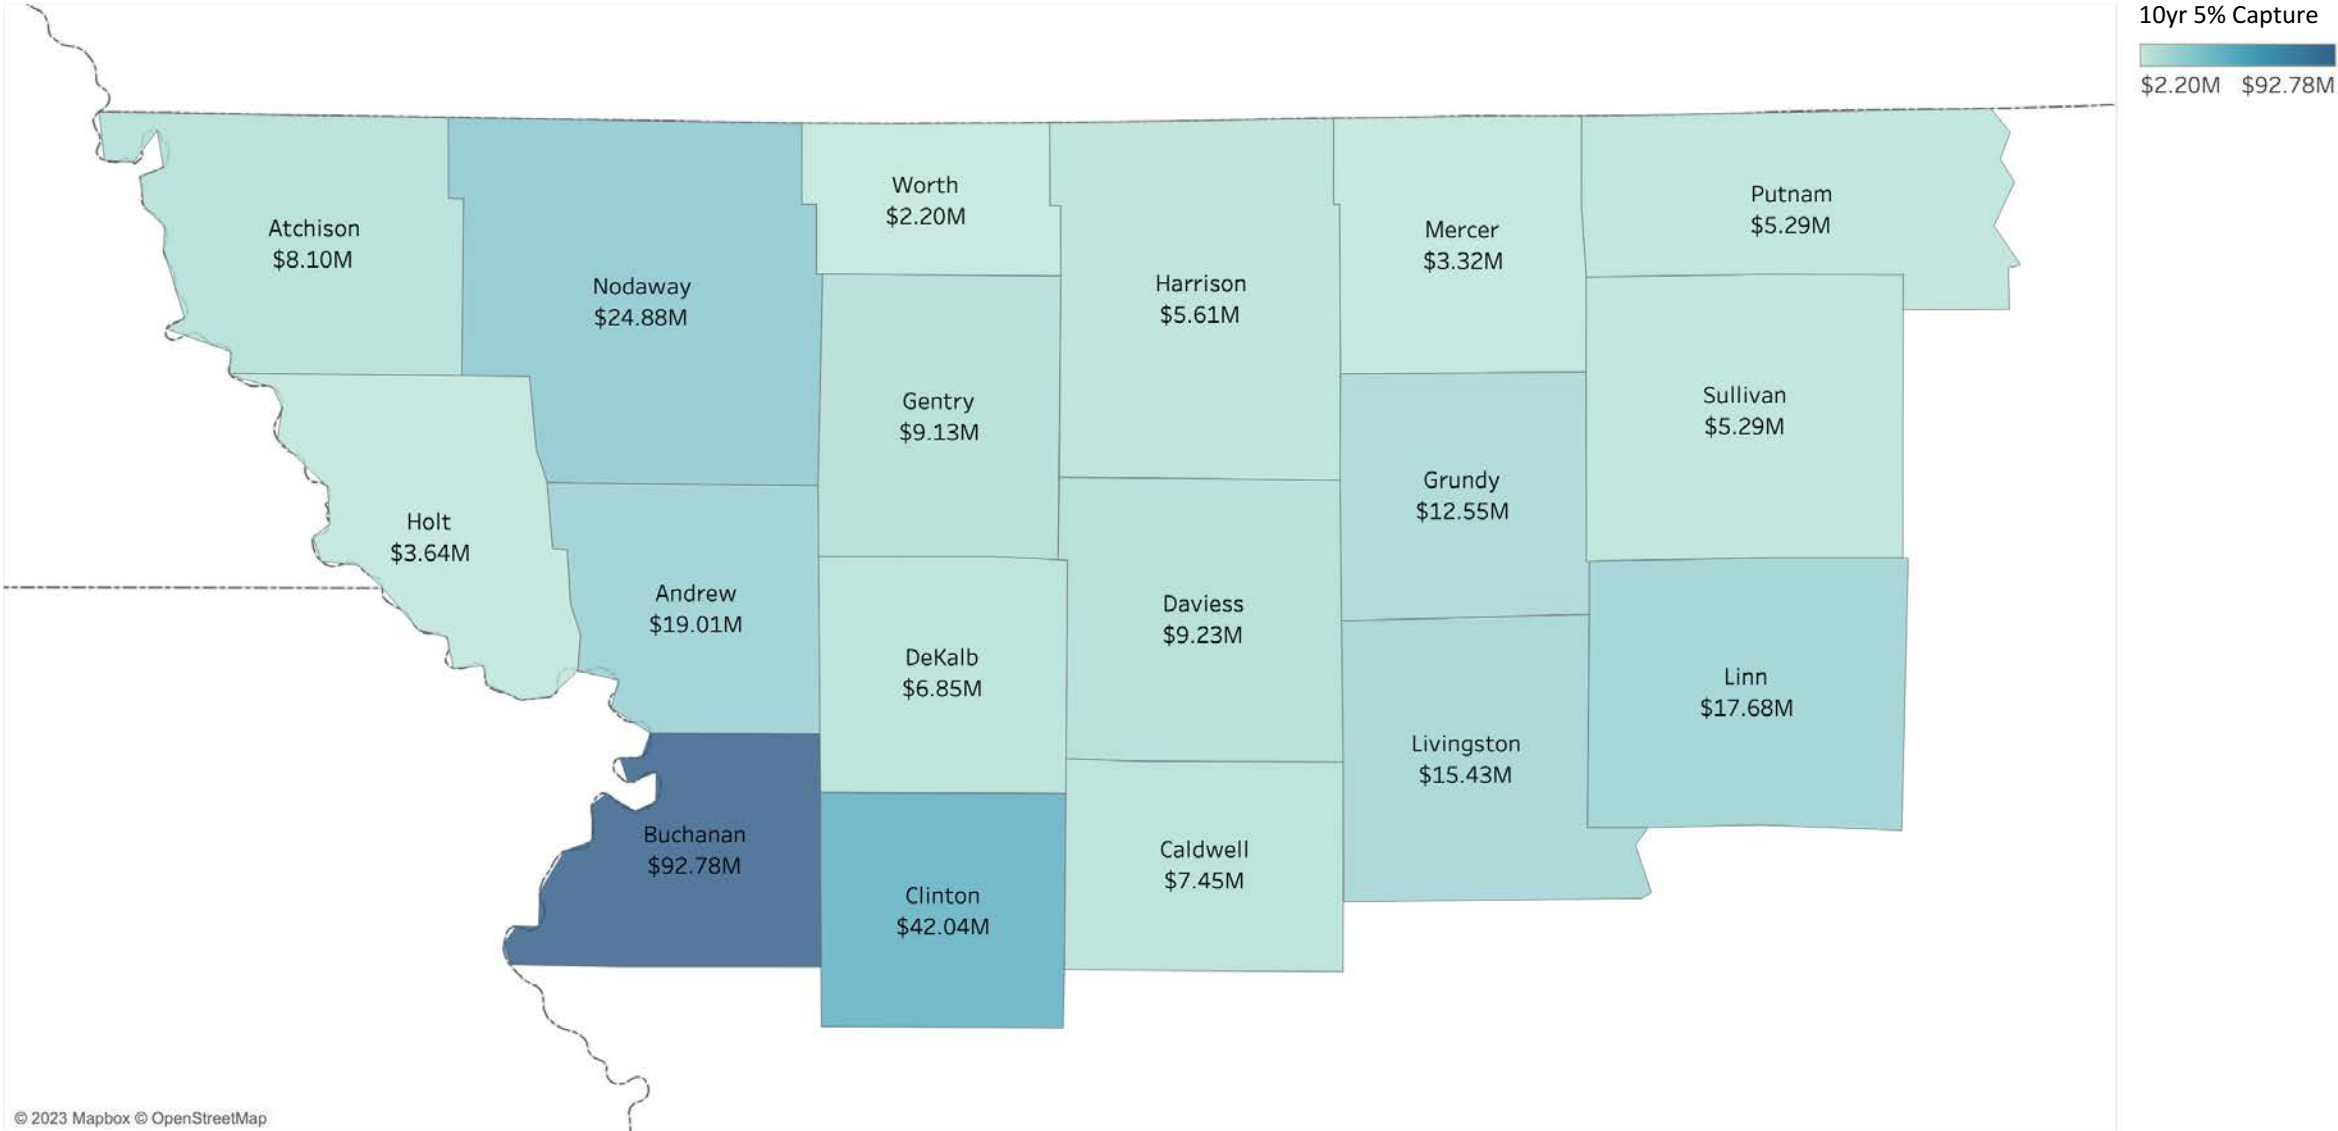

Transfer of Wealth

Over the next ten years, \$5.8 Billion will transfer among families in Northwest Missouri.

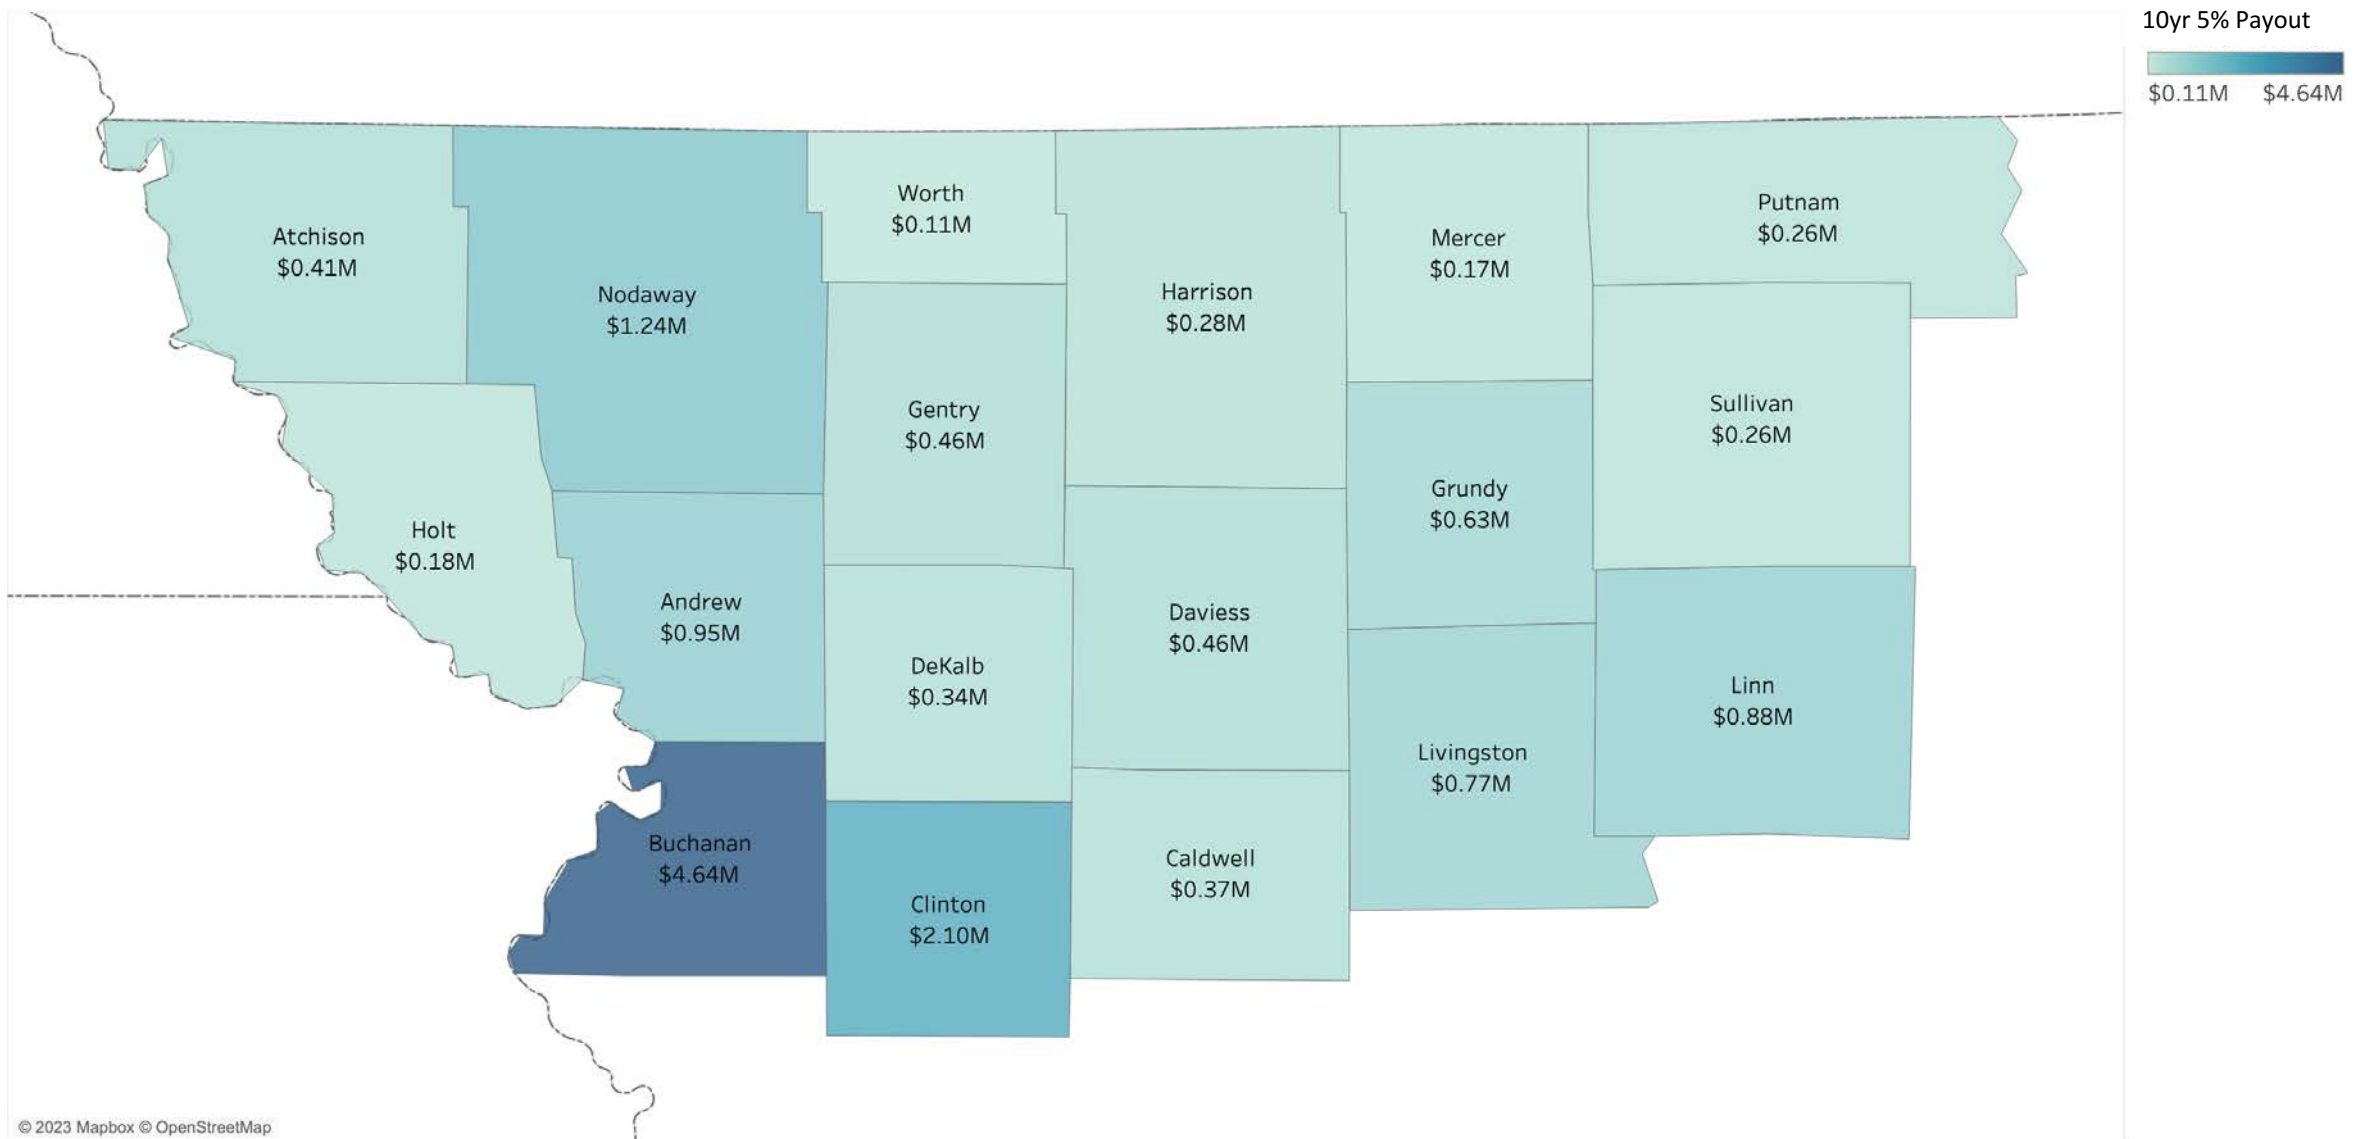

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the transfer of wealth over the next ten years accounts for \$290.5 Million to Northwest Missouri foundations.

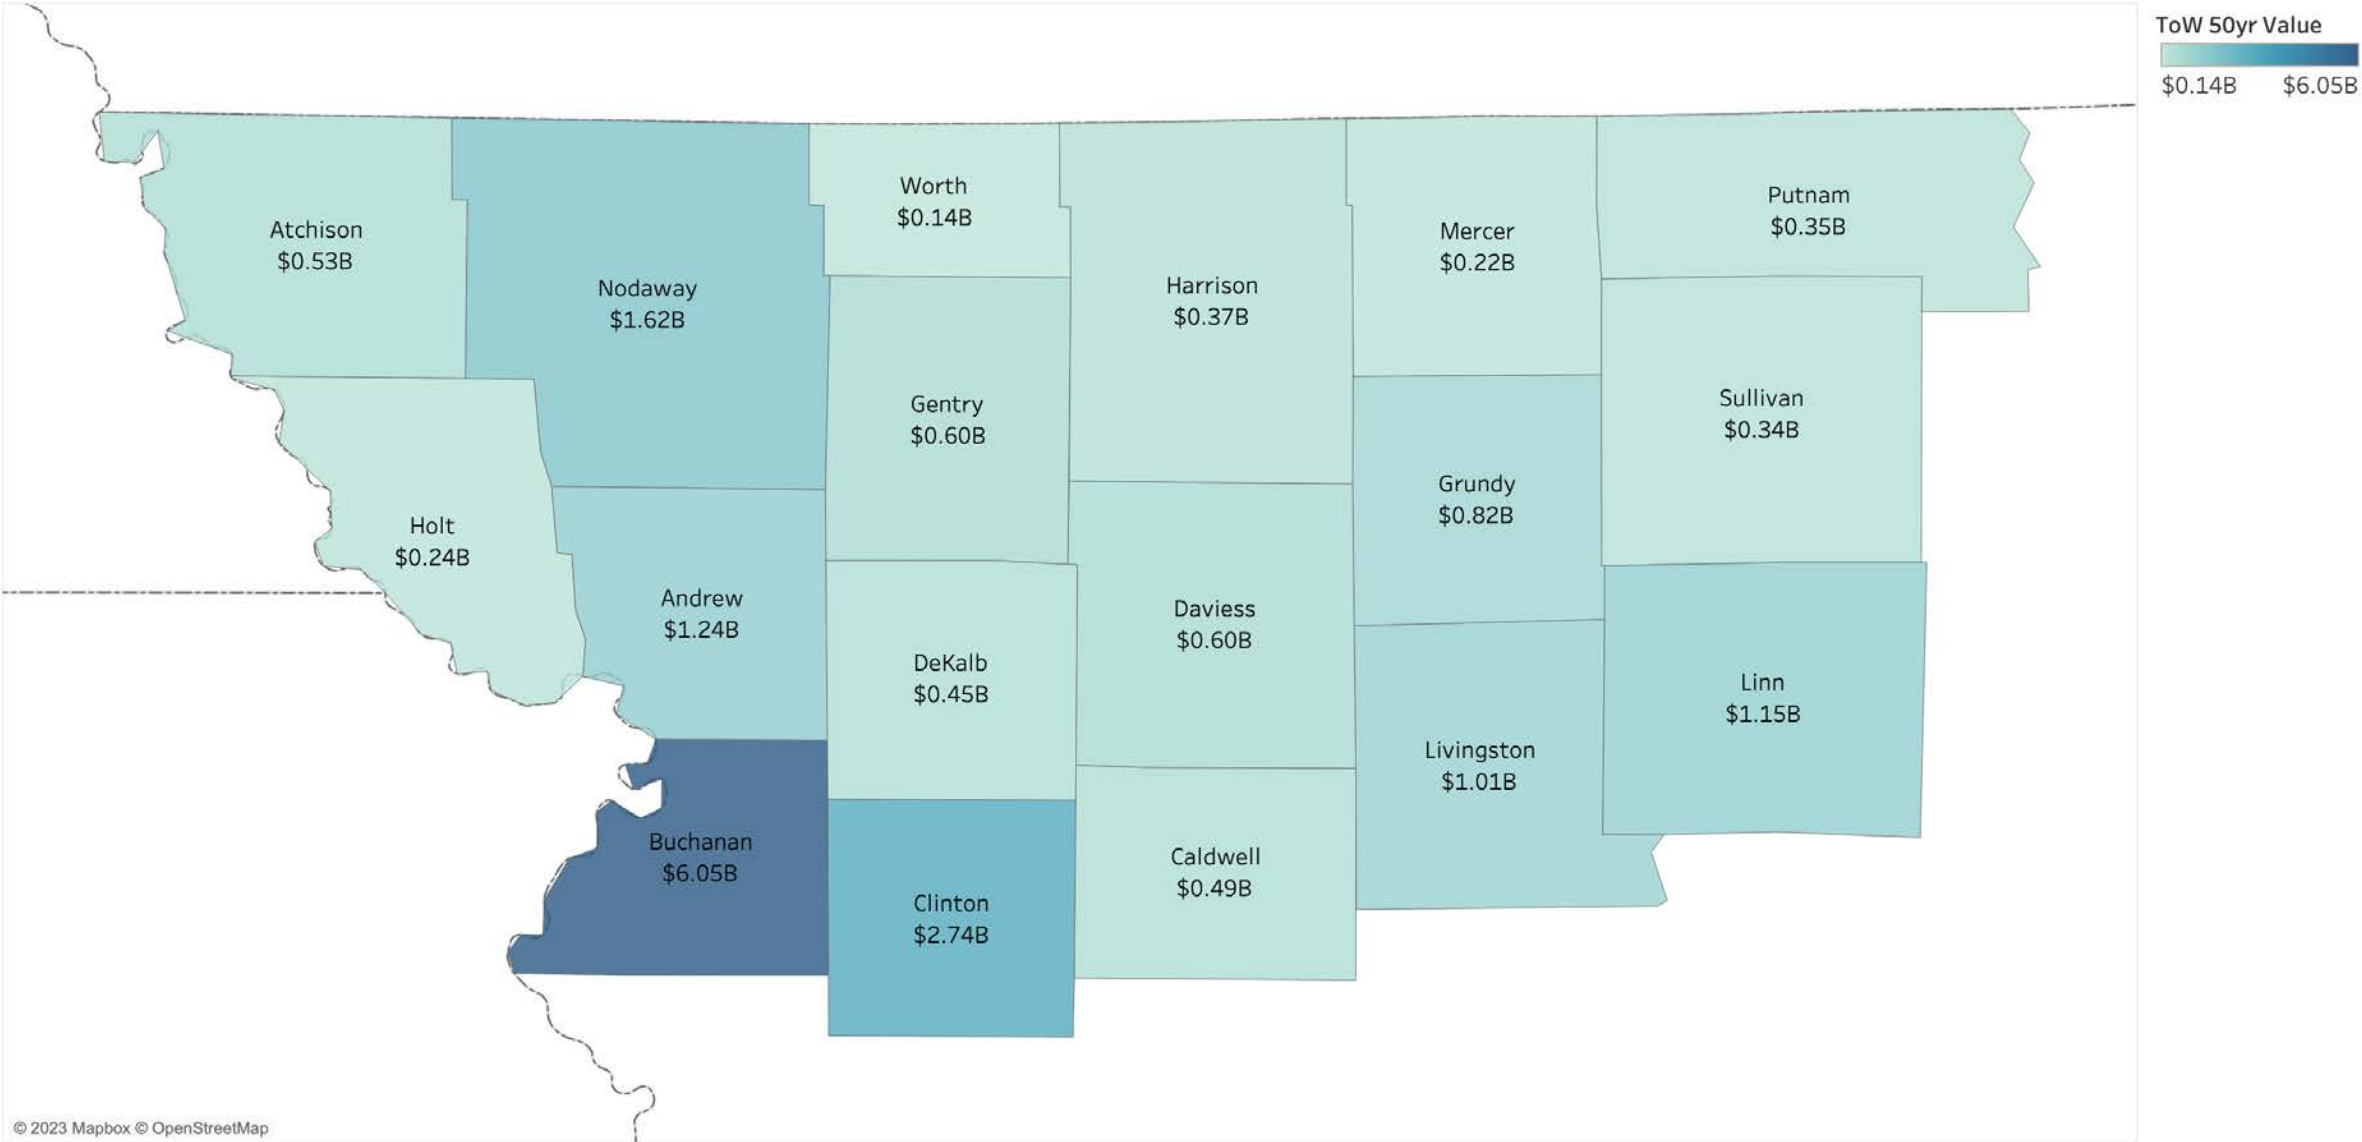

© 2023 Mapbox © OpenStreetMap

Investing 5% of the amount captured would lead to a payout of \$14.5 Million to Northwest Missouri communities by 2032.

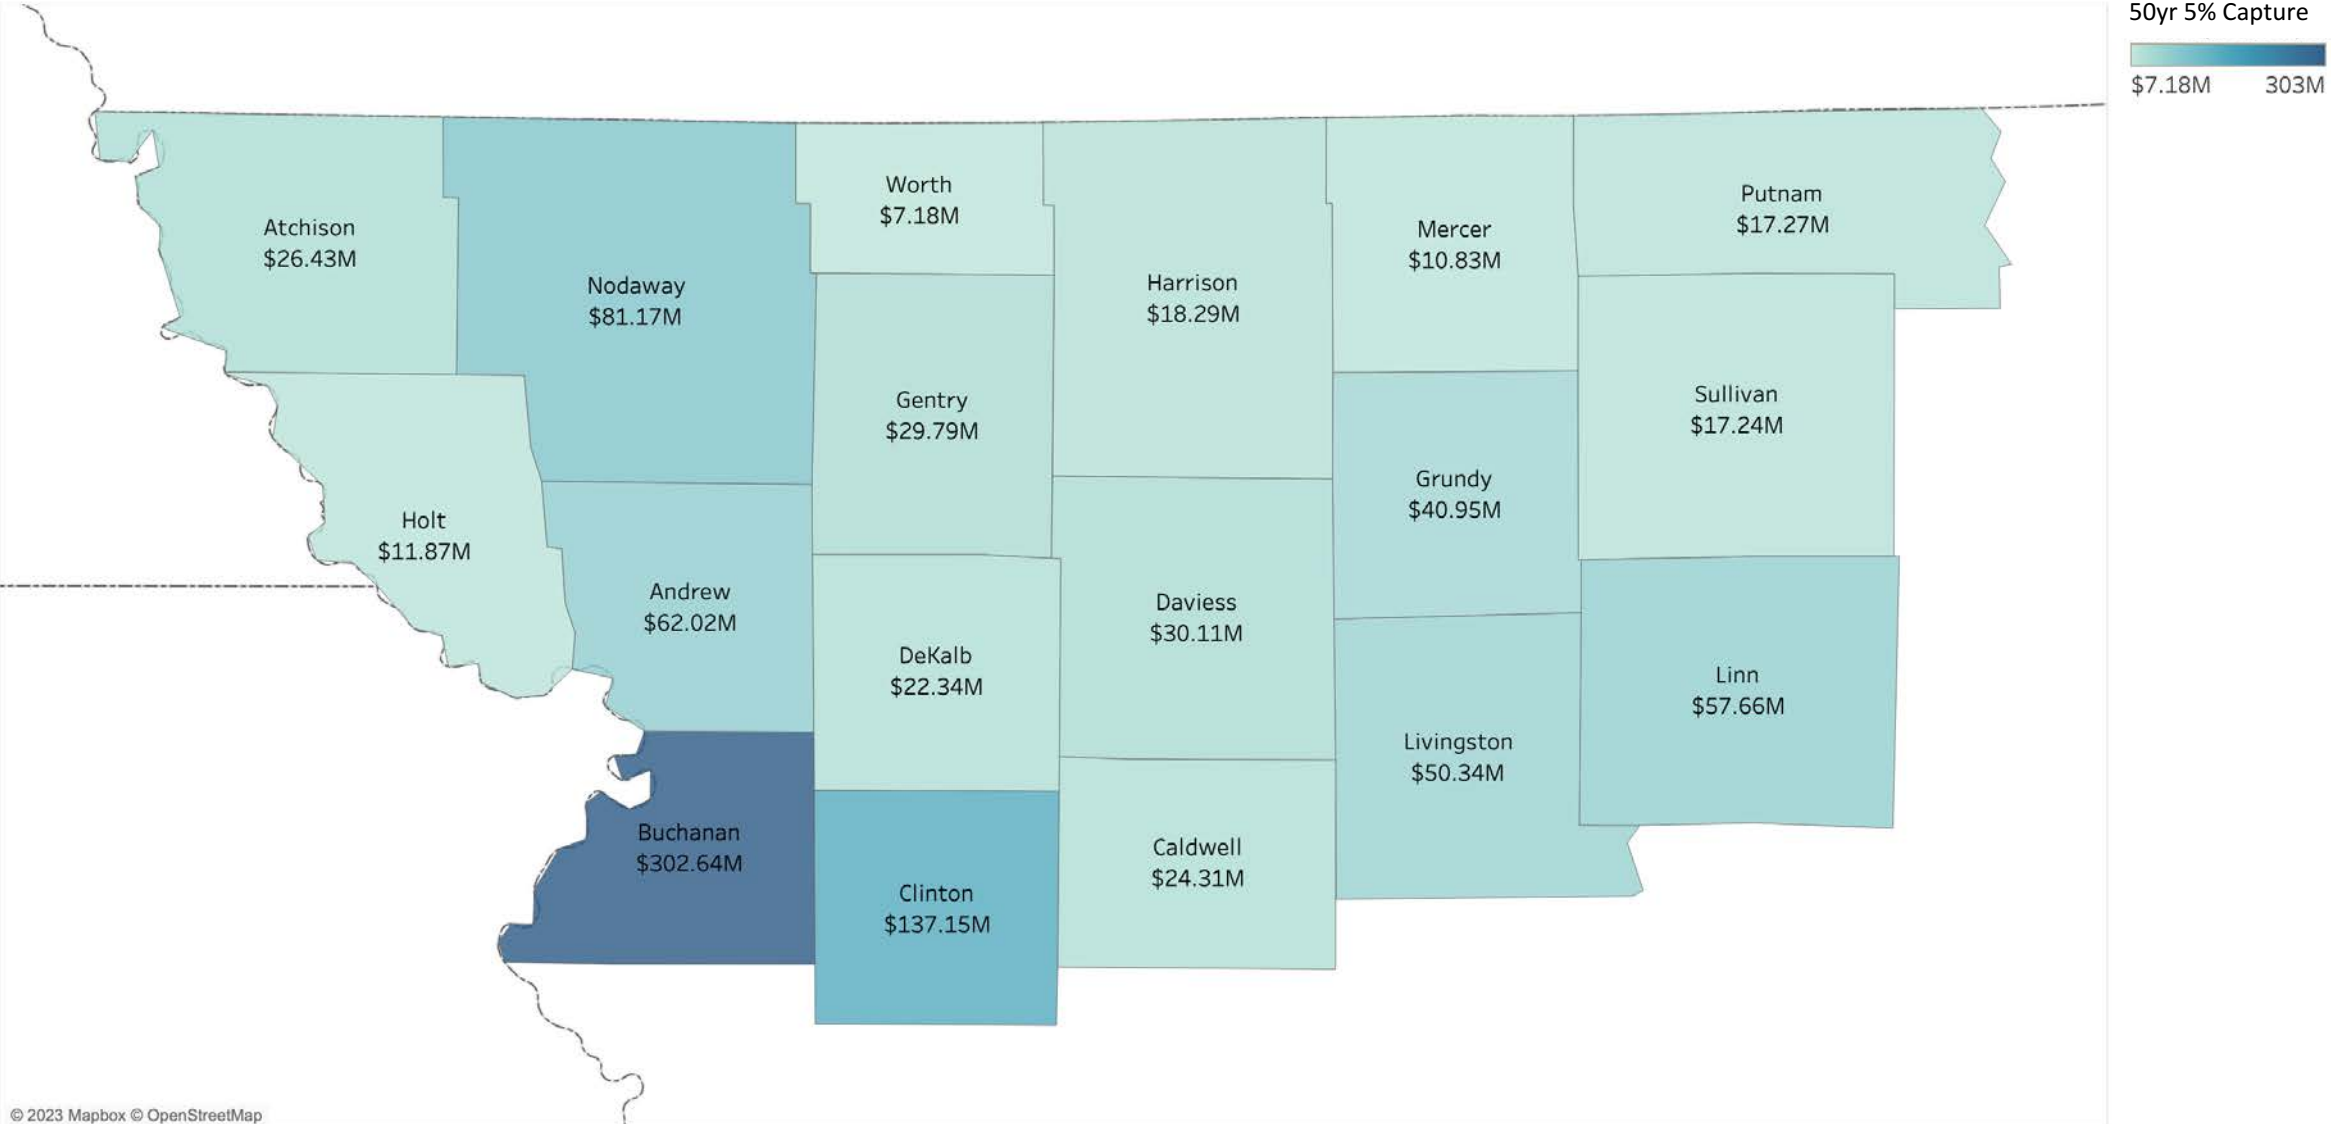

© 2023 Mapbox © OpenStreetMap

Over the next 50 years, the Transfer of Wealth Opportunity in Northwest Missouri is projected to be \$18.9 Billion.

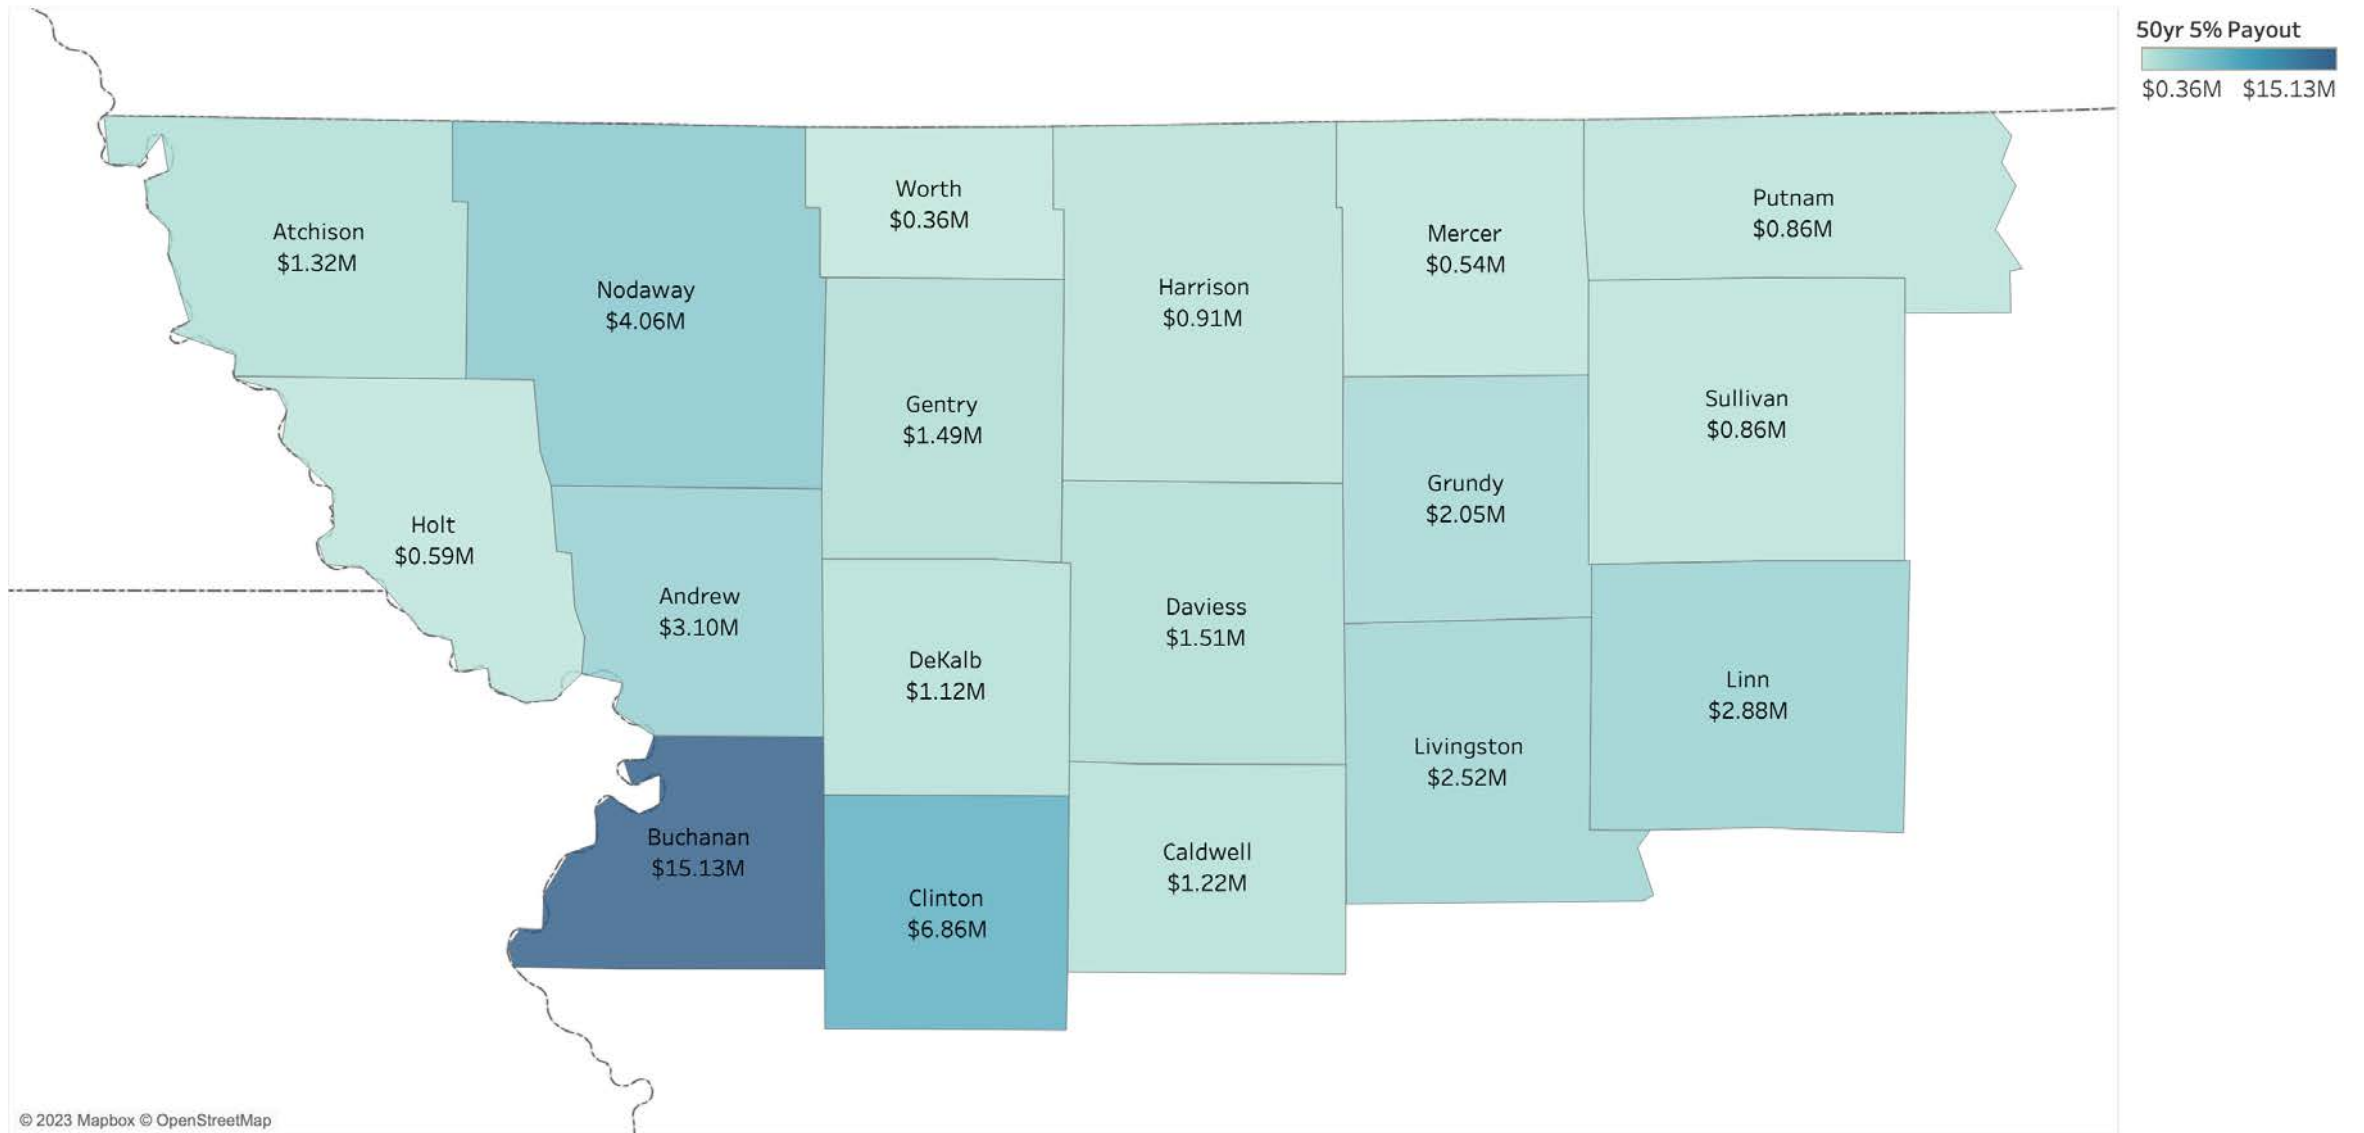

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the Transfer of Wealth in Northwest Missouri over the next 50 years would lead to \$947.6 Million in captured funds.

© 2023 Mapbox © OpenStreetMap

A 5% payout of captured totals over the next 50 years would lead to \$47.4 Million invested in Northwest Missouri communities.

© 2023 Mapbox © OpenStreetMap

Ozarks

Demographics and Net Worth

The Ozarks region encompasses 63 counties (over half of Missouri) and serves the largest population of AMCF regions - 2.3 Million.

Source: ESRI

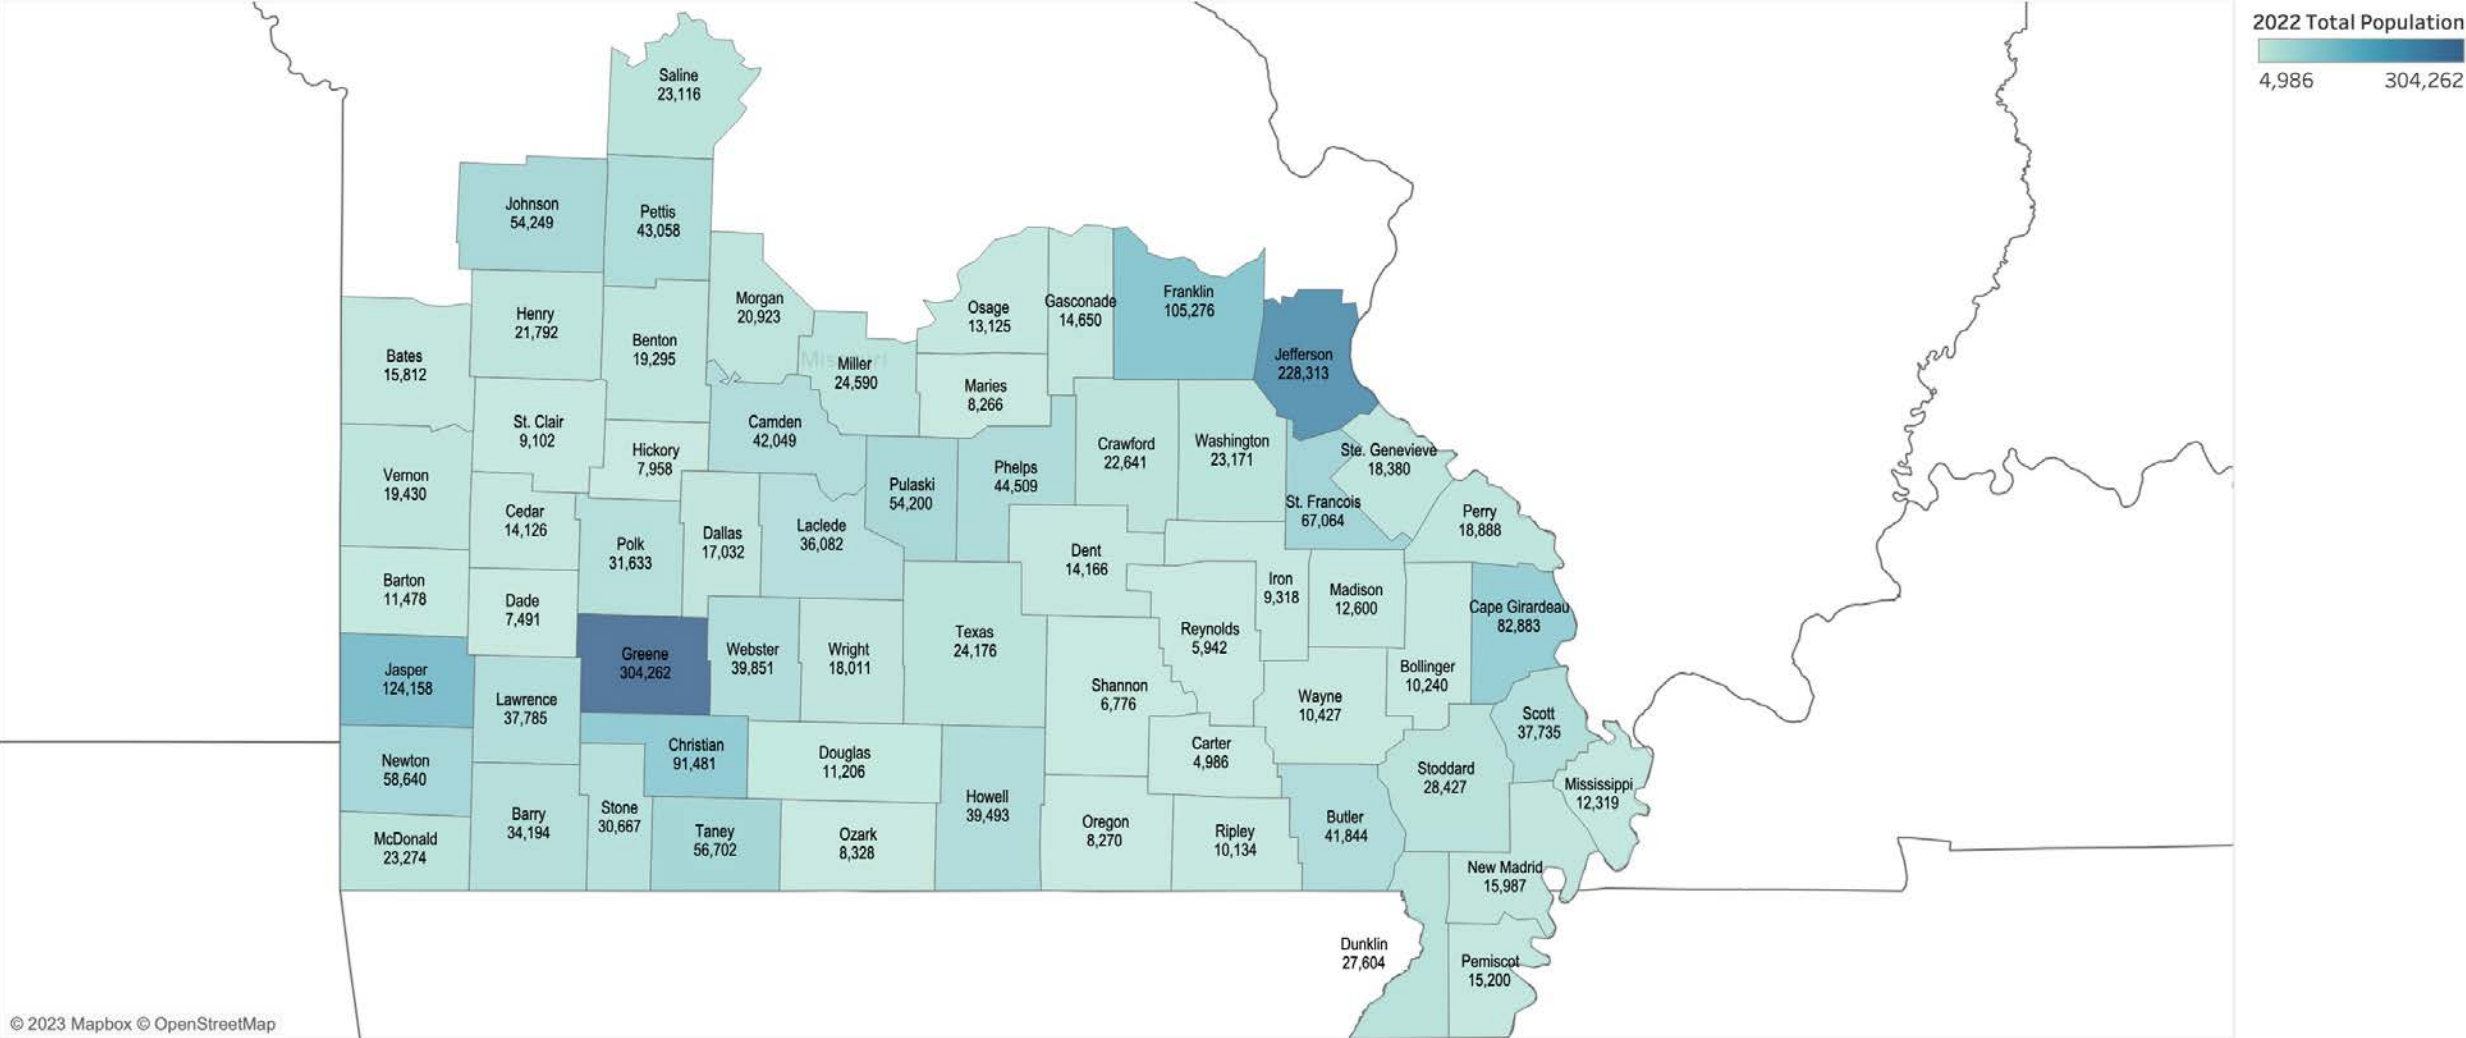

The Ozarks region includes all levels of urbanization, except for a Large Central Metro.

Source: ESRI

Population in the Ozarks region ranges from 5,000 residents in Carter County to over 300,000 in Green County.

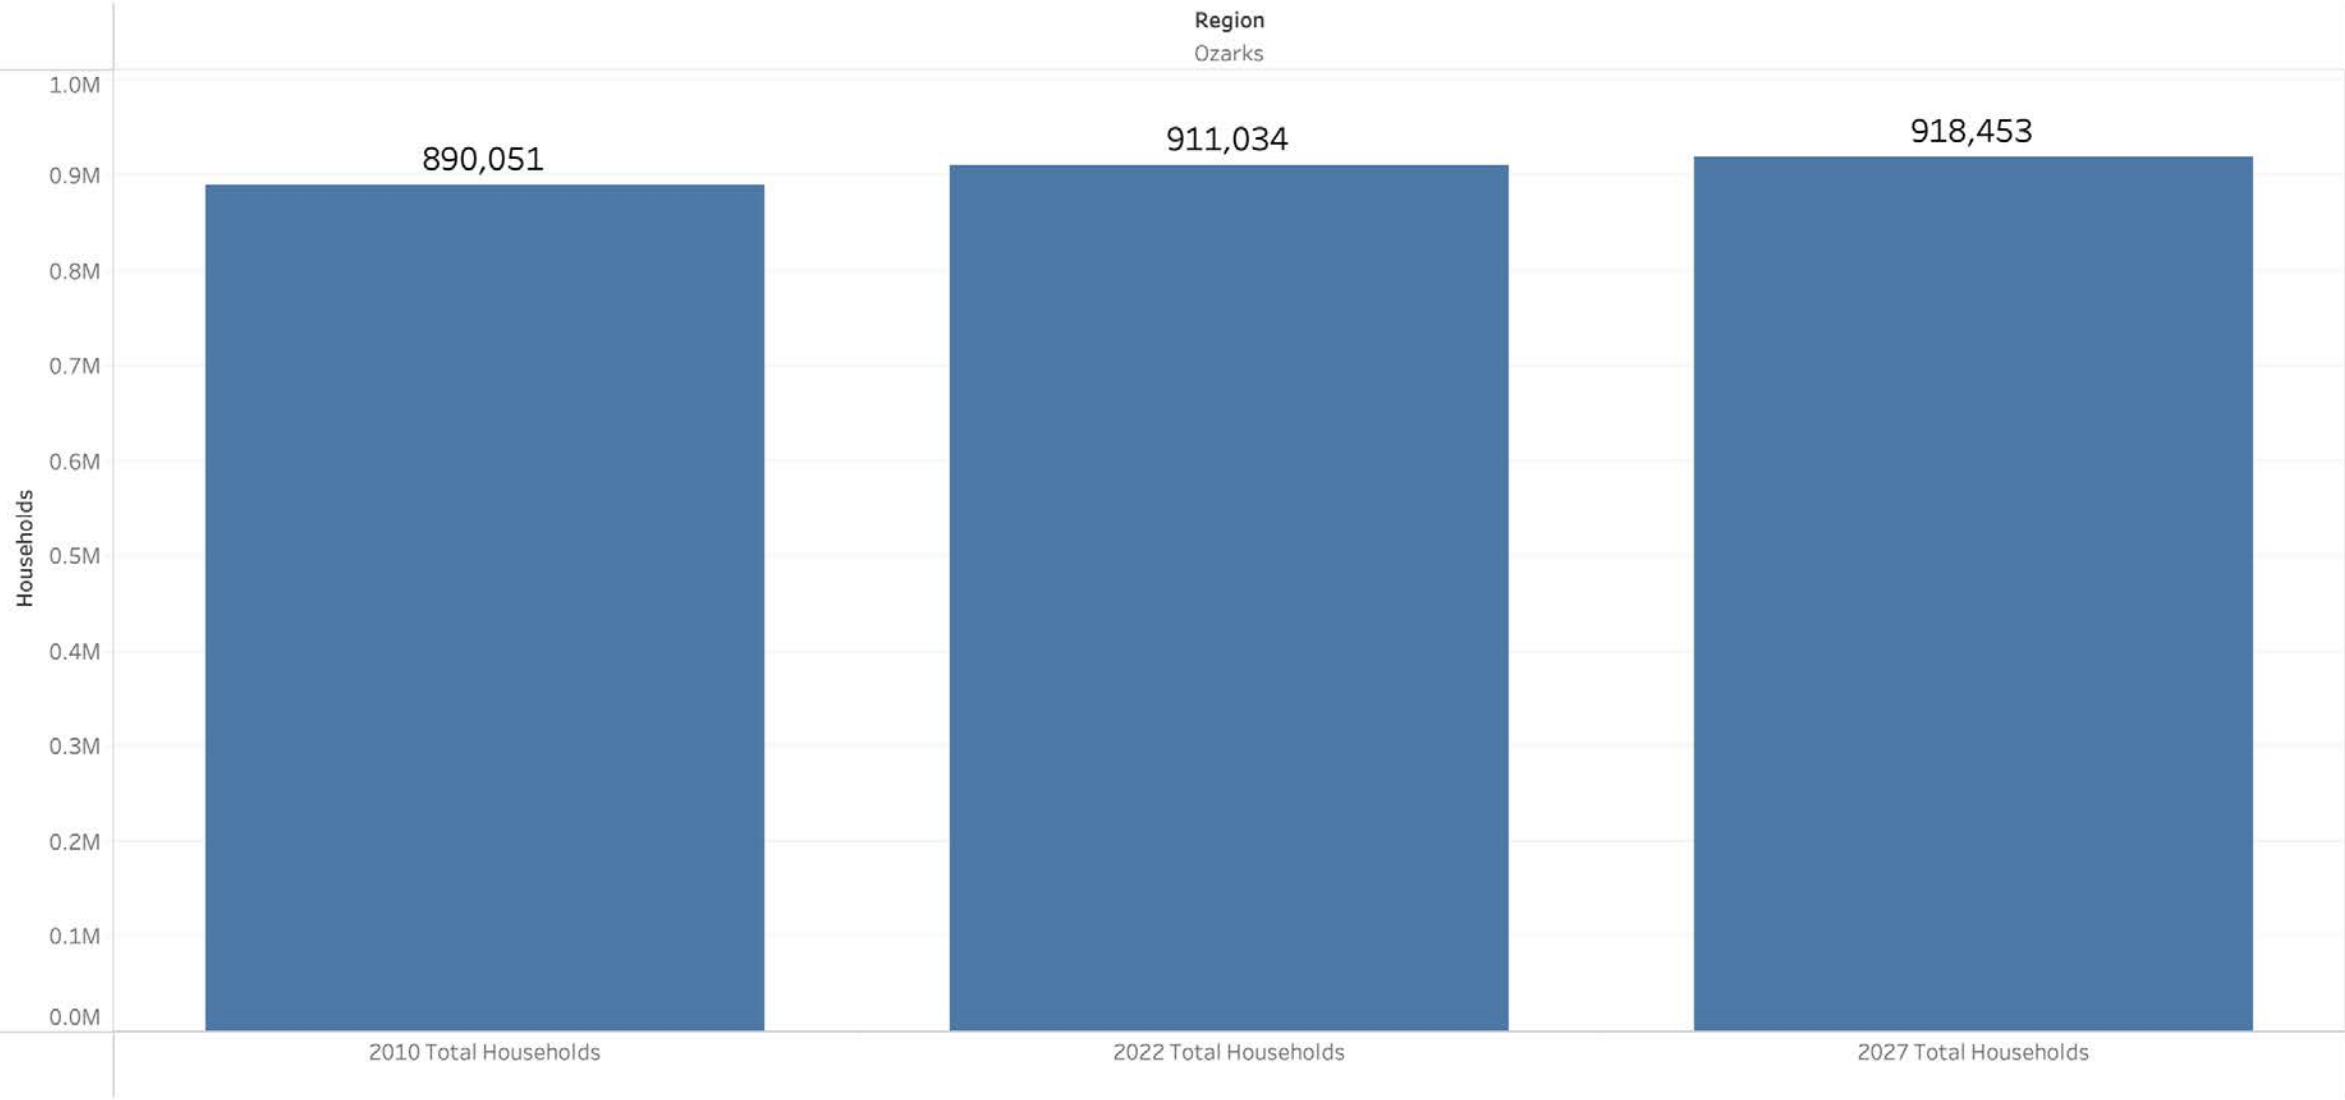

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Number of households in the Ozarks region has grown by 21k since 2010 and is expected to grow another 7k by 2027.

Source: ESRI

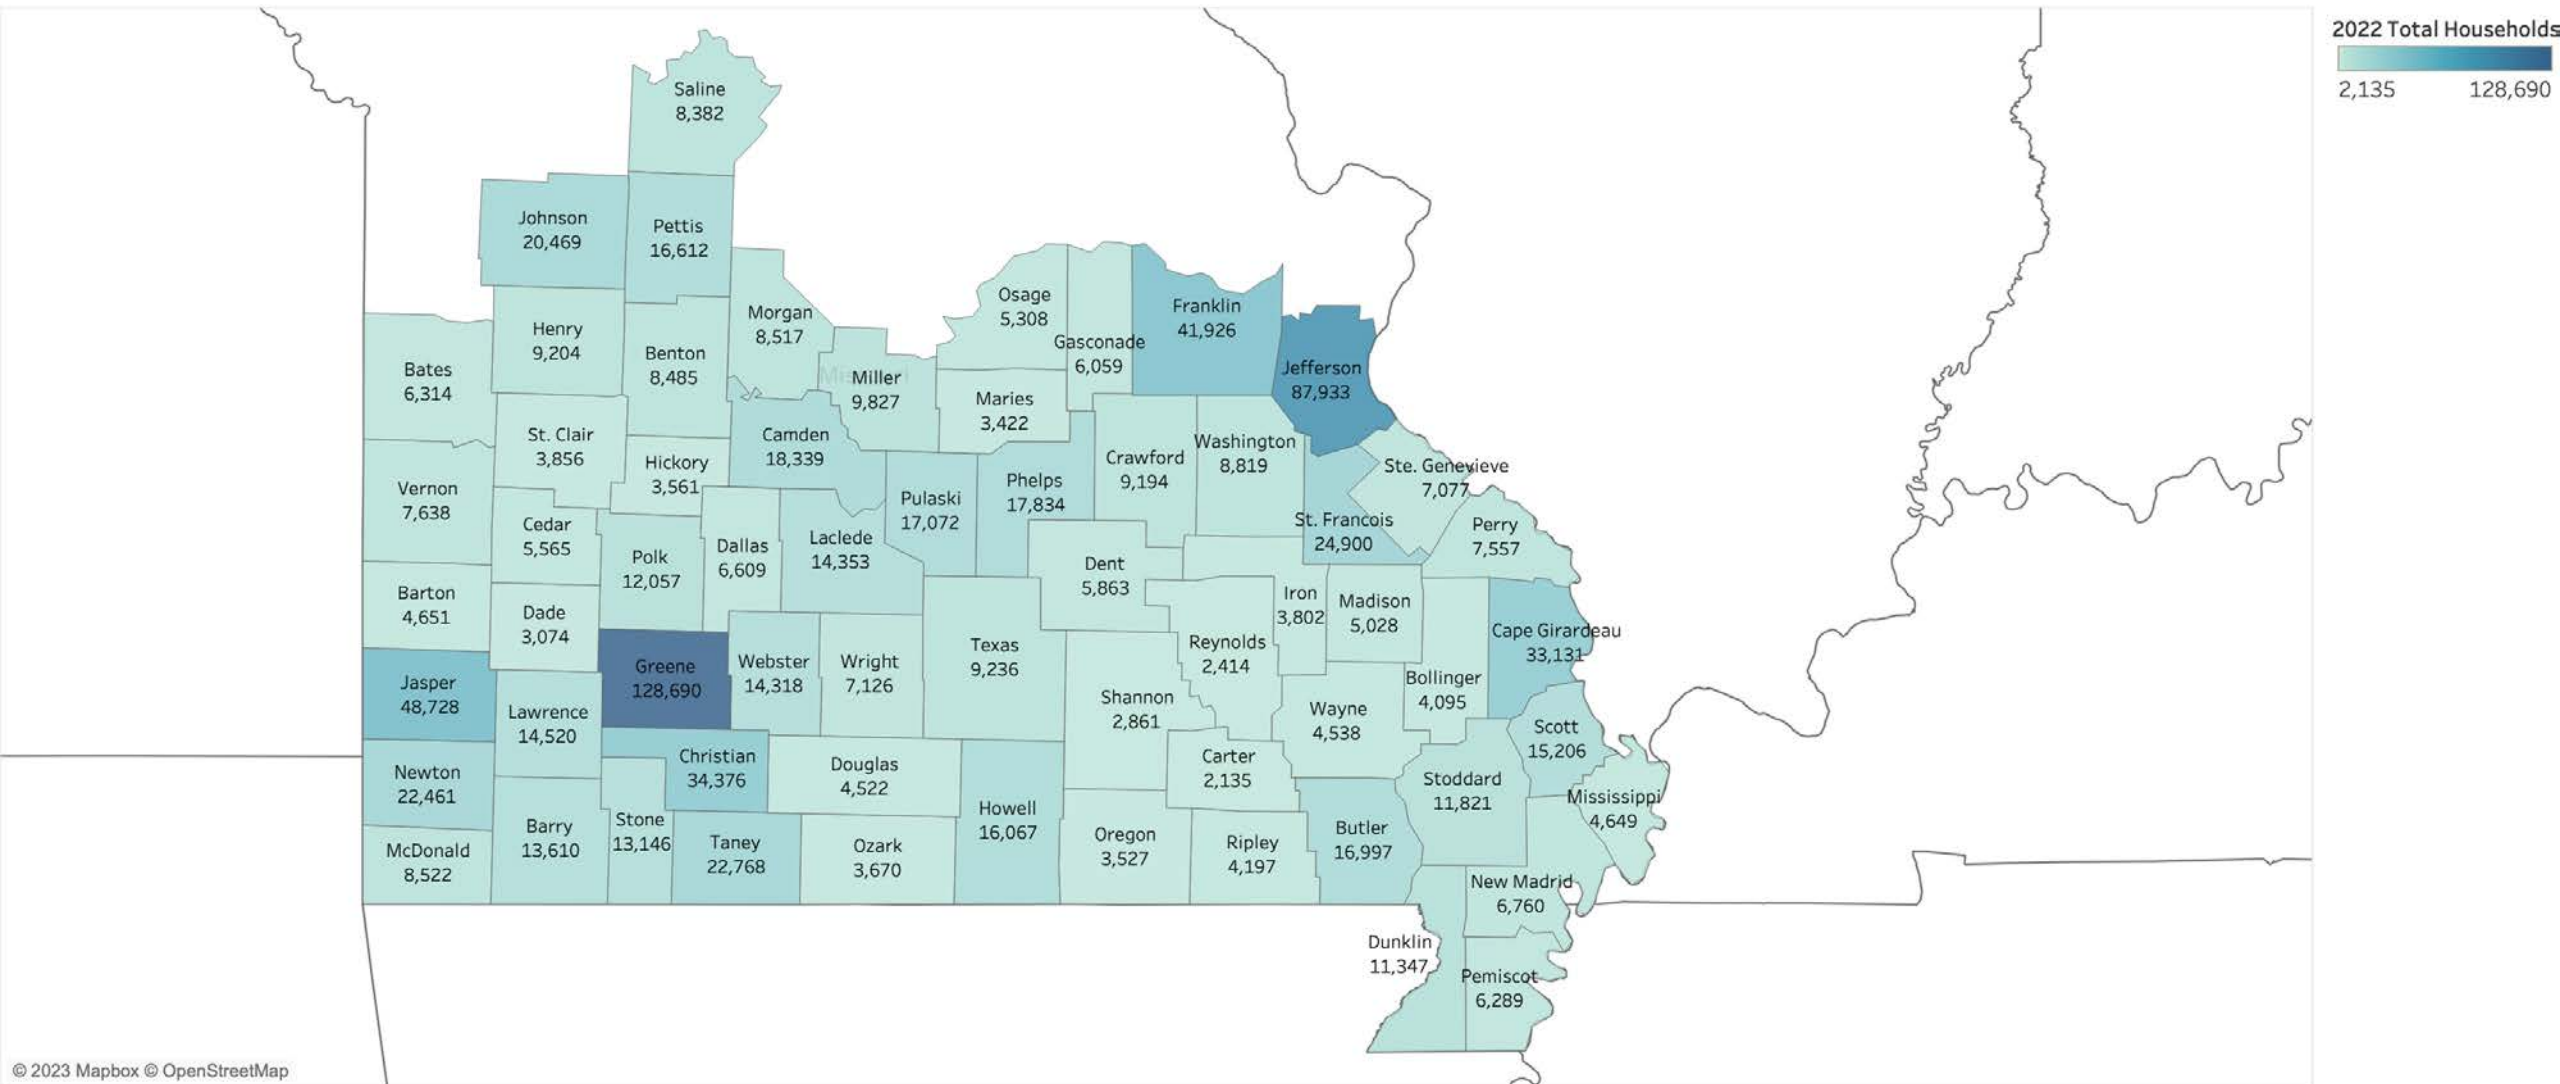

By levels of urbanization, growth in household totals have mainly been concentrated in counties considered Medium Metros.

Source: ESRI

By levels of urbanization, growth in household totals have mainly been concentrated in counties considered Medium Metros. Jefferson and Greene counties are the only counties in the region with over 50,000 households.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Average Household Size is relatively stable in the Ozarks, currently at 2.43.

Source: ESRI

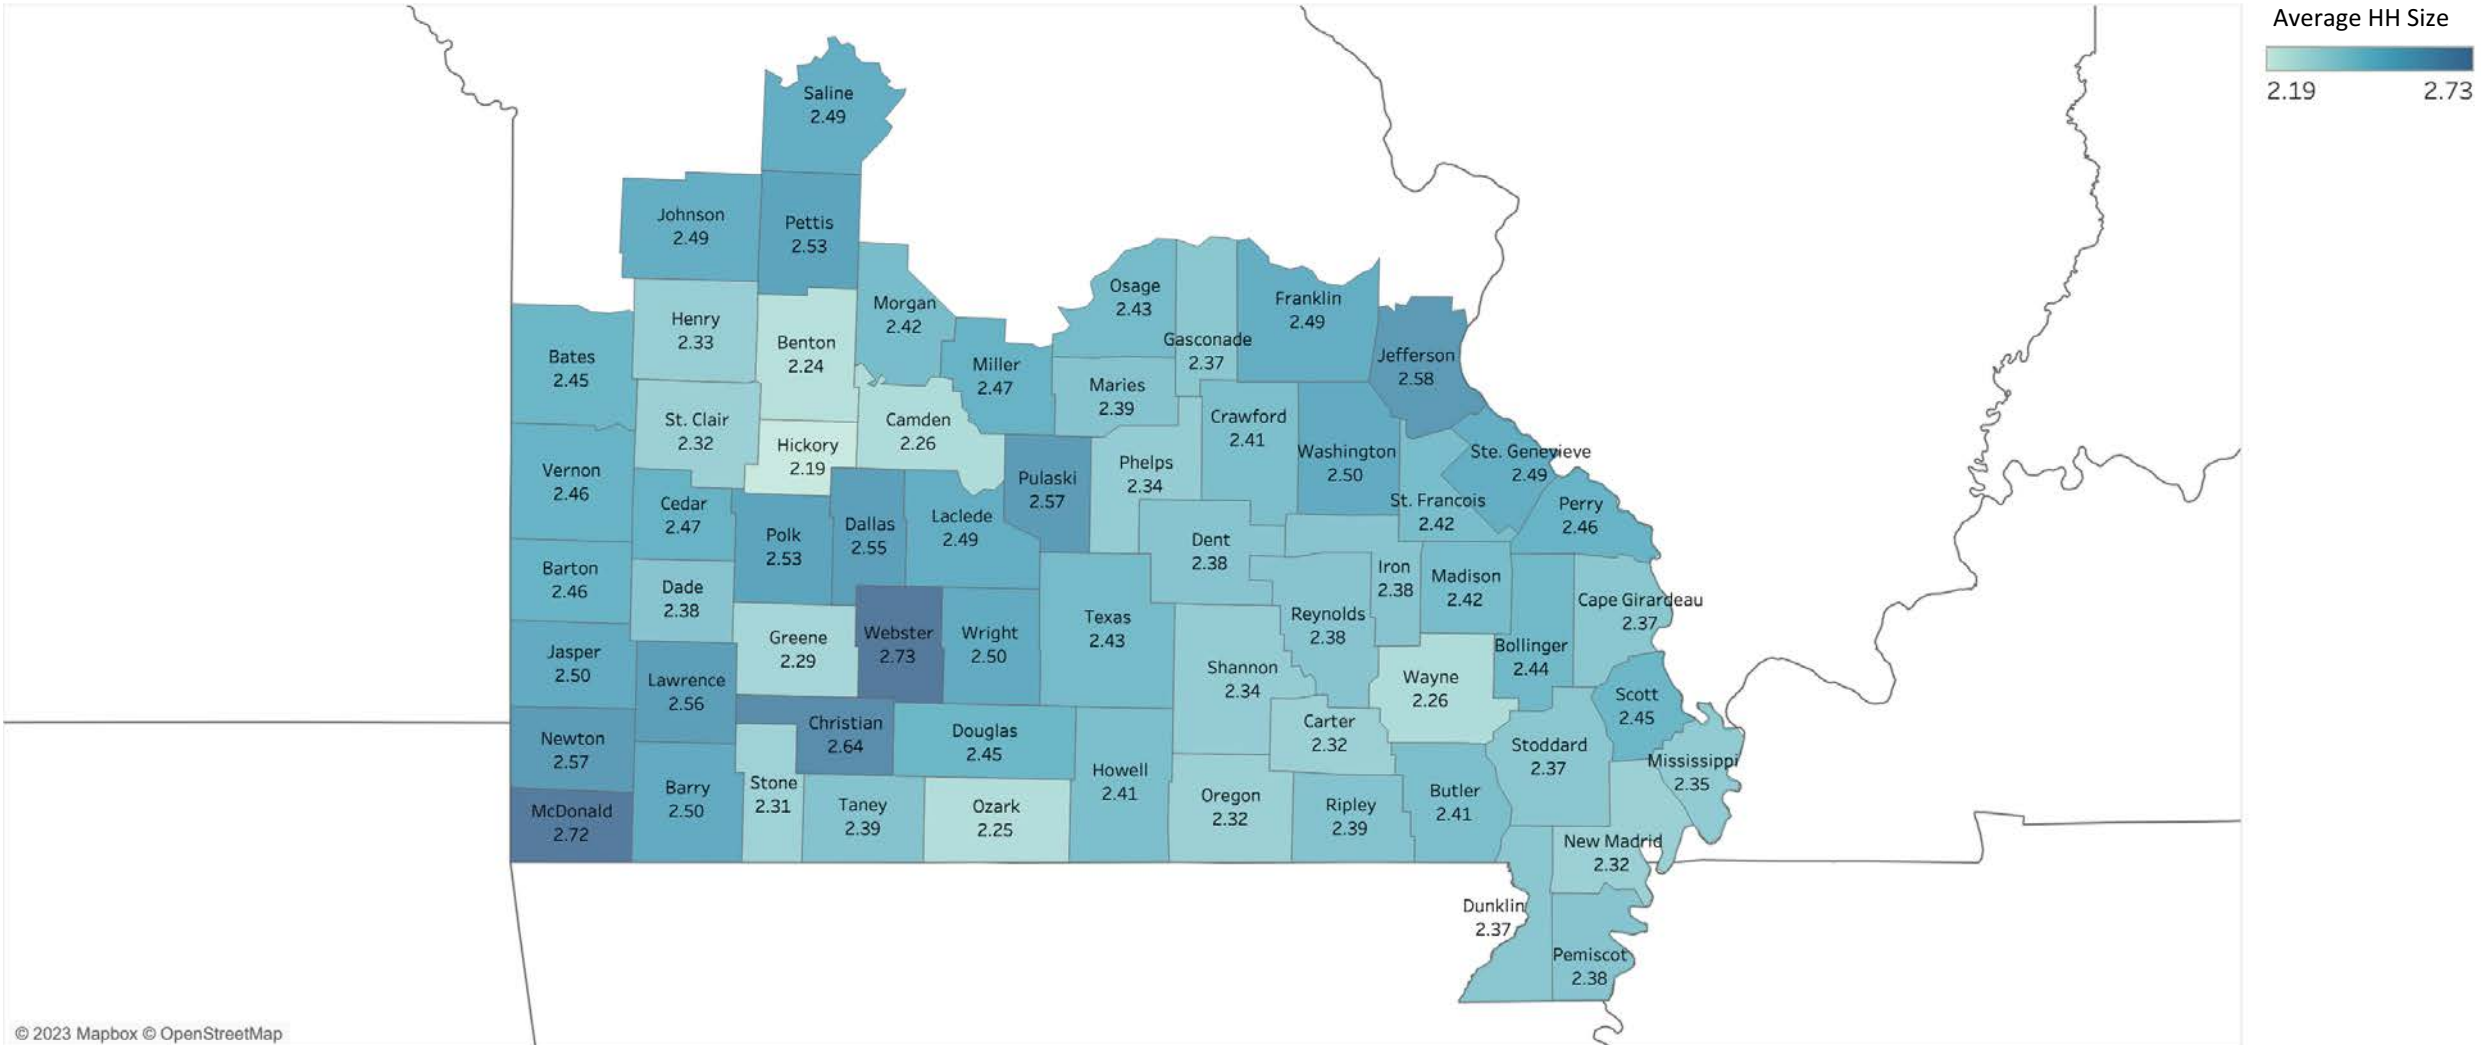

Average Household Size in the Ozarks region is largest in the Medium Metro counties – 2.58.

Source: ESRI

The Ozarks region Average Household Size ranges from 2.19 in Hickory County to 2.73 in Webster County (largest in Missouri).

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Median Age in the Ozarks has increased by 1.7 years since 2010 and is expected to increase another full year by 2027.

Source: ESRI

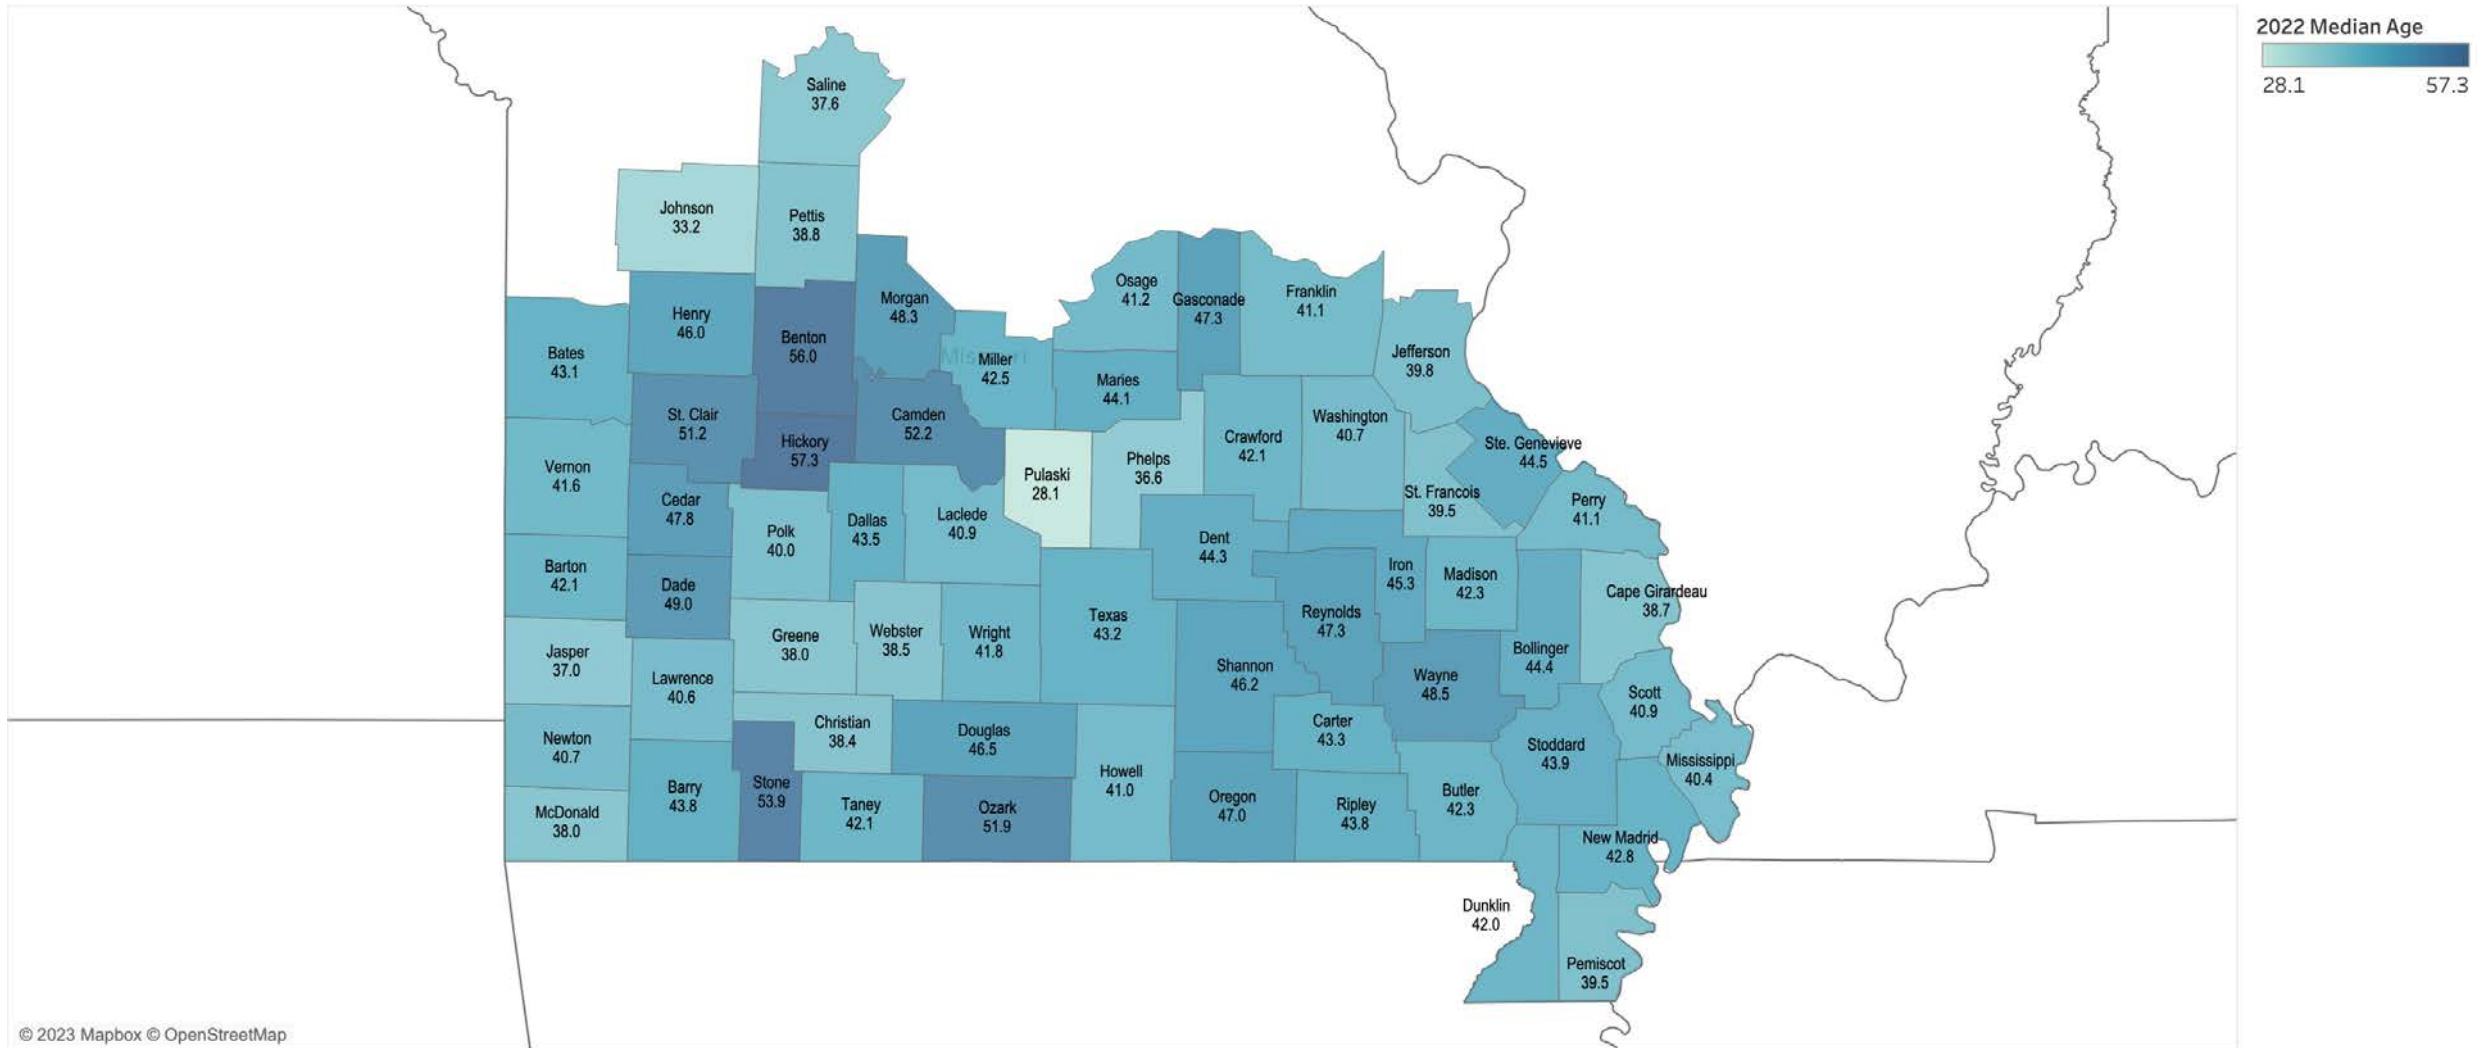

The Noncore, or rural, counties of the Ozarks accounts for the highest Median Age at 44.3 currently.

Source: ESRI

Hickory County, with the smallest average household size in the Ozarks region, has the oldest Median Age (57.3). Pulaski County – home to U.S. Army training installation Fort Leonard Wood - is the youngest in terms of Median Age in the state (28.1).

Source: ESRI

© 2023 Mapbox © OpenStreetMap

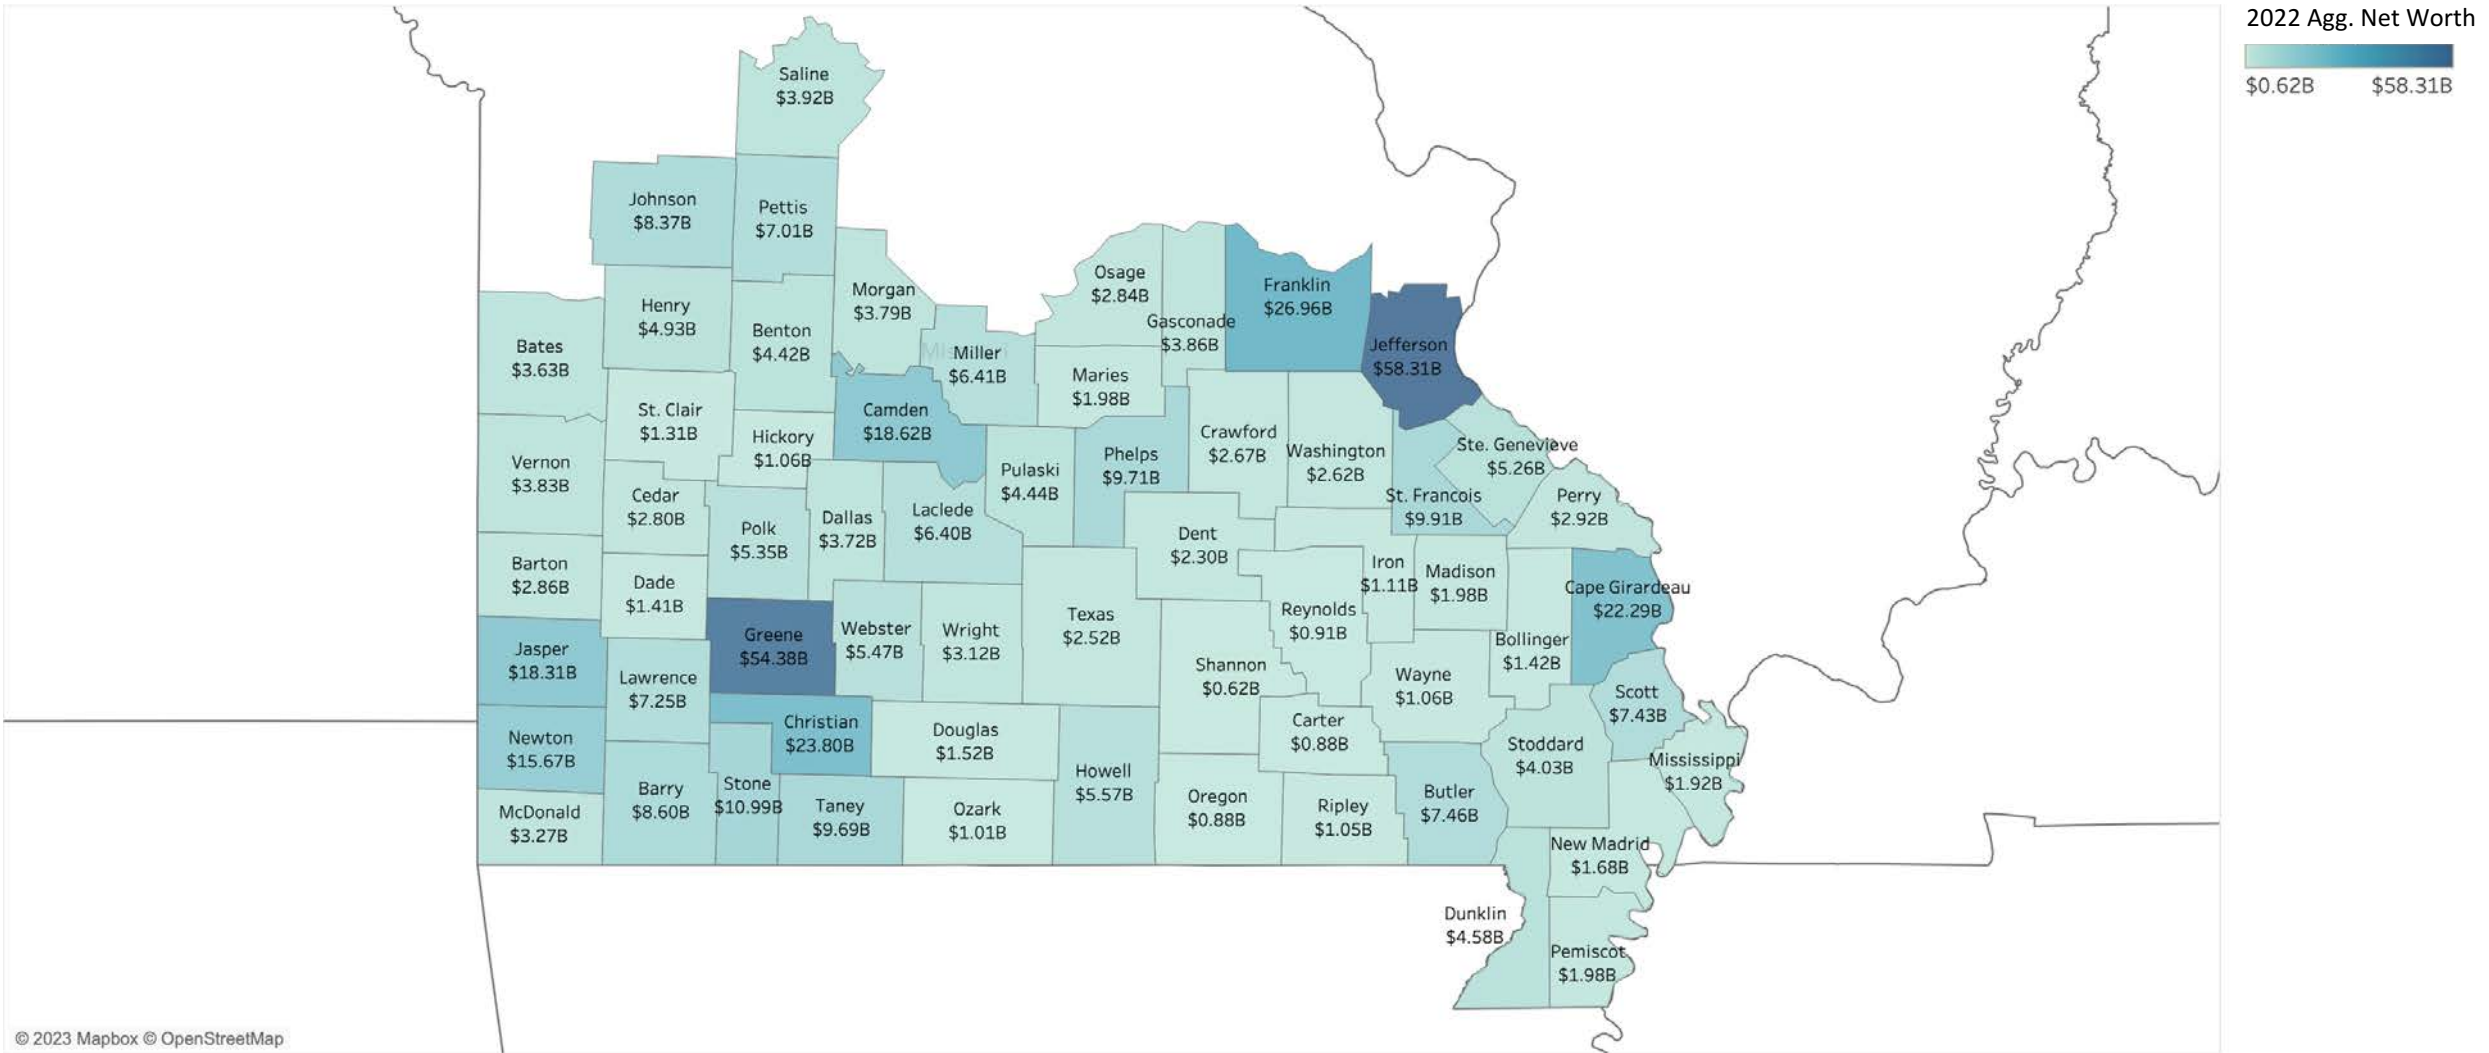

Aggregate Net Worth by urbanization shows Small Metro counties having about a third of the net worth of Micropolitan counties.

Source: ESRI

Jefferson County (\$58.31B) and Green County (\$54.38B) have the most total net worth in the Ozarks Region, ranging down to about \$620 Million in Shannon County.

Source: ESRI

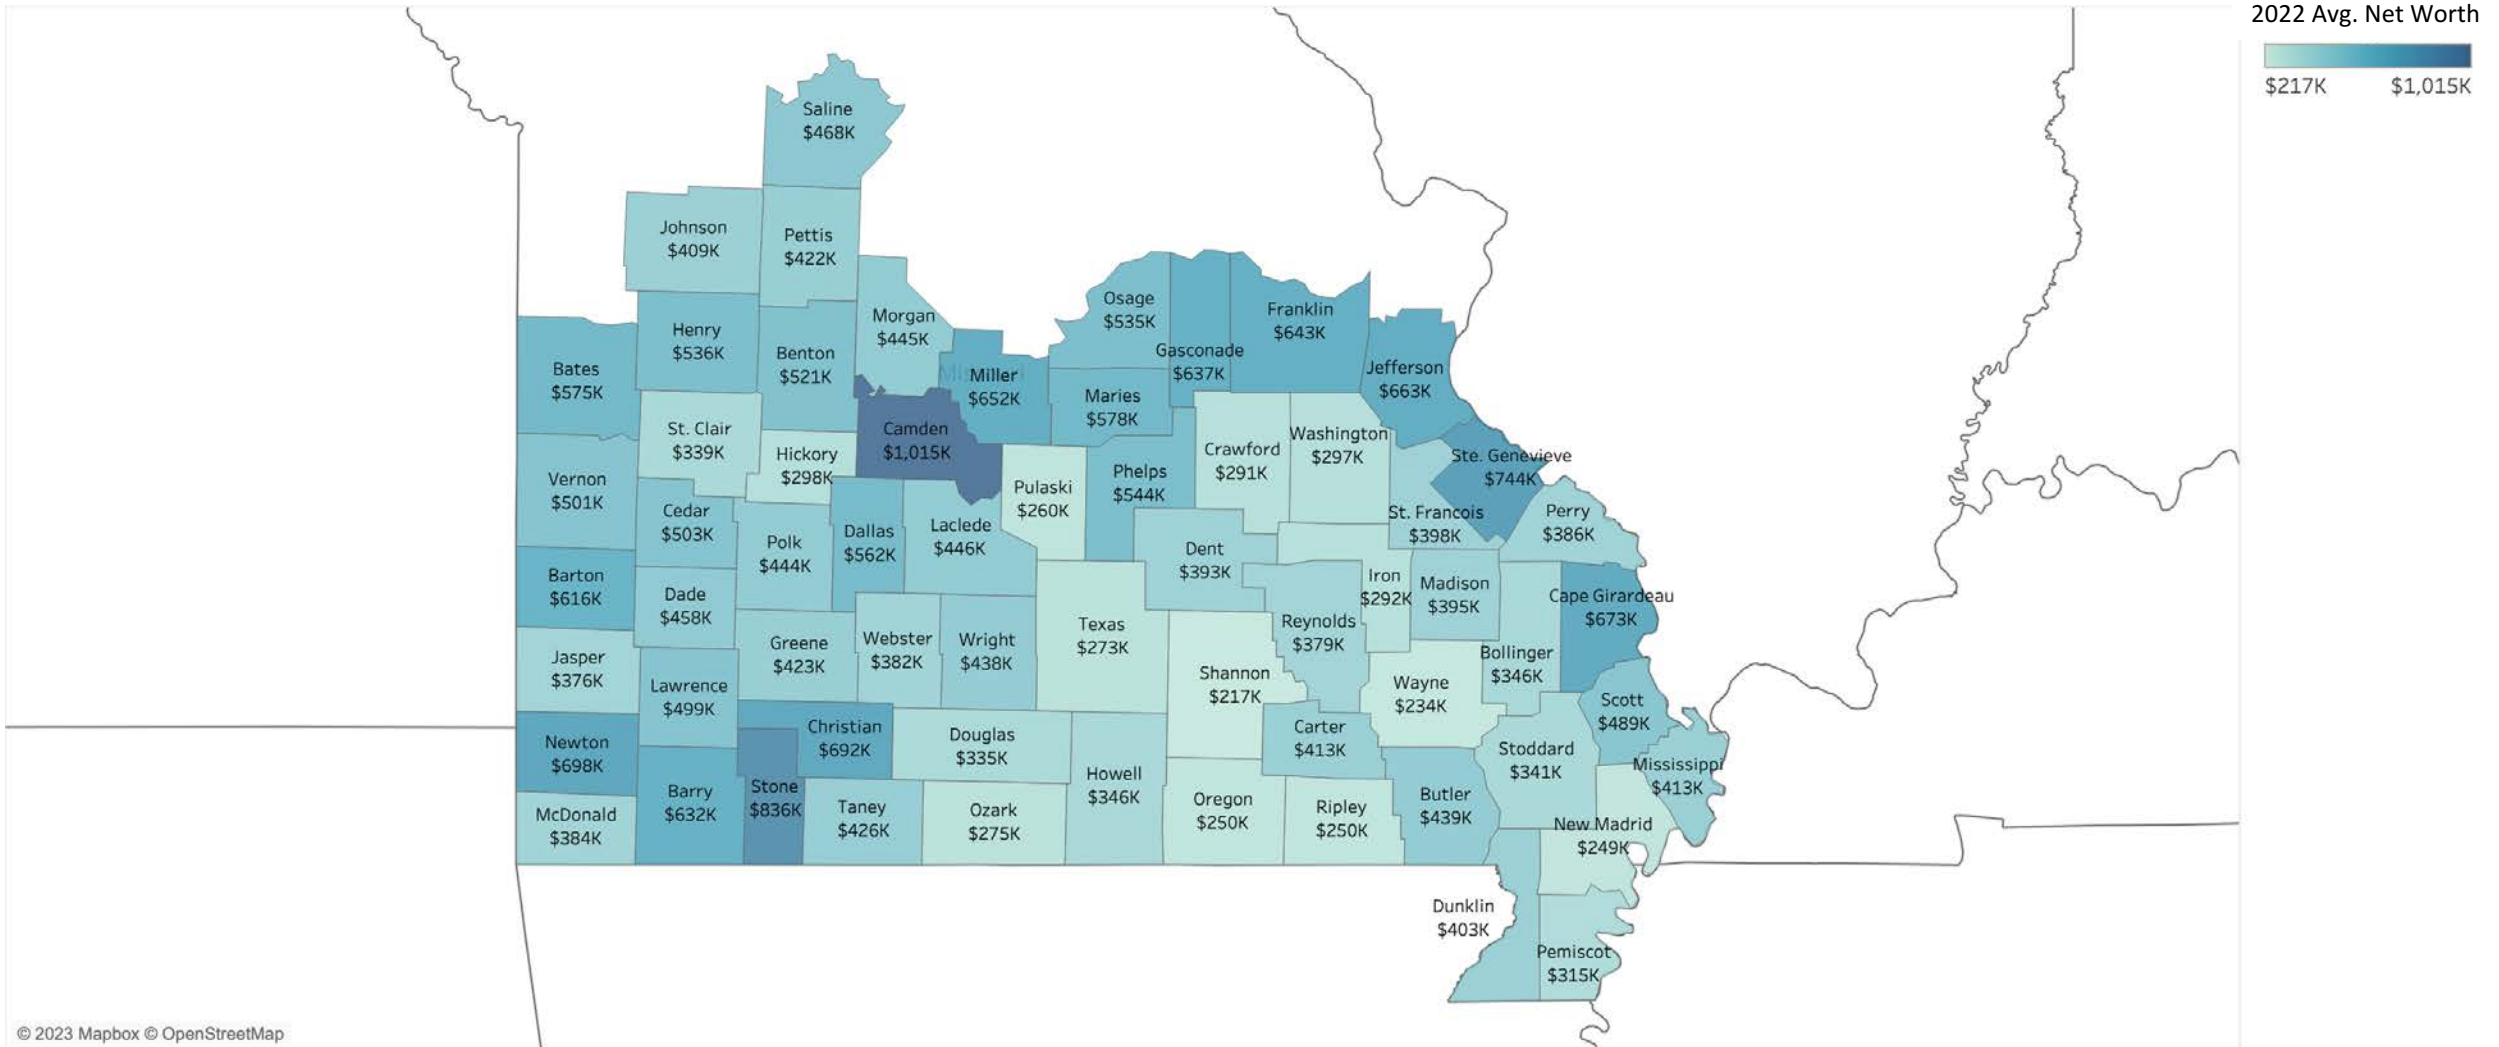

Cape Girardeau, Christian, Franklin, Greene, and Jefferson counties all have over \$20B in Aggregate Net Worth.

Source: ESRI

Camden County has the largest Net Worth on average – about \$1 Million. Shannon County’s average net worth is about 20% that of Camden County (\$217,057).

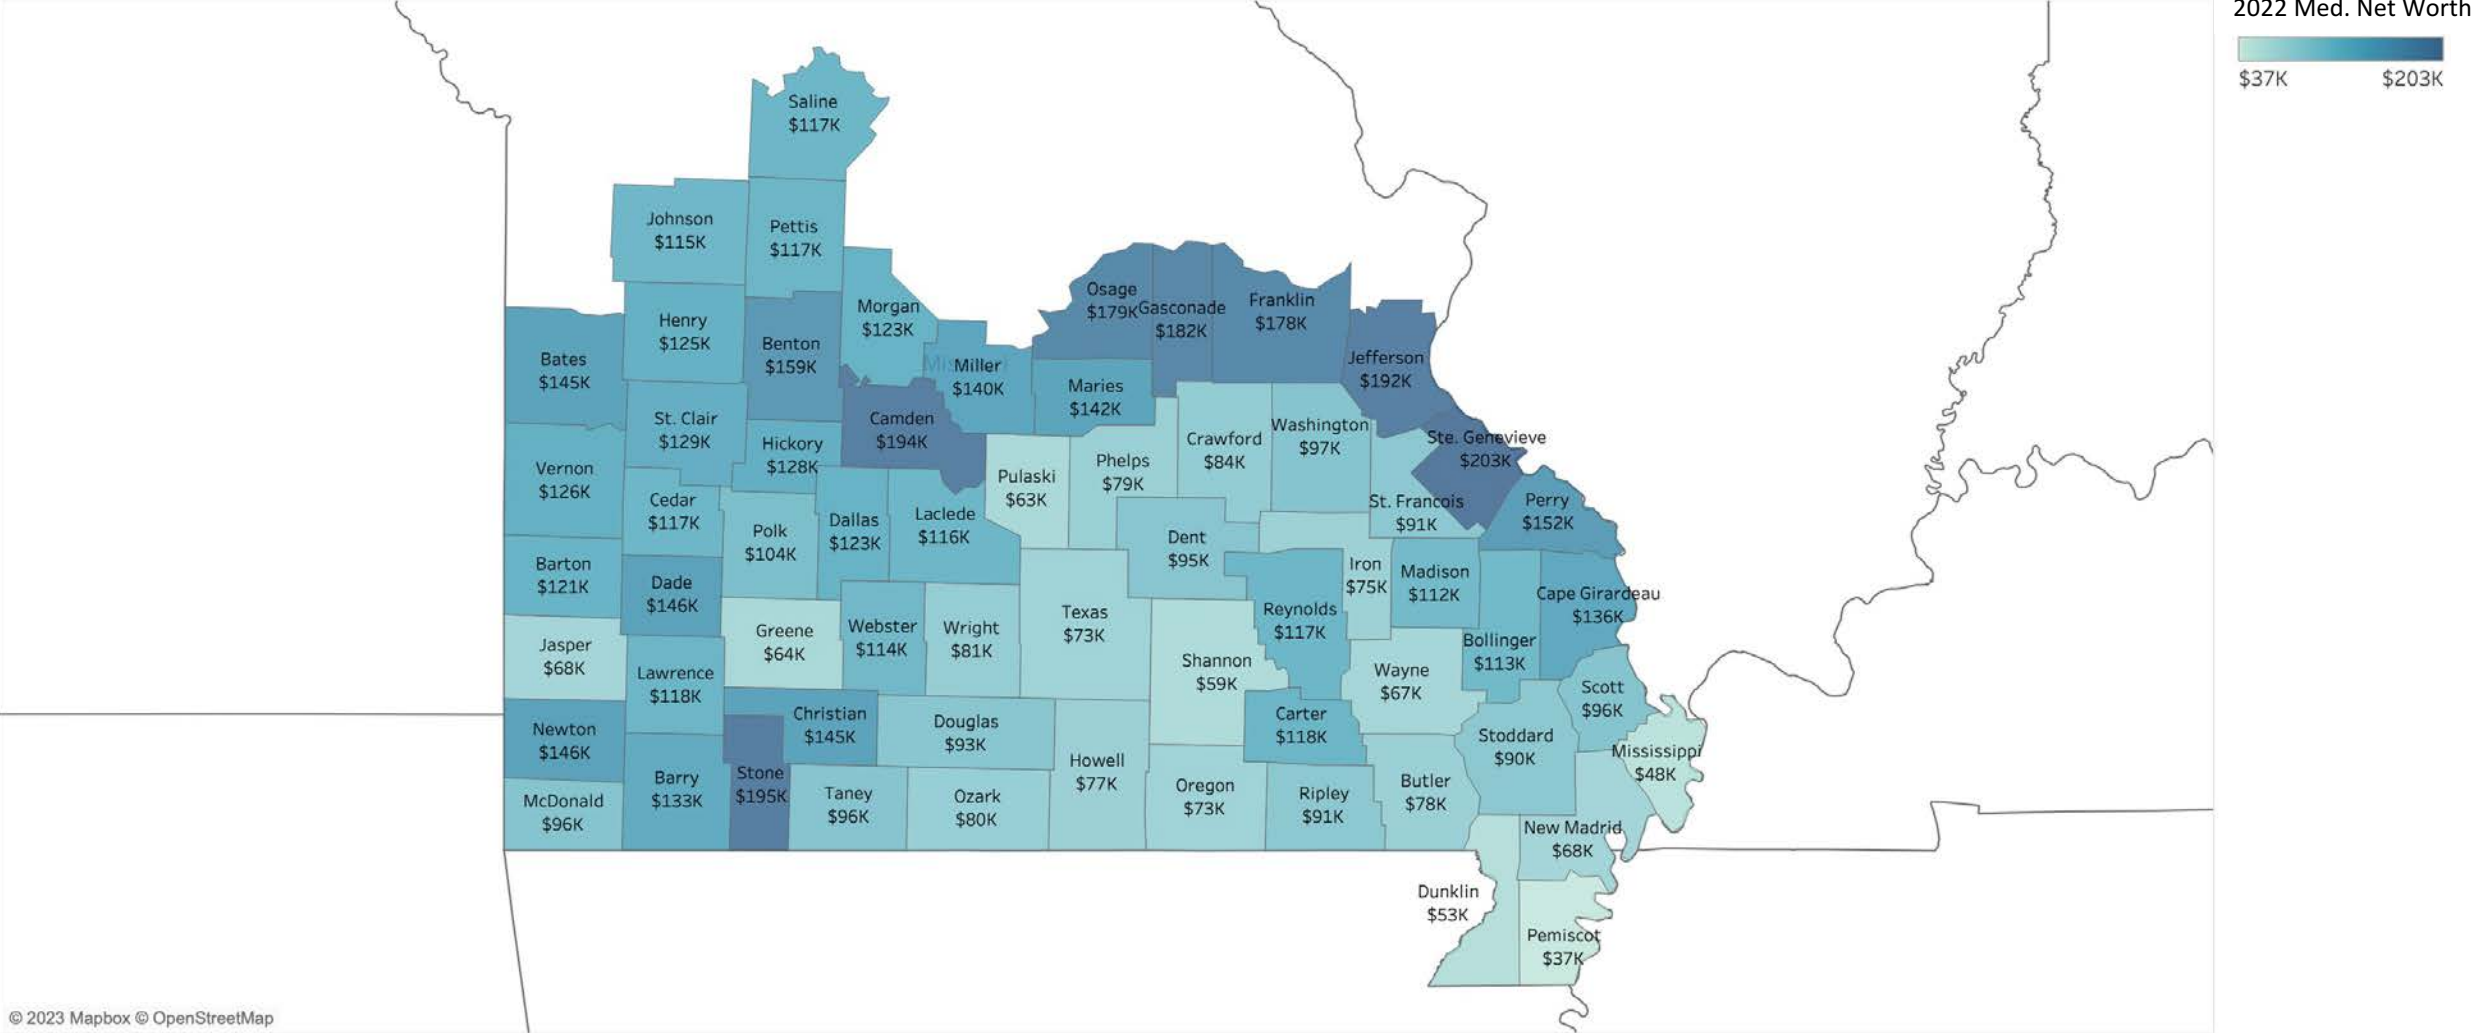

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Median Net Worth is smaller in the Ozarks region, ranging from \$37k in Pemiscot County to \$203k in Sainte Genevieve County.

Ozarks

Transfer of Wealth

CCRI CENTER FOR
CIVIC RESEARCH
AND INNOVATION

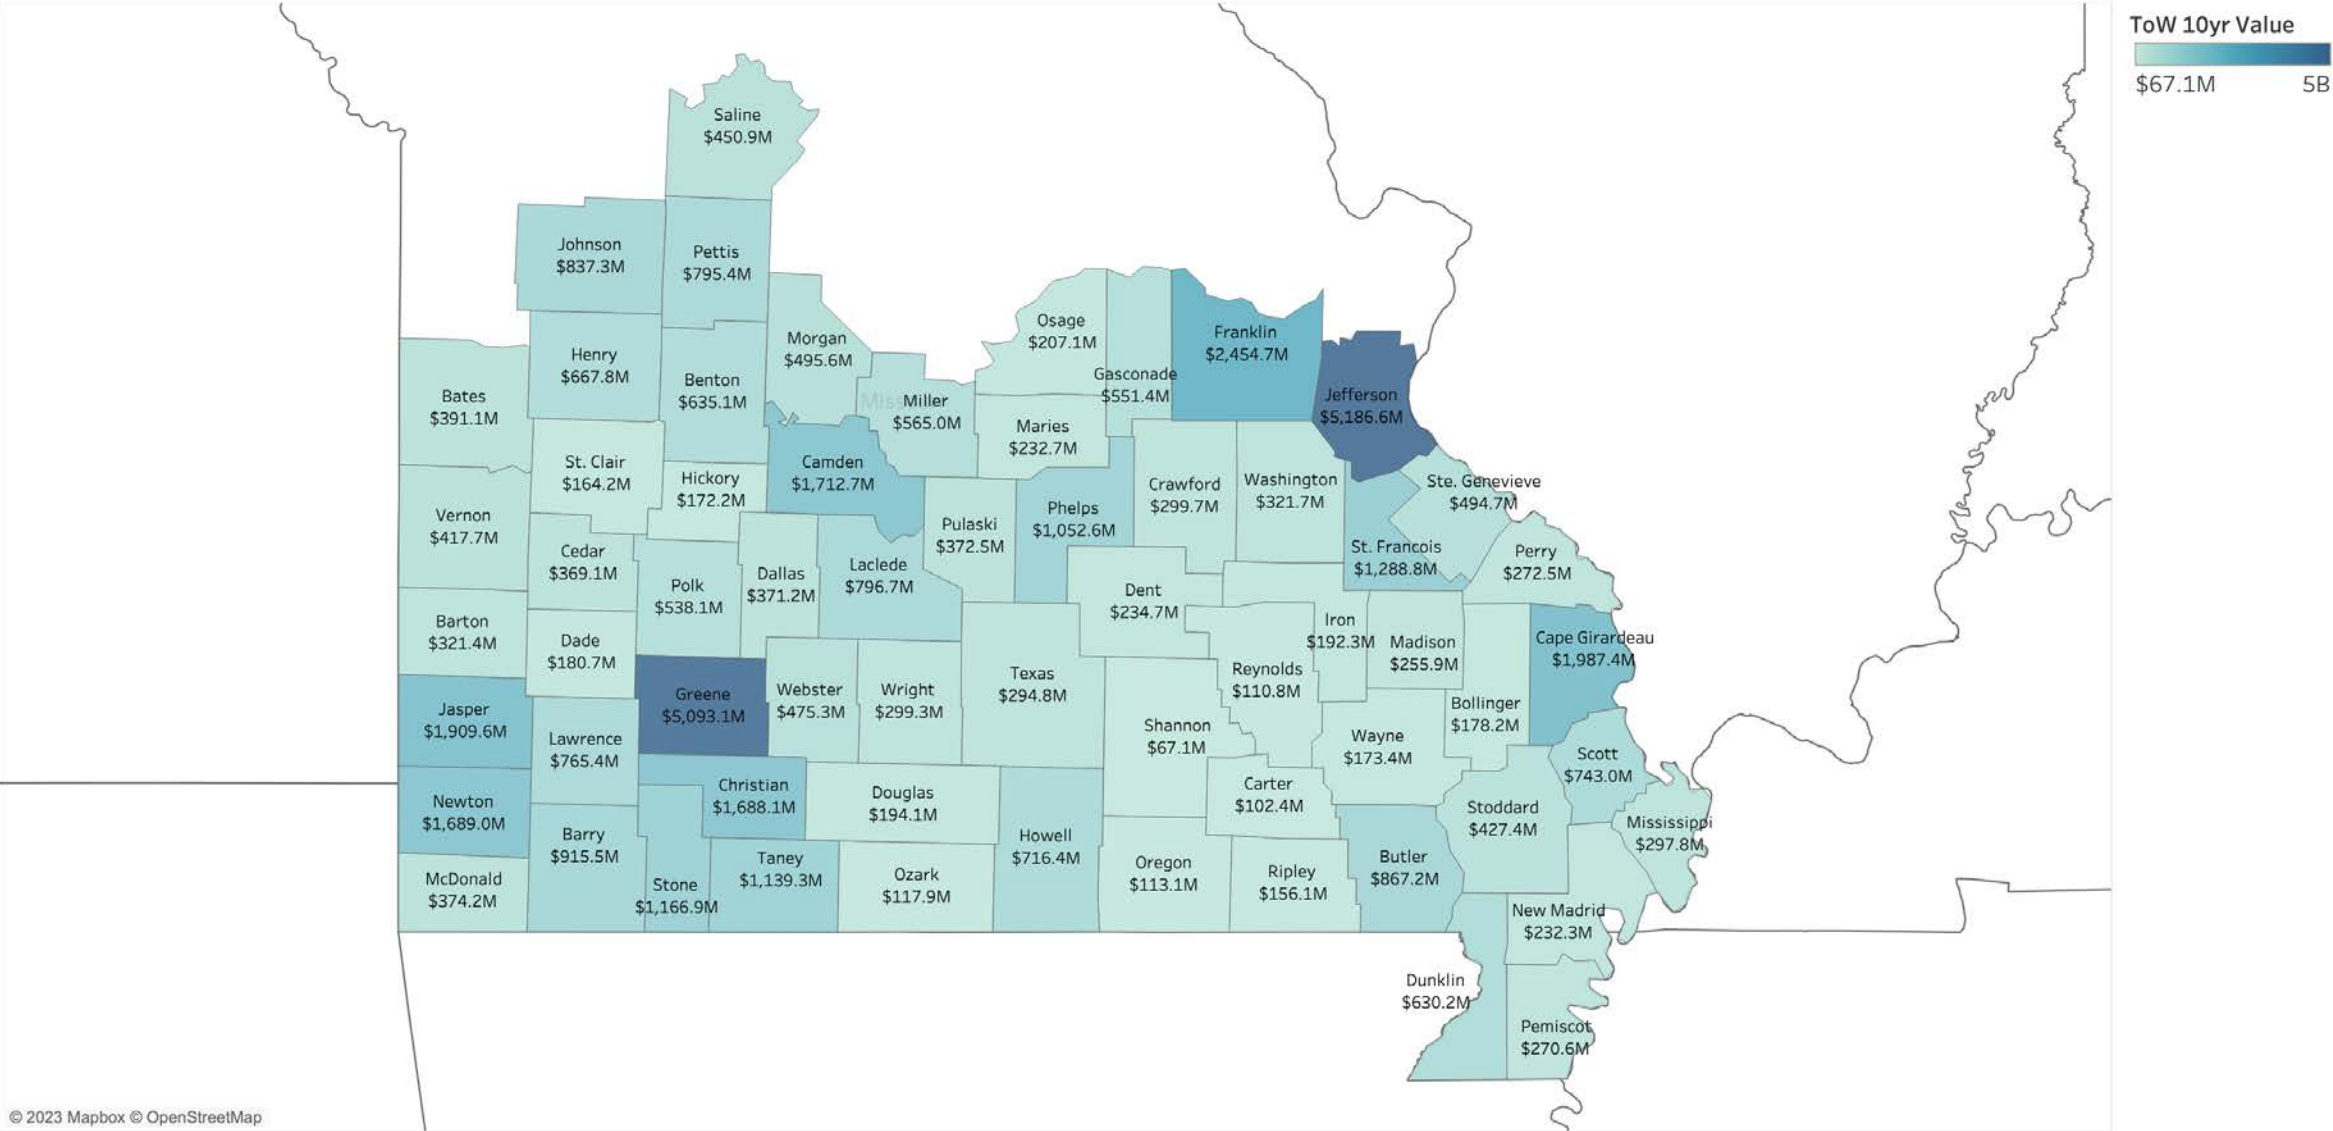

AN INITIATIVE OF THE ST. LOUIS COMMUNITY FOUNDATION

In the Ozarks region, current value of the Transfer of Wealth Opportunity sits at \$34.6 Billion – ranging from \$50 Million in Shannon County to \$3.9 Billion in Jefferson County.

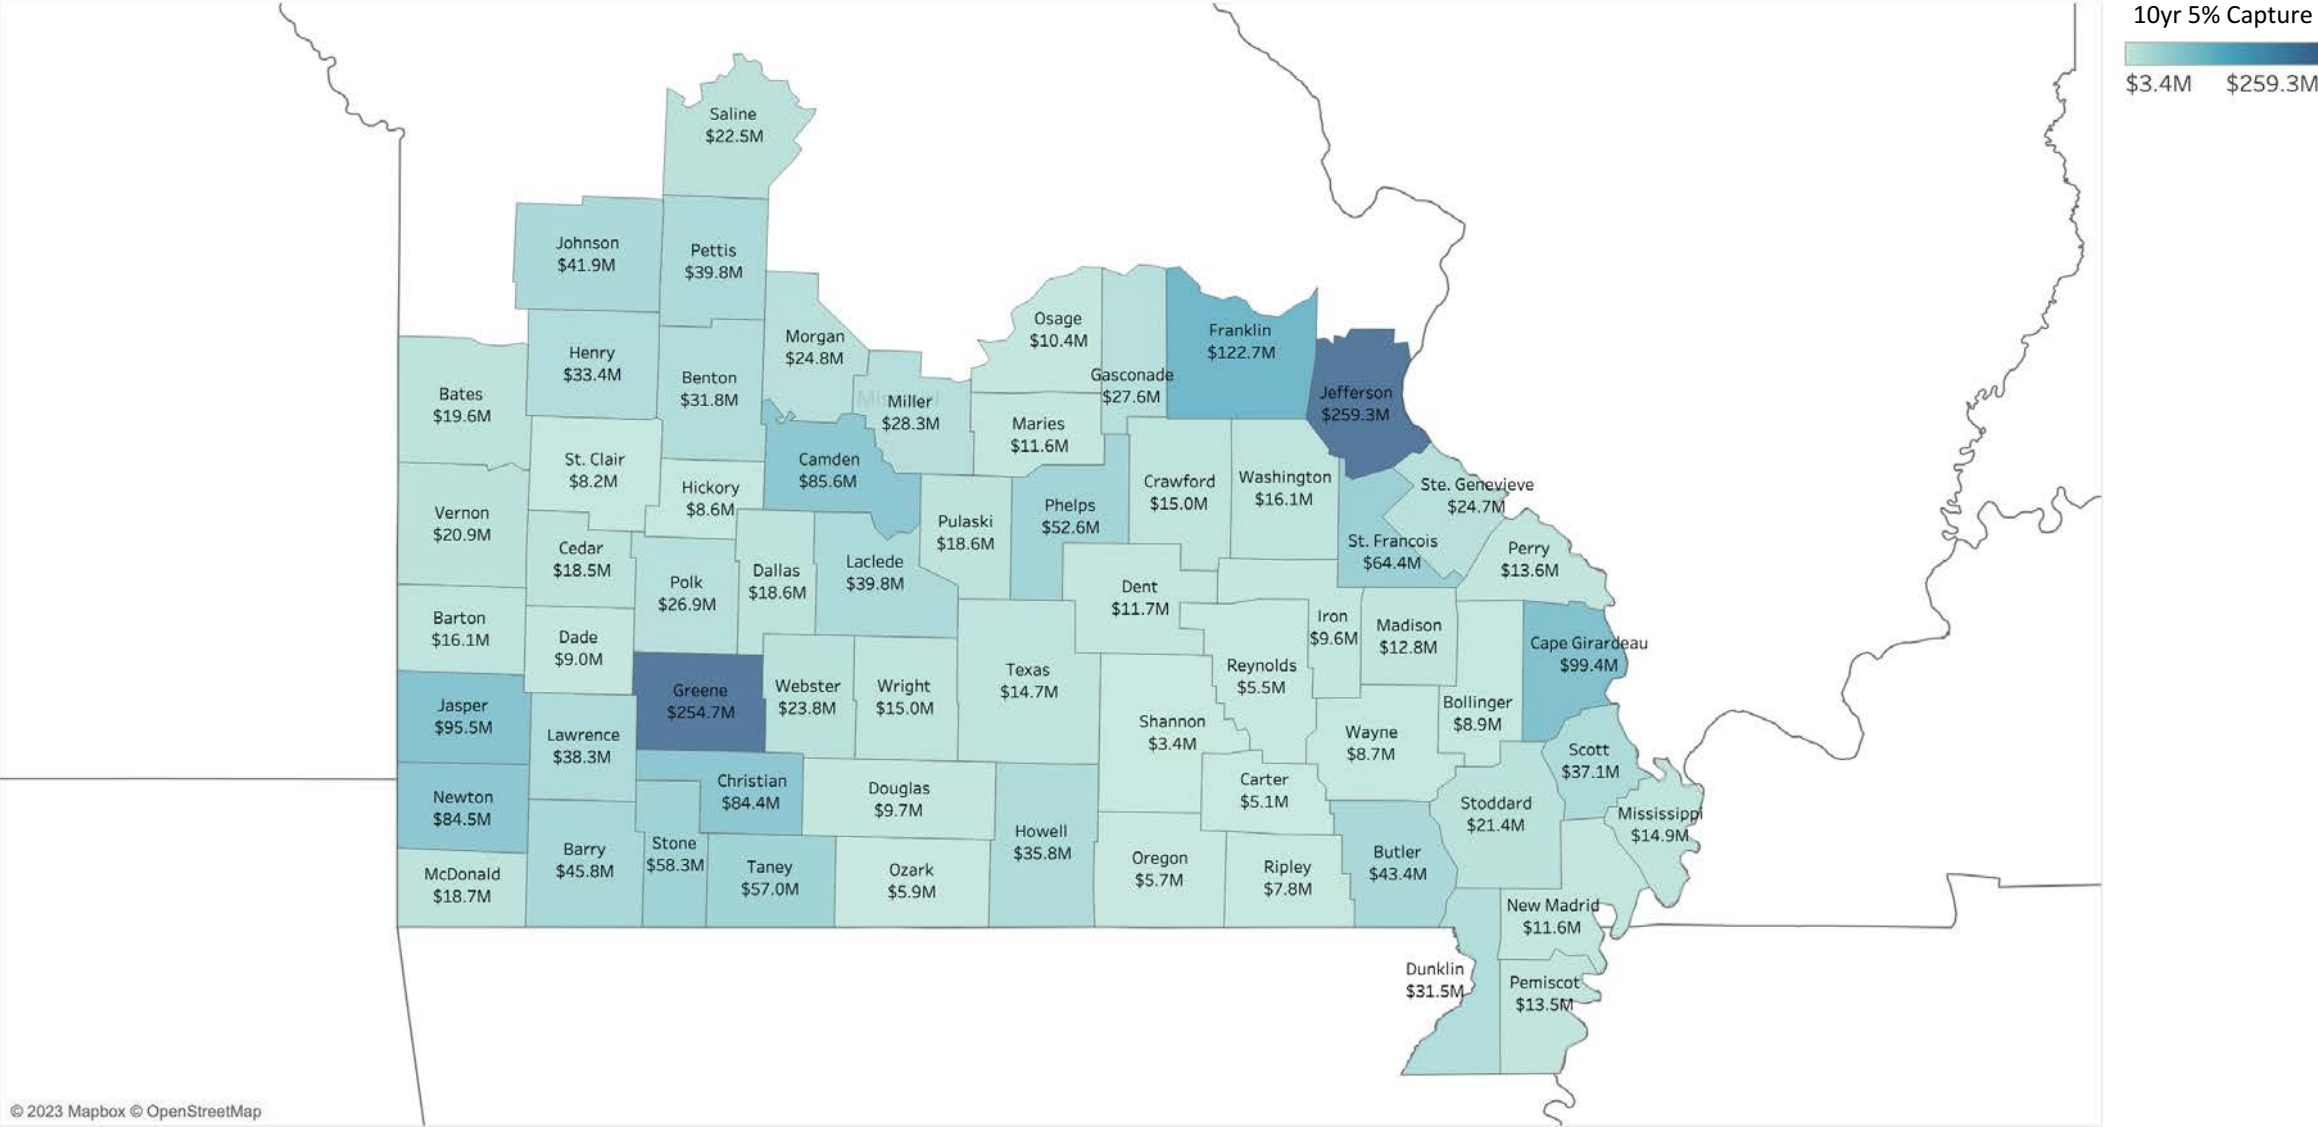

© 2023 Mapbox © OpenStreetMap

Over the next ten years, \$46.5 Billion in wealth will transfer among families throughout the Ozarks region.

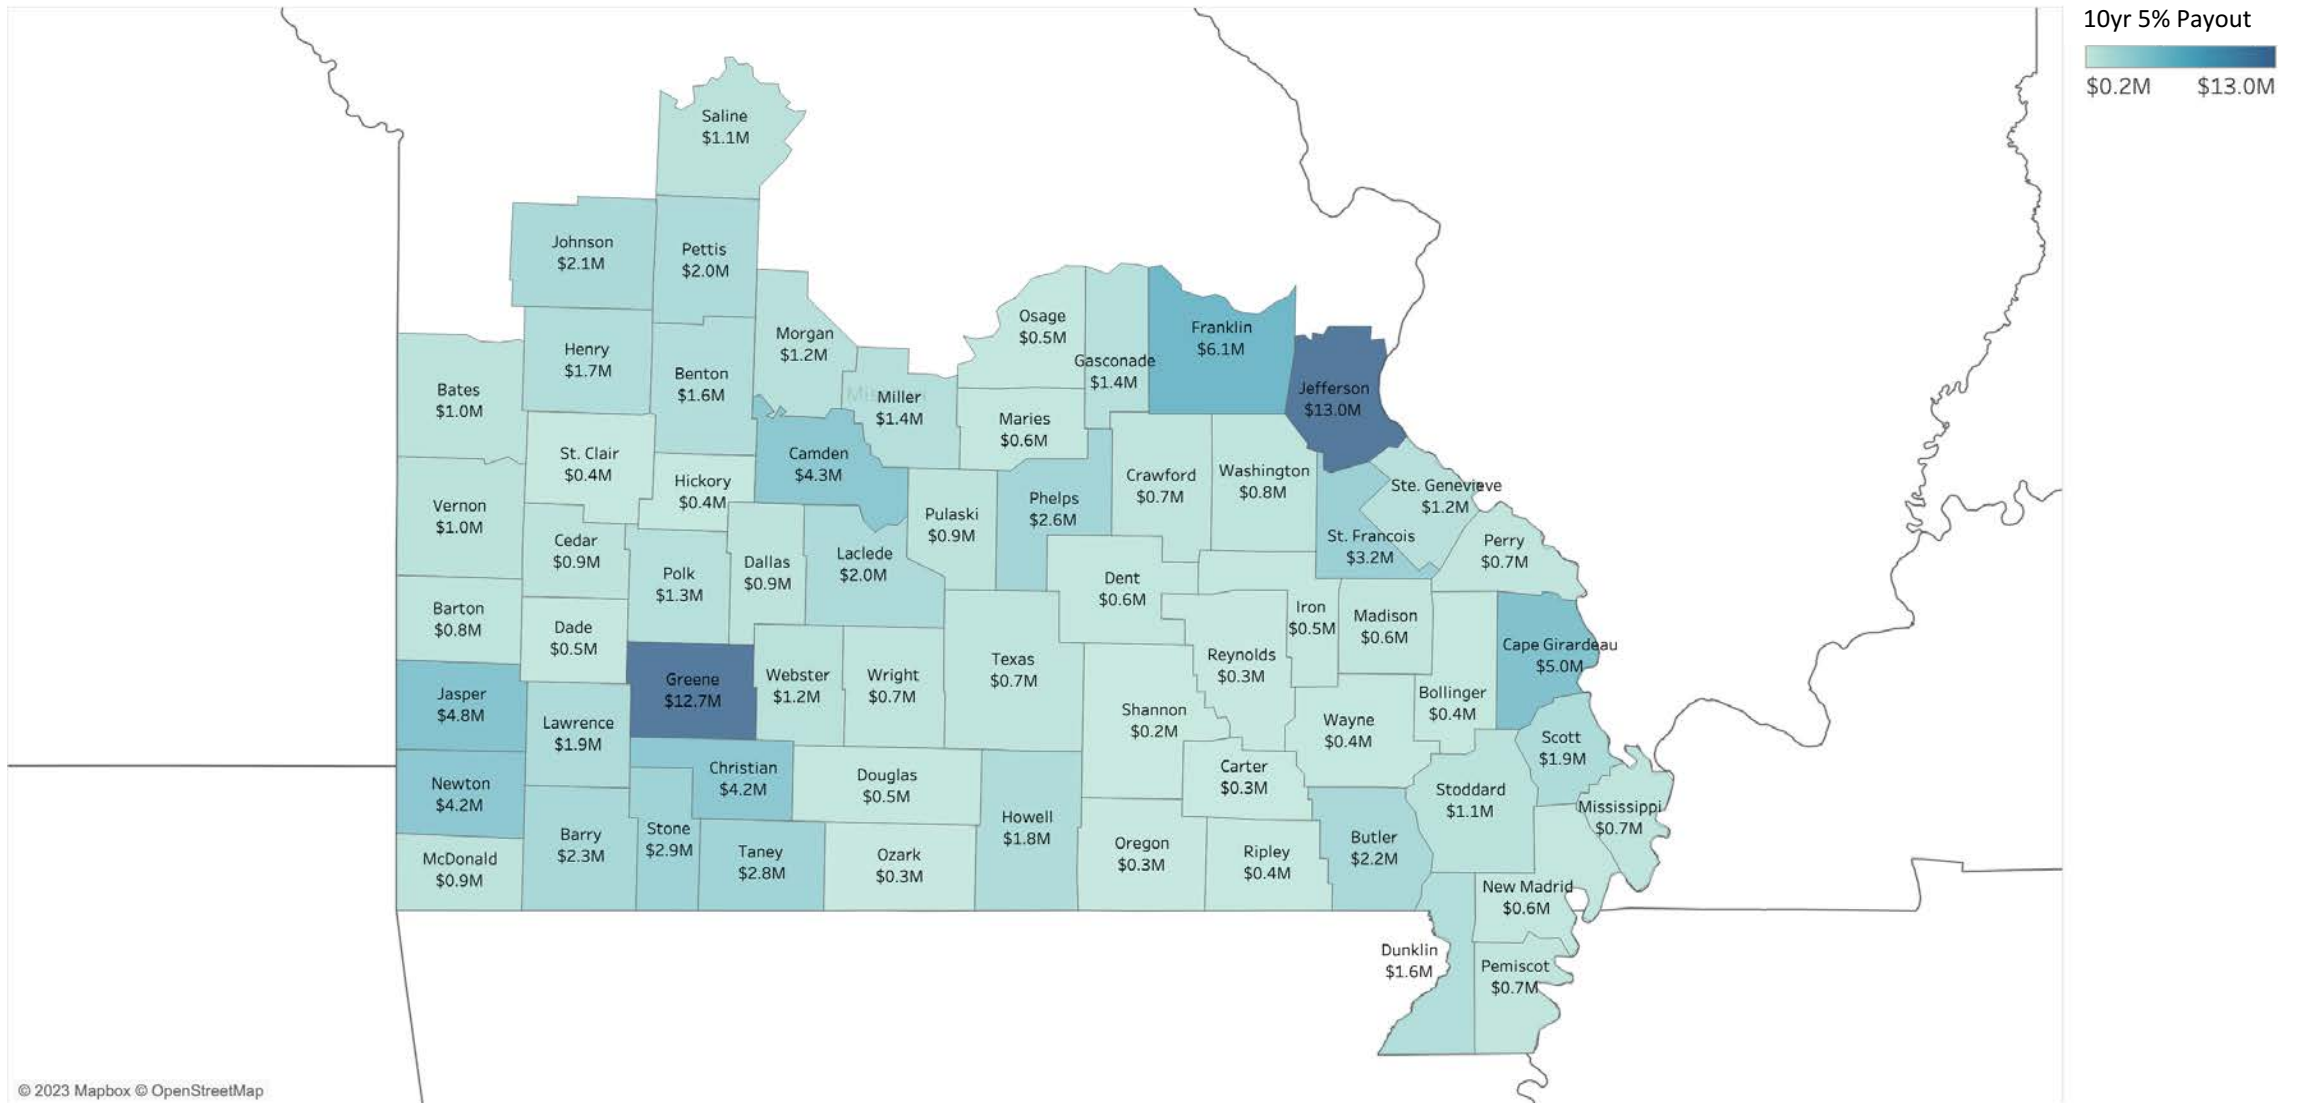

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the Transfer of Wealth would lead to the Ozarks region collecting \$2.3 Billion by 2032.

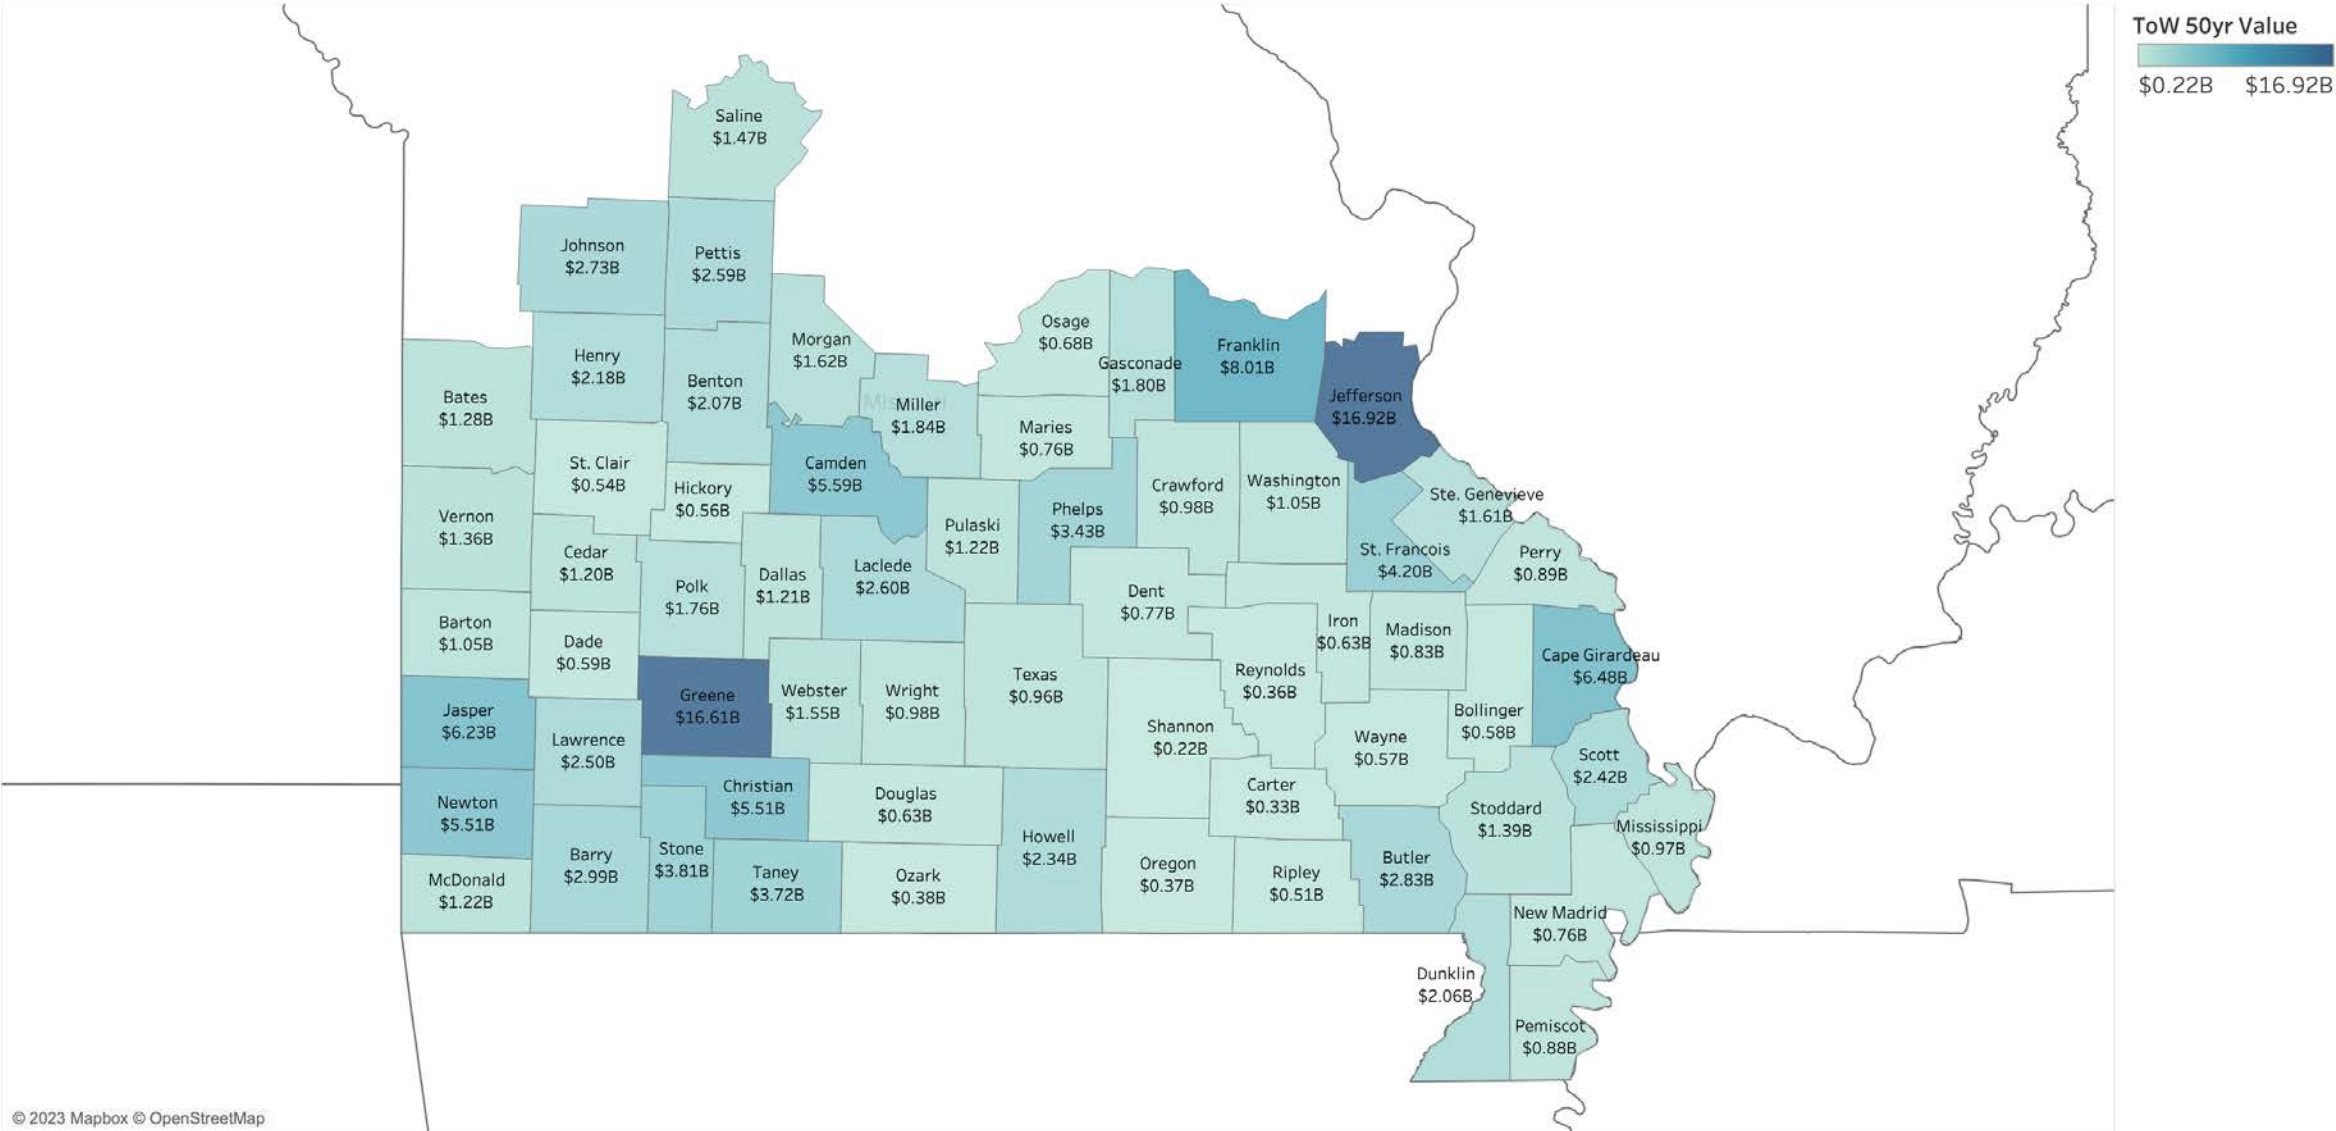

© 2023 Mapbox © OpenStreetMap

The Ozarks region would reinvest \$116.2 Million into its communities by 2032 with a 5% payout of funds captured.

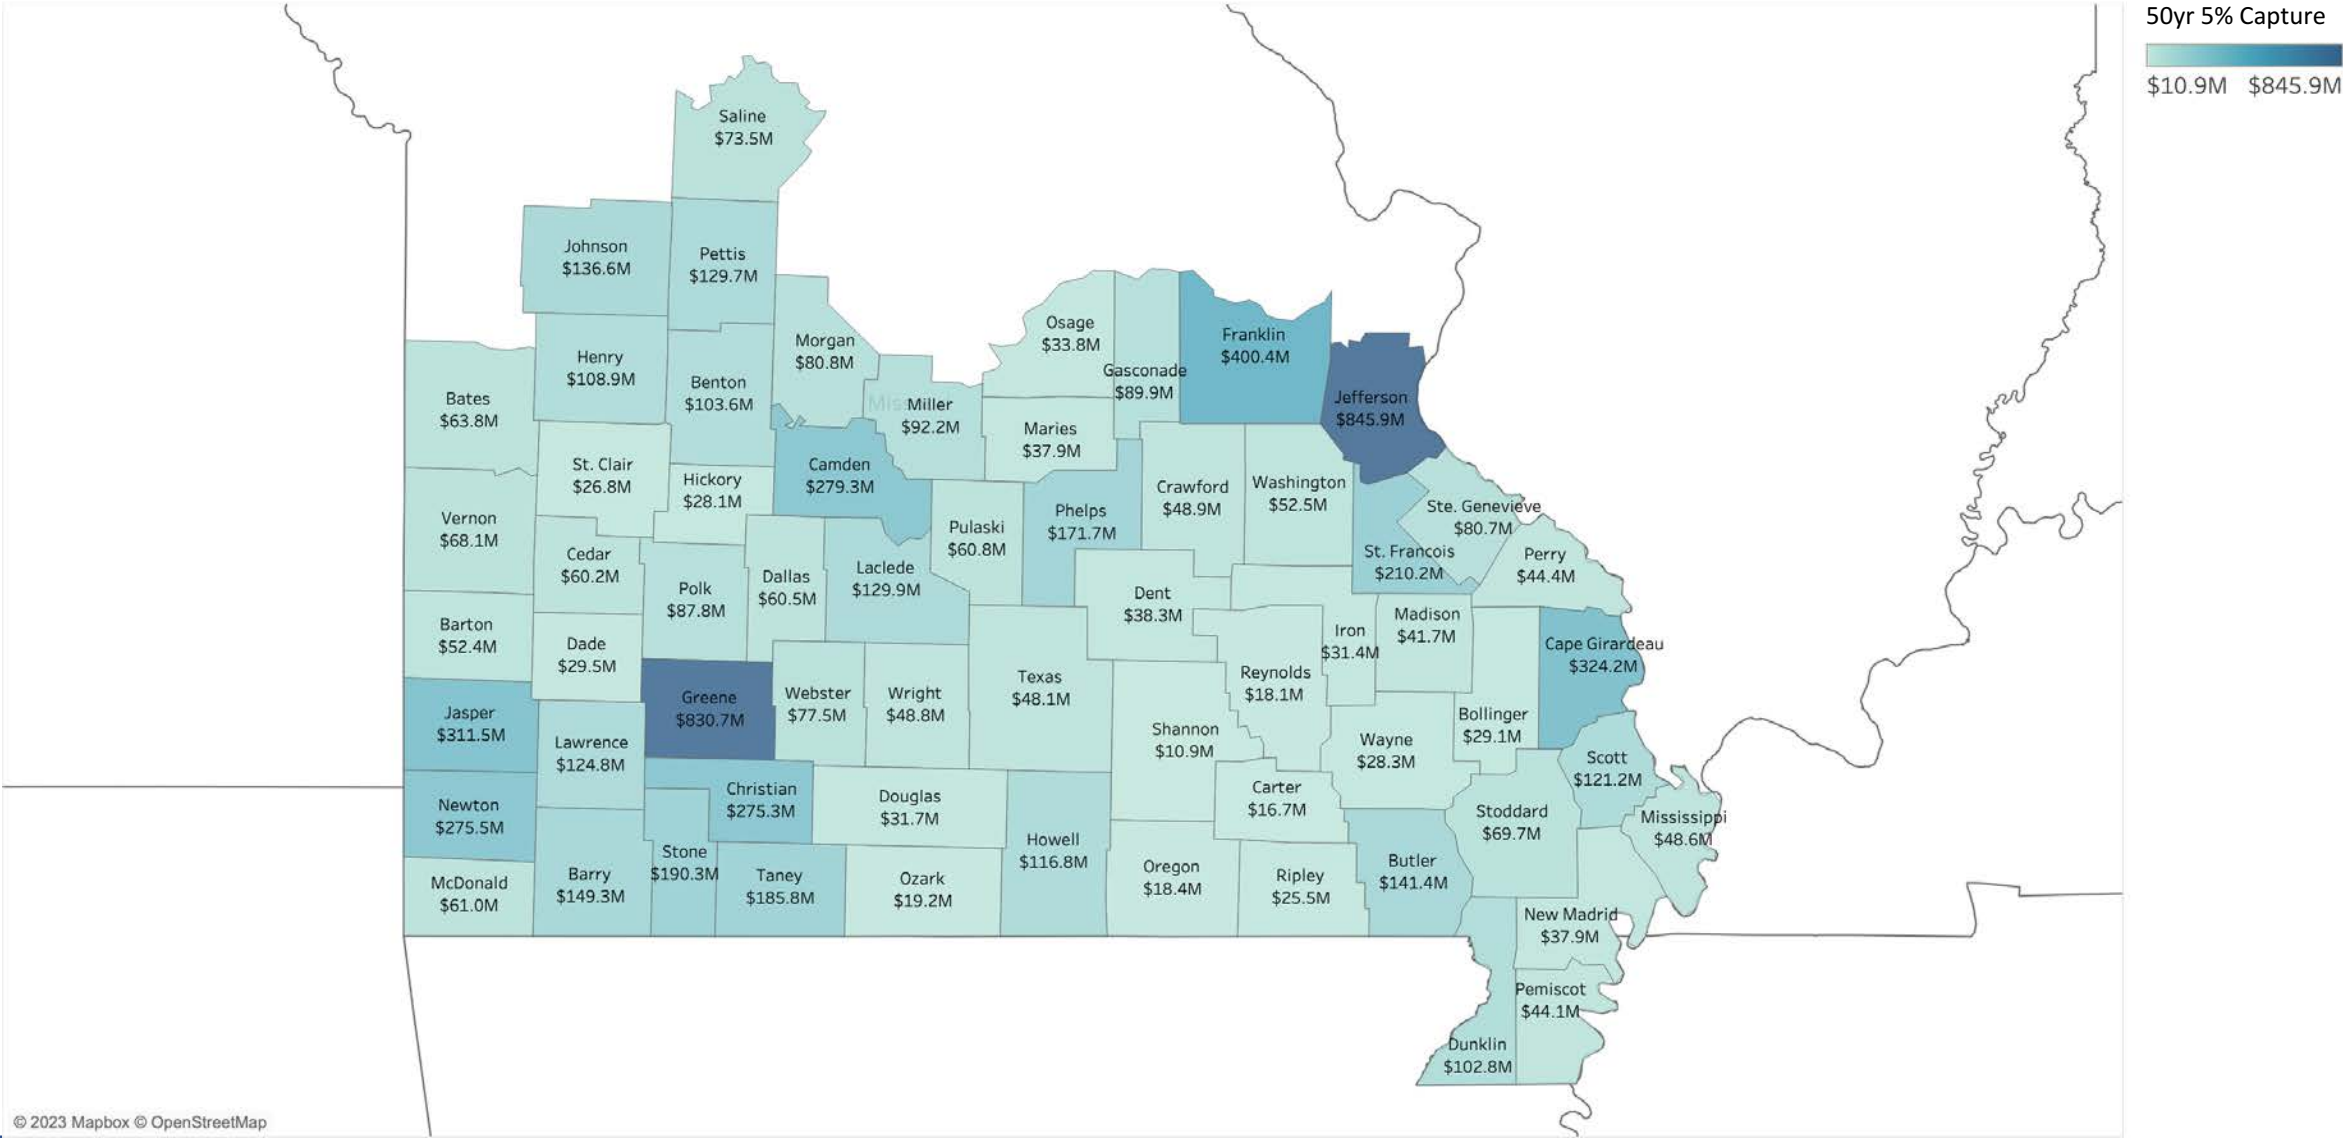

© 2023 Mapbox © OpenStreetMap

Over the next 50 years, the Transfer of Wealth Opportunity in the Ozarks region grows to \$151.7 Billion.

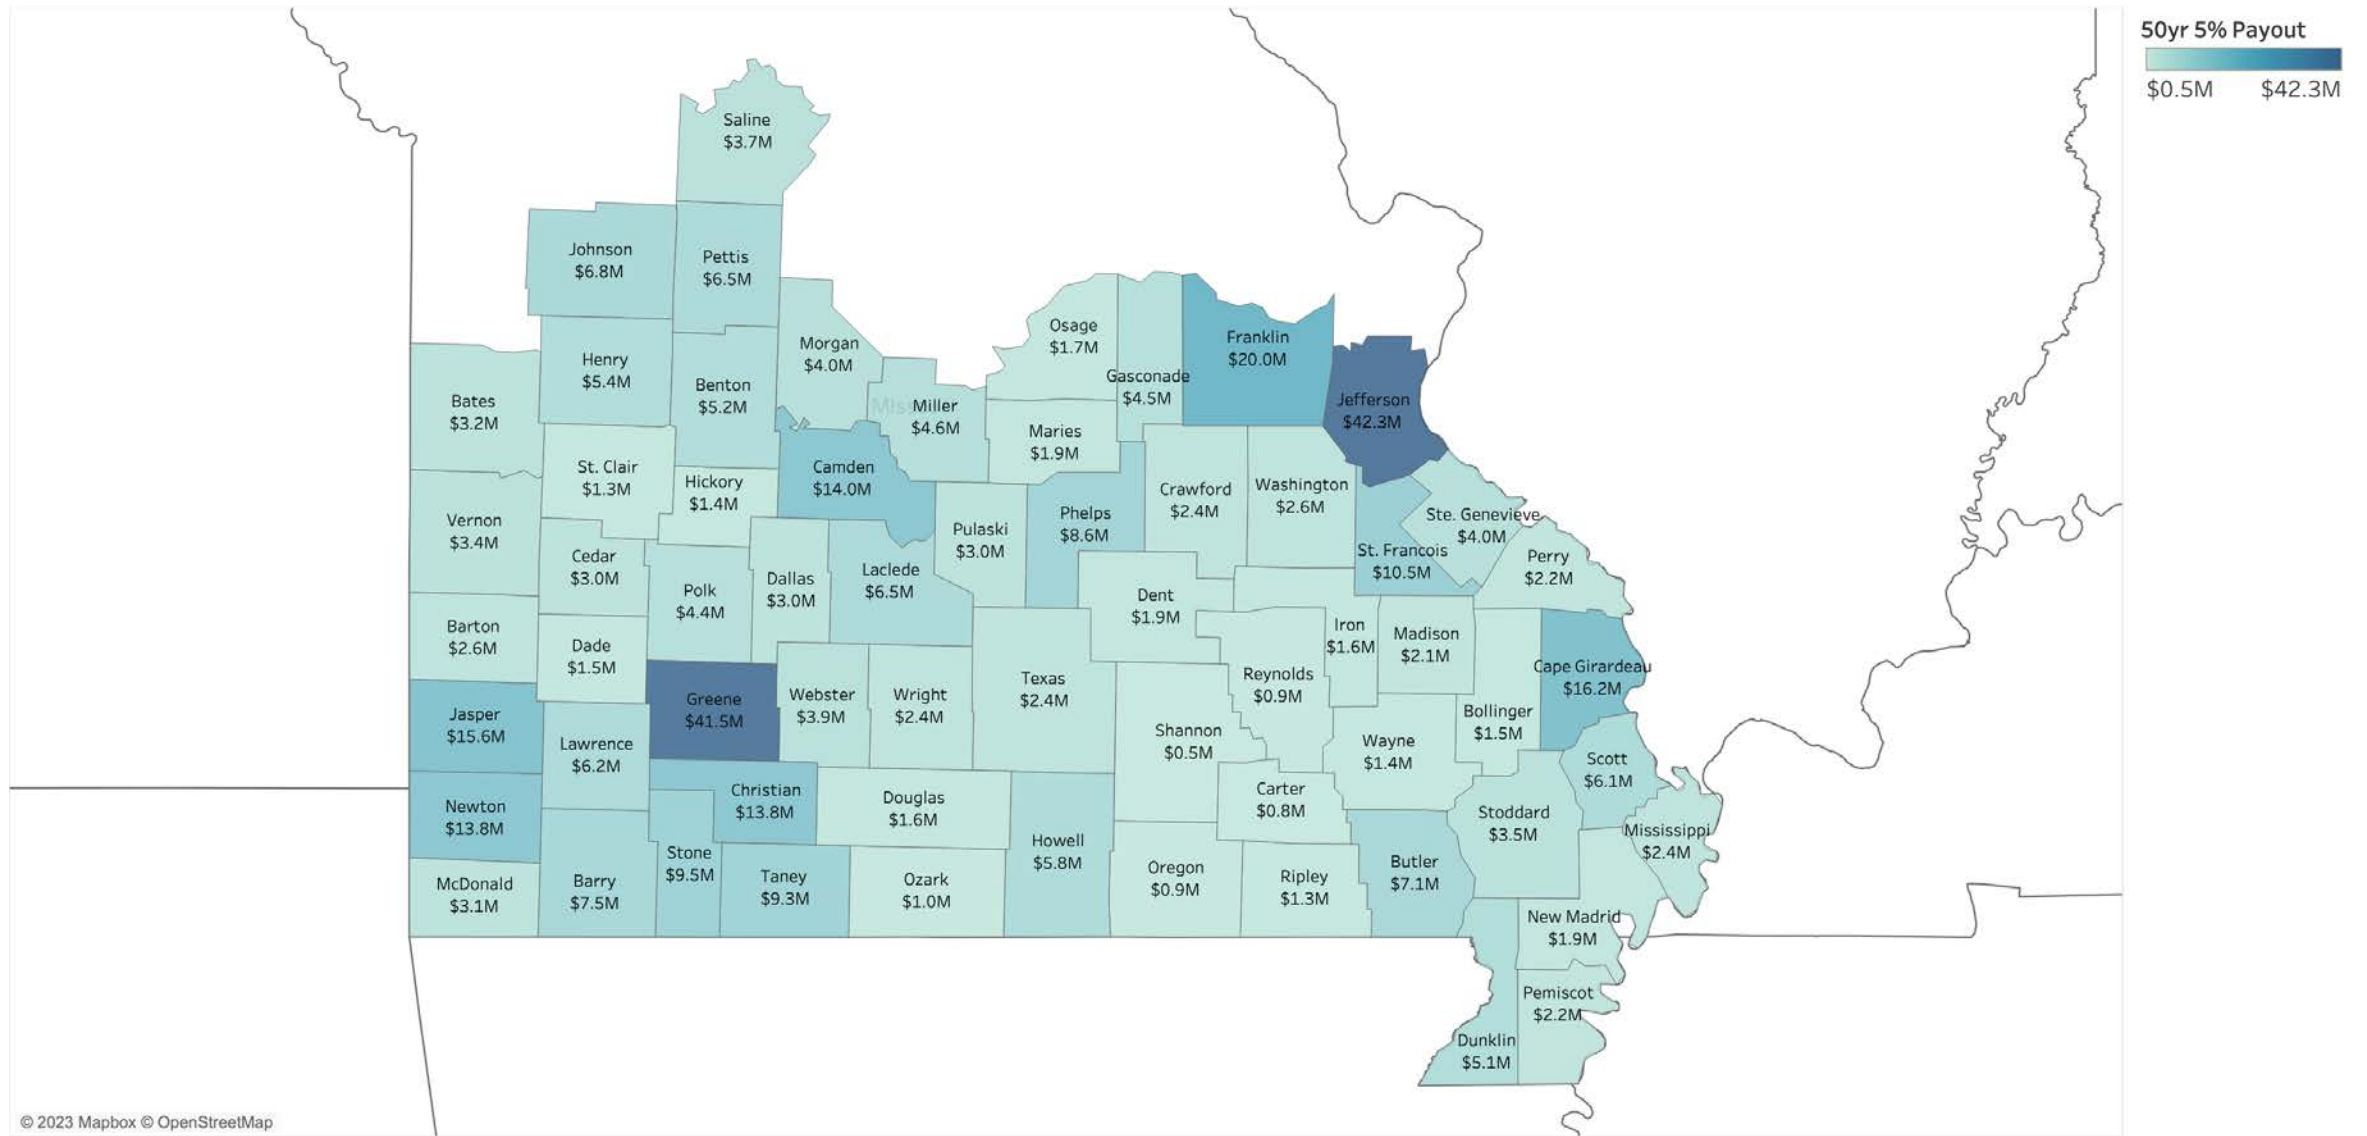

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the Transfer of Wealth in the Ozarks region would lead to \$7.6 Billion for community foundations in the Ozarks by 2072.

© 2023 Mapbox © OpenStreetMap

A payout of 5% of the total captured over the next 50 years could lead to over \$379 Million invest in Ozarks communities.

© 2023 Mapbox © OpenStreetMap

St. Louis

Demographics and Net Worth

Population in the St. Louis region has increased by 37,000 since 2010 but is expected to decline by 5,000 over the next five years.

Source: ESRI

By urbanization, the Large Fringe Metro counties of the region have gained population, while the City of St. Louis is now below 300,000 residents.

Source: ESRI

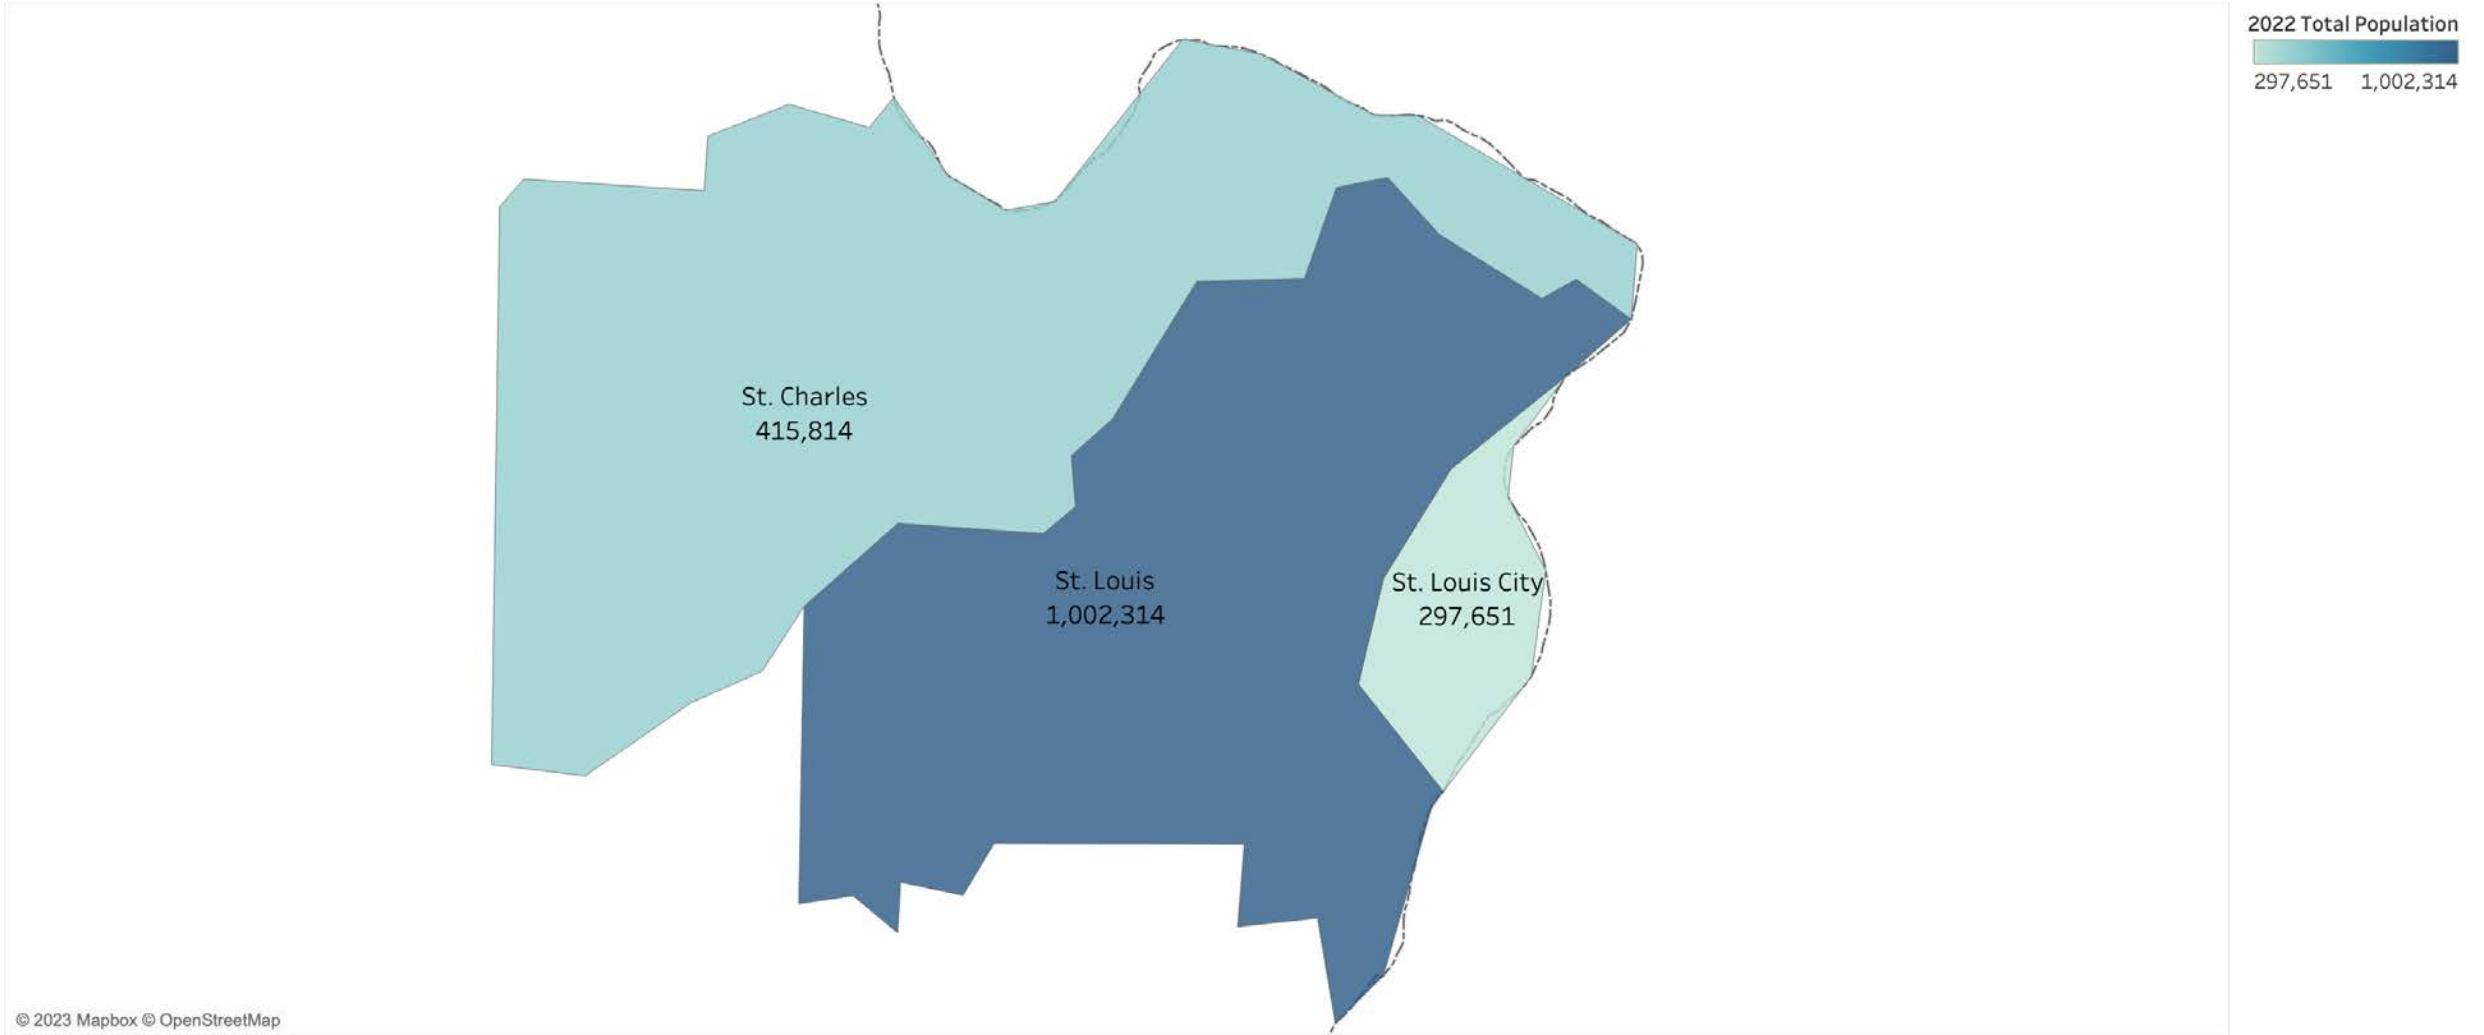

However, at the county-level, we see that all gains were in St. Charles County, with both St. Louis County and City losing population.

Source: ESRI

The St. Louis foundation region serves a total population of 1,715,779.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Total households in the St. Louis region have increased since 2010, but this growth is beginning to plateau.

Source: ESRI

The increase in household totals is encompassed within the Large Fringe Metros of the region.

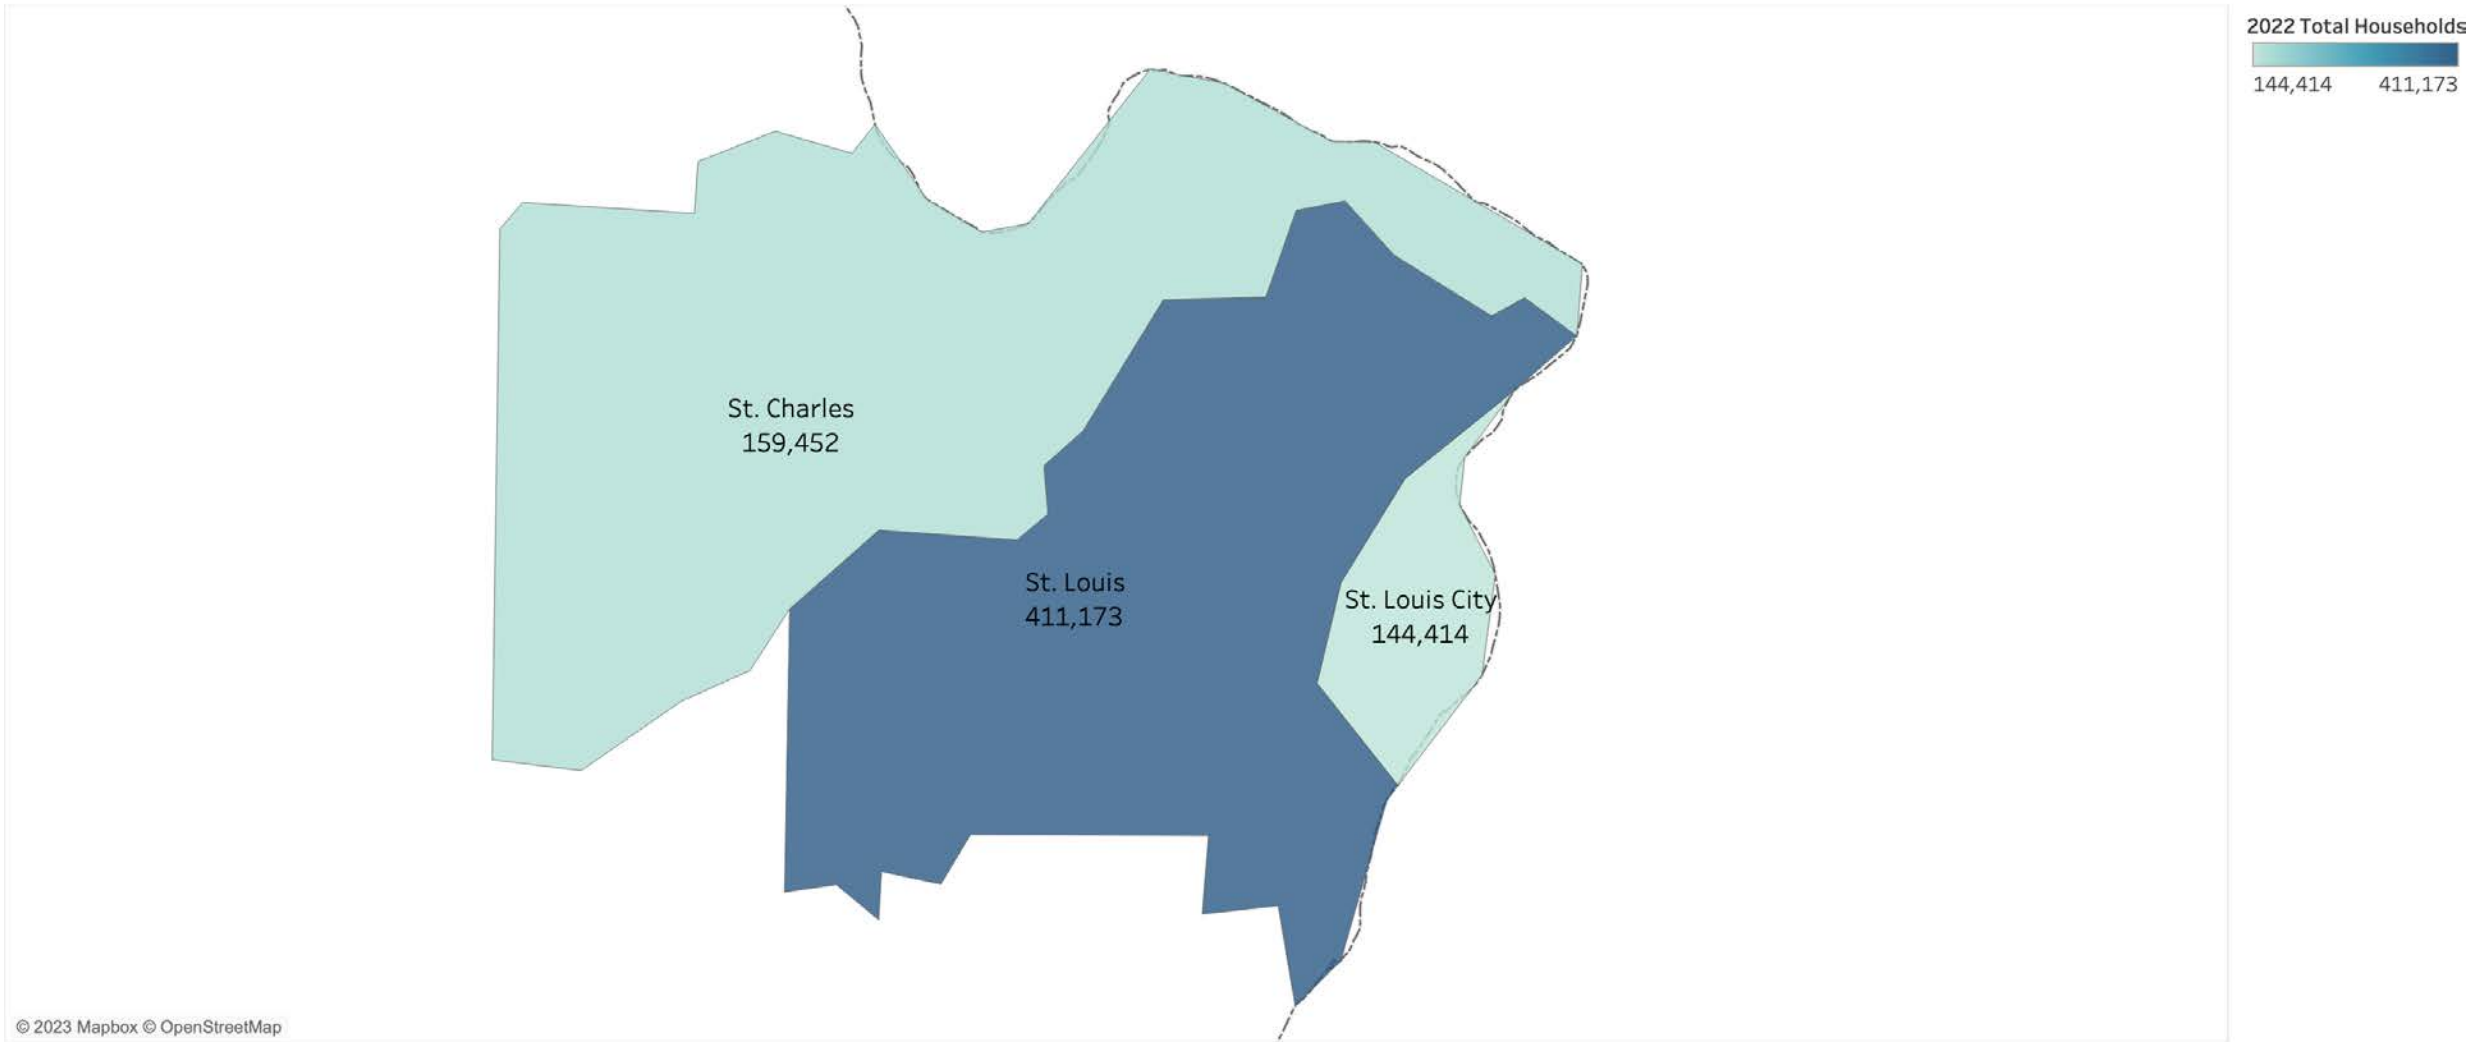

St. Charles has 18.8% more households than it did in 2010 and is expected to be over 165,500 households by 2027.

St. Louis County has 107,307 more households than St. Charles County and the City of St. Louis combined.

Source: ESRI

Average Household Size in the St. Louis foundation region has declined from 2.41 to 2.31.

Source: ESRI

There are continued declines in Average Household Size in each level of urbanization for the St. Louis region.

Average Household Size has fallen below two persons per household in the City of St. Louis – the lowest in Missouri on average.

Source: ESRI

Median Age in the St. Louis region has increased 1.9 years since 2010 and could increase up to another year by 2027.

Source: ESRI

By urbanization, Median Age currently ranges between 36.5 and 40.3.

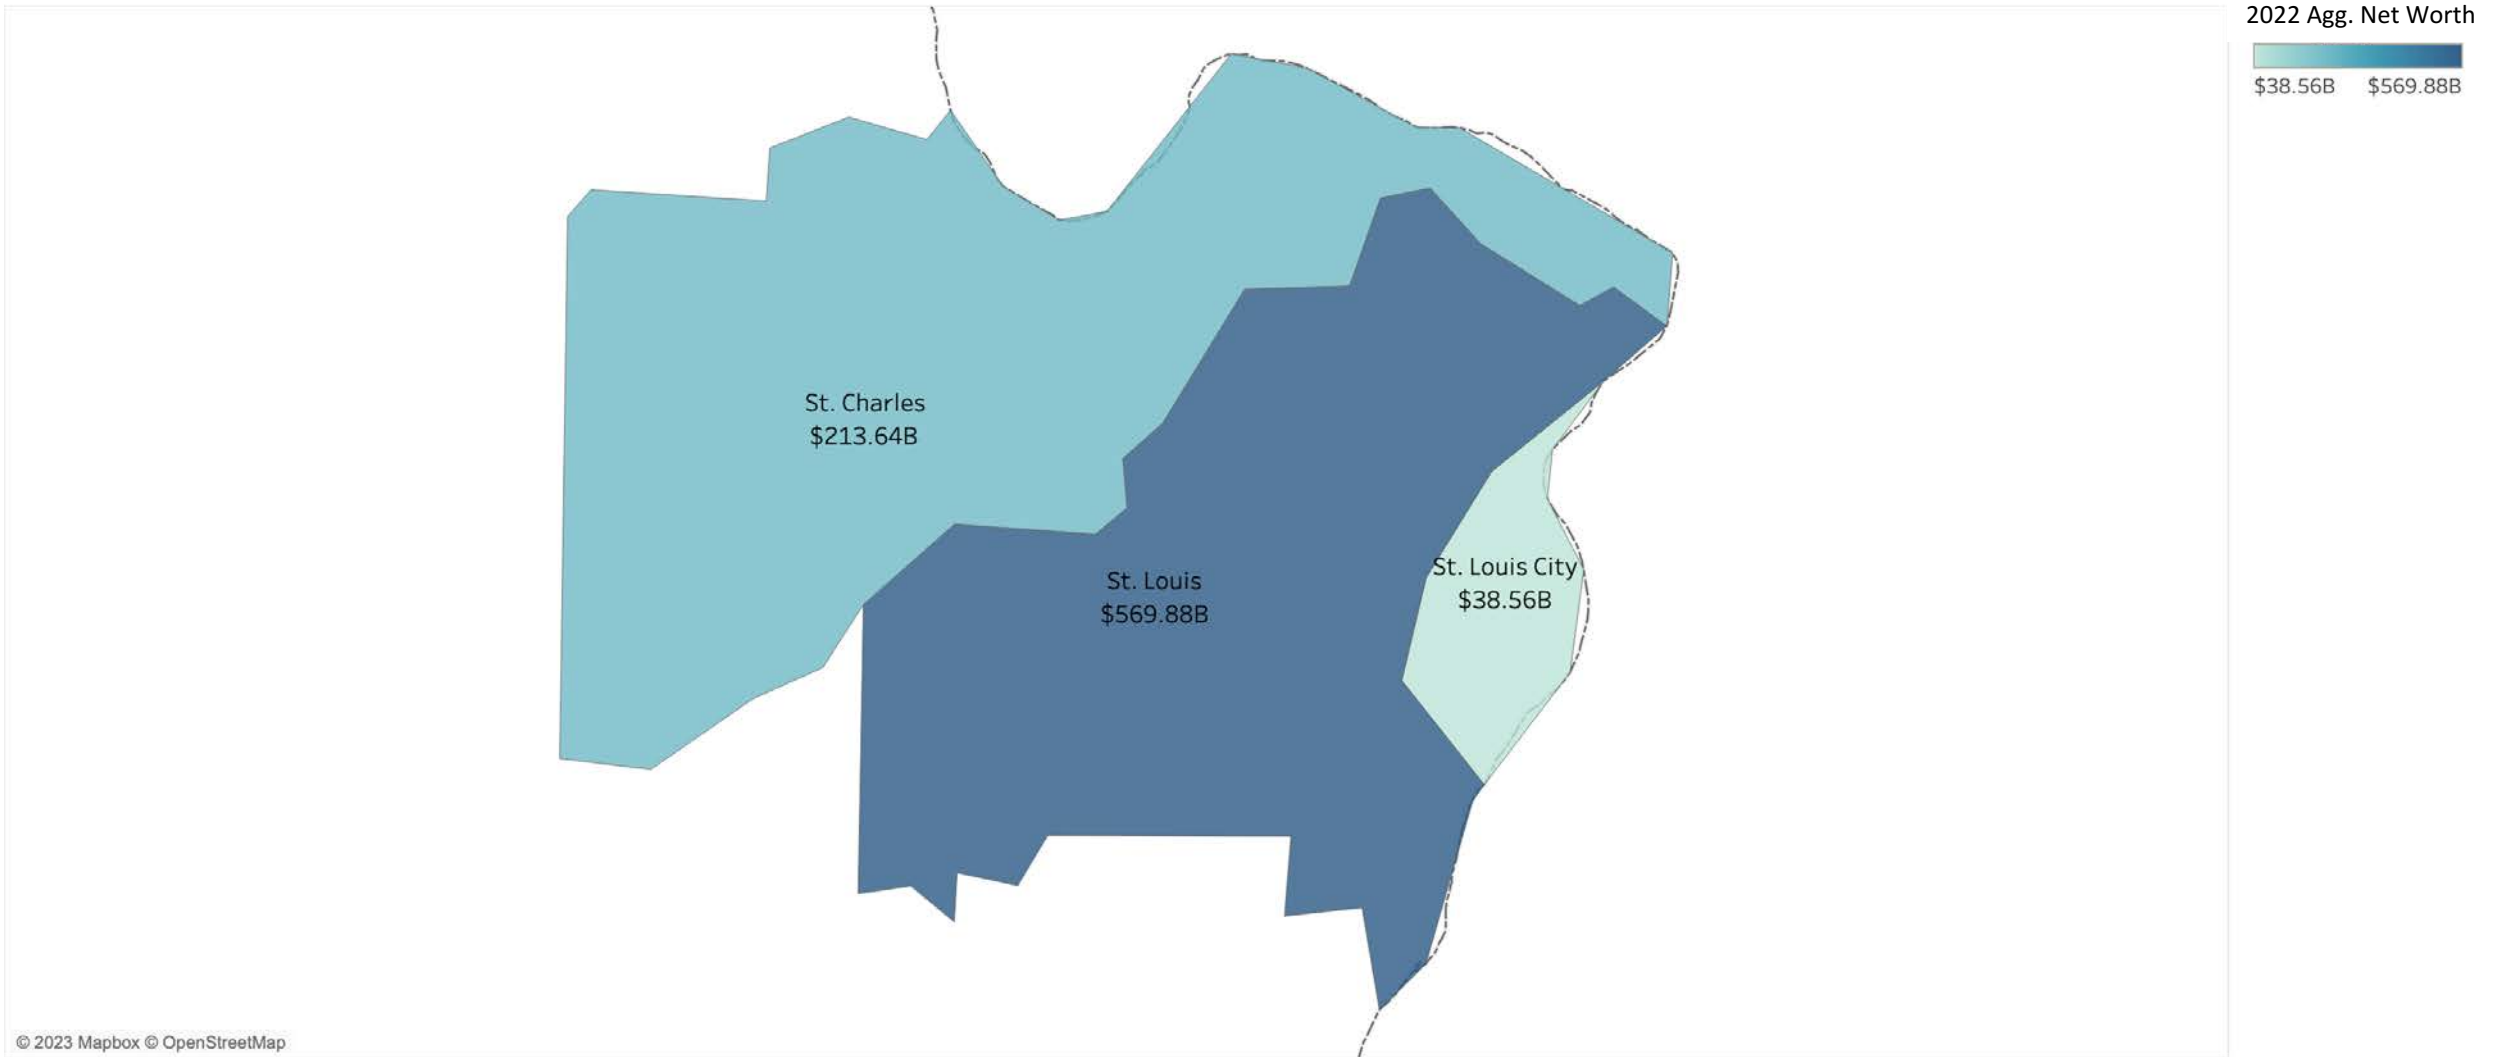

Each county of the St. Louis region has seen Median Age increase by about two years since 2010, with further increases likely.

Source: ESRI

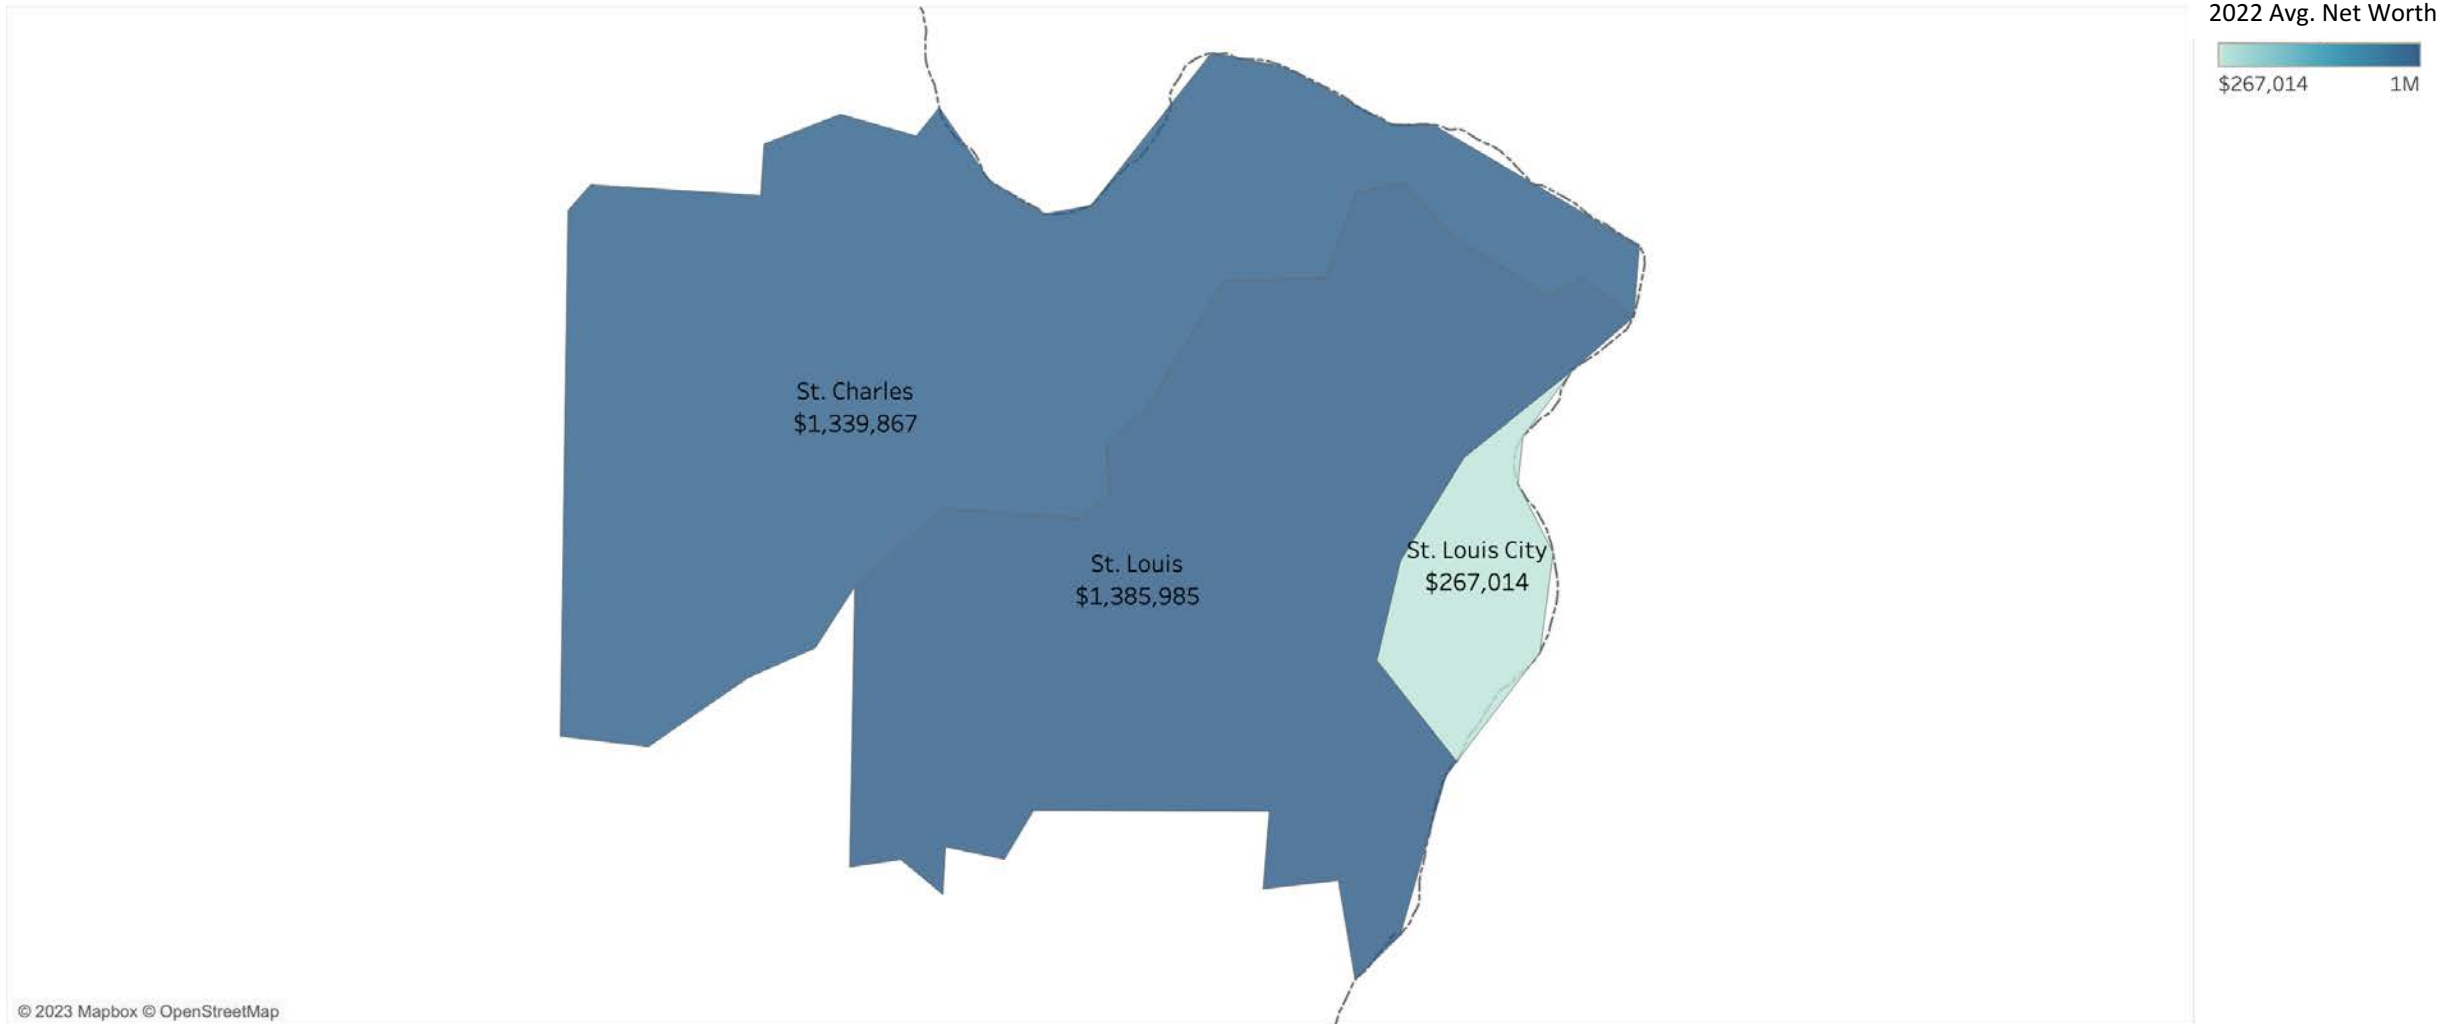

Aggregate Net Worth in the St. Louis region ranges between \$38.6 Billion in the City to nearly \$570 Billion in St. Louis County.

Source: ESRI

On average, net worth in St. Louis and St. Charles counties are comparable - \$1.39M and \$1.34M respectively. St. Louis City's average net worth – with a relatively low Median Age – is \$267,014.

Source: ESRI

Median Net Worth is highest in St. Charles County (\$305k) while St. Louis City's median net worth (\$27,786) is less than 10% that of St. Charles County.

Source: ESRI

© 2023 Mapbox © OpenStreetMap

Summary of population, households, and net worth in the St. Louis region:

Source: ESRI

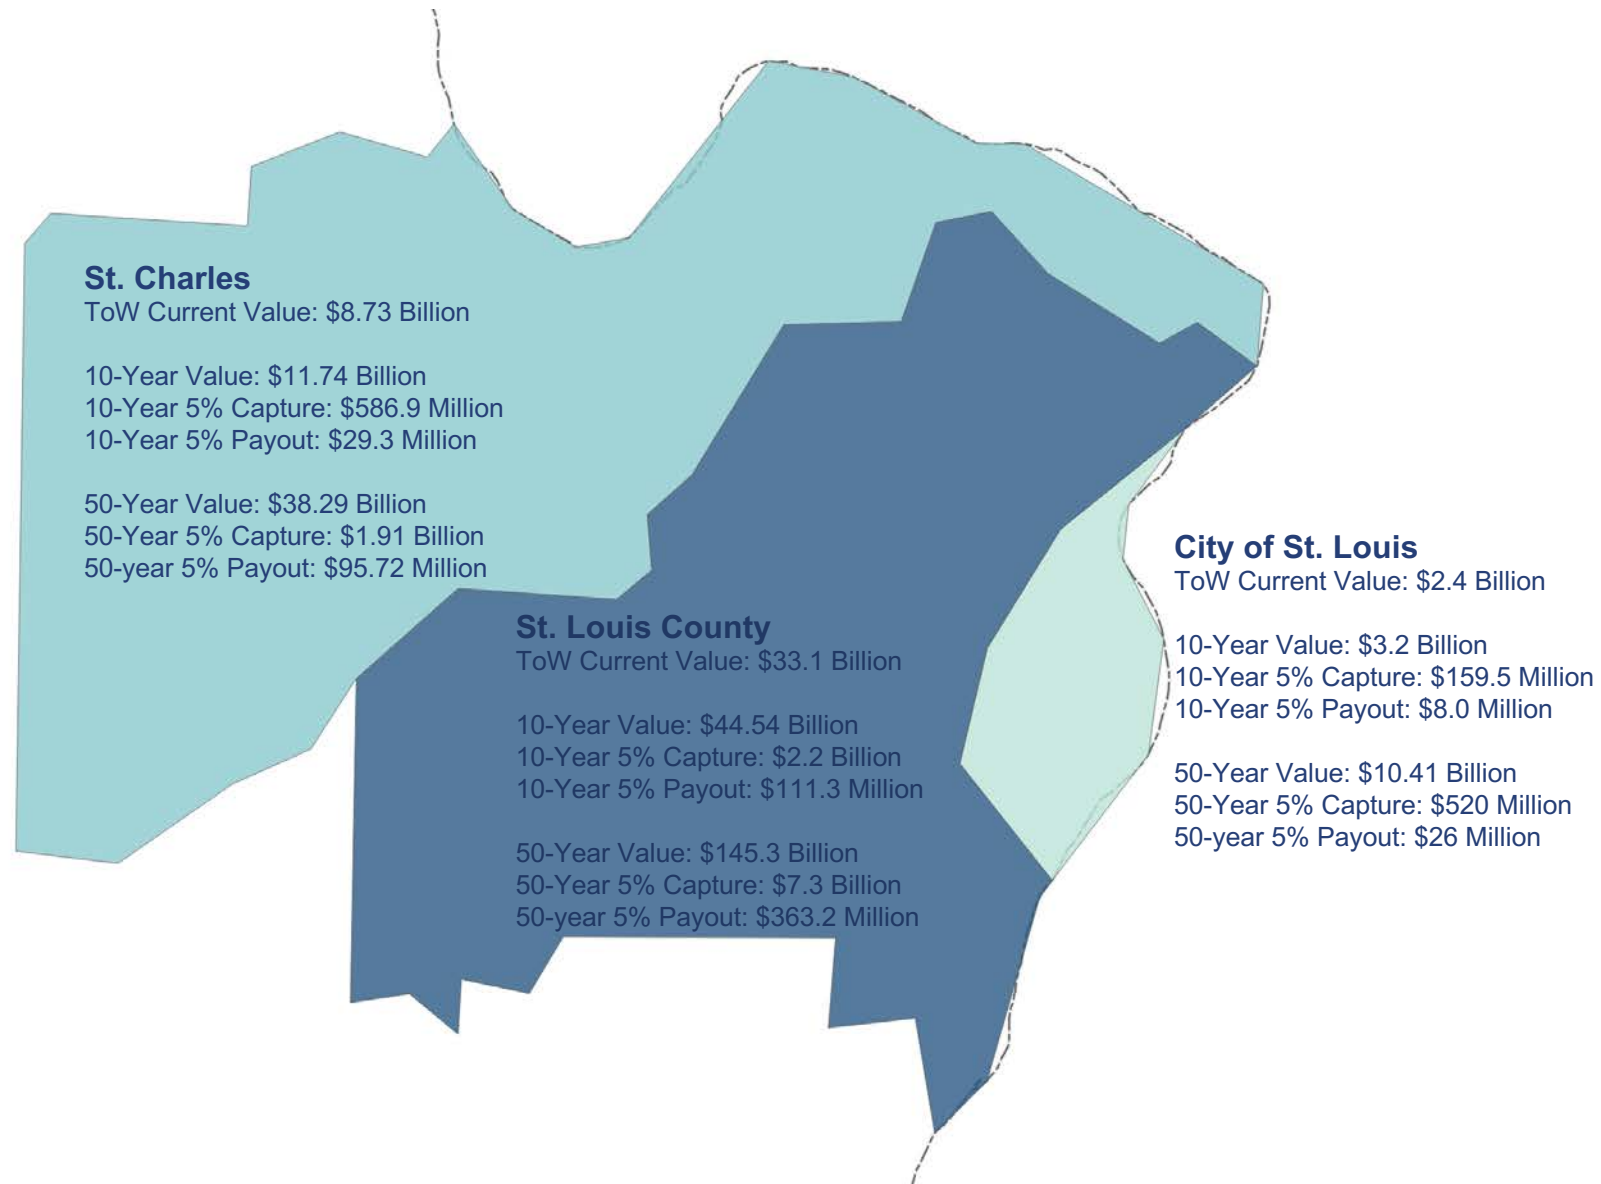

Region	County	2022 Total Population	2022 Total Households	2022 Aggregate Net Worth	2022 Average Net Worth	2022 Median Net Worth
St. Louis & Youth Bridge	St. Charles	415,814	159,452	\$213.64B	\$1,339,867	\$304,837
	St. Louis	1,002,314	411,173	\$569.88B	\$1,385,985	\$211,661
	St. Louis City	297,651	144,414	\$38.56B	\$267,014	\$27,786

St. Louis

Transfer of Wealth

In the St. Louis region, the next ten years could lead to nearly \$3 Billion in wealth captured by the community foundation and nearly \$150 Million invested in the St. Louis Region.

Over the next 50 years, \$194 Billion will transfer. The Community Foundation can capture nearly \$9.7 Billion and invest close to \$500 Million.

Truman Heartland

Demographics and Net Worth

The Truman Heartland foundation region serves about 870,000 residents in three counties – 60,000 more than in 2010.

Source: ESRI

Only two levels of urbanization in the Truman Heartland region, encompassing a Large Central Metro and Large Fringe Metro.

Source: ESRI

Jackson County is by far the largest in the Truman Heartland region, with Cass and Lafayette counties accounting for about 133,000.

Source: ESRI

Number of households have increased since 2010 and are expected to continue to increase into 2027.

Source: ESRI

85% of the households in the Truman Heartland region are within the Large Central Metro.

Like population, most households are in Jackson County which as seen a 10% increase since 2010.

Source: ESRI

On average, there are currently 2.49 persons per household in the Truman Heartland region.

Source: ESRI

On average, household sizes are slightly larger in the Large Fringe Metro level of urbanization in the Truman Heartland region.

Source: ESRI

Average Household Sizes range from 2.36 to 2.60 in the Truman Heartland region.

Source: ESRI

Median Age in the Truman Heartland region has increased by 2.5 years (6.6%) since 2010.

Source: ESRI

The Large Fringe Metro counties have a Median Age about three years older than that of the Large Central Metro.

Source: ESRI

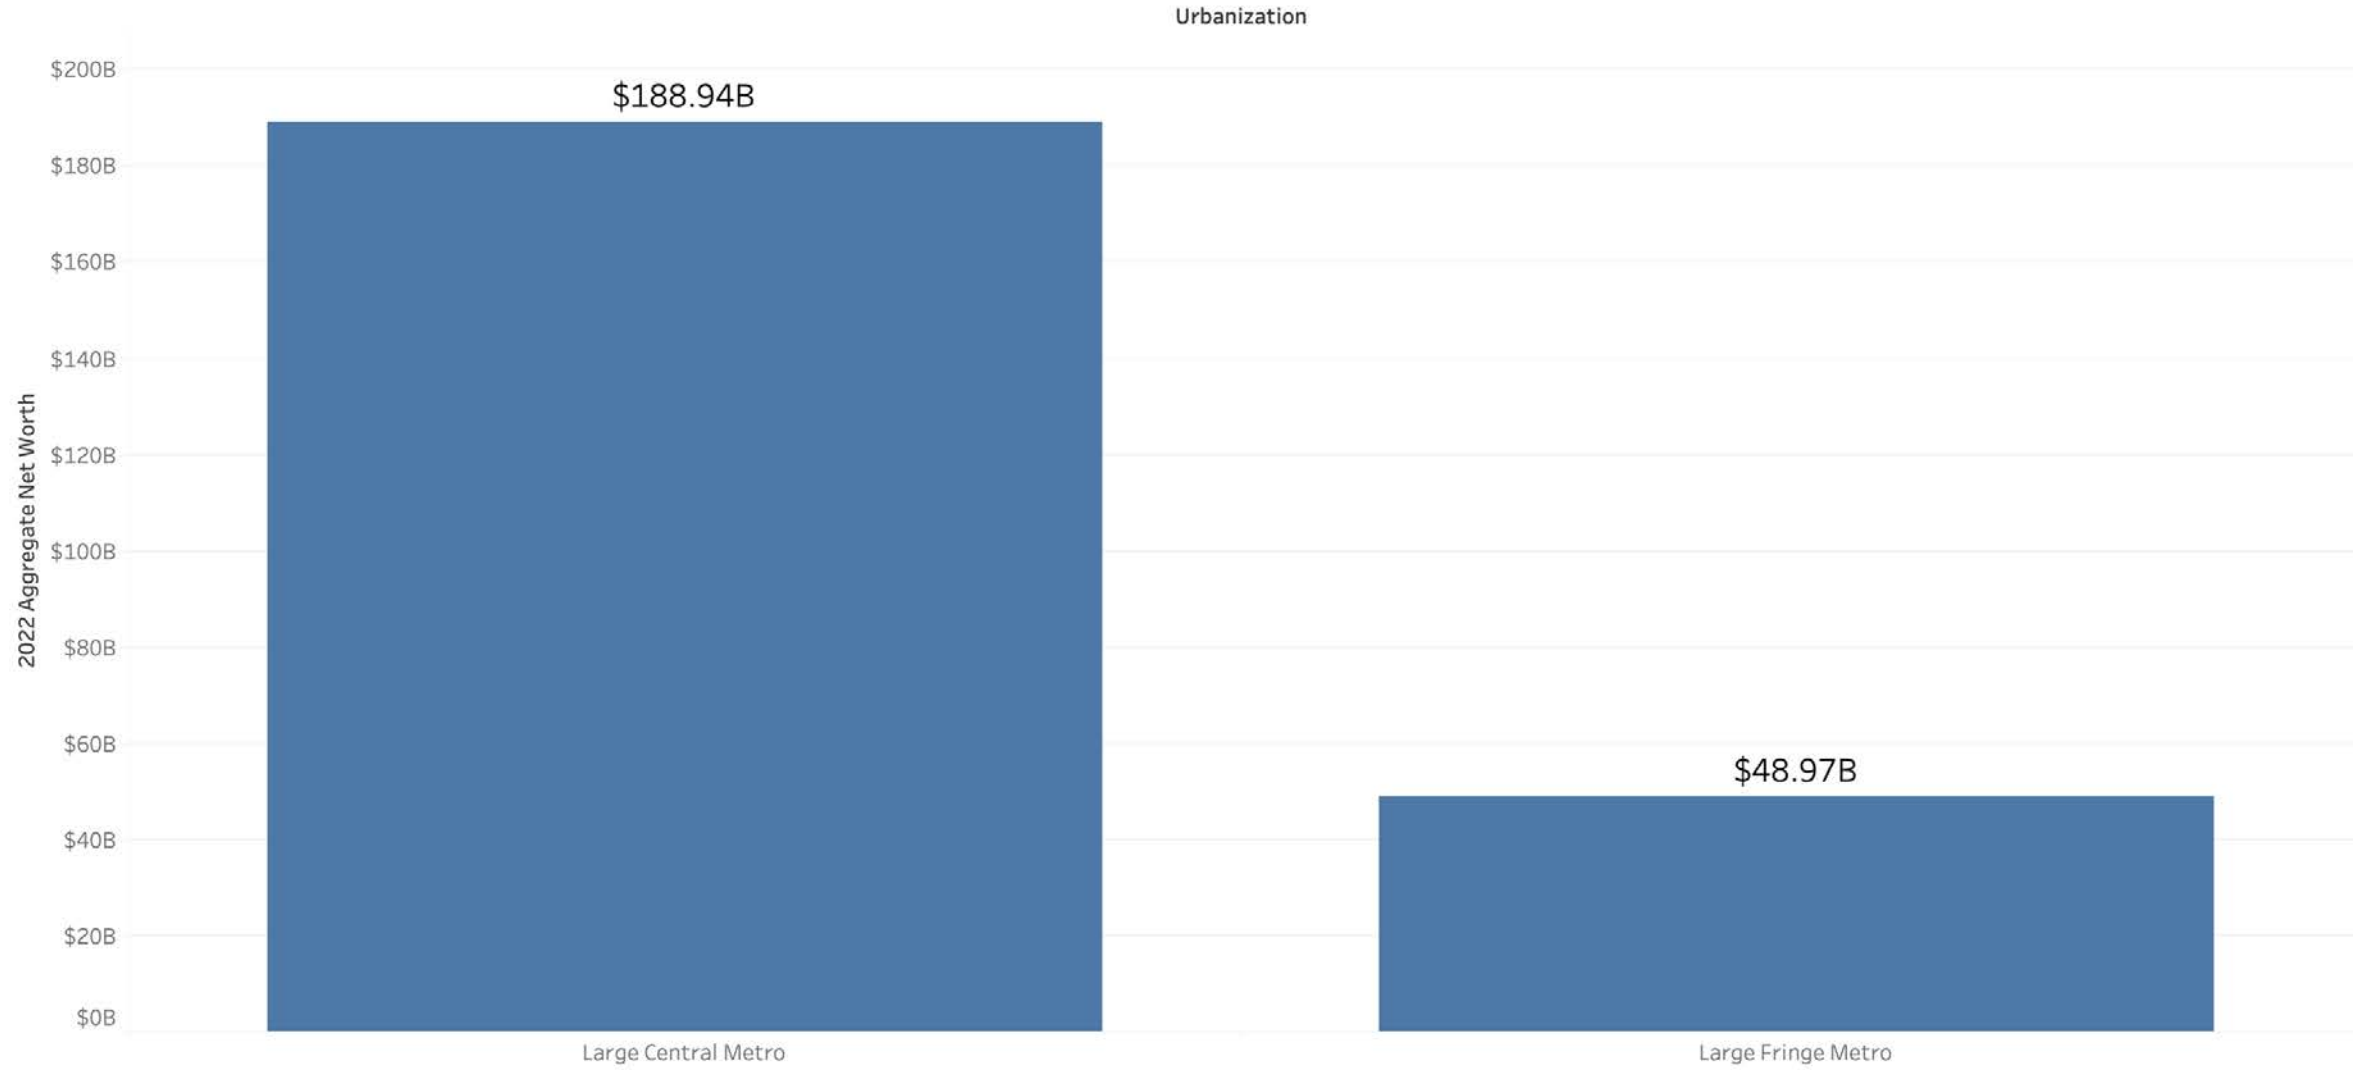

Each county in the Truman Heartland region has experienced and will continue to experience an increase in Median Age.

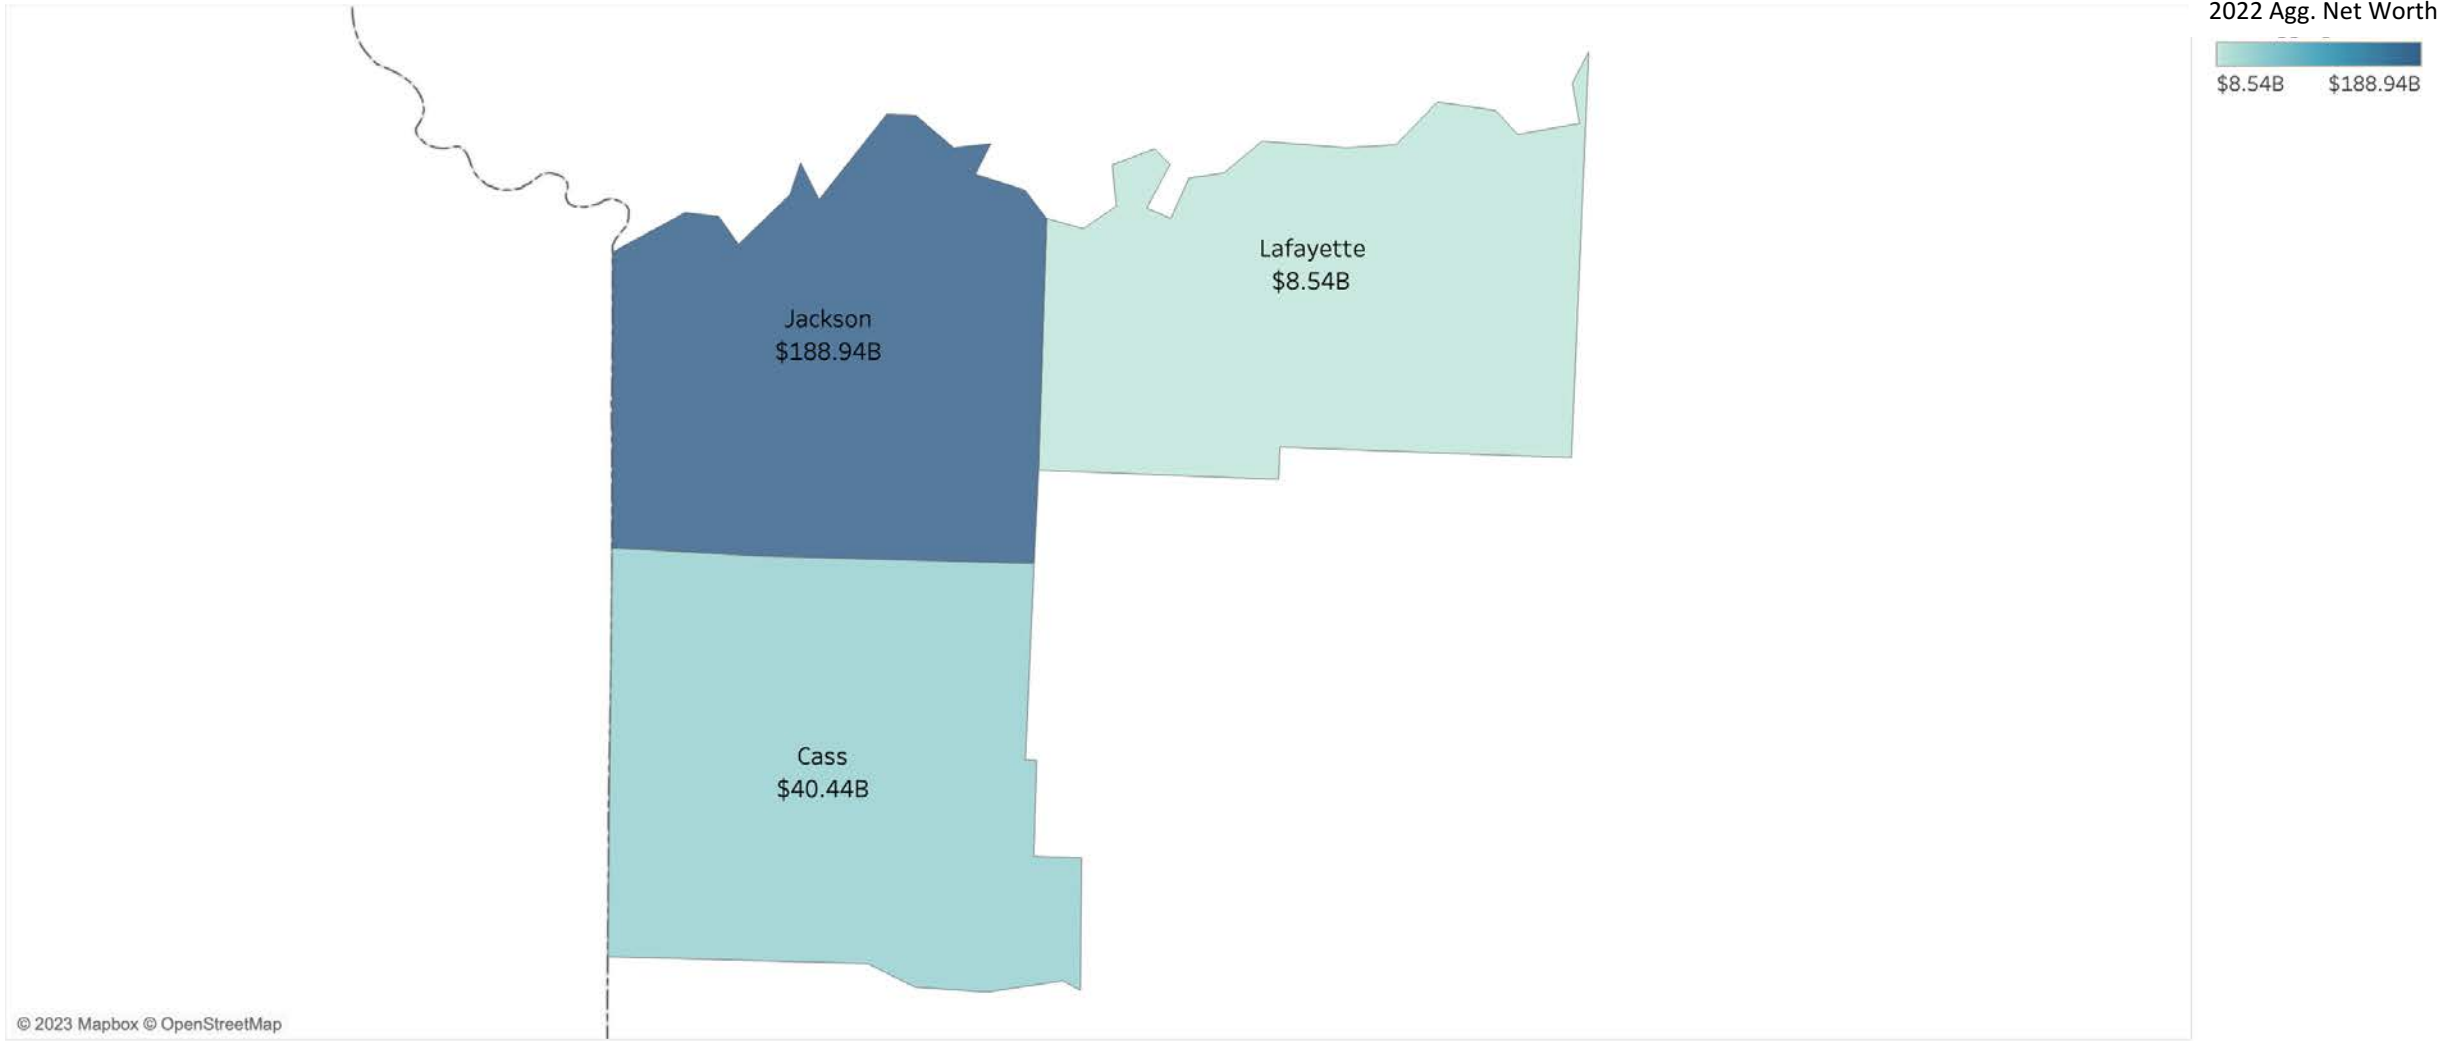

Aggregate Net Worth by level of urbanization is \$189 Billion for the Large Central Metro and \$49 Billion for the two Large Fringe Metros.

Source: ESRI

Aggregate Net Worth in the Truman Heartland Region ranges from \$8.54 Billion in Lafayette County to nearly \$189 Billion in Jackson County.

Source: ESRI

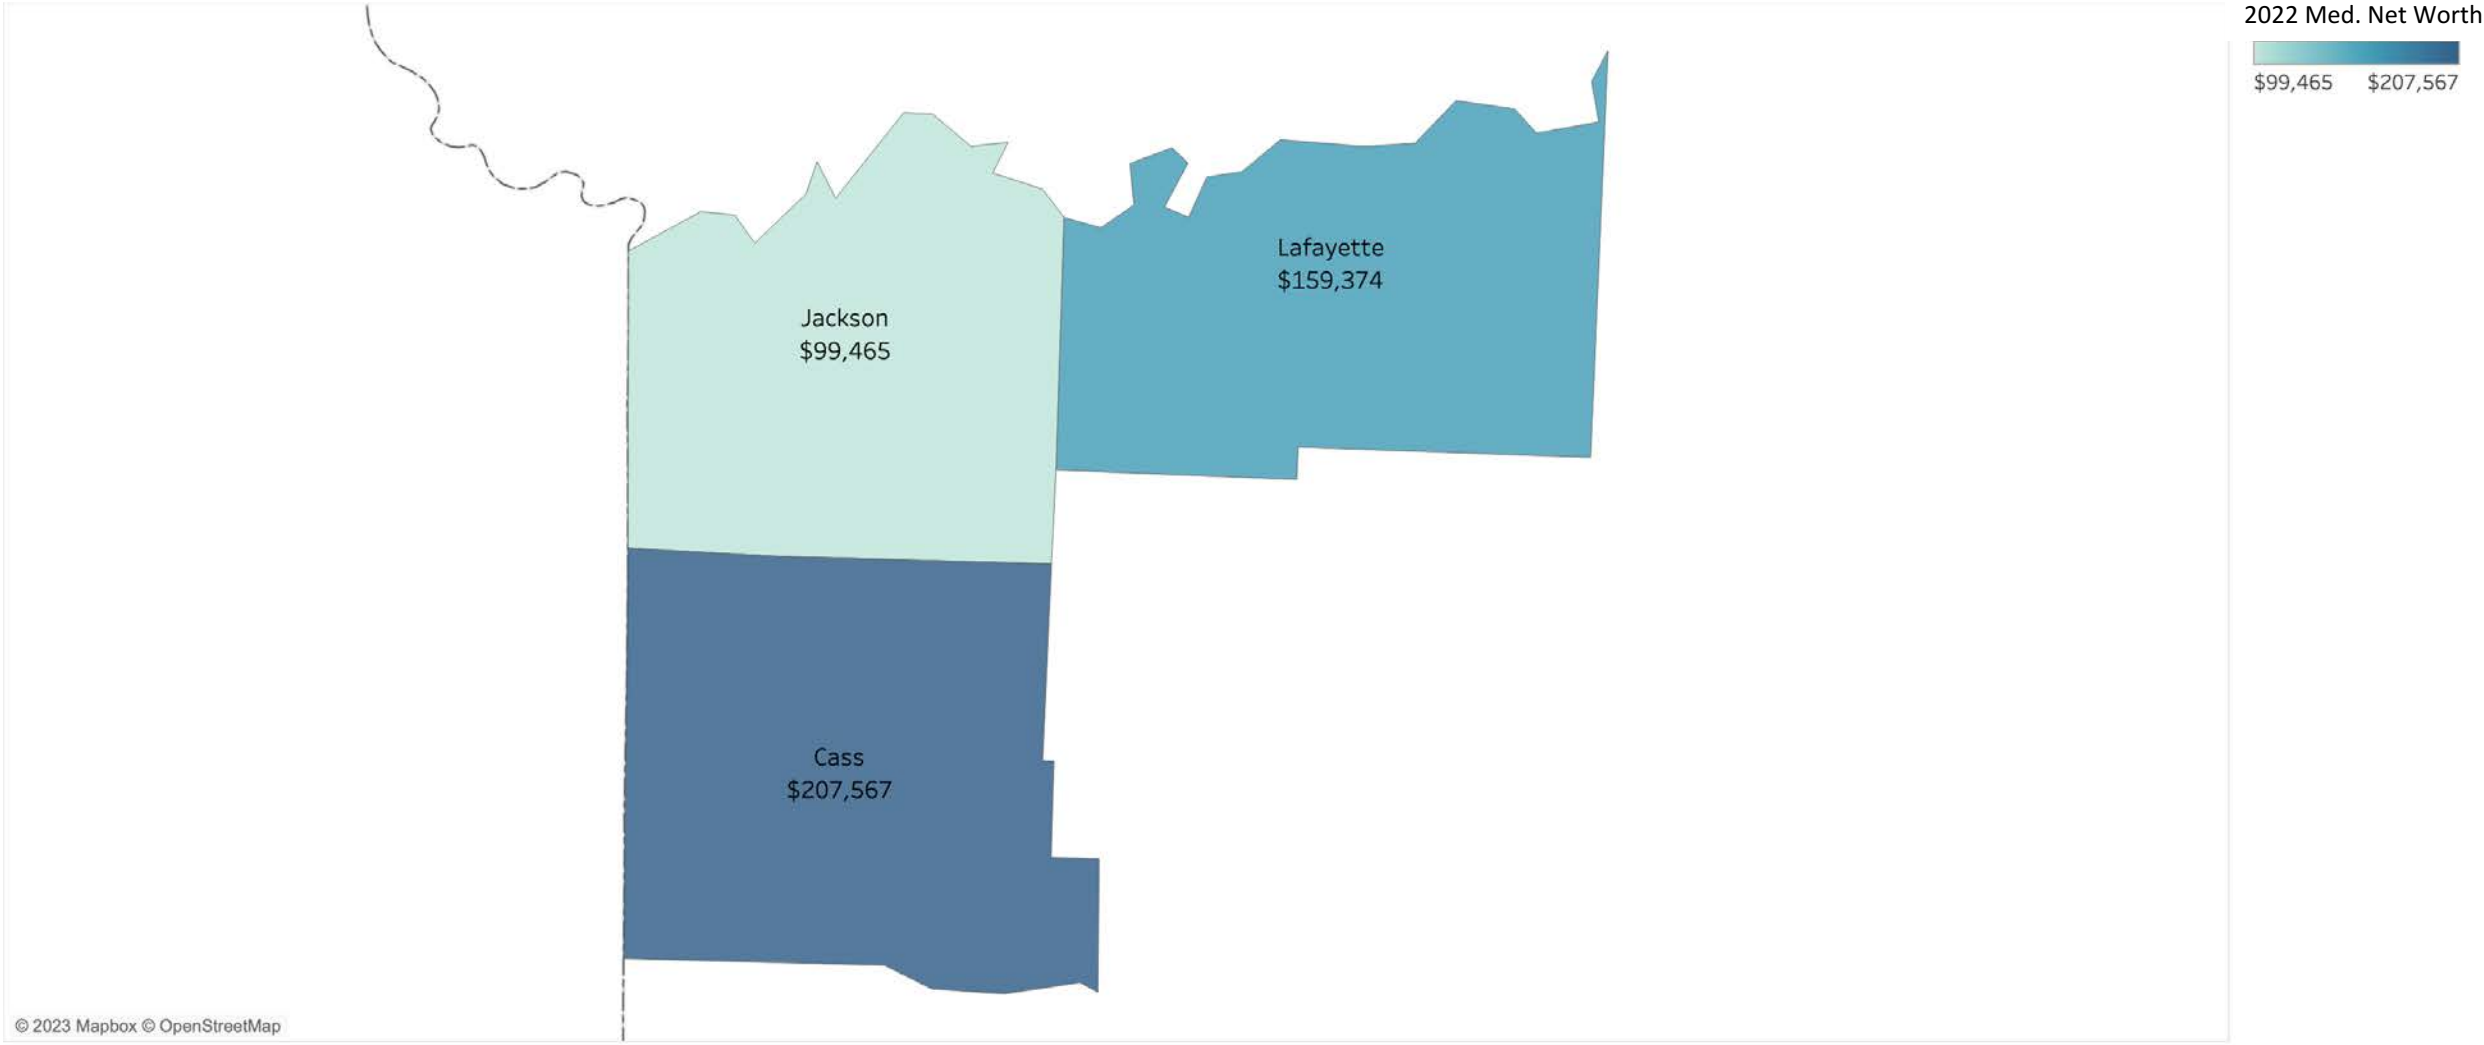

Average Net Worth ranges from \$625k in Jackson County to \$965,685 in Cass County.

Source: ESRI

Median Net Worth in the Truman Heartland region ranges from about \$100,000 in Jackson County to nearly \$208,000 in Cass County.

Source: ESRI

Summary of population, households, and net worth for the Truman Heartland foundation region:

Source: ESRI

Region	County	2022 Total Population	2022 Total Households	2022 Aggregate Net Worth	2022 Average Net Worth	2022 Median Net Worth
Truman Heartland	Cass	109,969	41,876	\$40.44B	\$965,685	\$207,567
	Jackson	726,135	302,322	\$188.94B	\$624,982	\$99,465
	Lafayette	32,829	12,811	\$8.54B	\$666,496	\$159,374

Truman Heartland

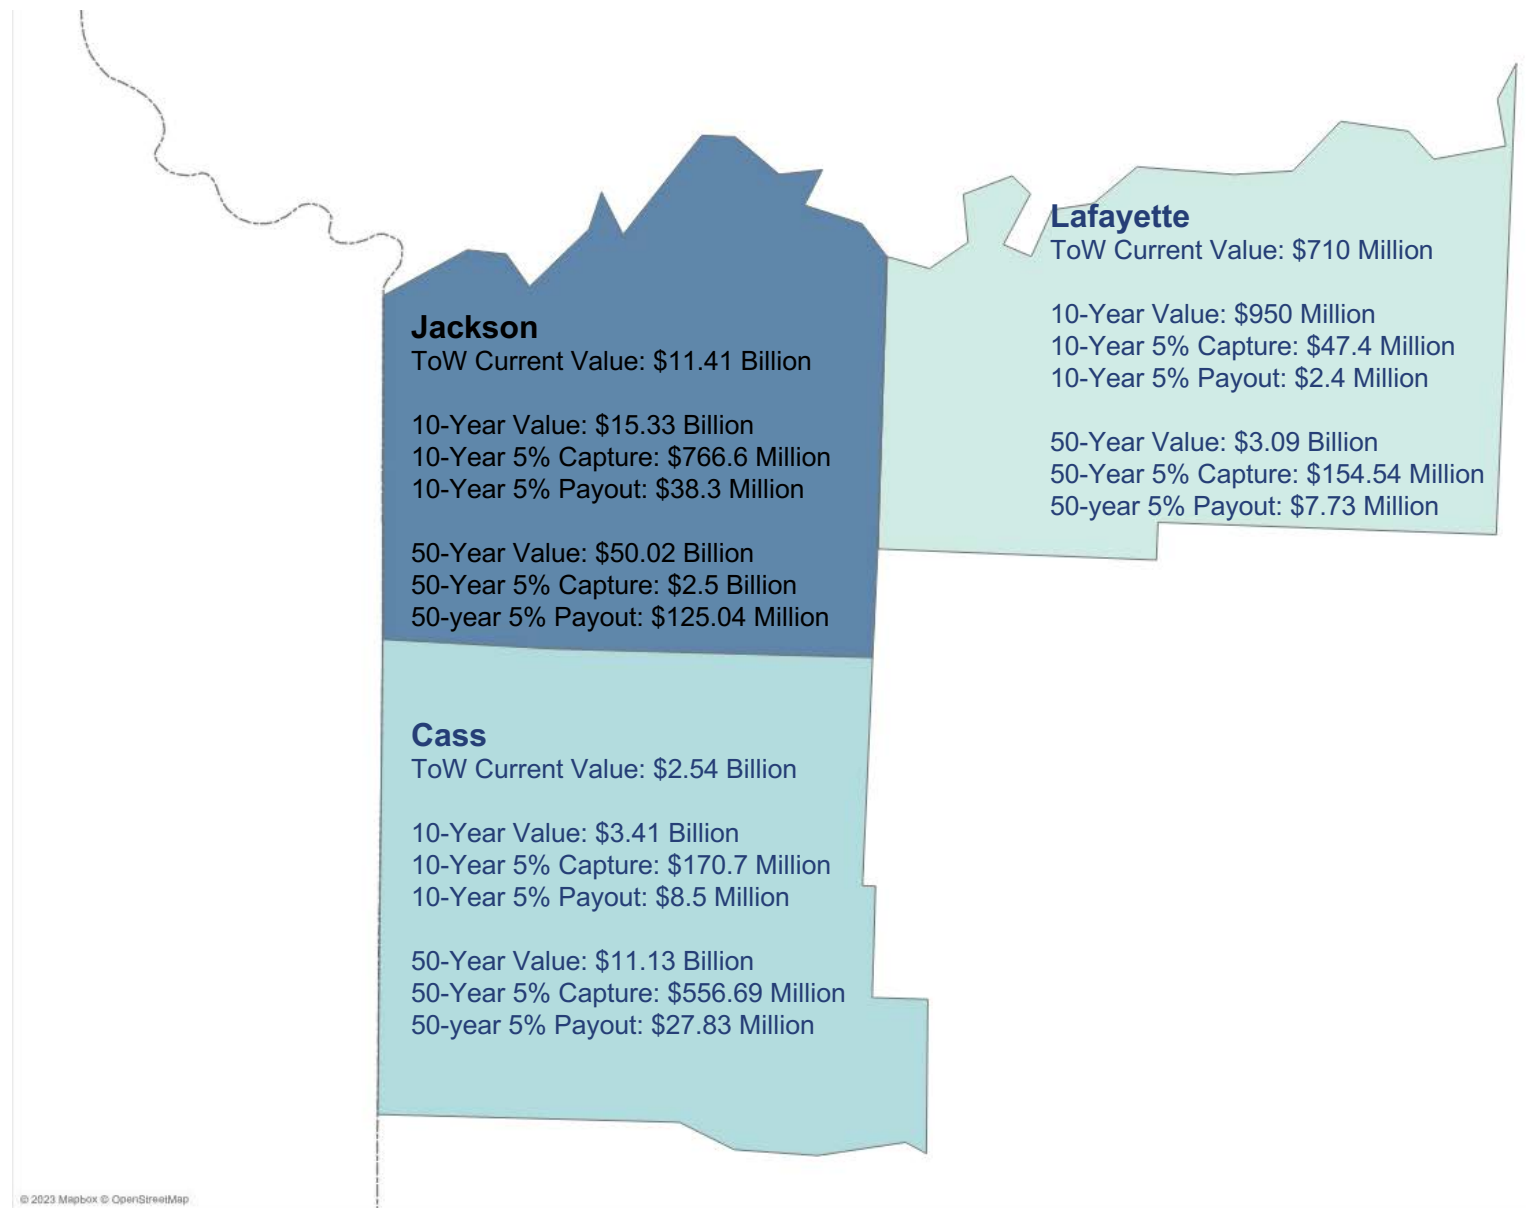

Transfer of Wealth

CCRI CENTER FOR
CIVIC RESEARCH
AND INNOVATION

AN INITIATIVE OF THE ST. LOUIS COMMUNITY FOUNDATION

In the Truman Heartland region, the next ten years could lead to nearly \$985 Million in wealth captured by the community foundation and nearly \$49.2 Million invested in the community.

Over the next 50 years, \$64.2 Billion will transfer. The Community Foundation can capture nearly \$3.2 Billion and invest \$160.6 Million.

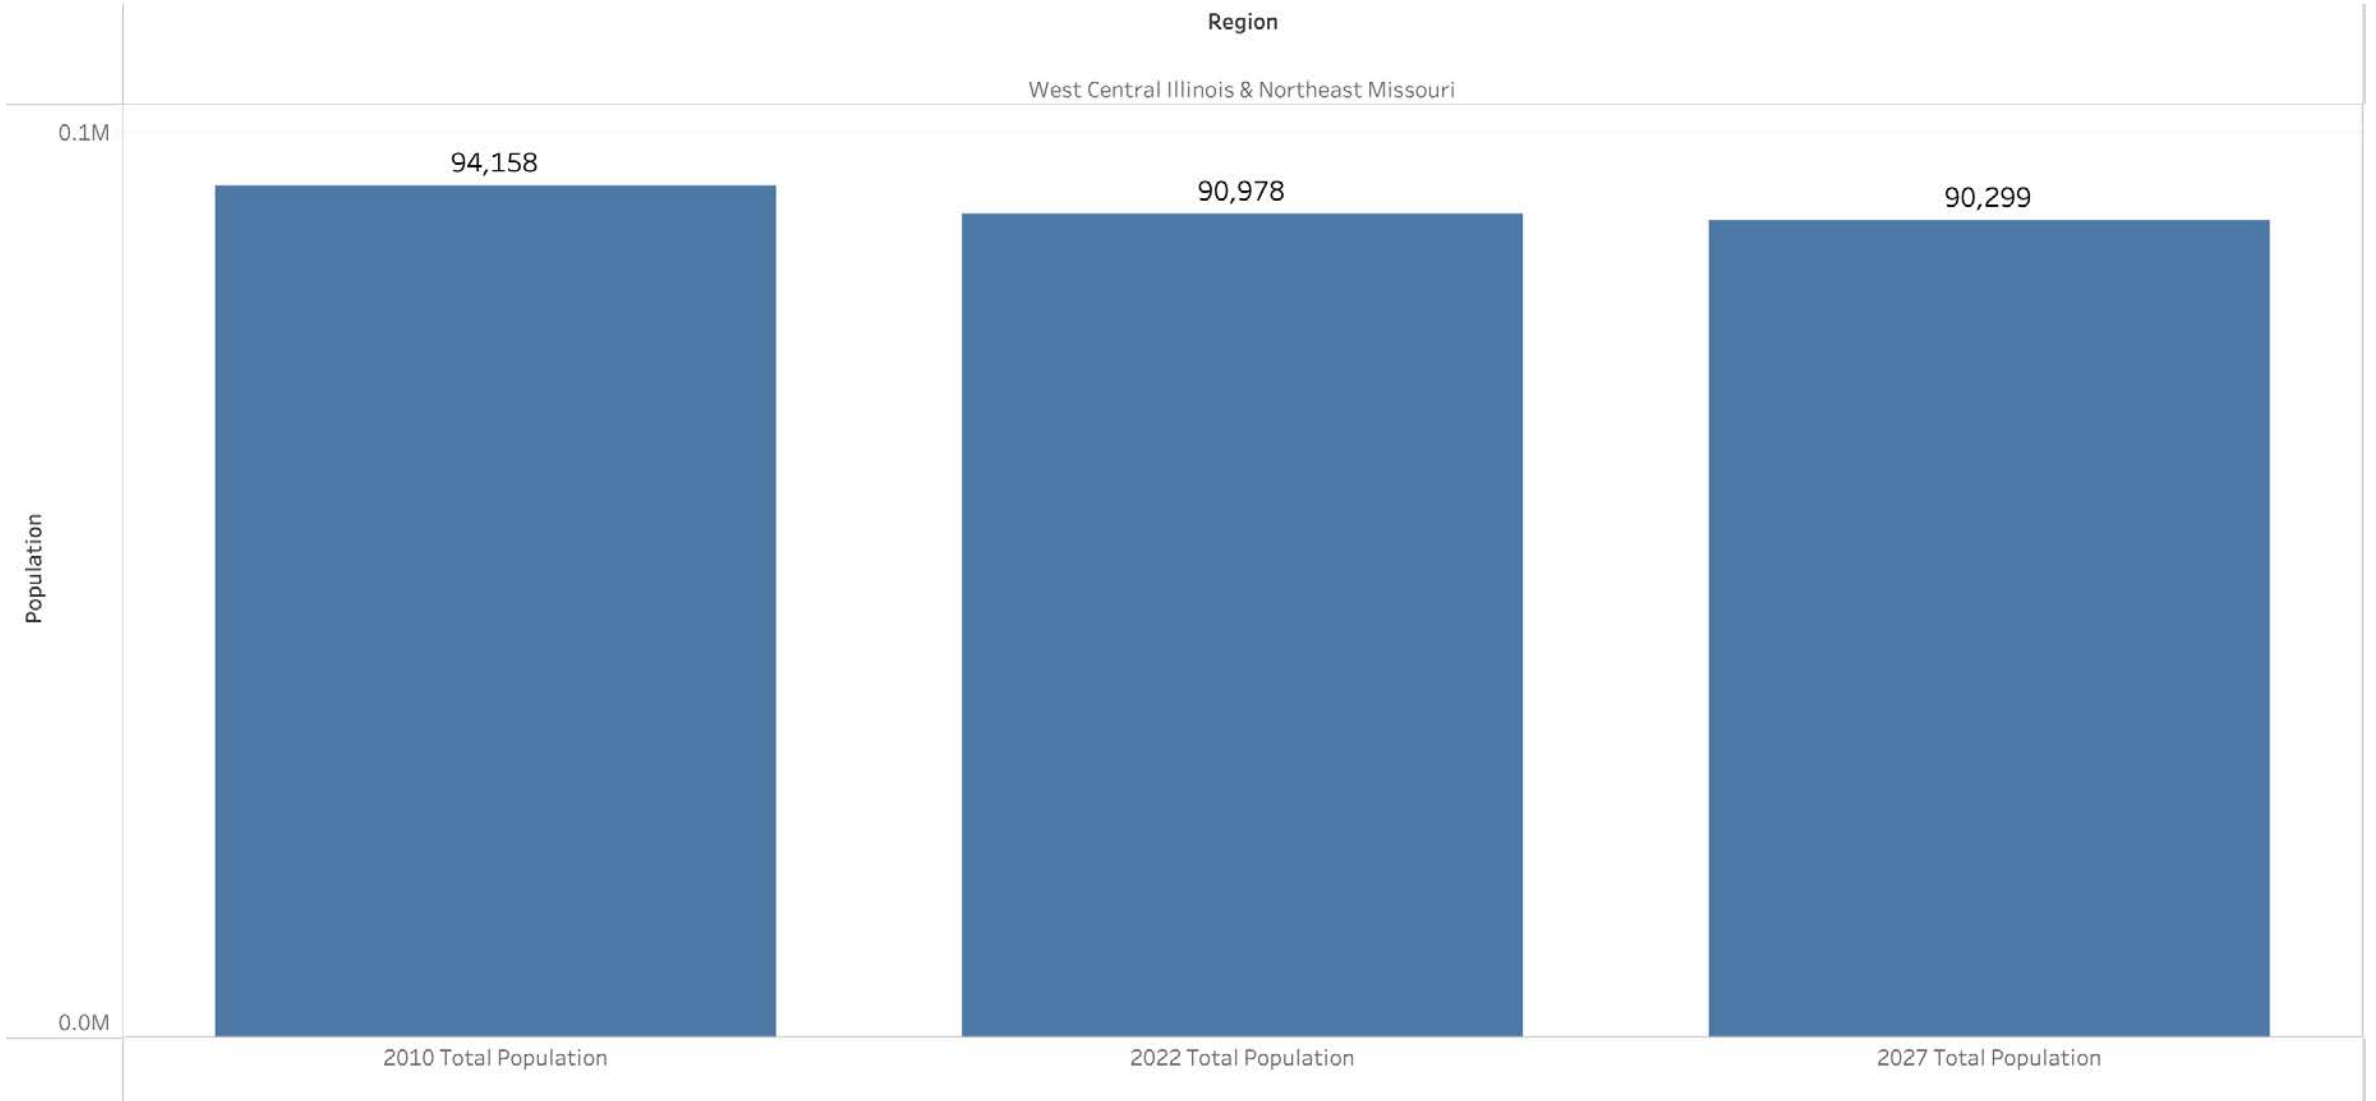

Northeast Missouri

Demographics and Net Worth

The Community Foundation Serving West-Central Illinois and Northeast Missouri serves 91,000 residents across eight Missouri counties.

Source: ESRI

The foundation works across two levels of urbanization – Micropolitan and Noncore (or rural) communities.

Source: ESRI

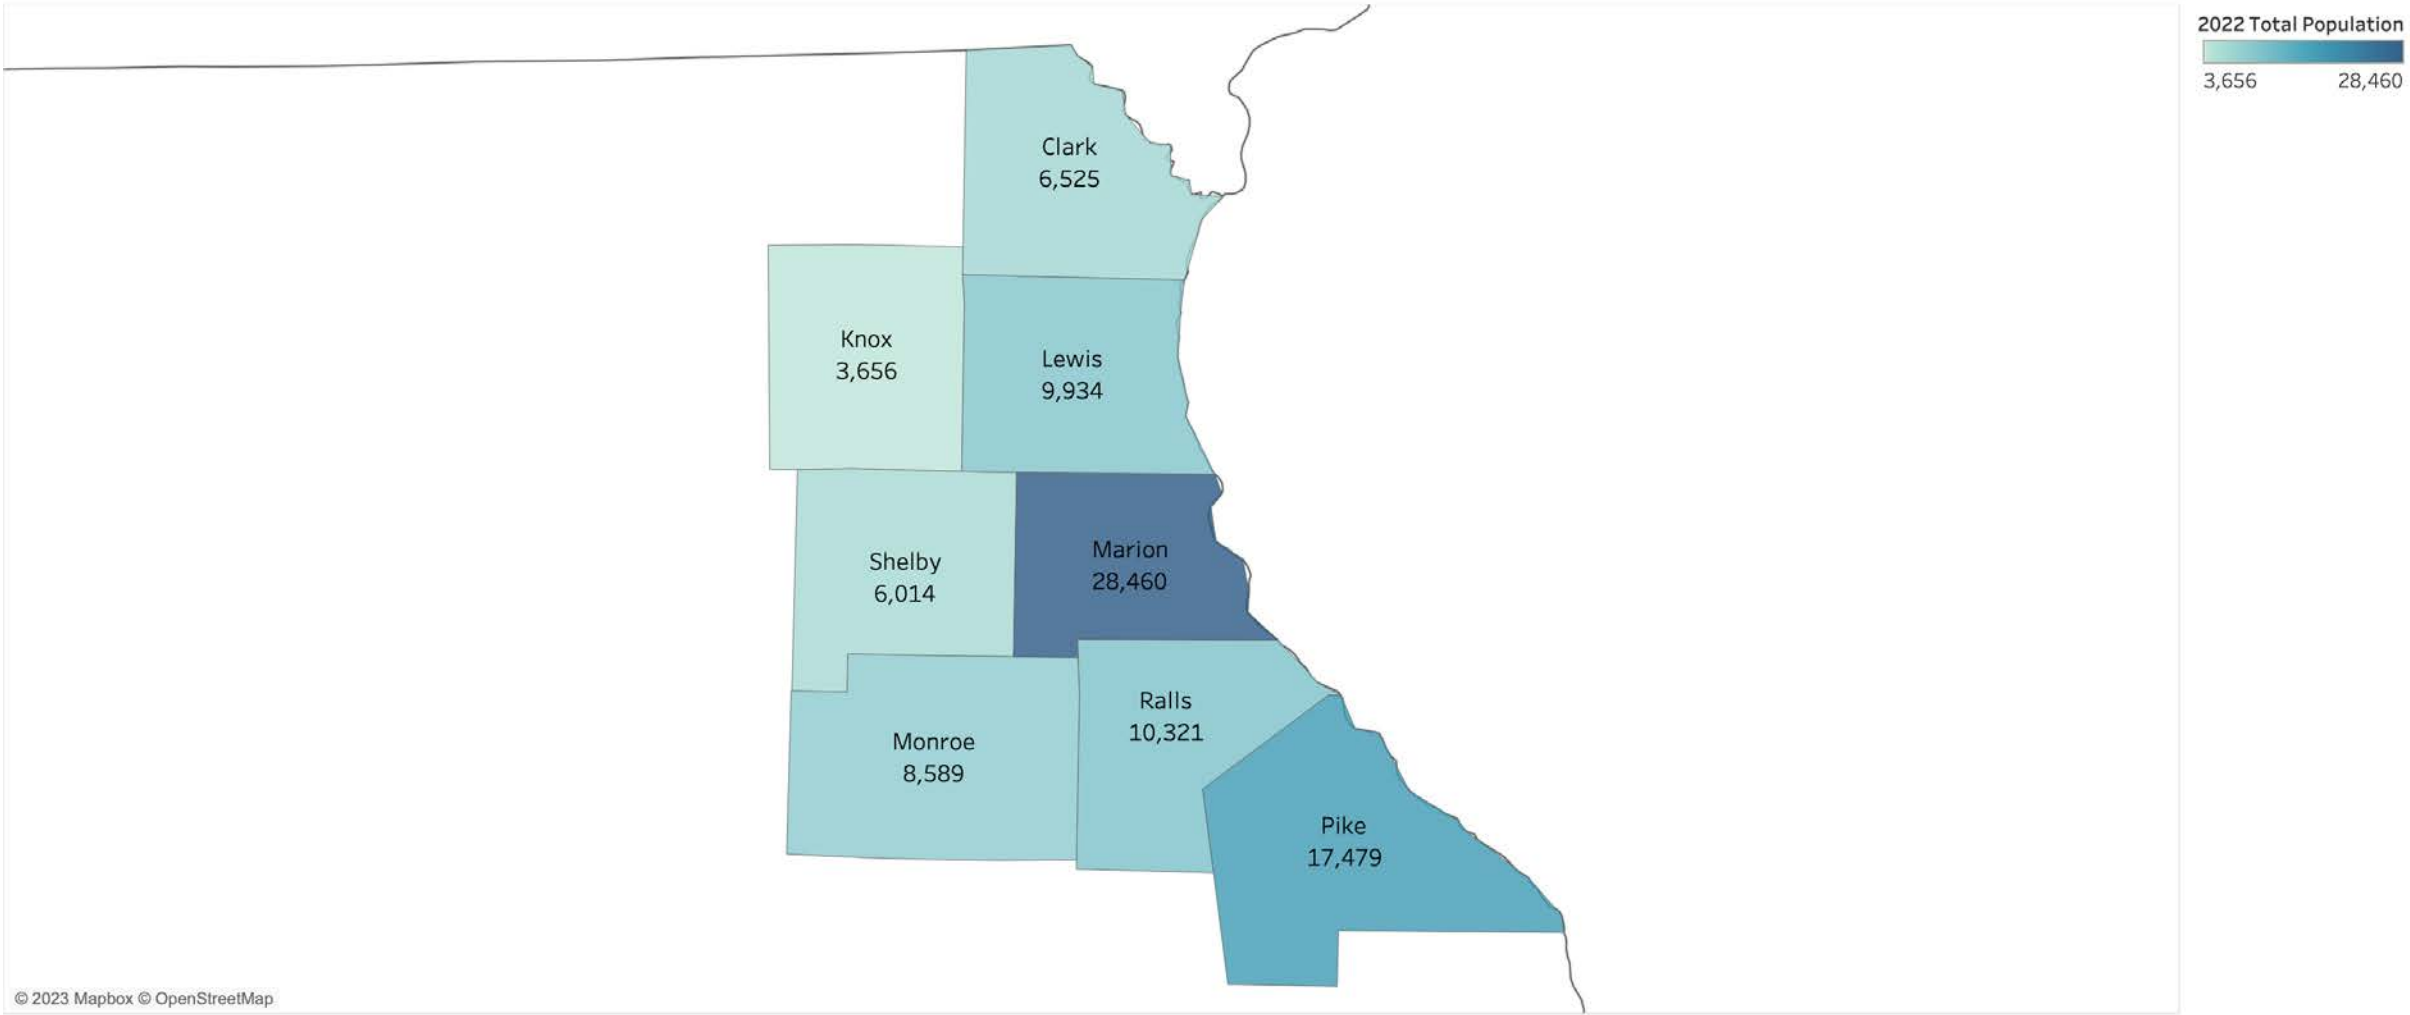

The most populous county in the region is Marion County with 28,460 residents and the smallest community is Knox County (3,656).

Source: ESRI

Five of the eight counties served in Northeast Missouri are below 10,000 residents.

Source: ESRI

Wealth is calculated among 36,000 households in the region.

Source: ESRI

About 8,000 more households are in the Micropolitan counties of the region, than the noncore counties.

Source: ESRI

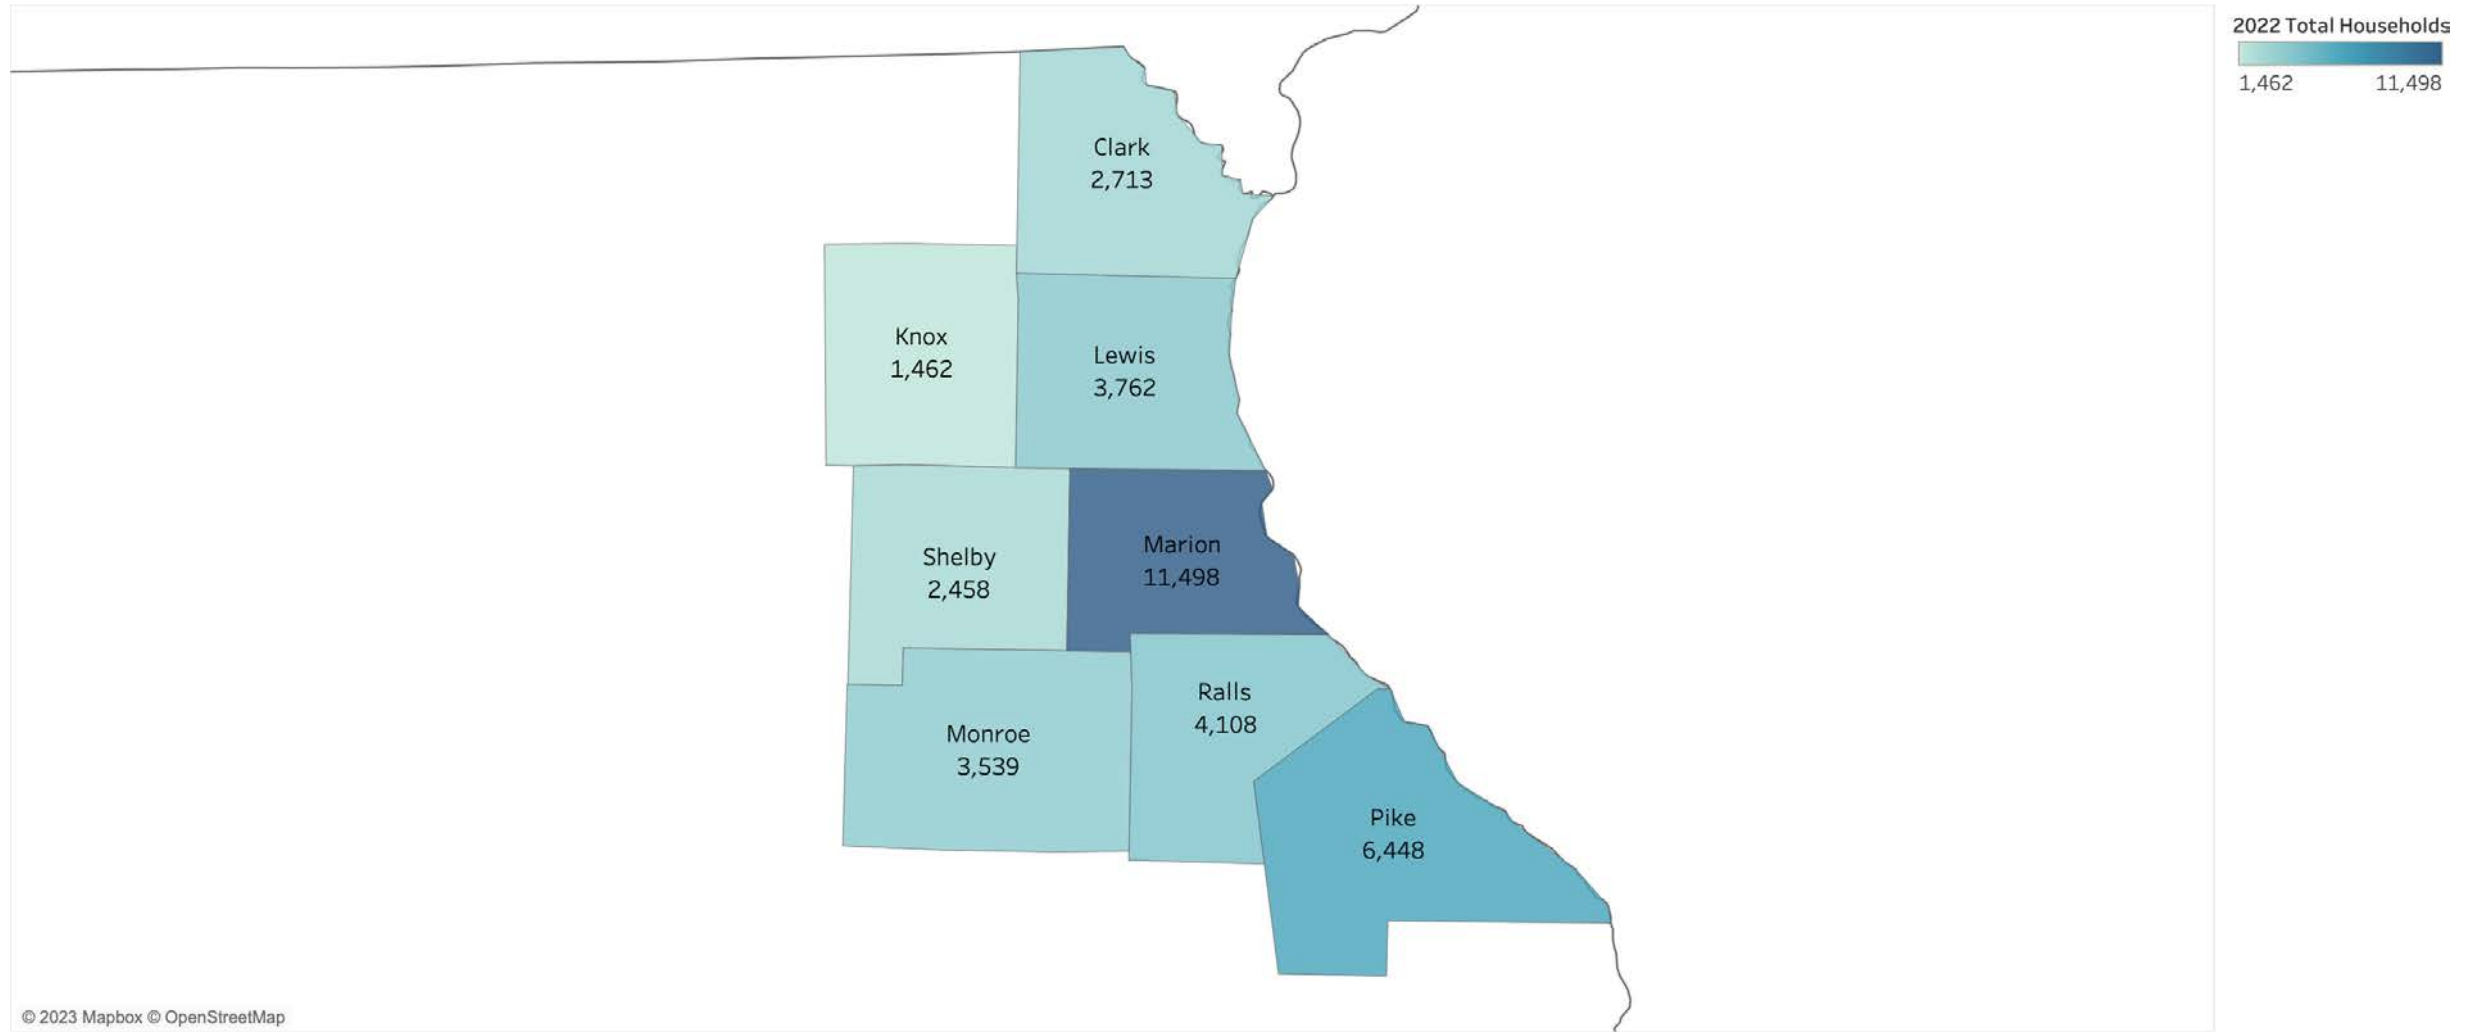

Marion County is the only county in the Northeast Missouri region to have gained households since 2010, but growth is not expected to continue.

Source: ESRI

Total households by county ranges from 1,462 in Knox County to 11,500 in Marion County.

Source: ESRI

There has been little change in the average size of households in Northeast Missouri since 2010.

Source: ESRI

There has been little change in the average size of households in Northeast Missouri since 2010.

Source: ESRI

Comparing the Micropolitan level of urbanization to that of the Noncore reveals no difference in Average Household Size.

Source: ESRI

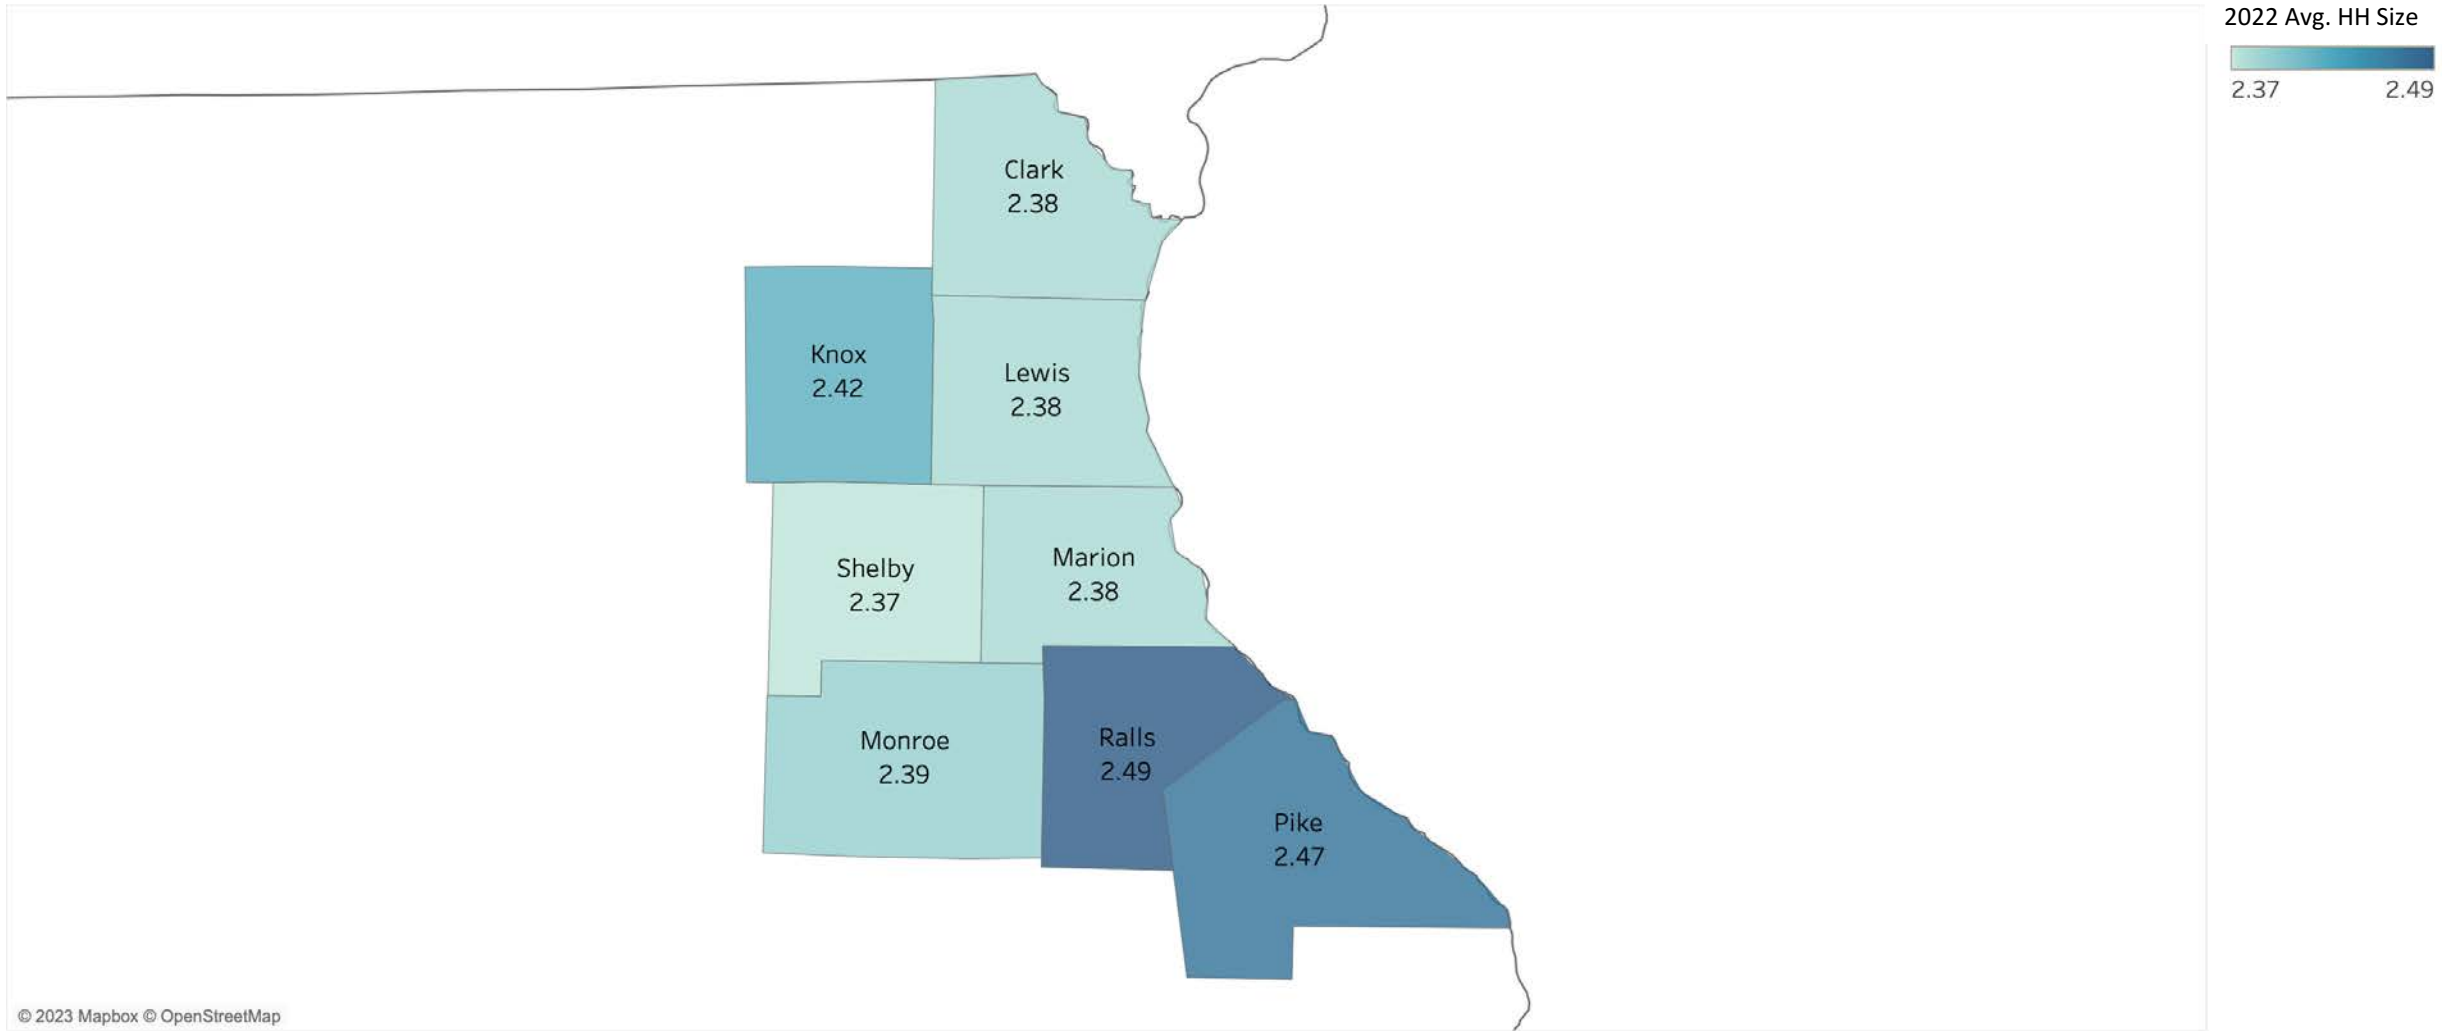

At the county-level, Average Household Size has remained stable since 2010 and no substantial changes are anticipated in the next five years.

Source: ESRI

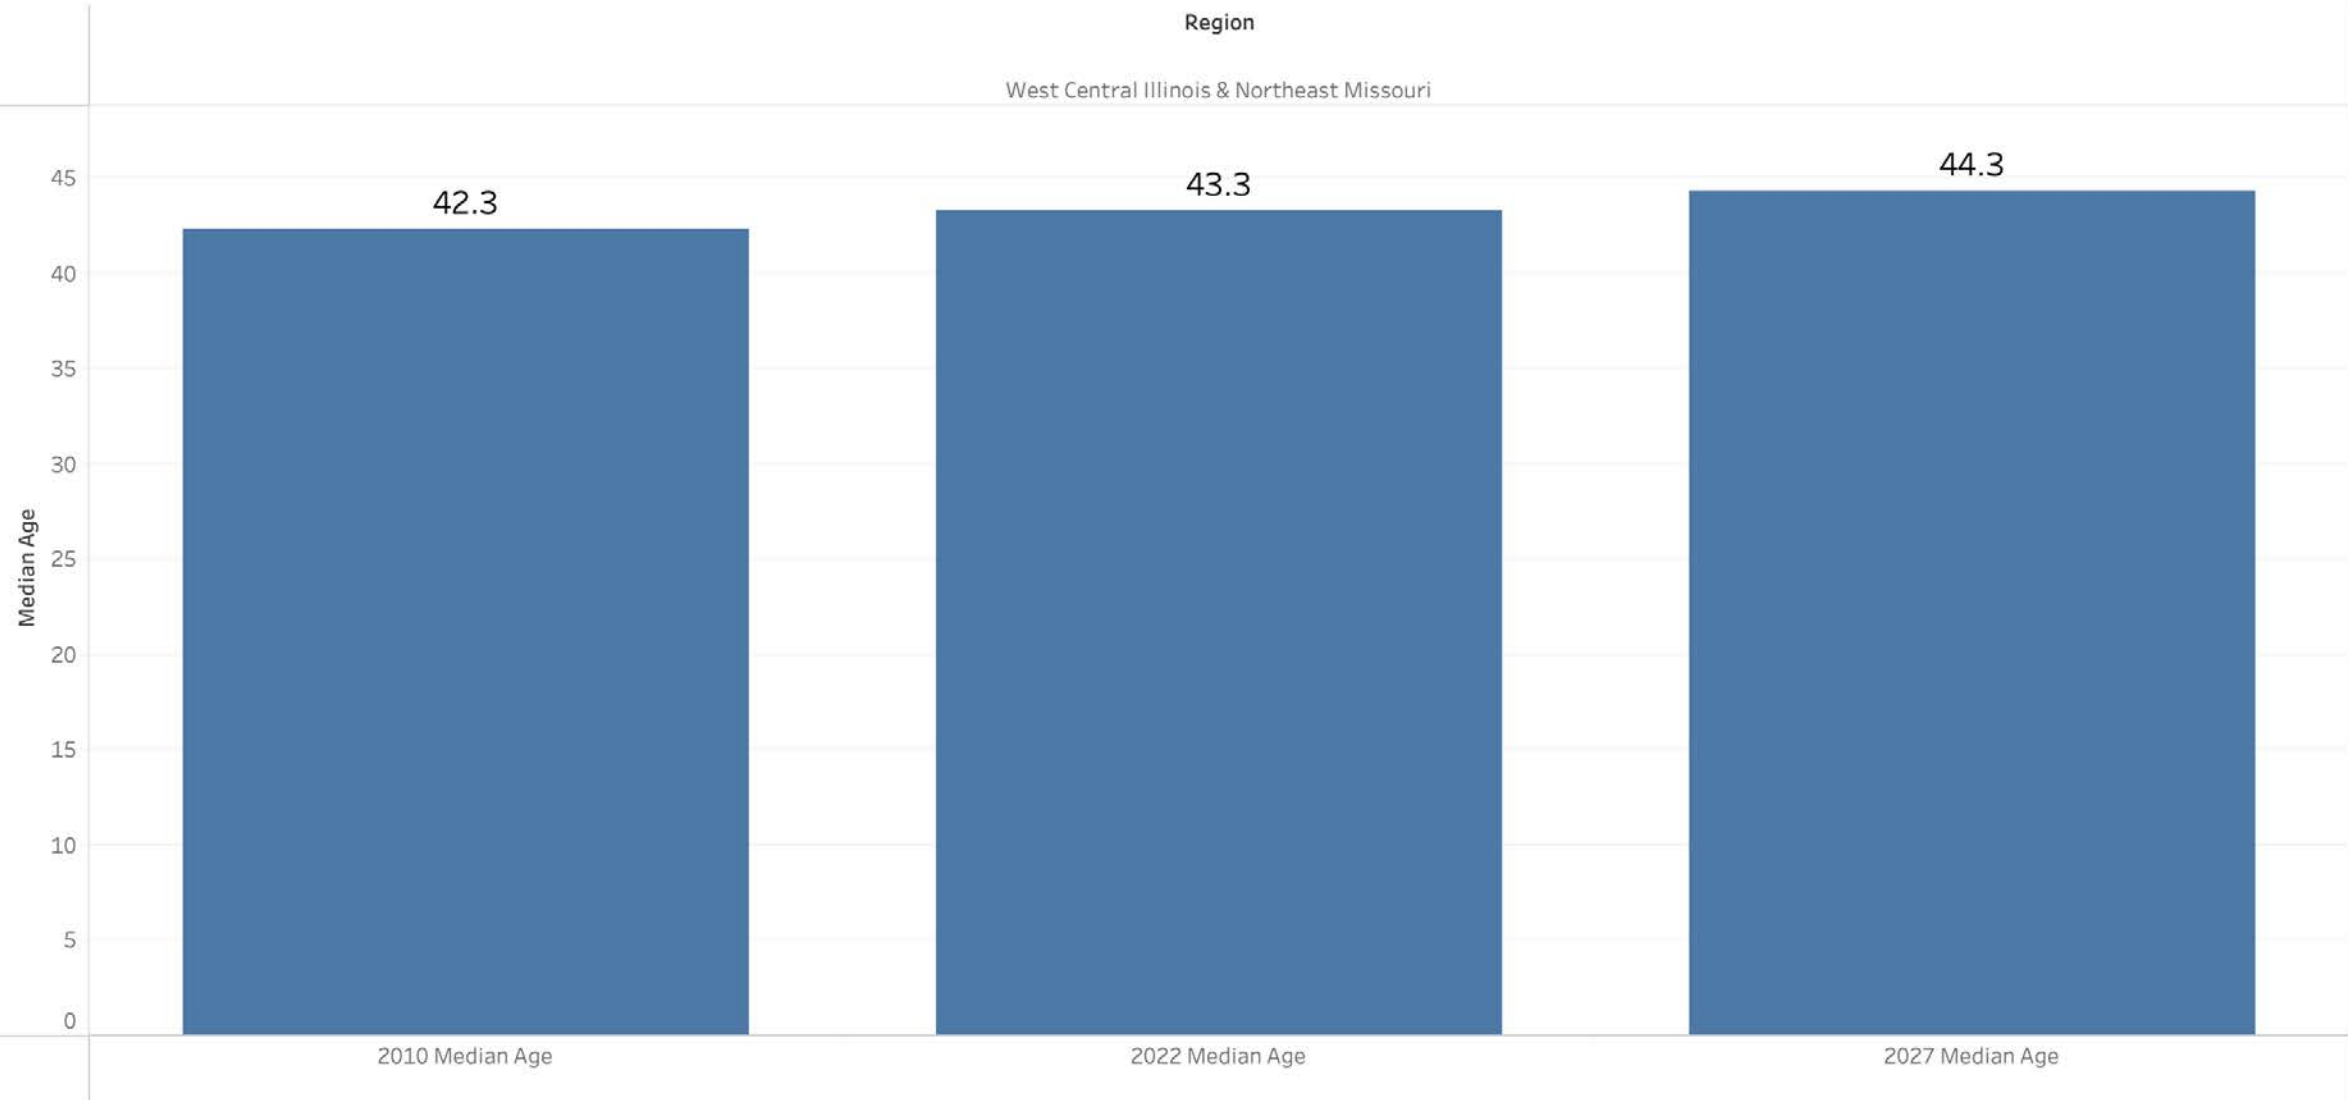

Average Household sized in Northeast Missouri range from 2.37 in Shelby County to 2.49 in Ralls County.

Source: ESRI

Median Age in Northeast Missouri has increased by 1 year since 2010 and is expected to climb another by 2027.

Source: ESRI

The Noncore counties of the region are expected to have a Median Age over 45 by 2027.

Source: ESRI

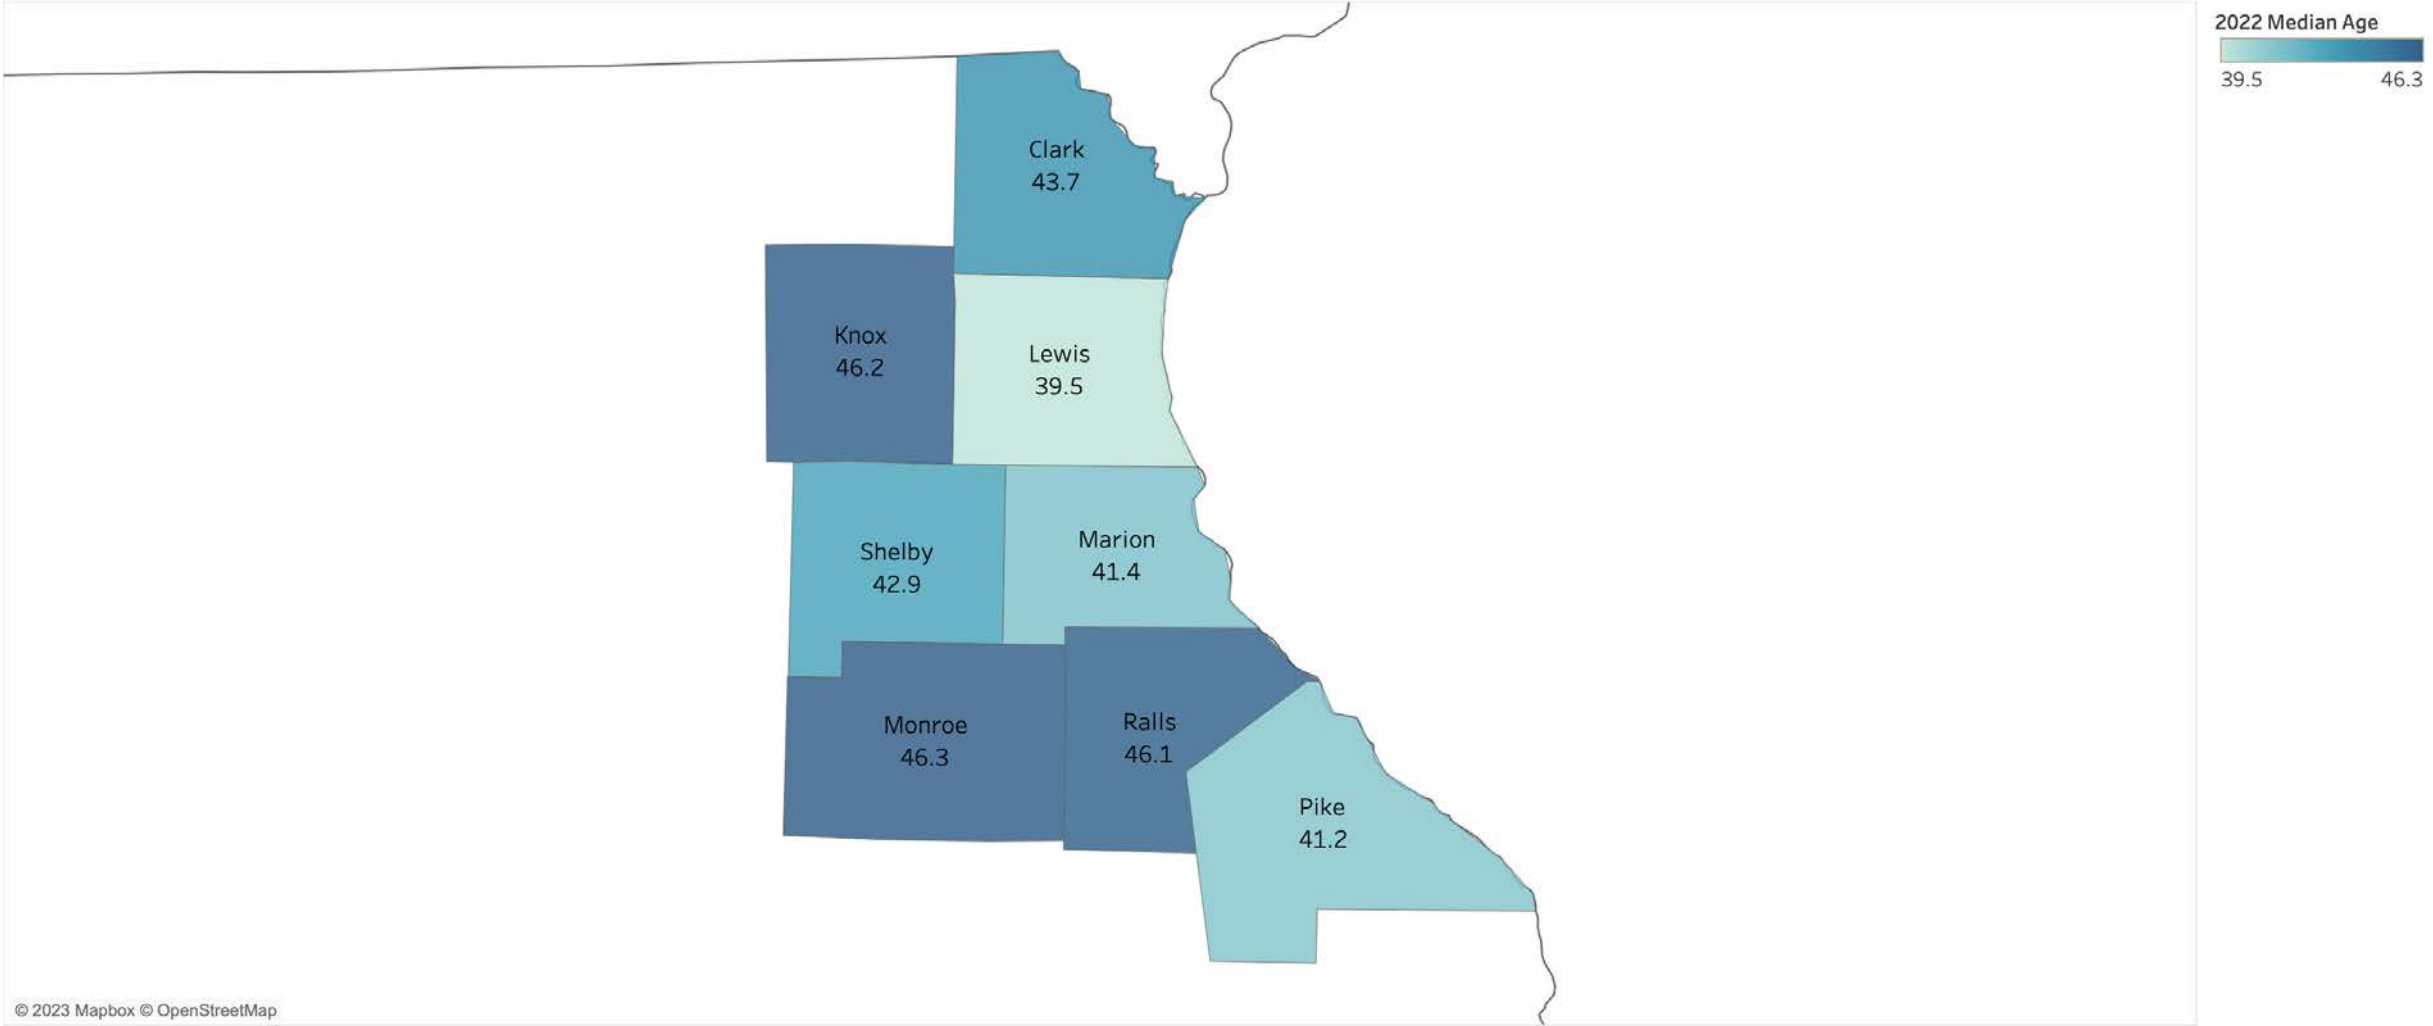

At the county-level, Median Age is rising (for some, rapidly) for all counties served in Northeast Missouri.

Source: ESRI

Currently, Median Age in Northeast Missouri ranges from 39.5 in Lewis County to 46.3 in Monroe County.

Source: ESRI

Over \$4 Billion more in Aggregate Net Worth is contained within the Micropolitan counties of Northeast Missouri than its rural counties.

Source: ESRI

Urbanization

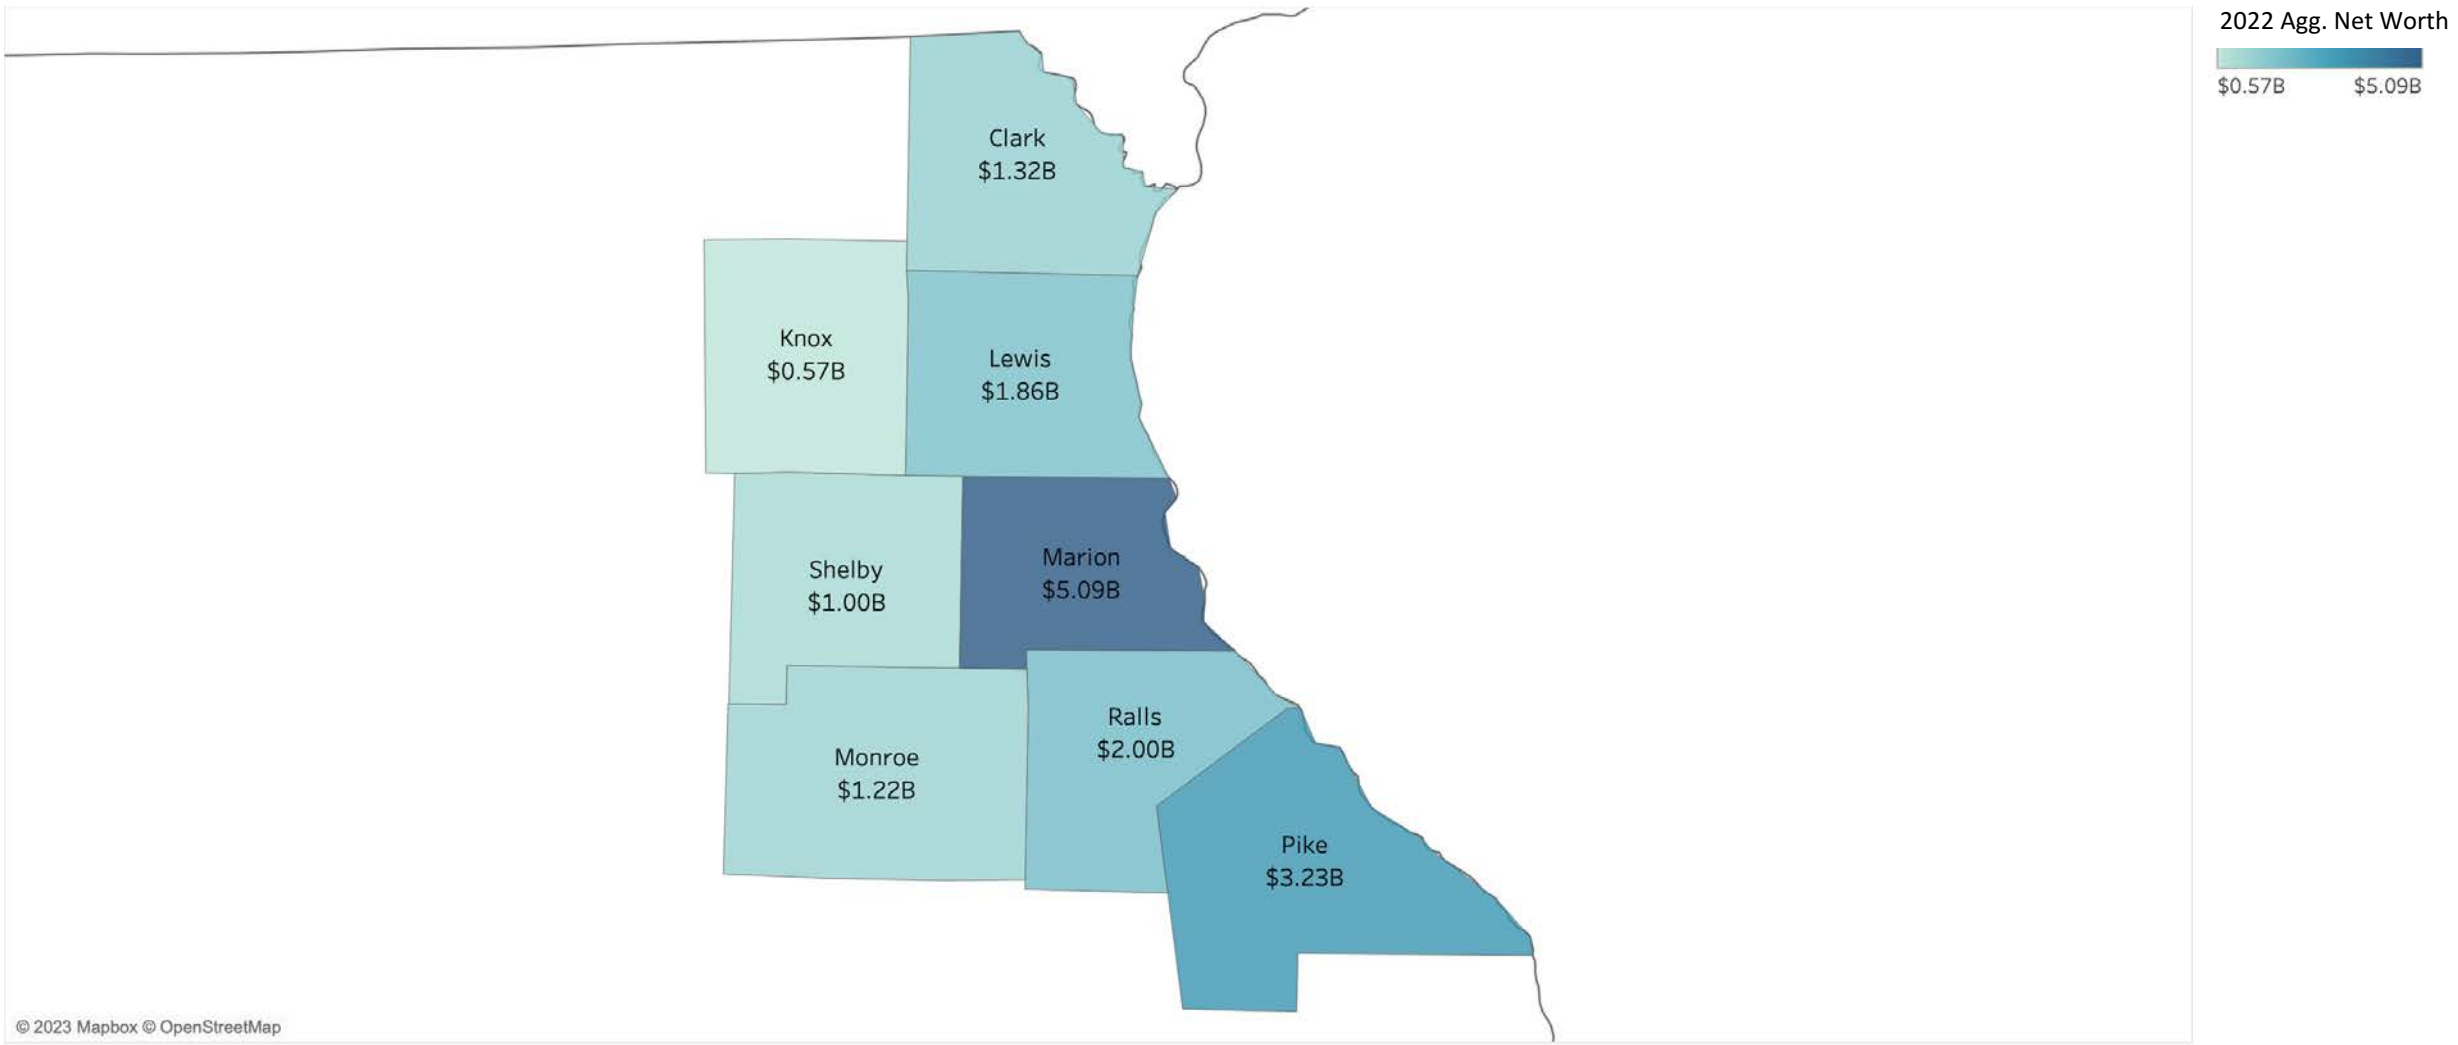

Marion County has between 1.57x - 8.93x more total net worth than any other county in the Northeast region.

Source: ESRI

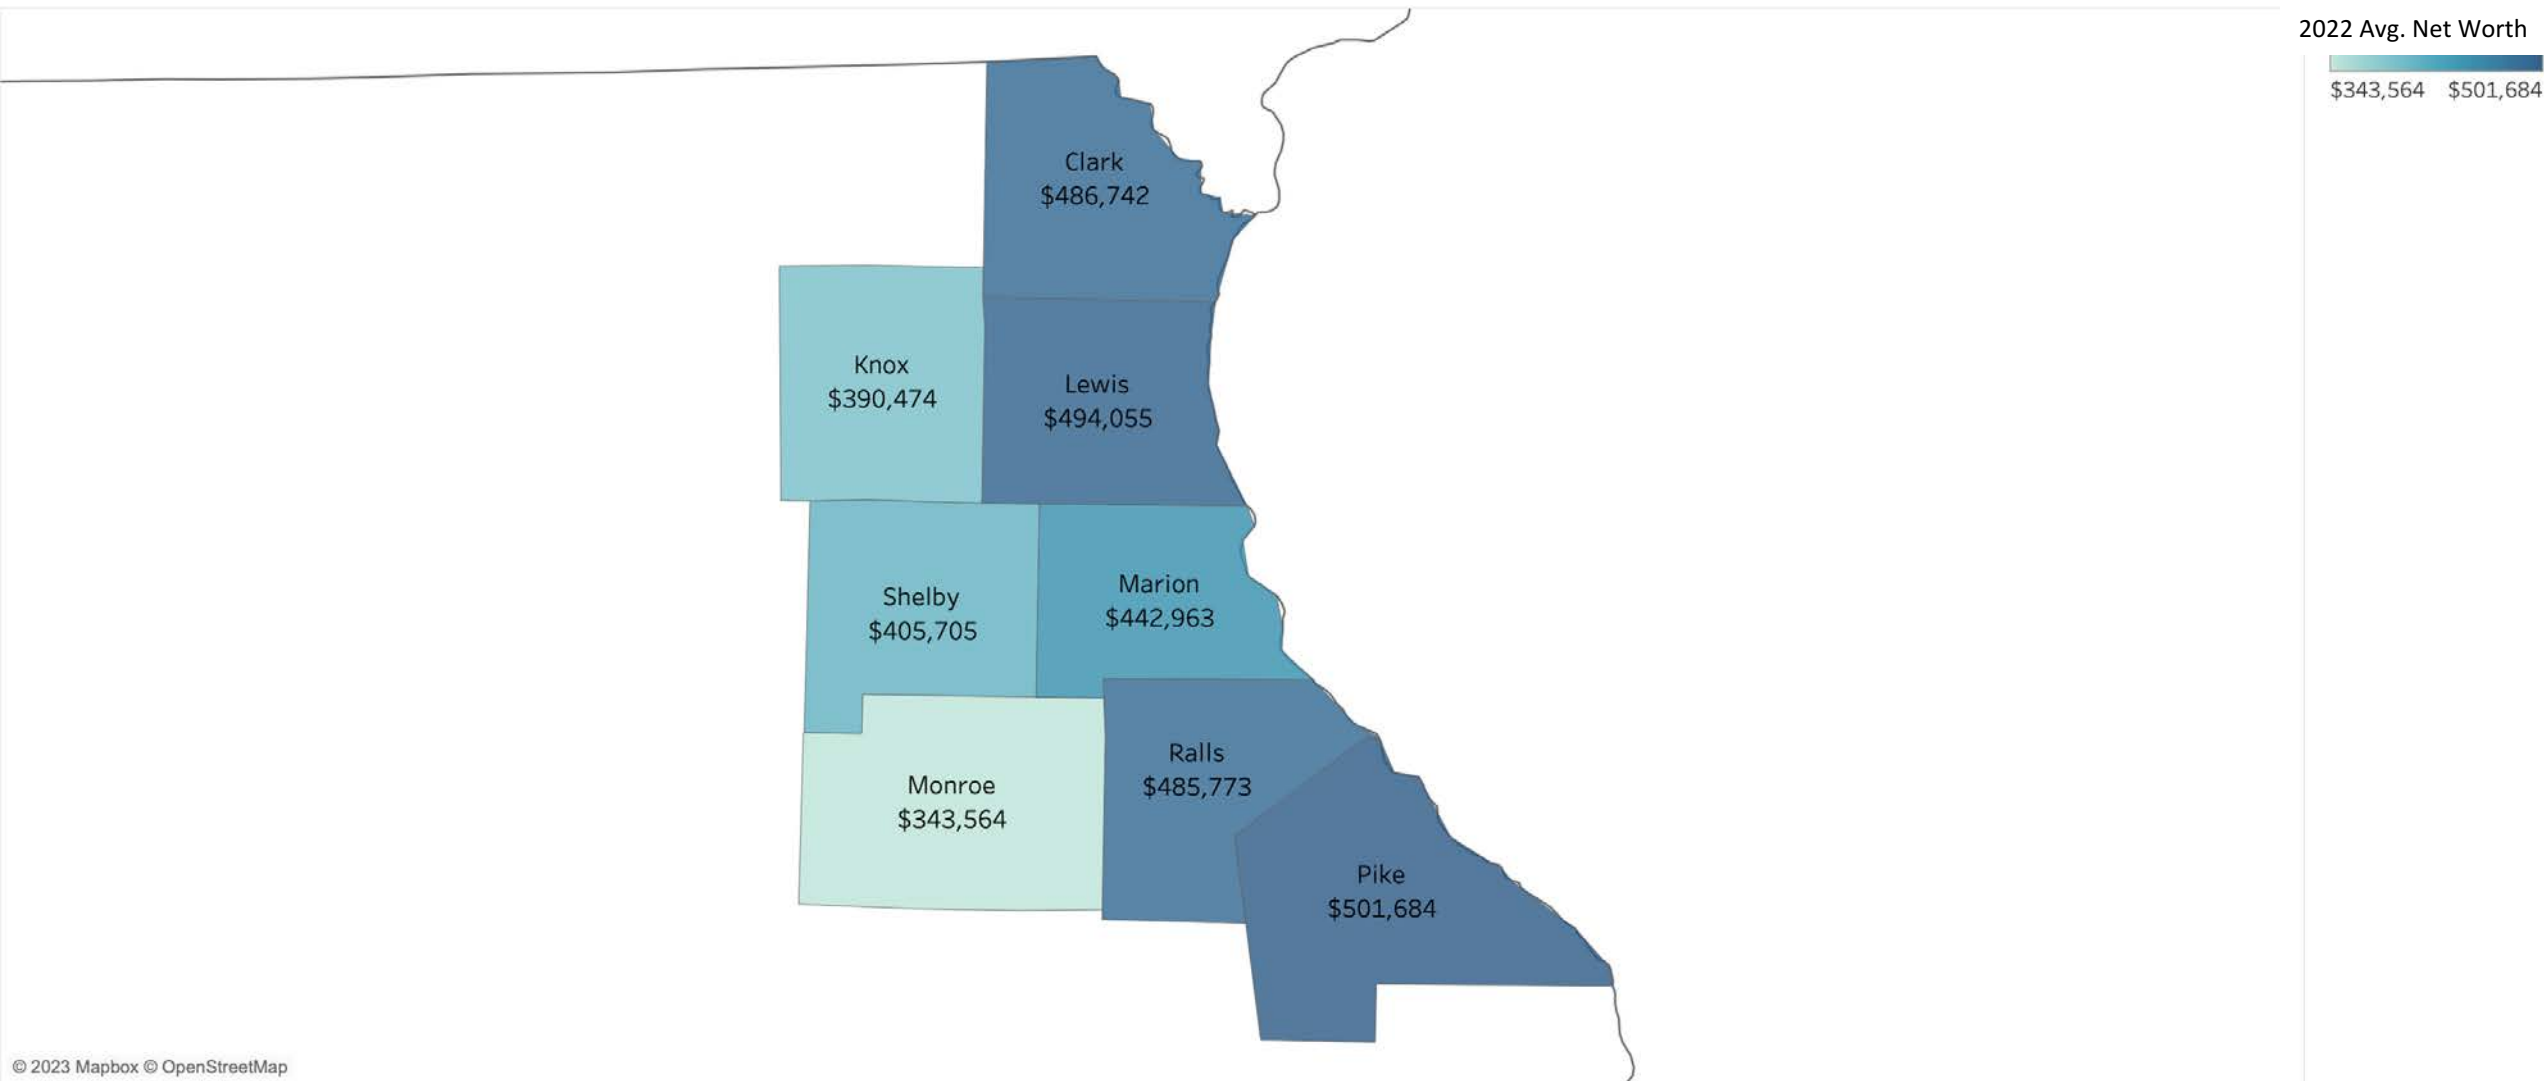

Aggregate Net Worth at the county-level in Northeast Missouri ranges from \$570 Million in Knox County to over \$5 Billion in Marion County.

Source: ESRI

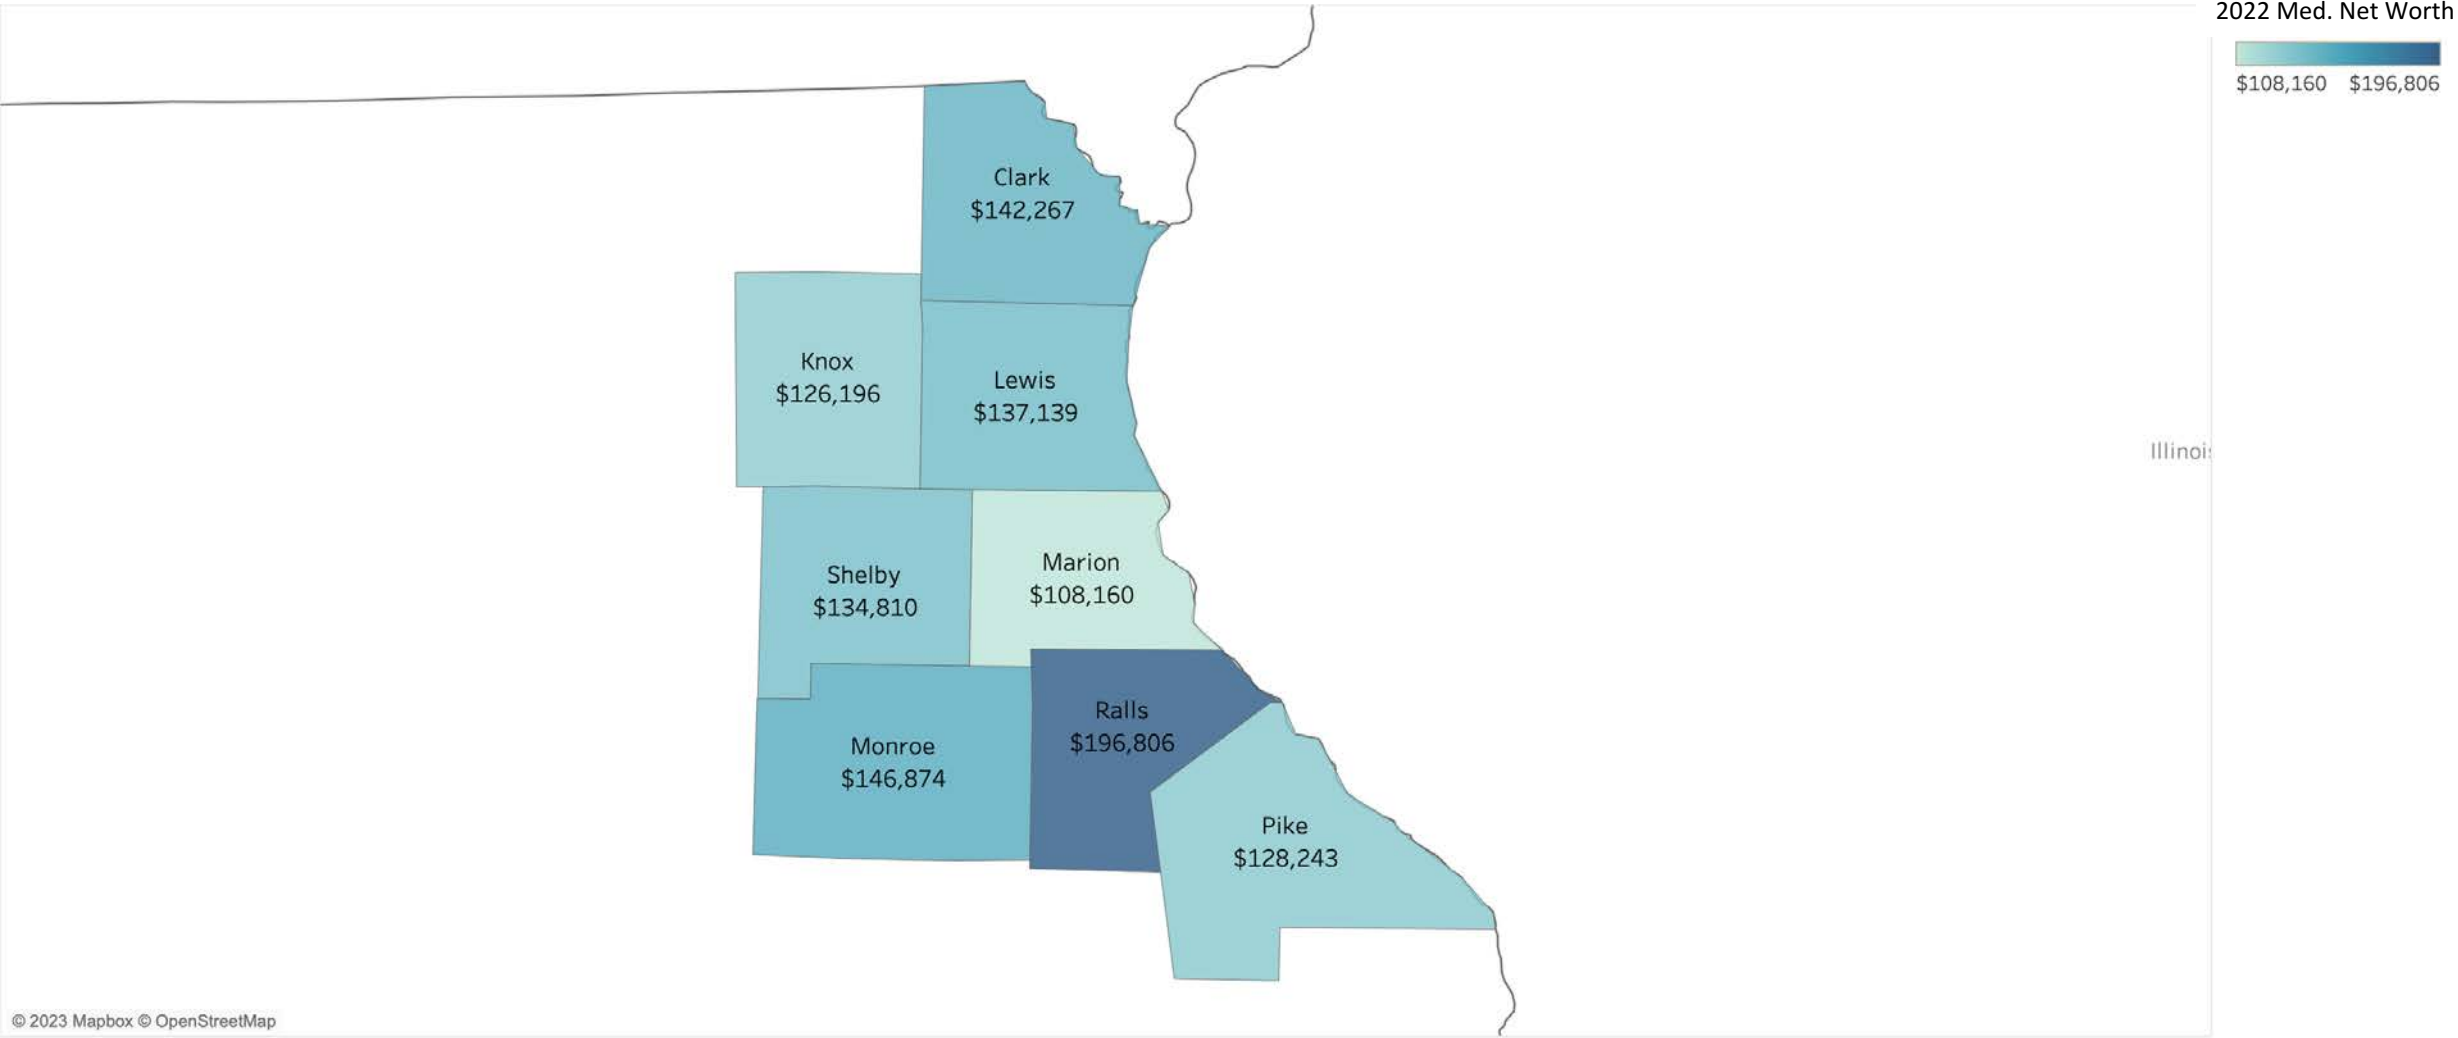

Average Net Worth in Northeast Missouri ranges between \$343,564 in Monroe County to over \$500,000 in Pike County.

Source: ESRI

Median Net Worth in Northeast Missouri is as low as \$108,,160 in Marion County to as high as \$196,806 in Ralls County.

Source: ESRI

Northeast Missouri

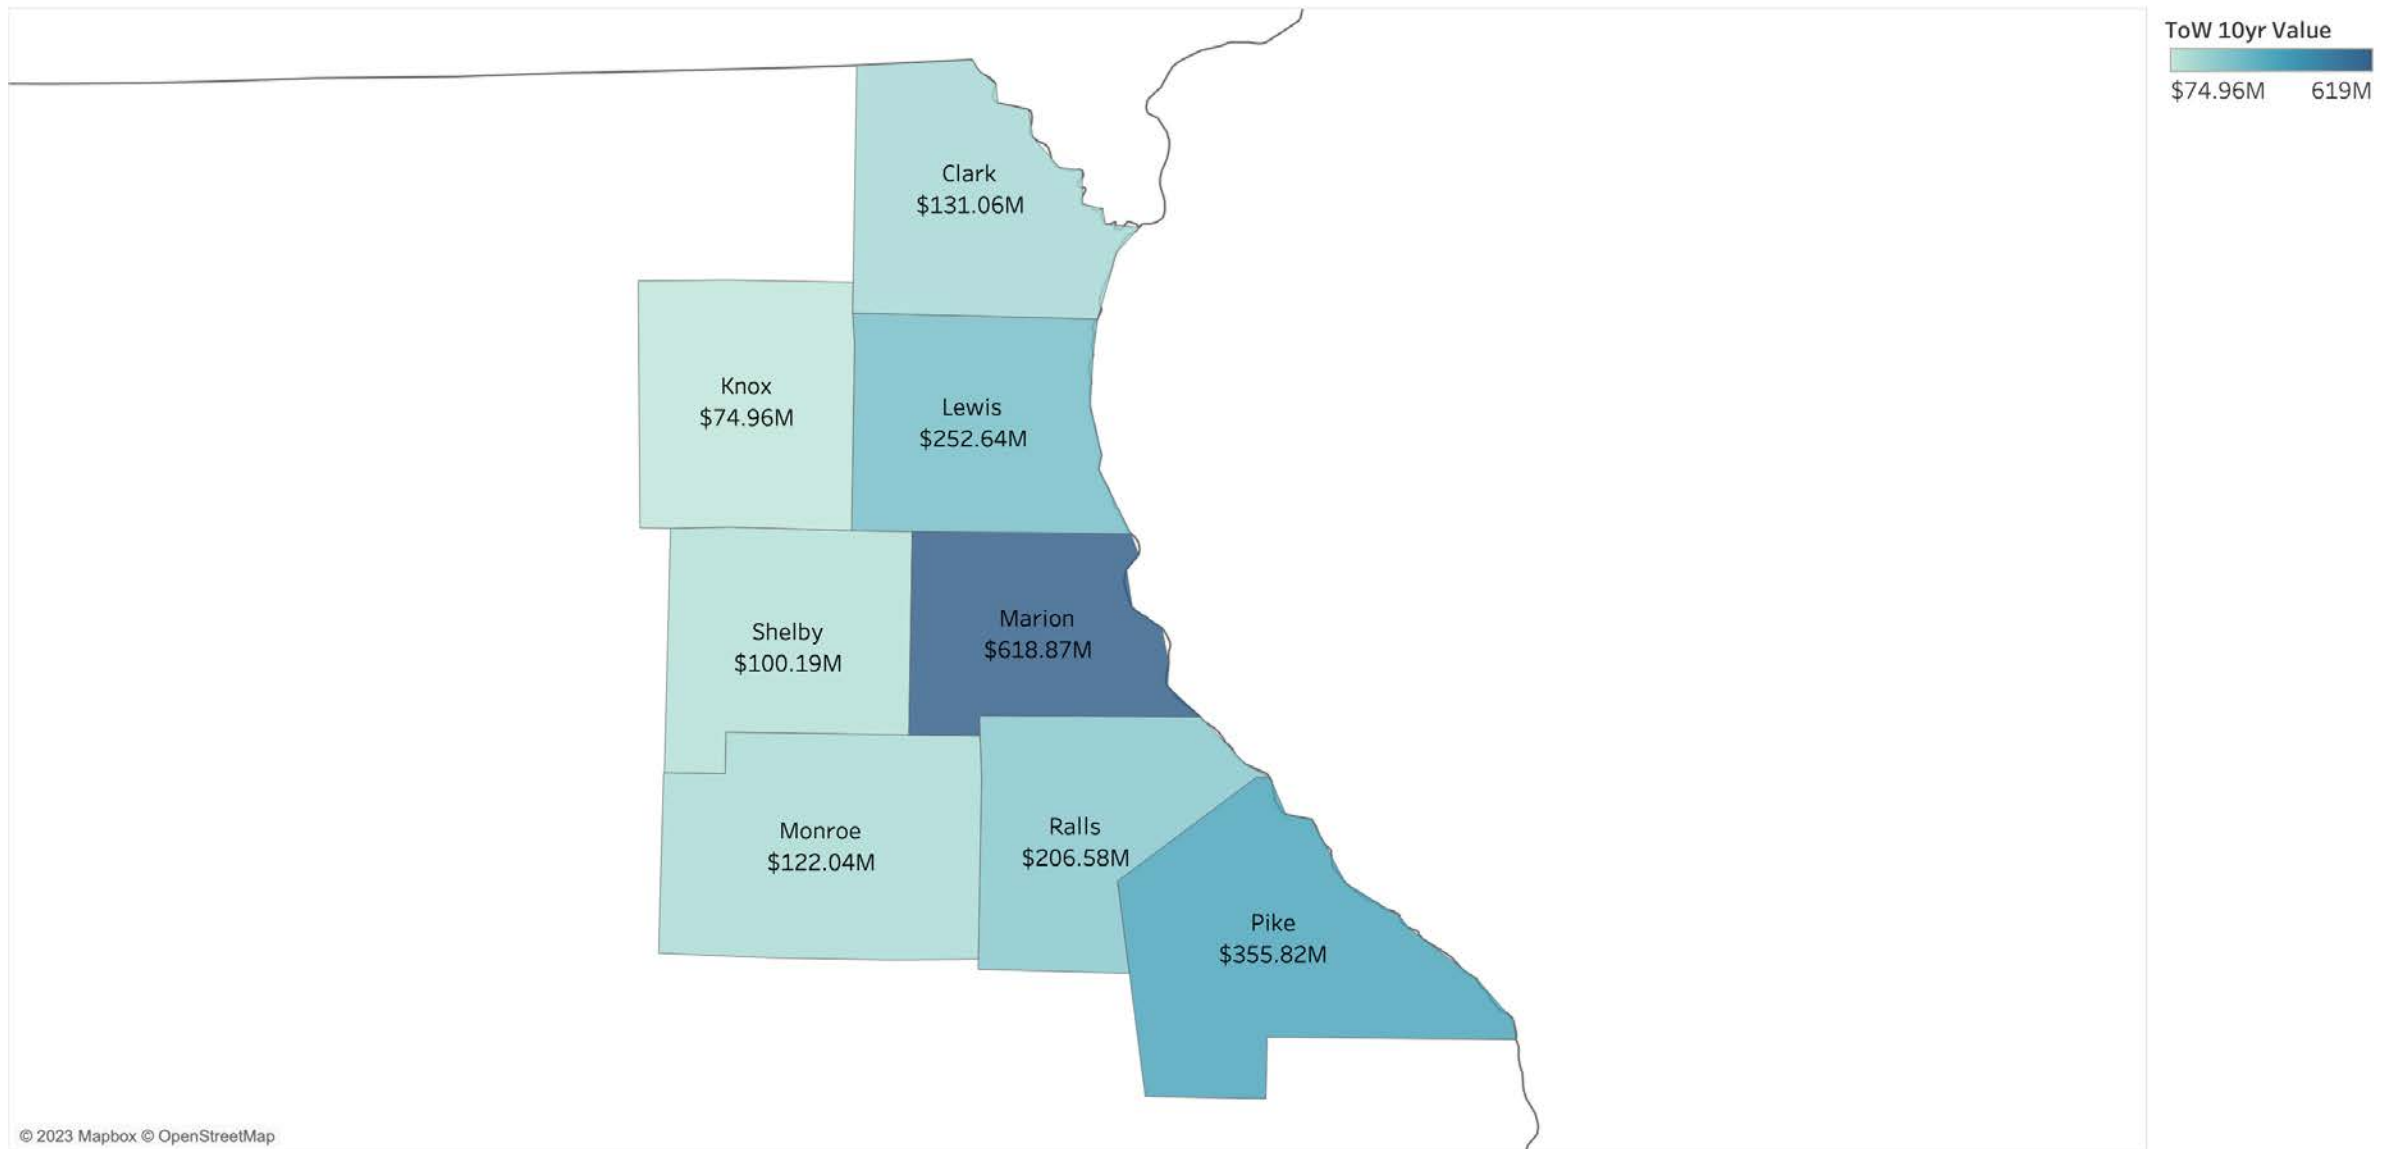

Transfer of Wealth

In the Northeast region, current value of the Transfer of Wealth Opportunity sits at \$1.39 Billion – ranging from \$56 Million in Knox County to \$460.5 Million in Marion County.

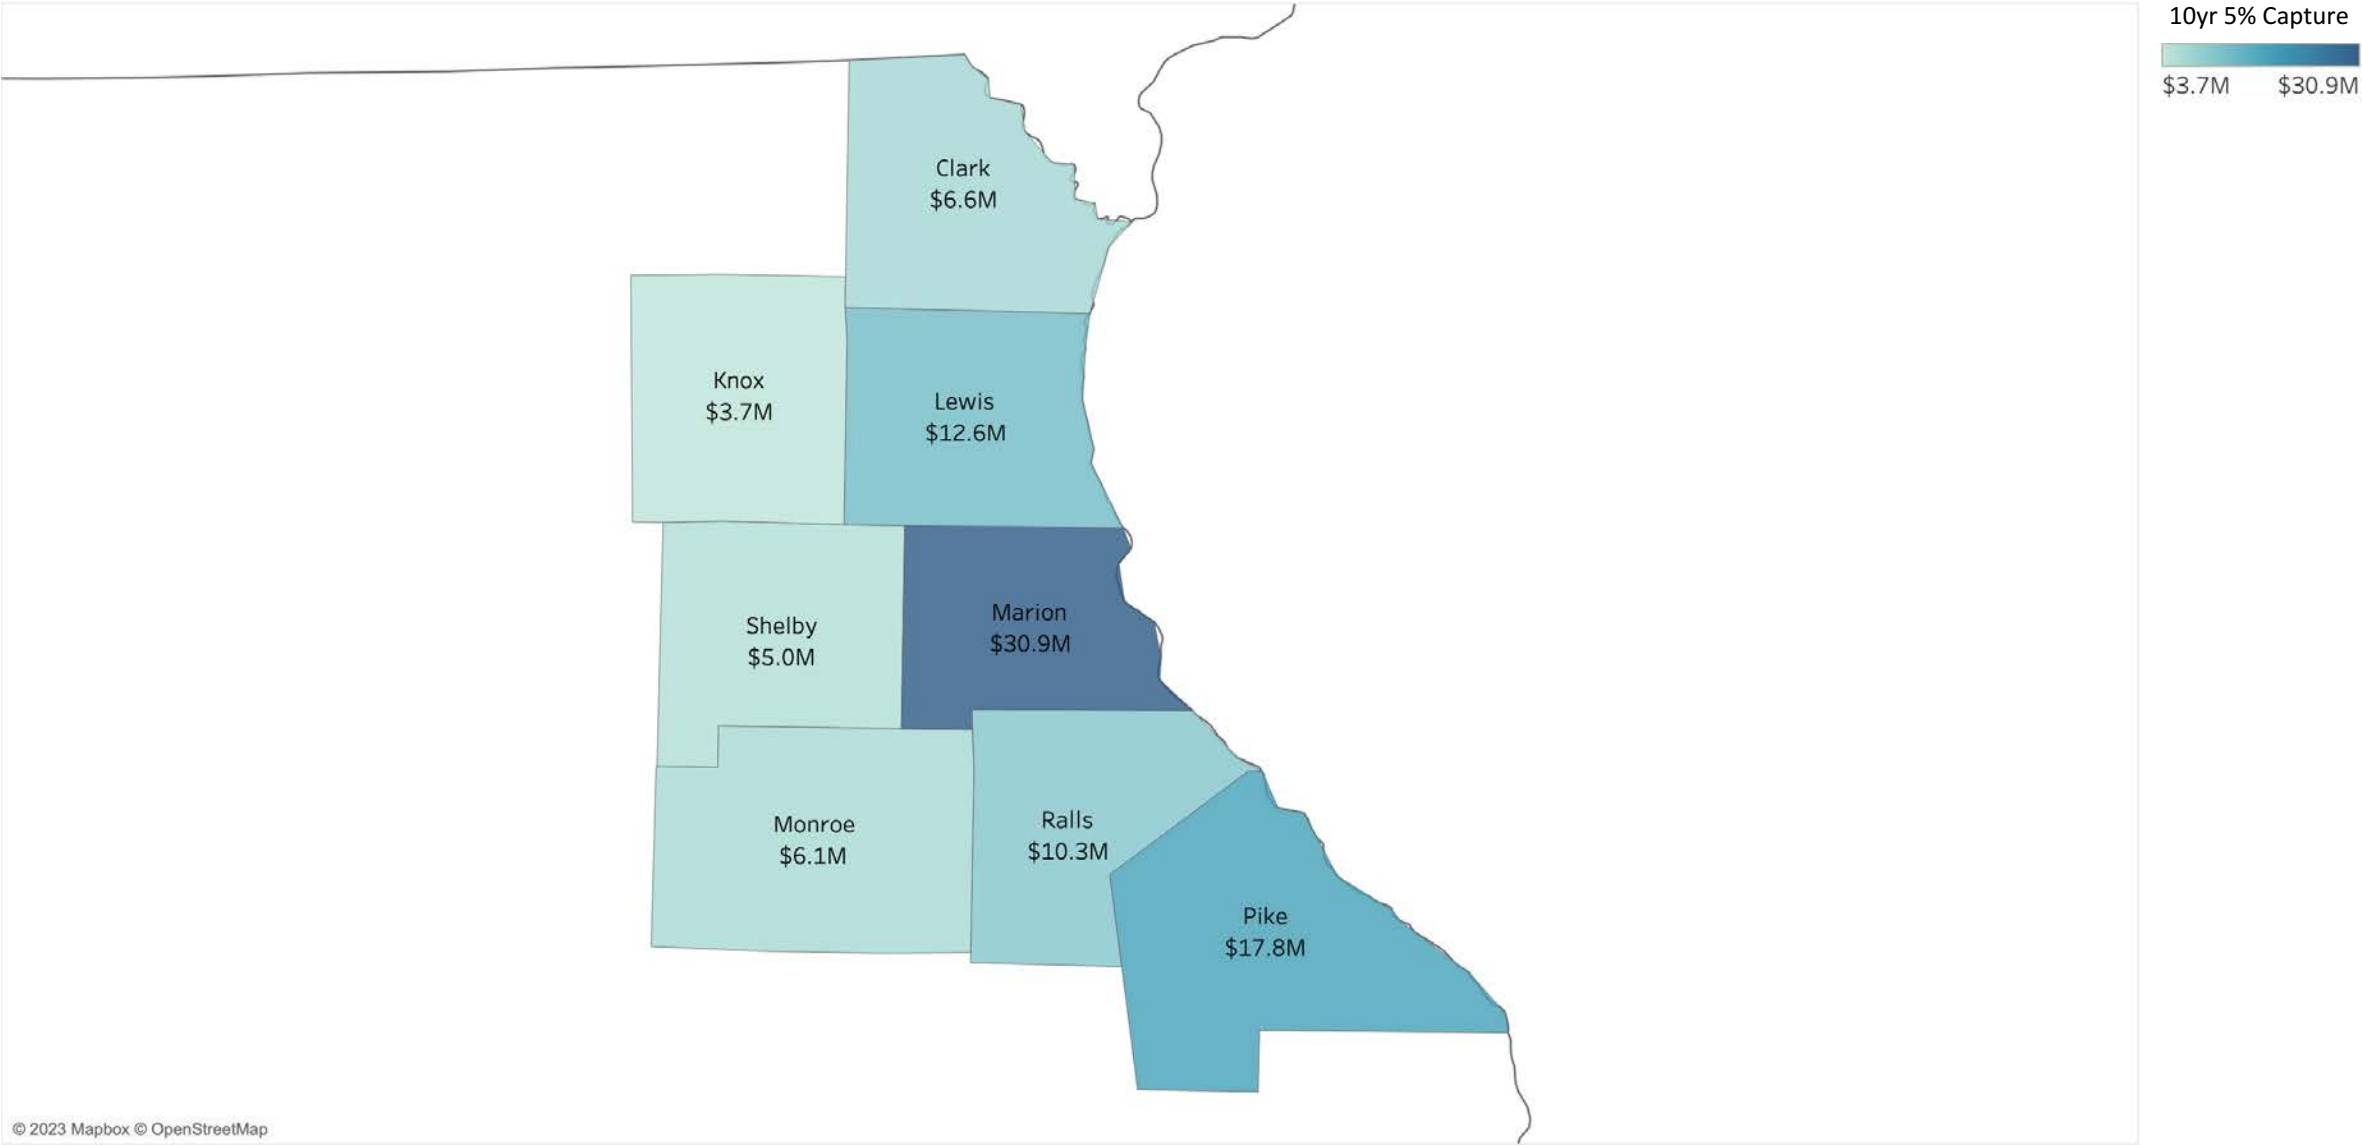

© 2023 Mapbox © OpenStreetMap

The Northeast region will see \$1.86 Billion in wealth transfer among families over the next ten years.

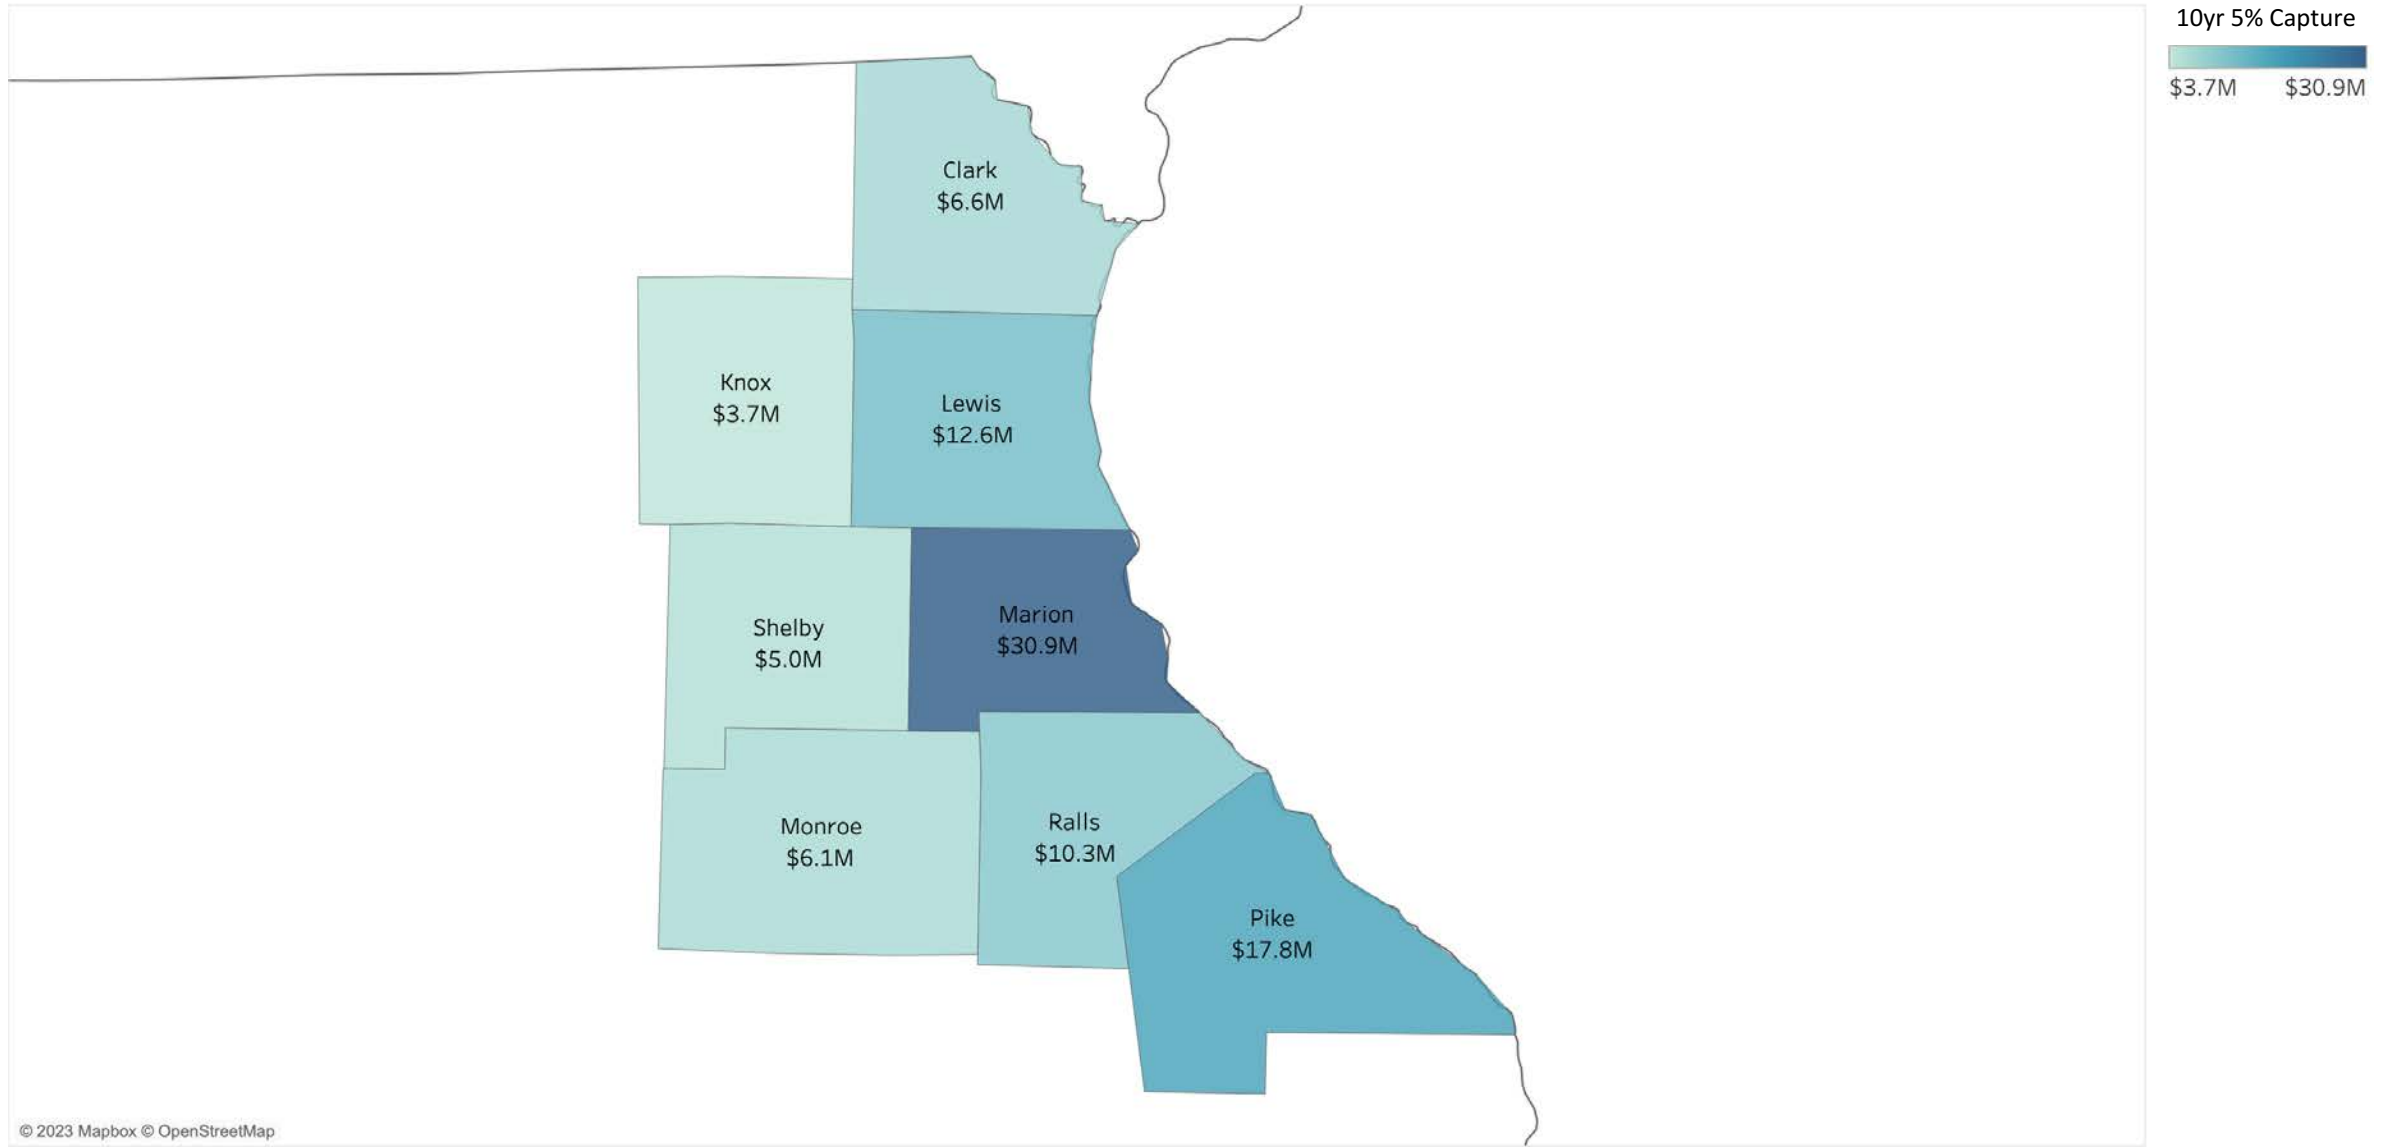

Capturing 5% of the Transfer of Wealth would lead to the Northeast region collecting \$93.12 Million by 2032.

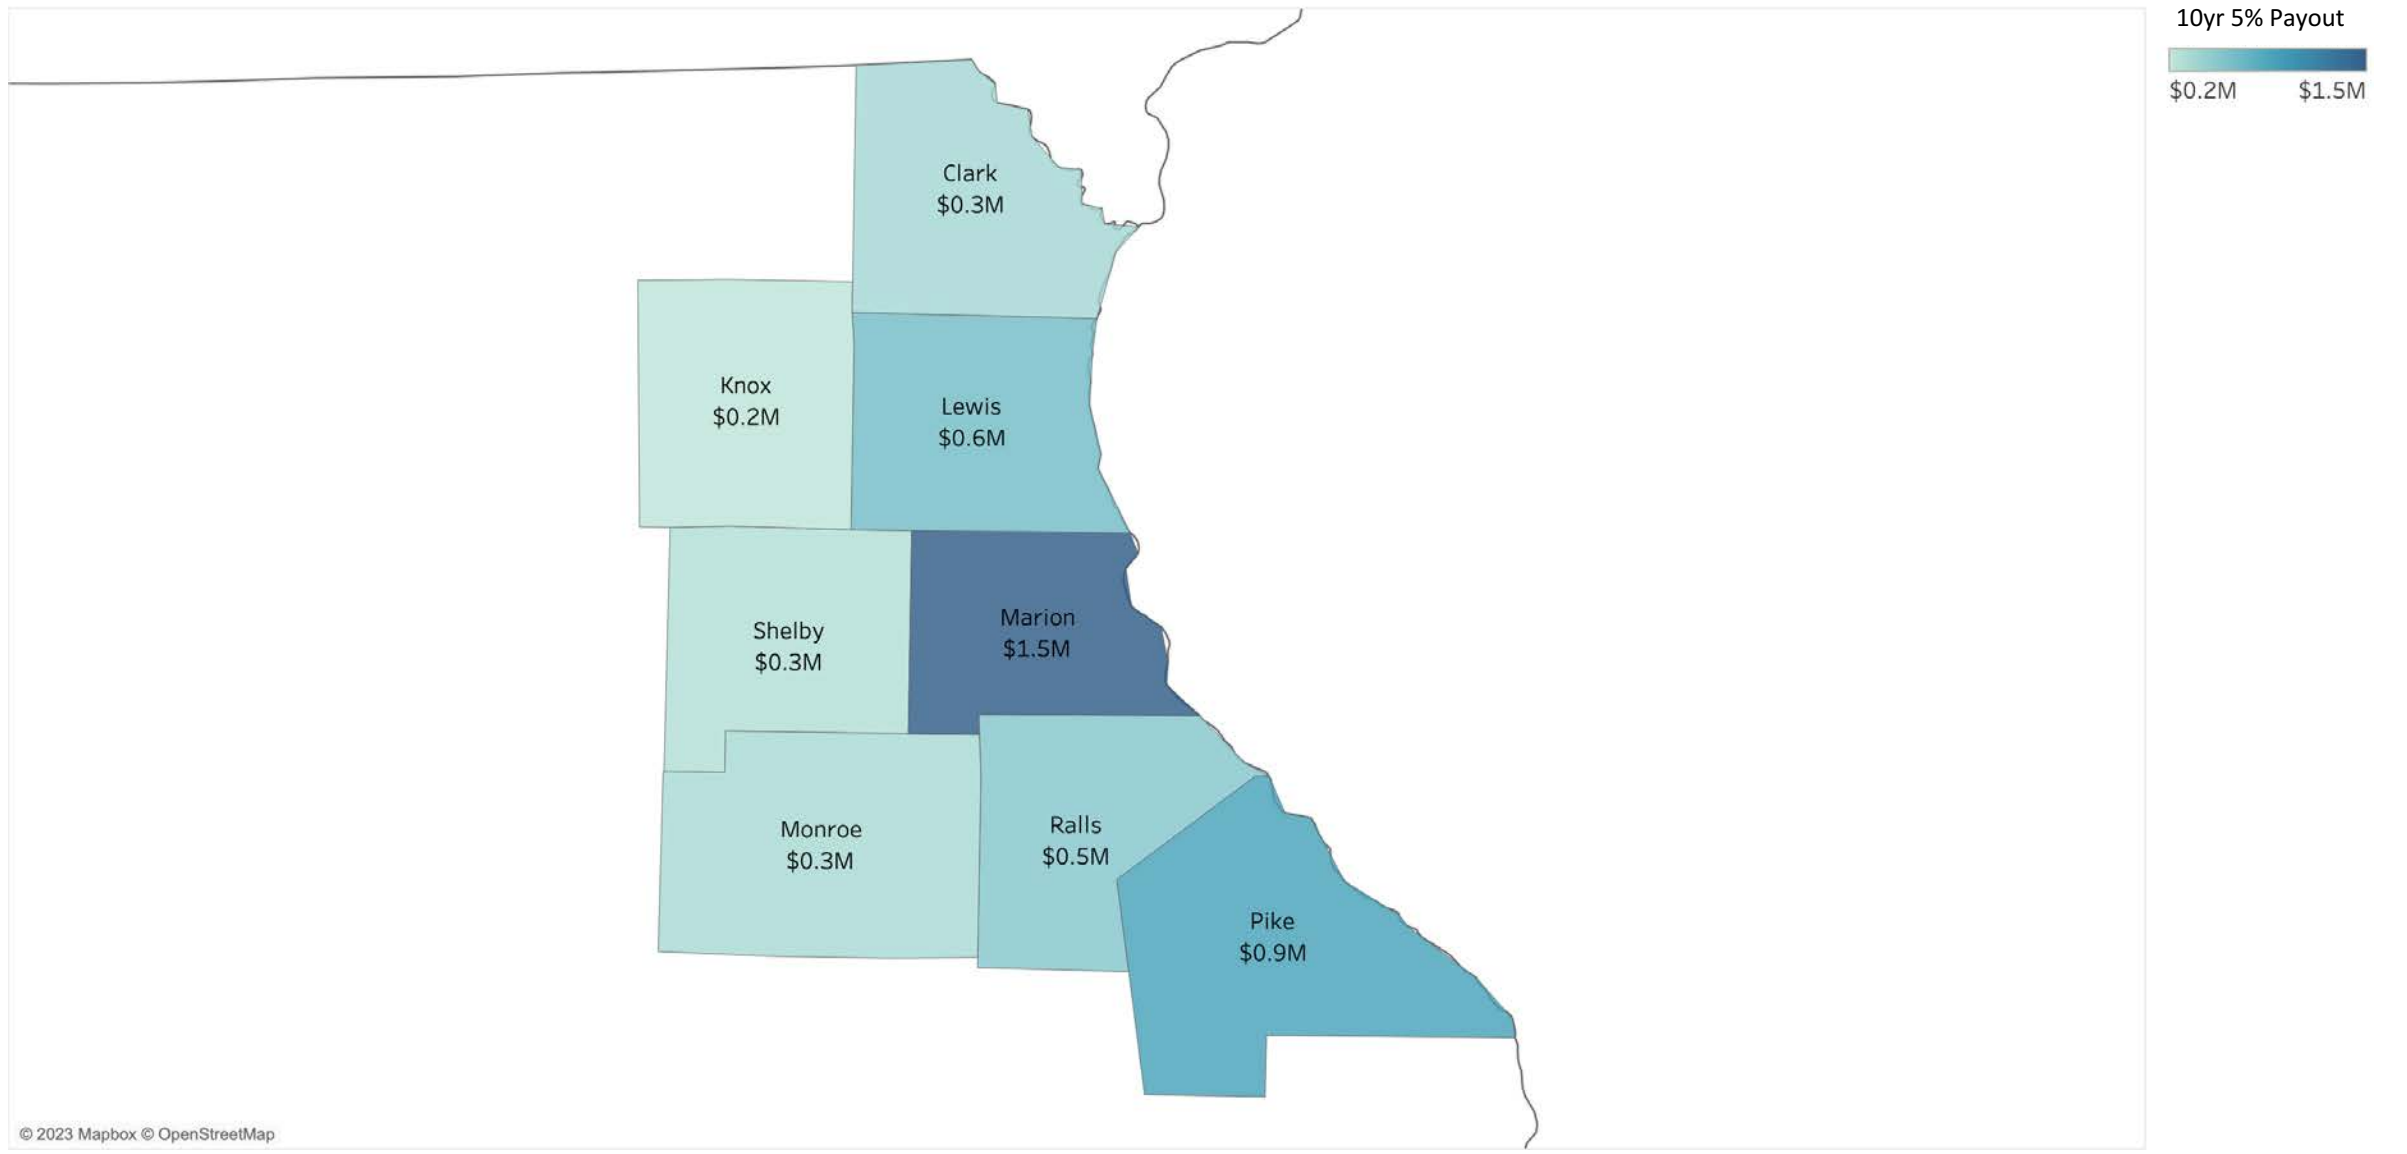

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the Transfer of Wealth would lead to the Northeast region collecting \$93.12 Million by 2032.

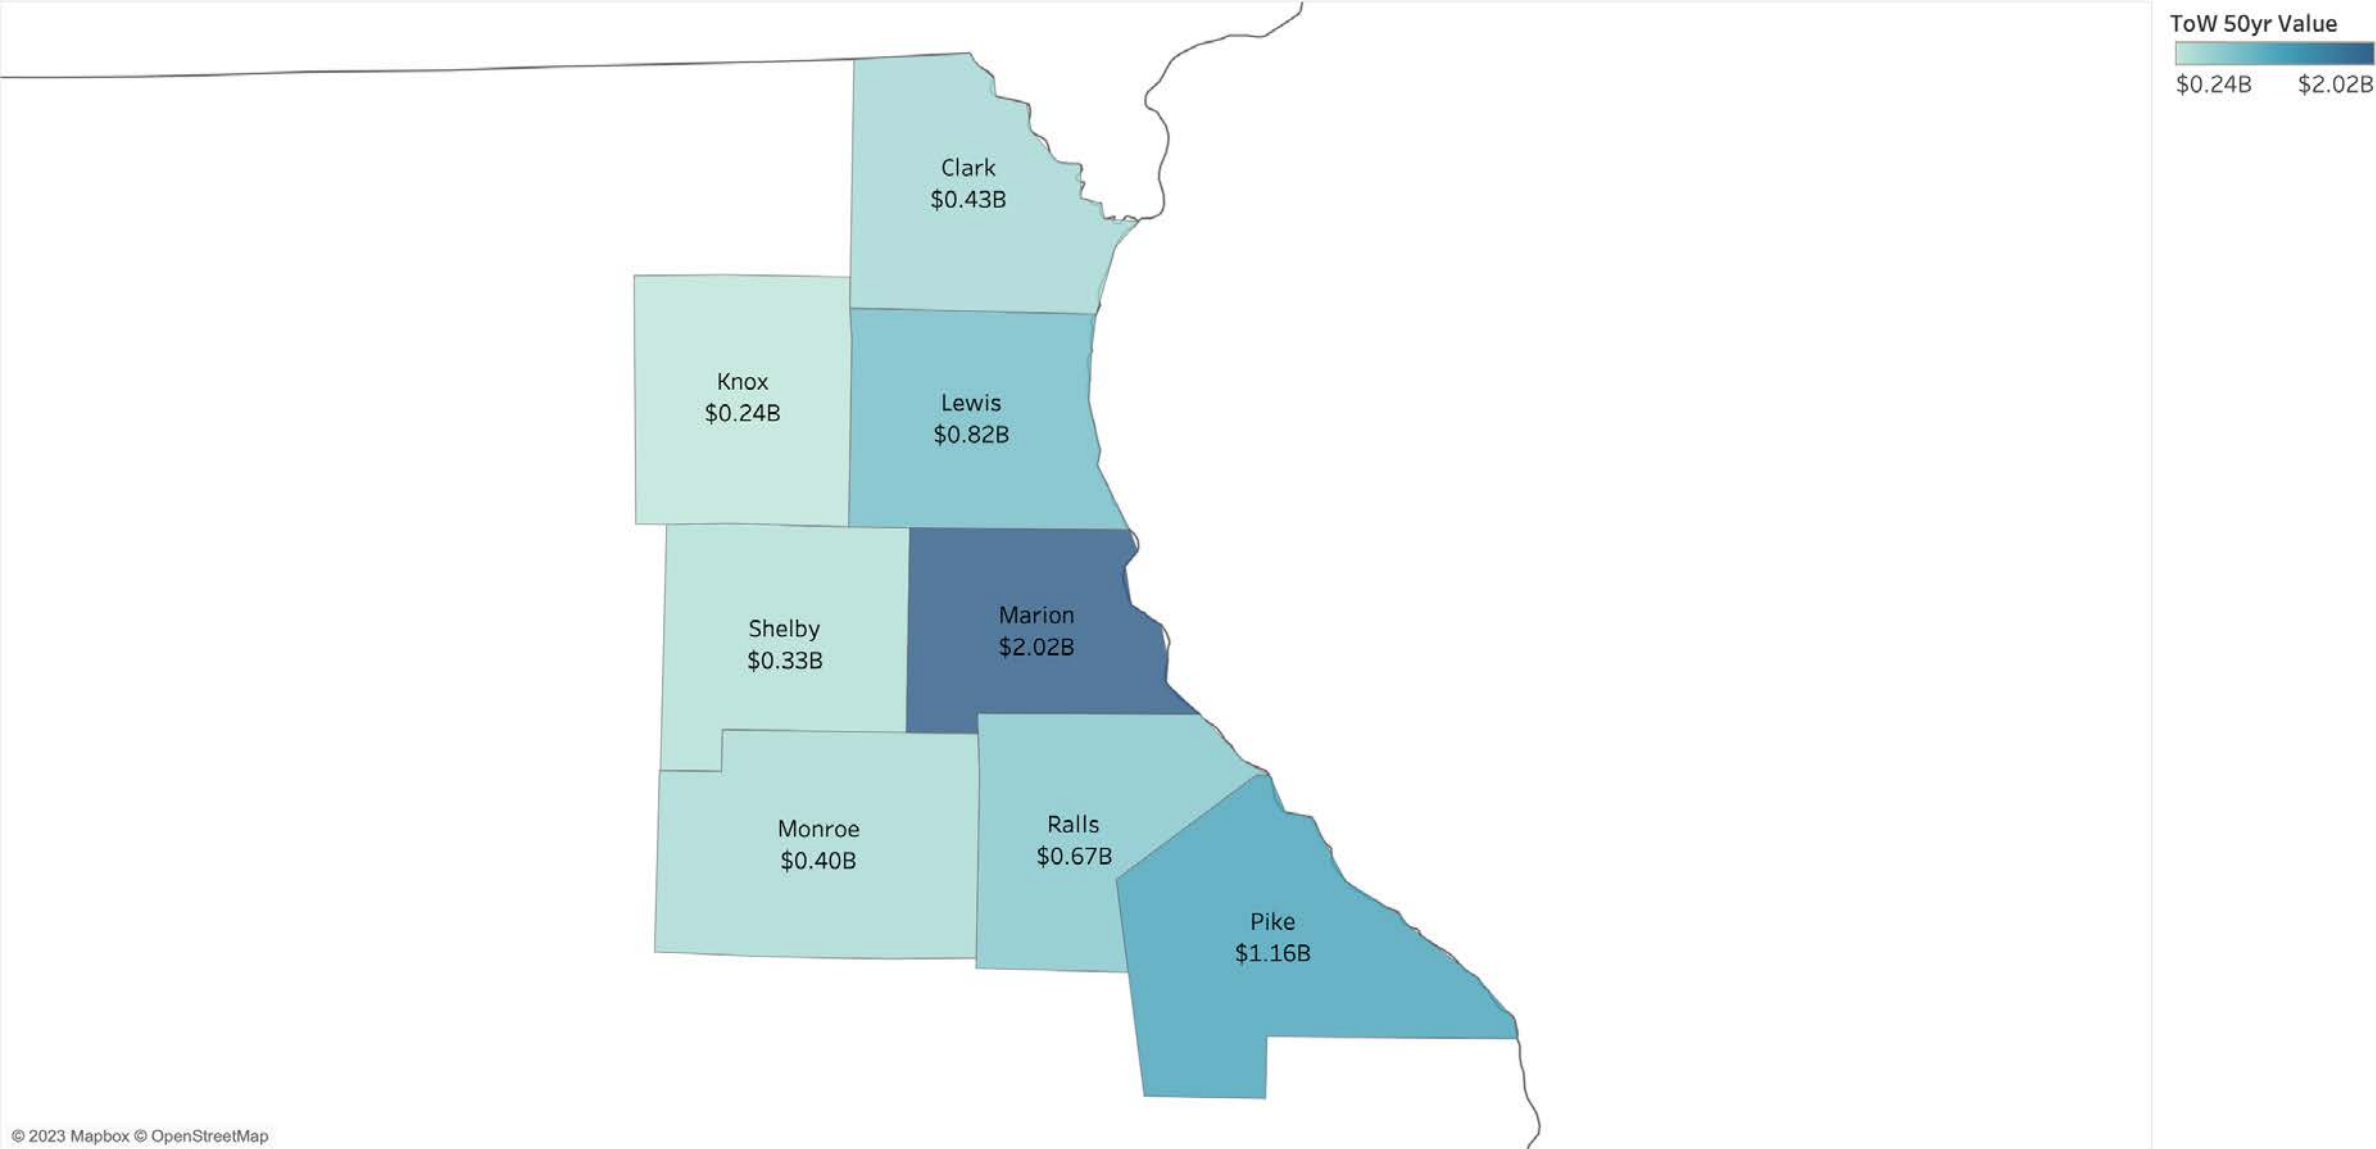

© 2023 Mapbox © OpenStreetMap

The Community Foundation Serving West-Central Illinois and Northeast Missouri could reinvest \$4.65M by 2032 paying out 5% of funds captured.

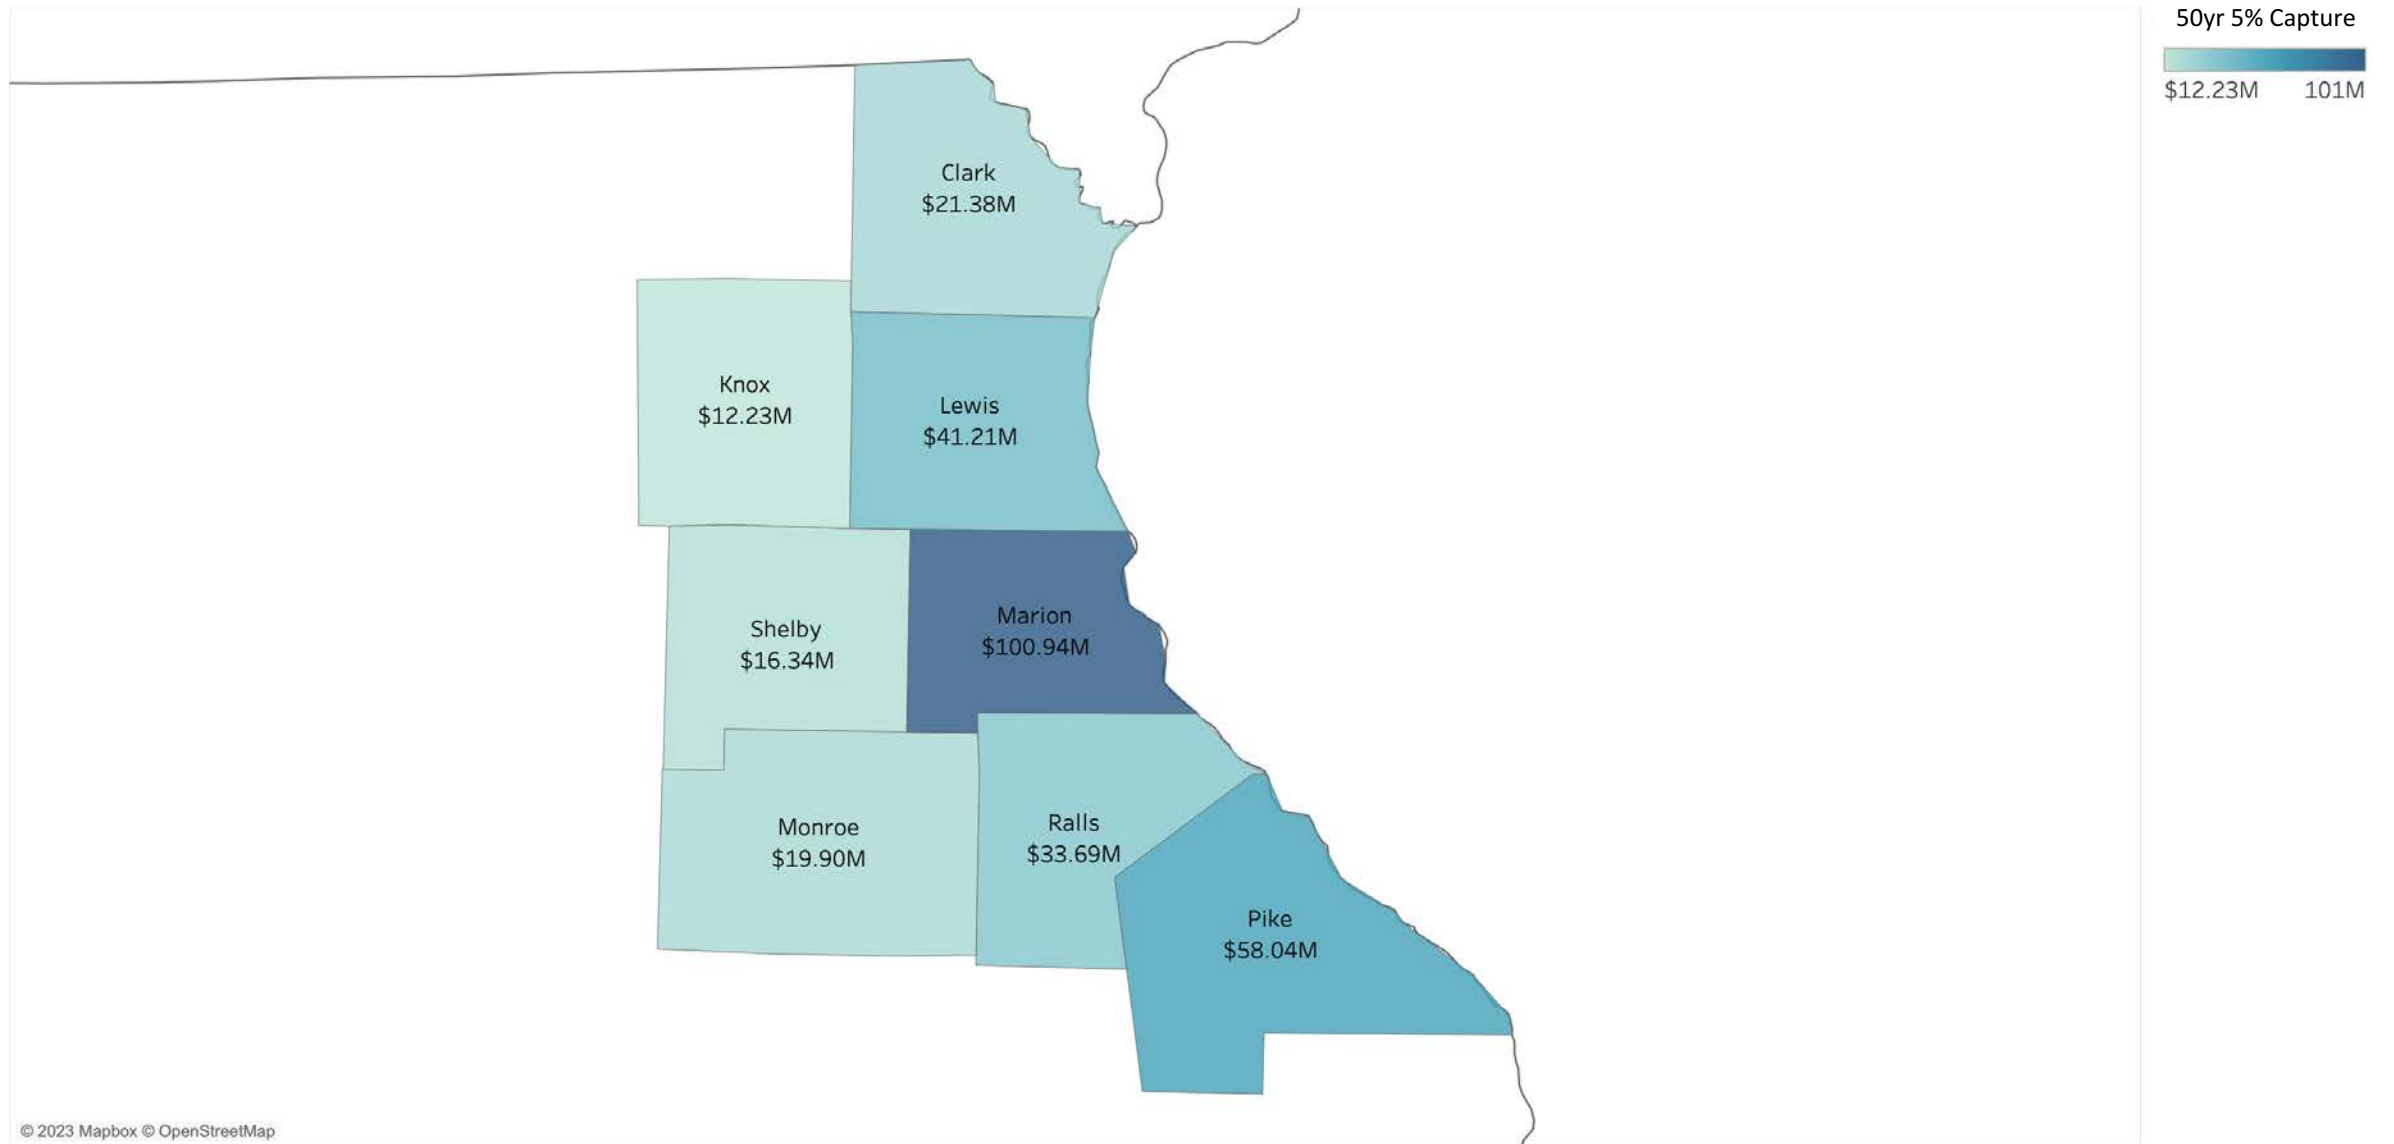

Over the next 50 years, the Transfer of Wealth Opportunity in Northeast Missouri grows to \$6.1 Billion.

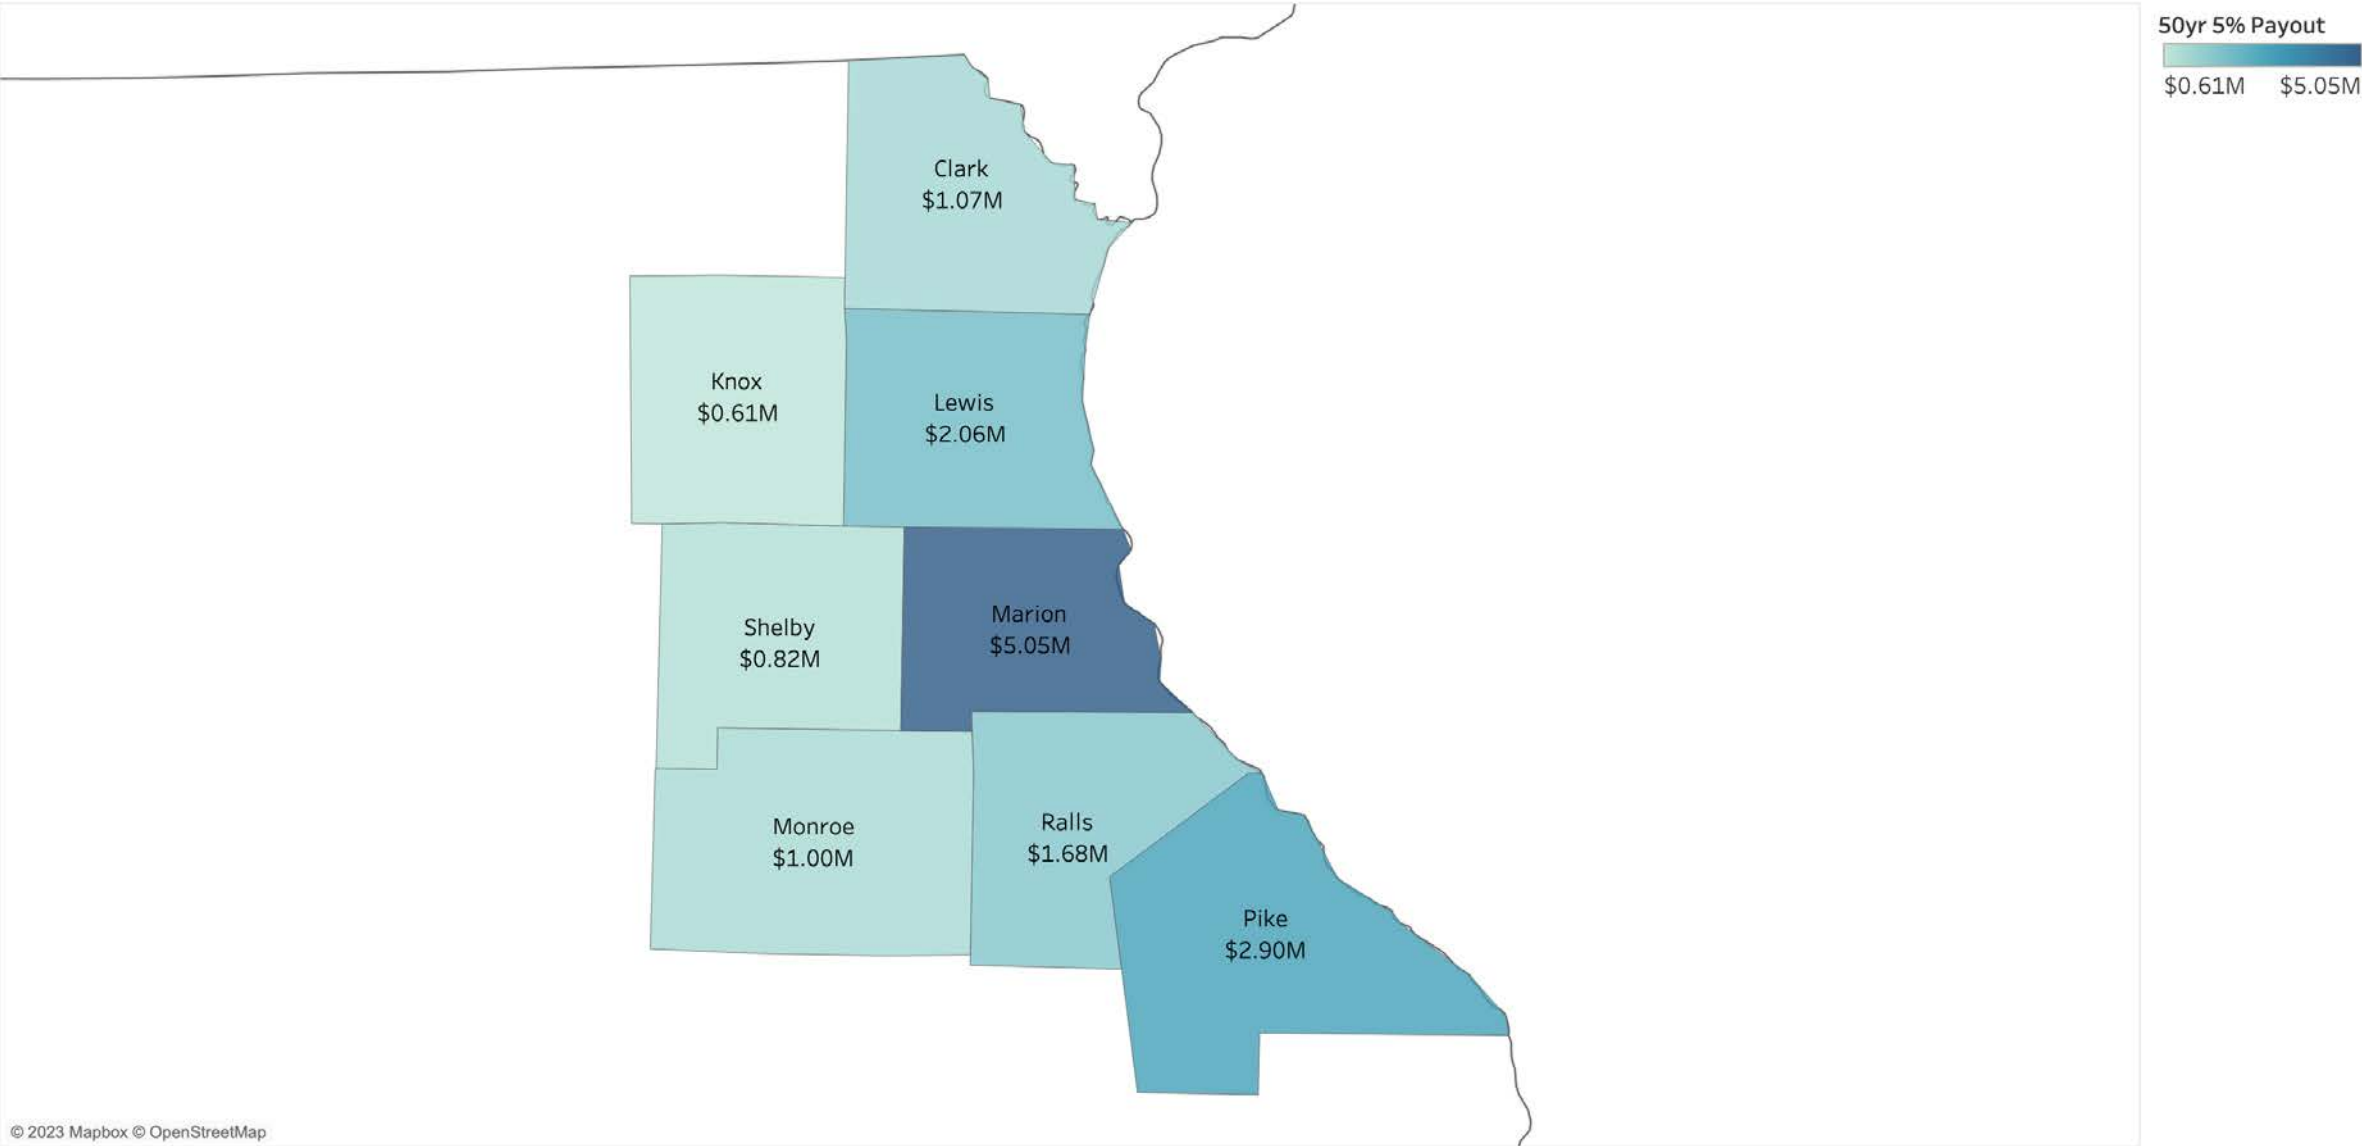

© 2023 Mapbox © OpenStreetMap

Capturing 5% of the Transfer of Wealth in the Northeast region would lead to \$303.7 Million for the foundation by 2072.

Paying out 5% of the total captured over the next 50 years could lead to \$15.19 Million invested in Northeast Missouri communities.

Undesignated Counties

(Counties not currently served by the Alliance of Missouri Community Foundations)

Demographics and Net Worth

165,748 Missourians reside in counties not currently served by the Alliance, and this could be as high as 169,355 by 2027.

Source: ESRI

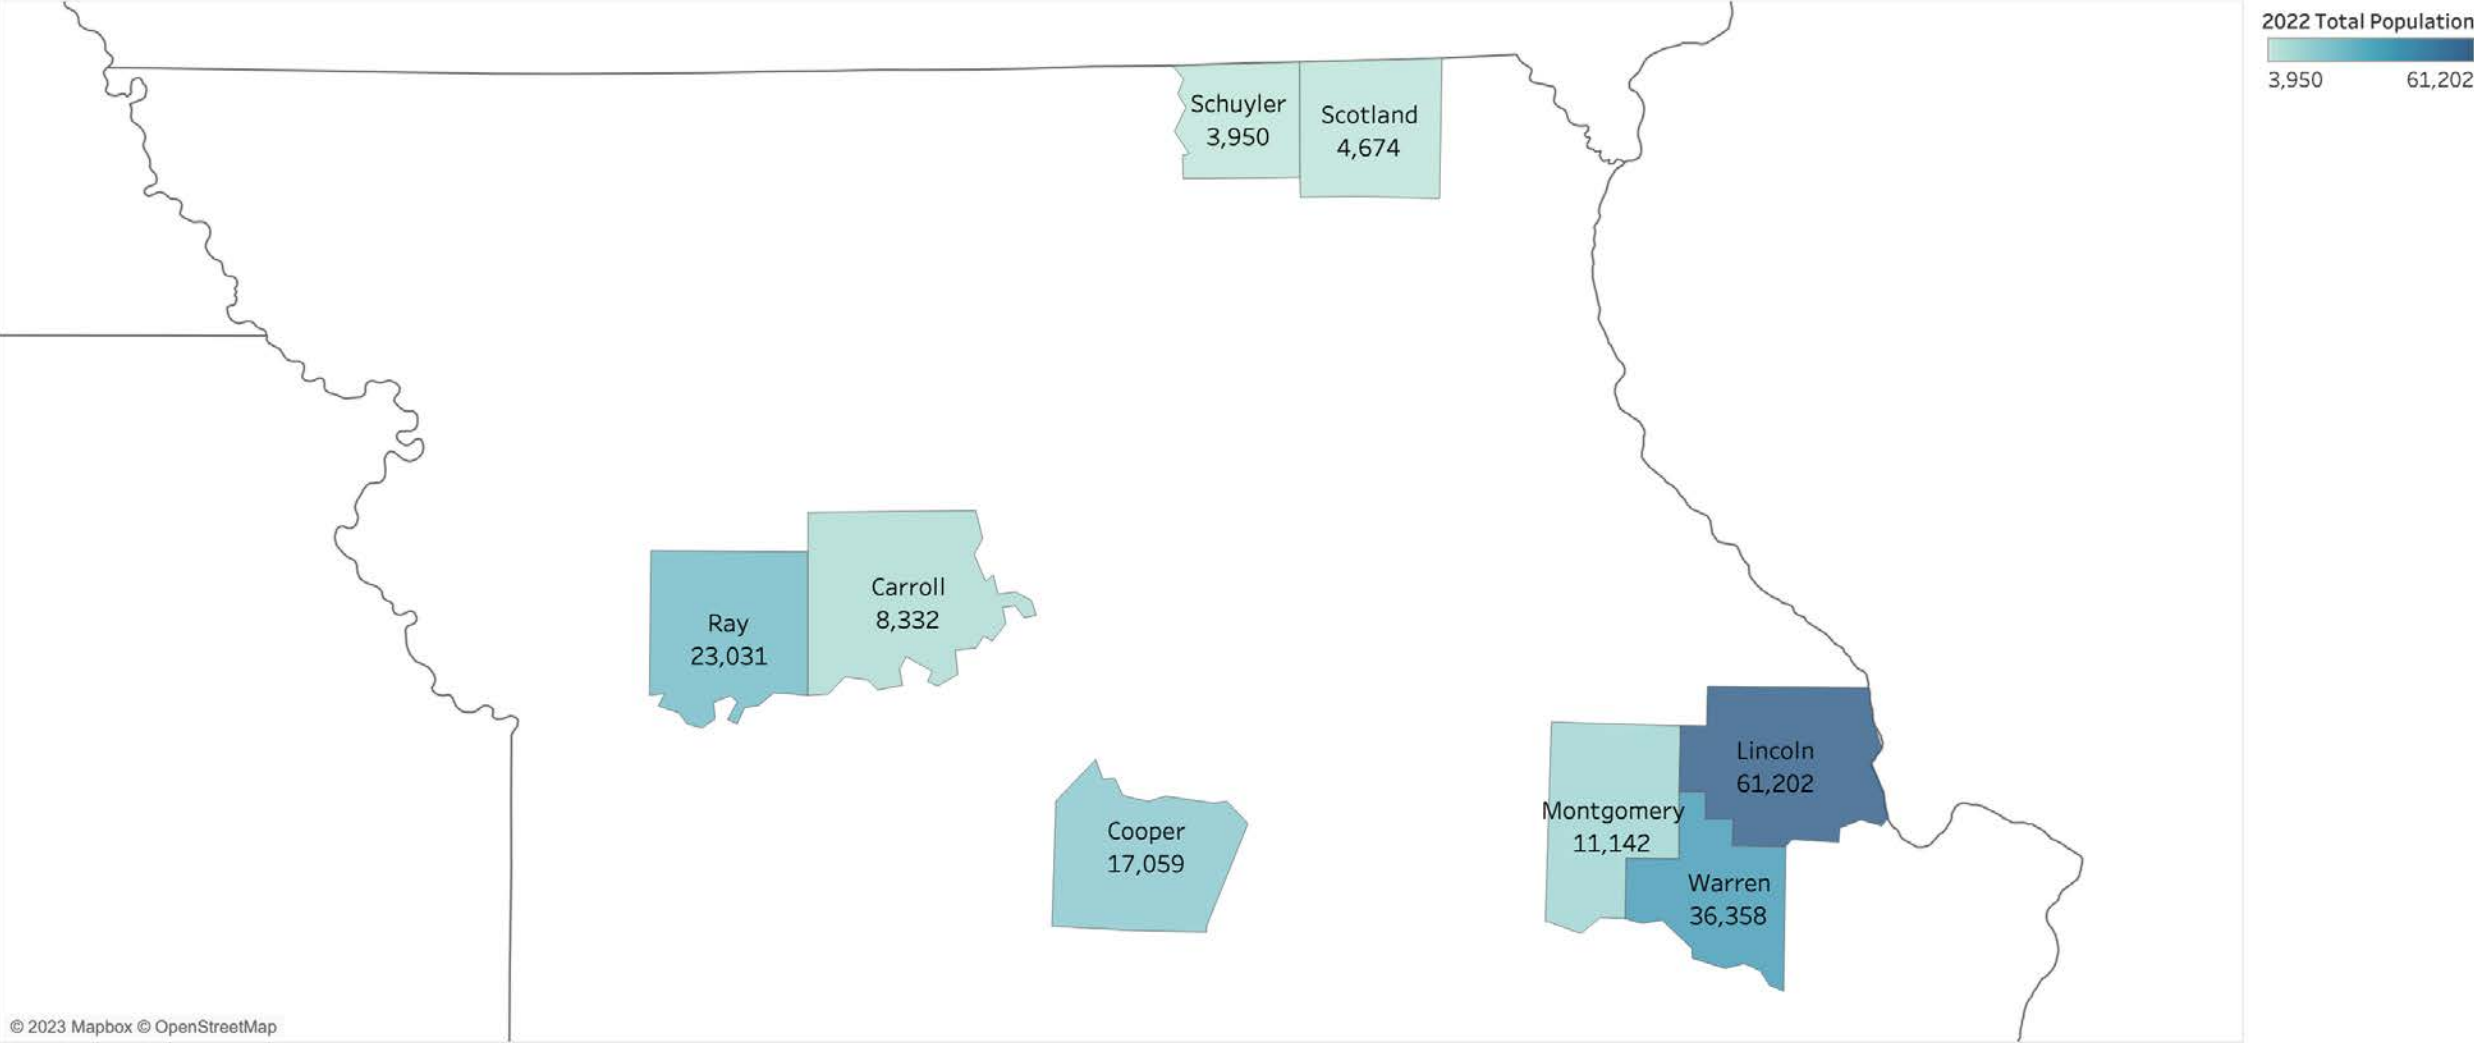

The majority of these reside in the Large Fringe Metro counties of the St. Louis region – specifically, Lincoln and Warren counties.

Source: ESRI

Eight counties are currently not served by the Alliance, with populations ranging from 4,000 (Schuyler County) to over 61,000 in Lincoln County.

Source: ESRI

The undesignated counties account for 63,455 households not served by the Alliance.

Source: ESRI

Lincoln County has seen total households grow by 18.7% since 2010 and expected is to have over 1,000 more households by 2027.

Source: ESRI

Average Household Size is notably higher in some undesignated counties – particularly, Lincoln and Warren counties.

Source: ESRI

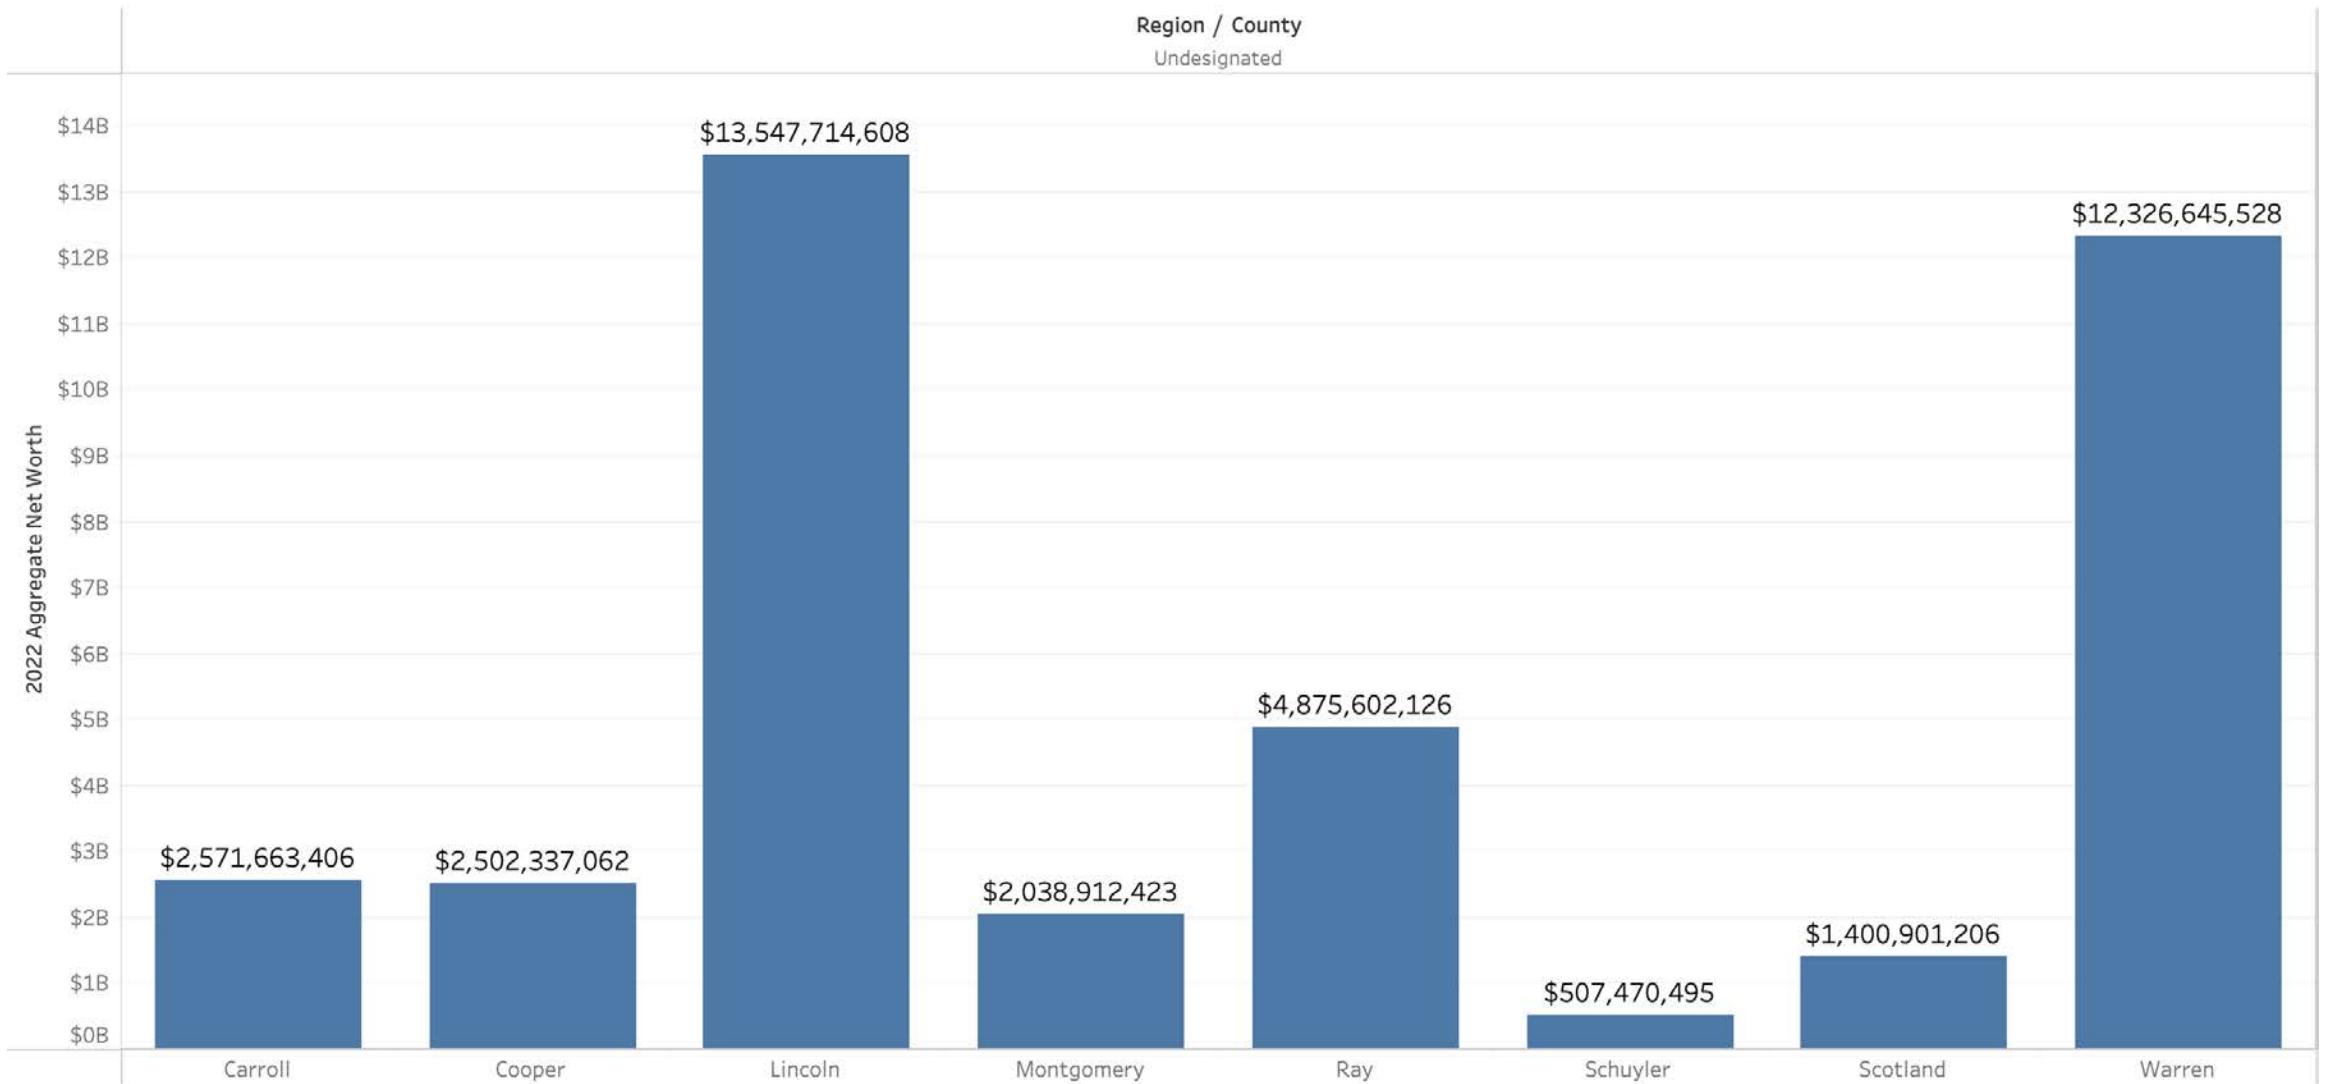

Lincoln County also have a Median Age below forty – a relatively younger cohort of residents when compared statewide.

Source: ESRI

There is \$39.7 Billion in Aggregate Net Worth among families in counties not served by the Alliance.

	Ray	23,031	9,060	\$4,875,602,126	\$538,146	\$173,684
	Schuyler	3,950	1,569	\$507,470,495	\$323,436	\$90,175
	Scotland	4,674	1,792	\$1,400,901,206	\$781,753	\$144,337
	Warren	36,358	13,918	\$12,326,645,528	\$885,662	\$192,162

Undesignated Counties

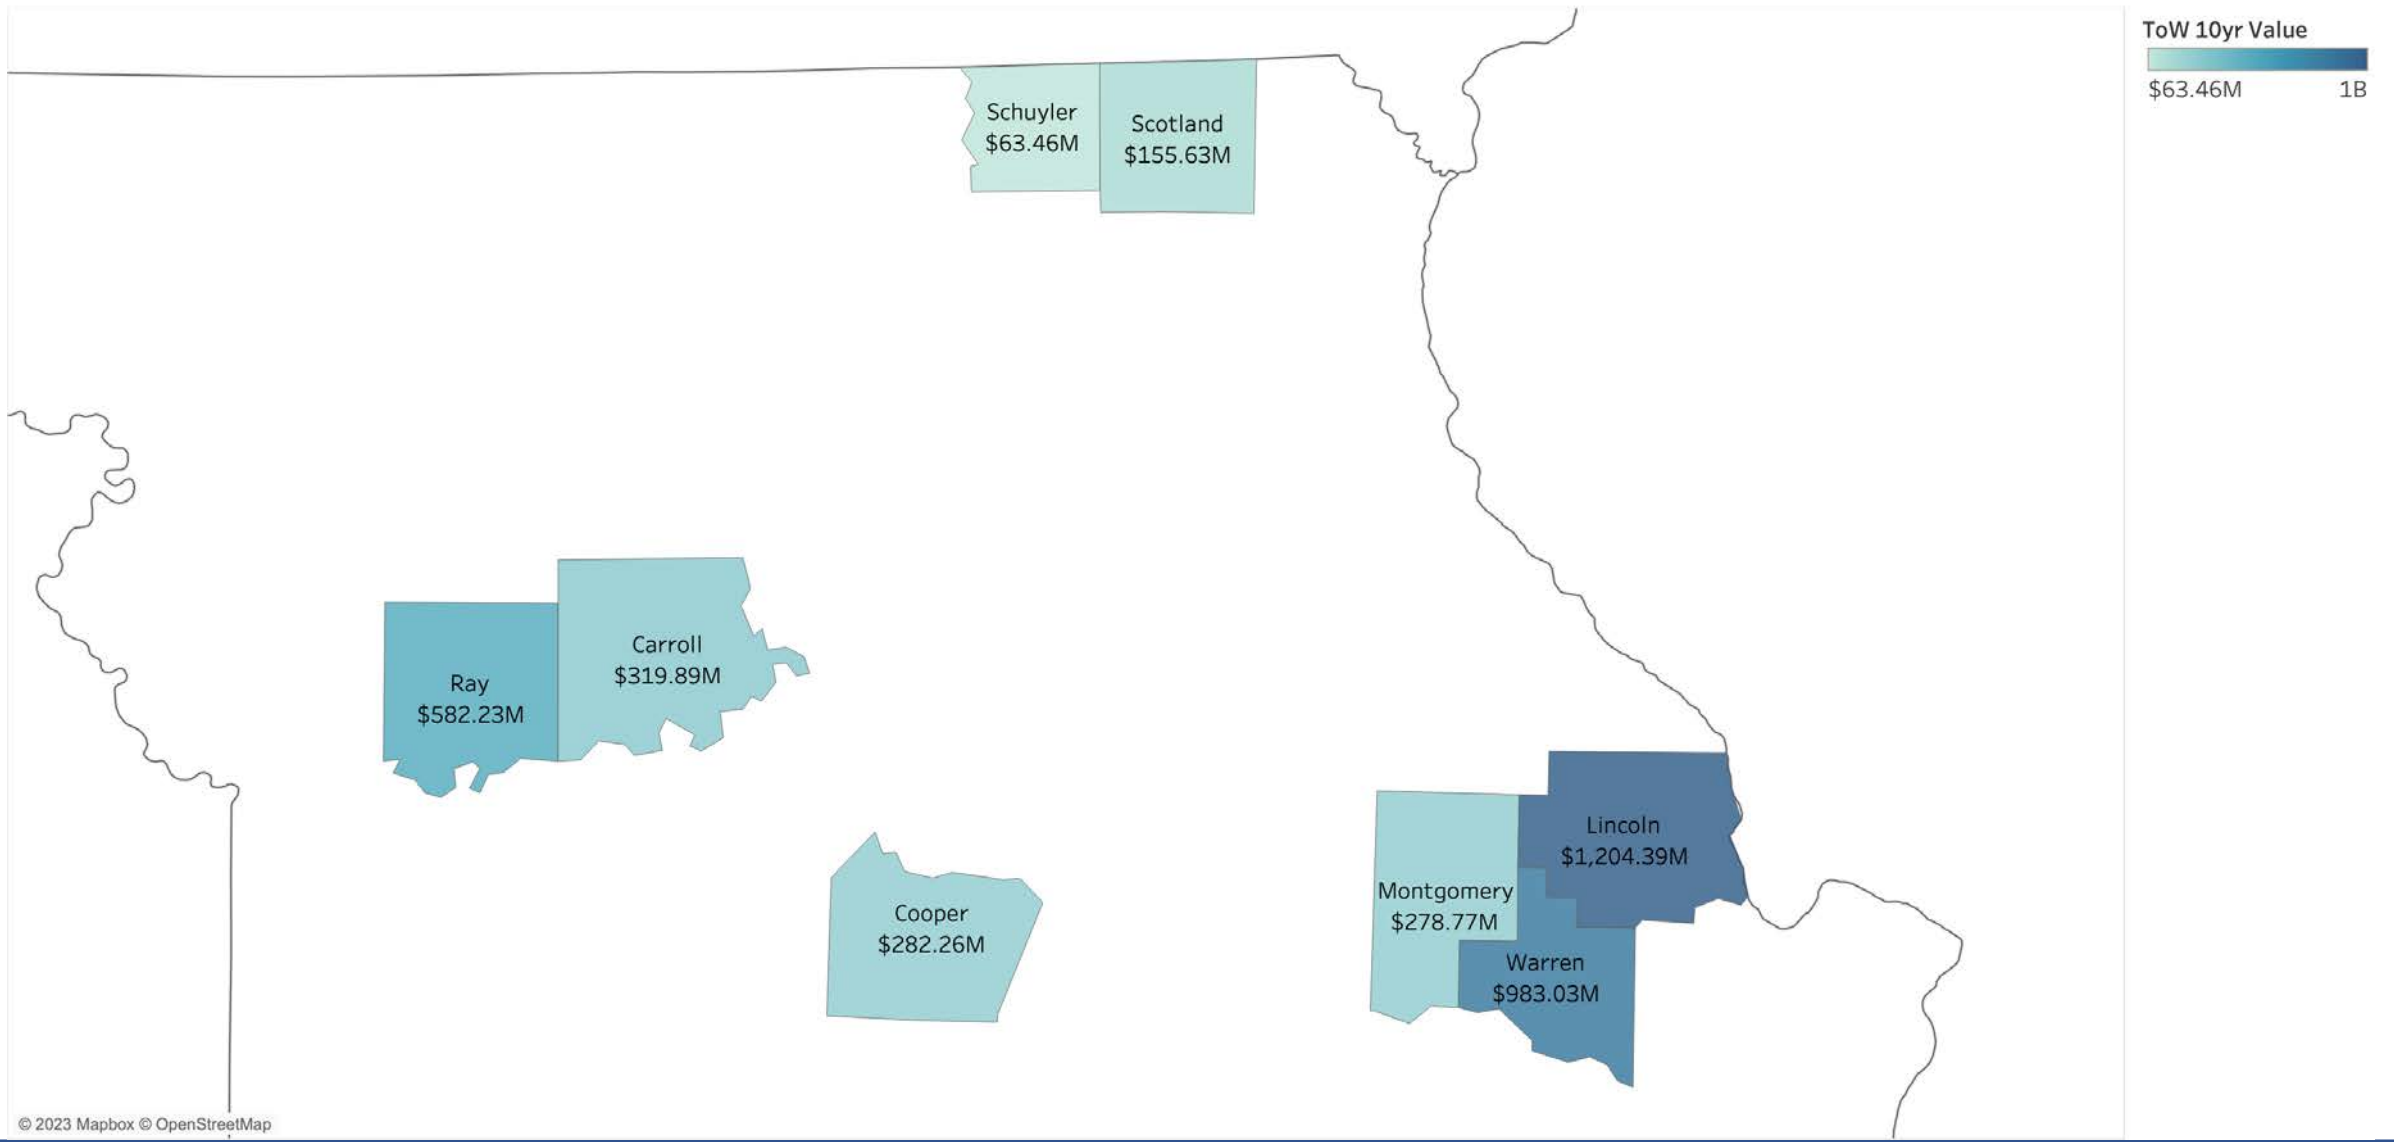

(Counties not currently served by the Alliance of Missouri Community Foundations)

Transfer of Wealth

The current Transfer of Wealth Opportunity among the undesignated counties stands at \$2.9 Billion – ranging from \$47.2 Million in Schuyler County to \$896 Million in Lincoln County.

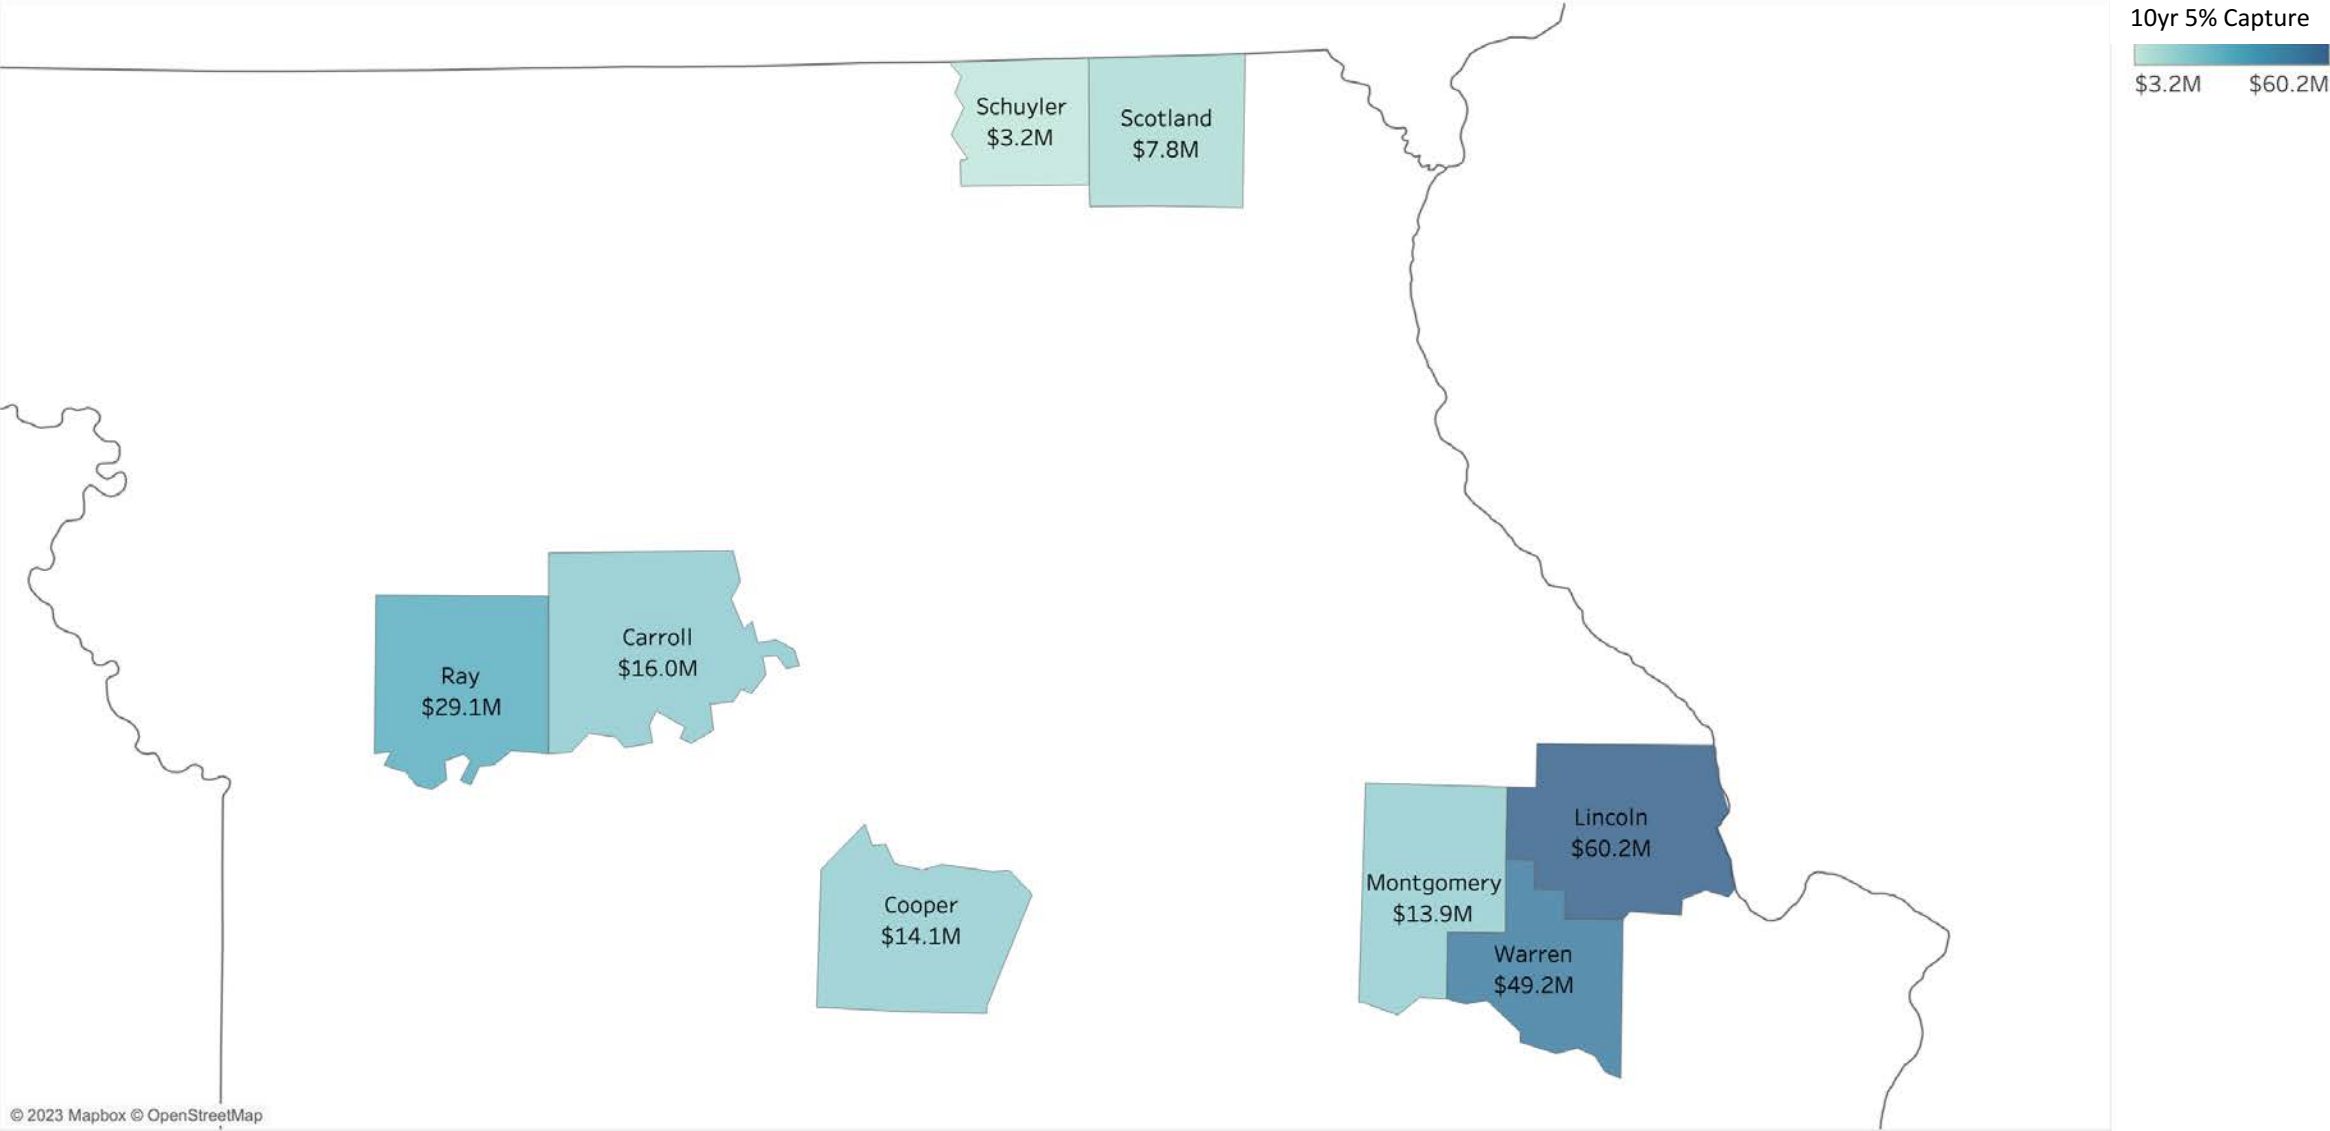

Over the next ten years, over \$3.87 Billion of wealth is expected to transfer among families in undesignated counties ranging from \$63.5 Million in Schuyler County to over \$1.2 Billion in Lincoln County.

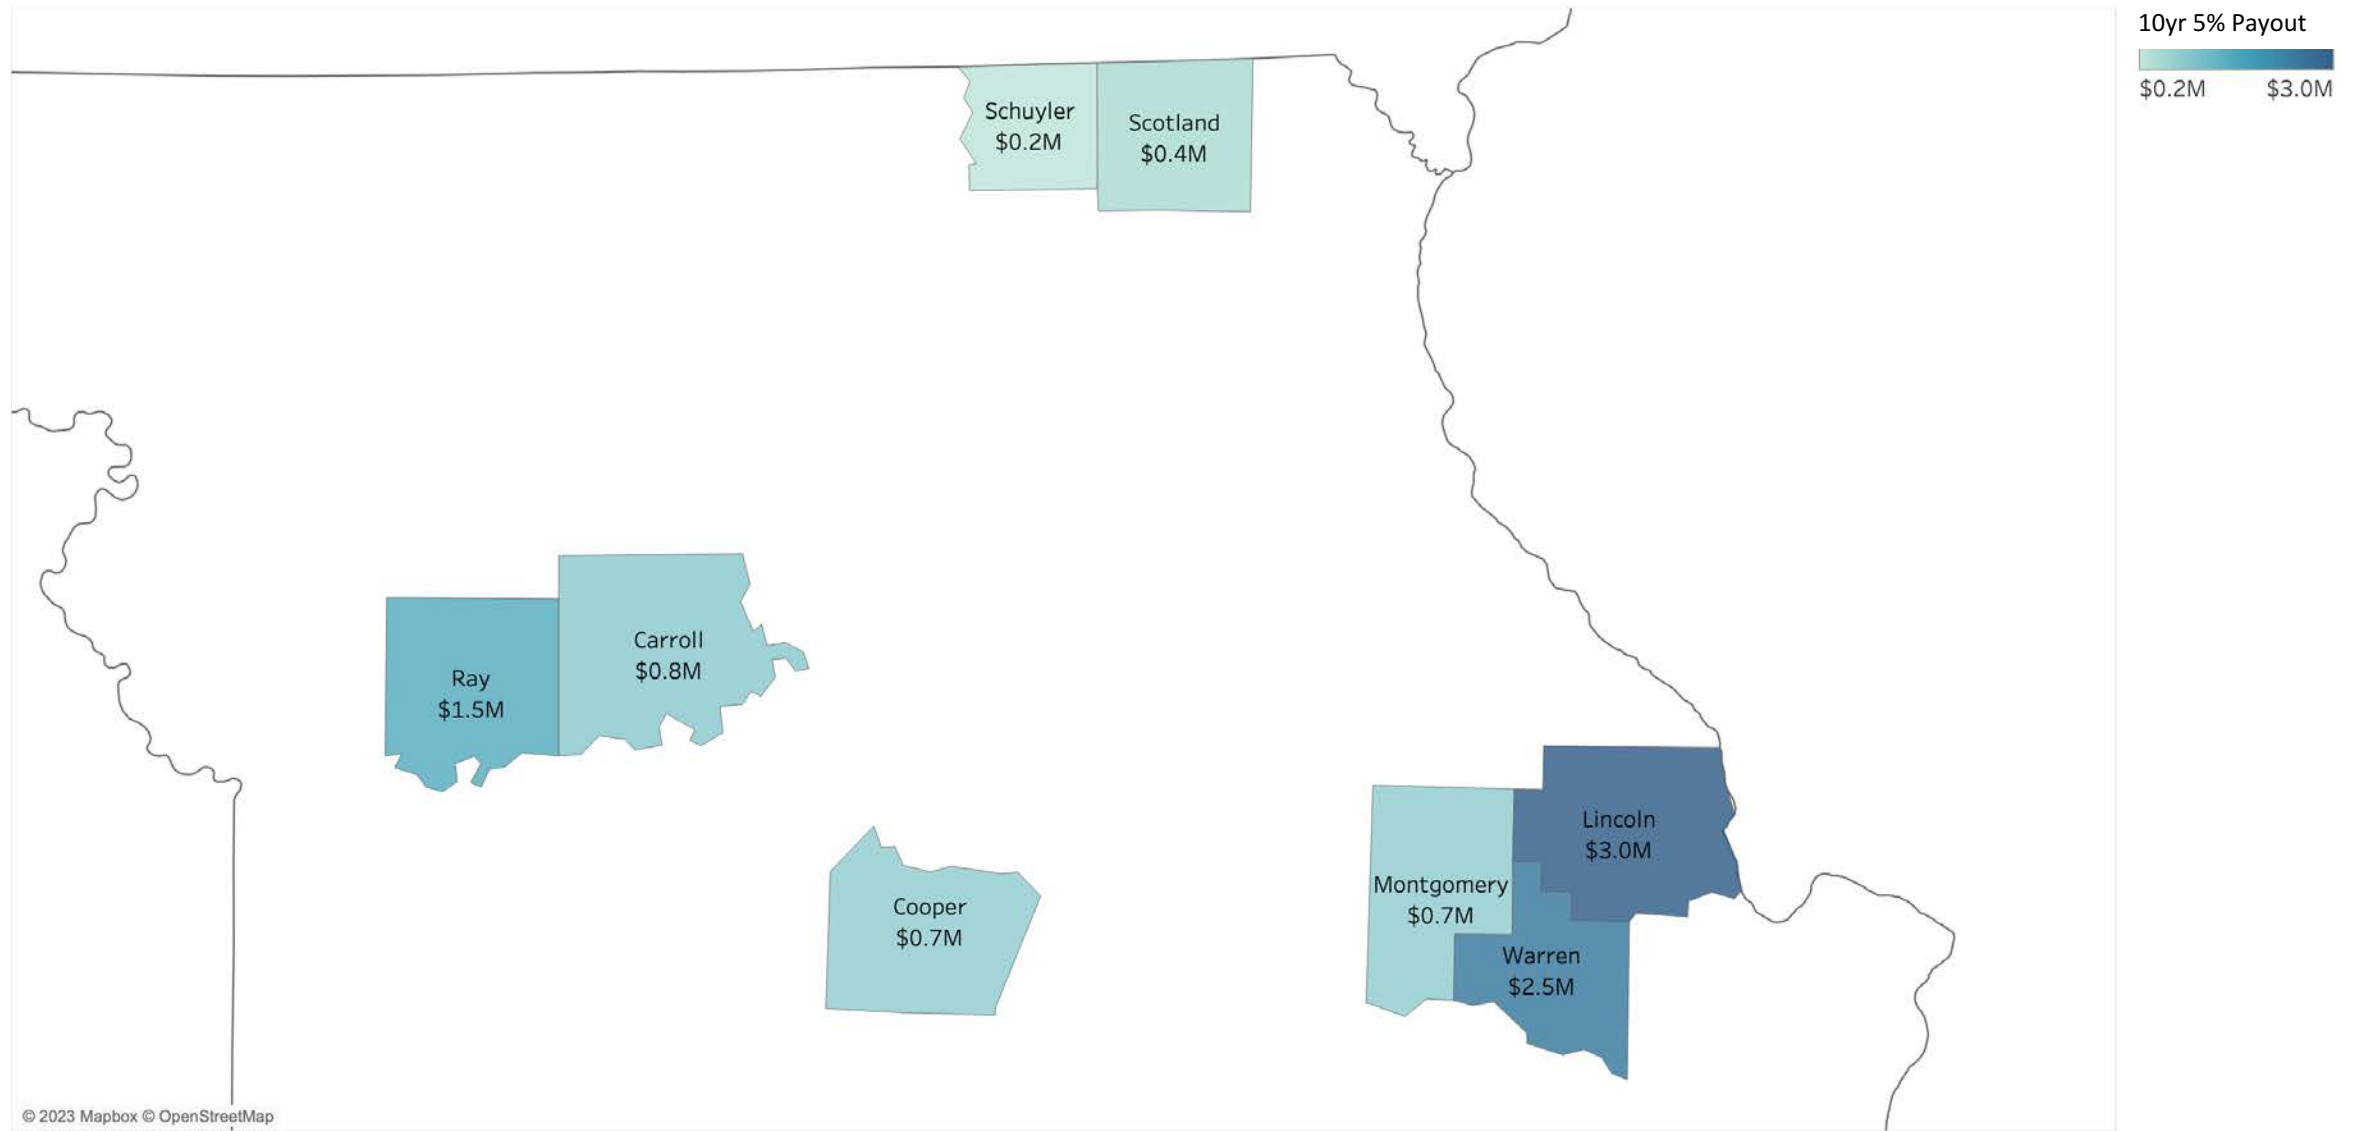

© 2023 Mapbox © OpenStreetMap

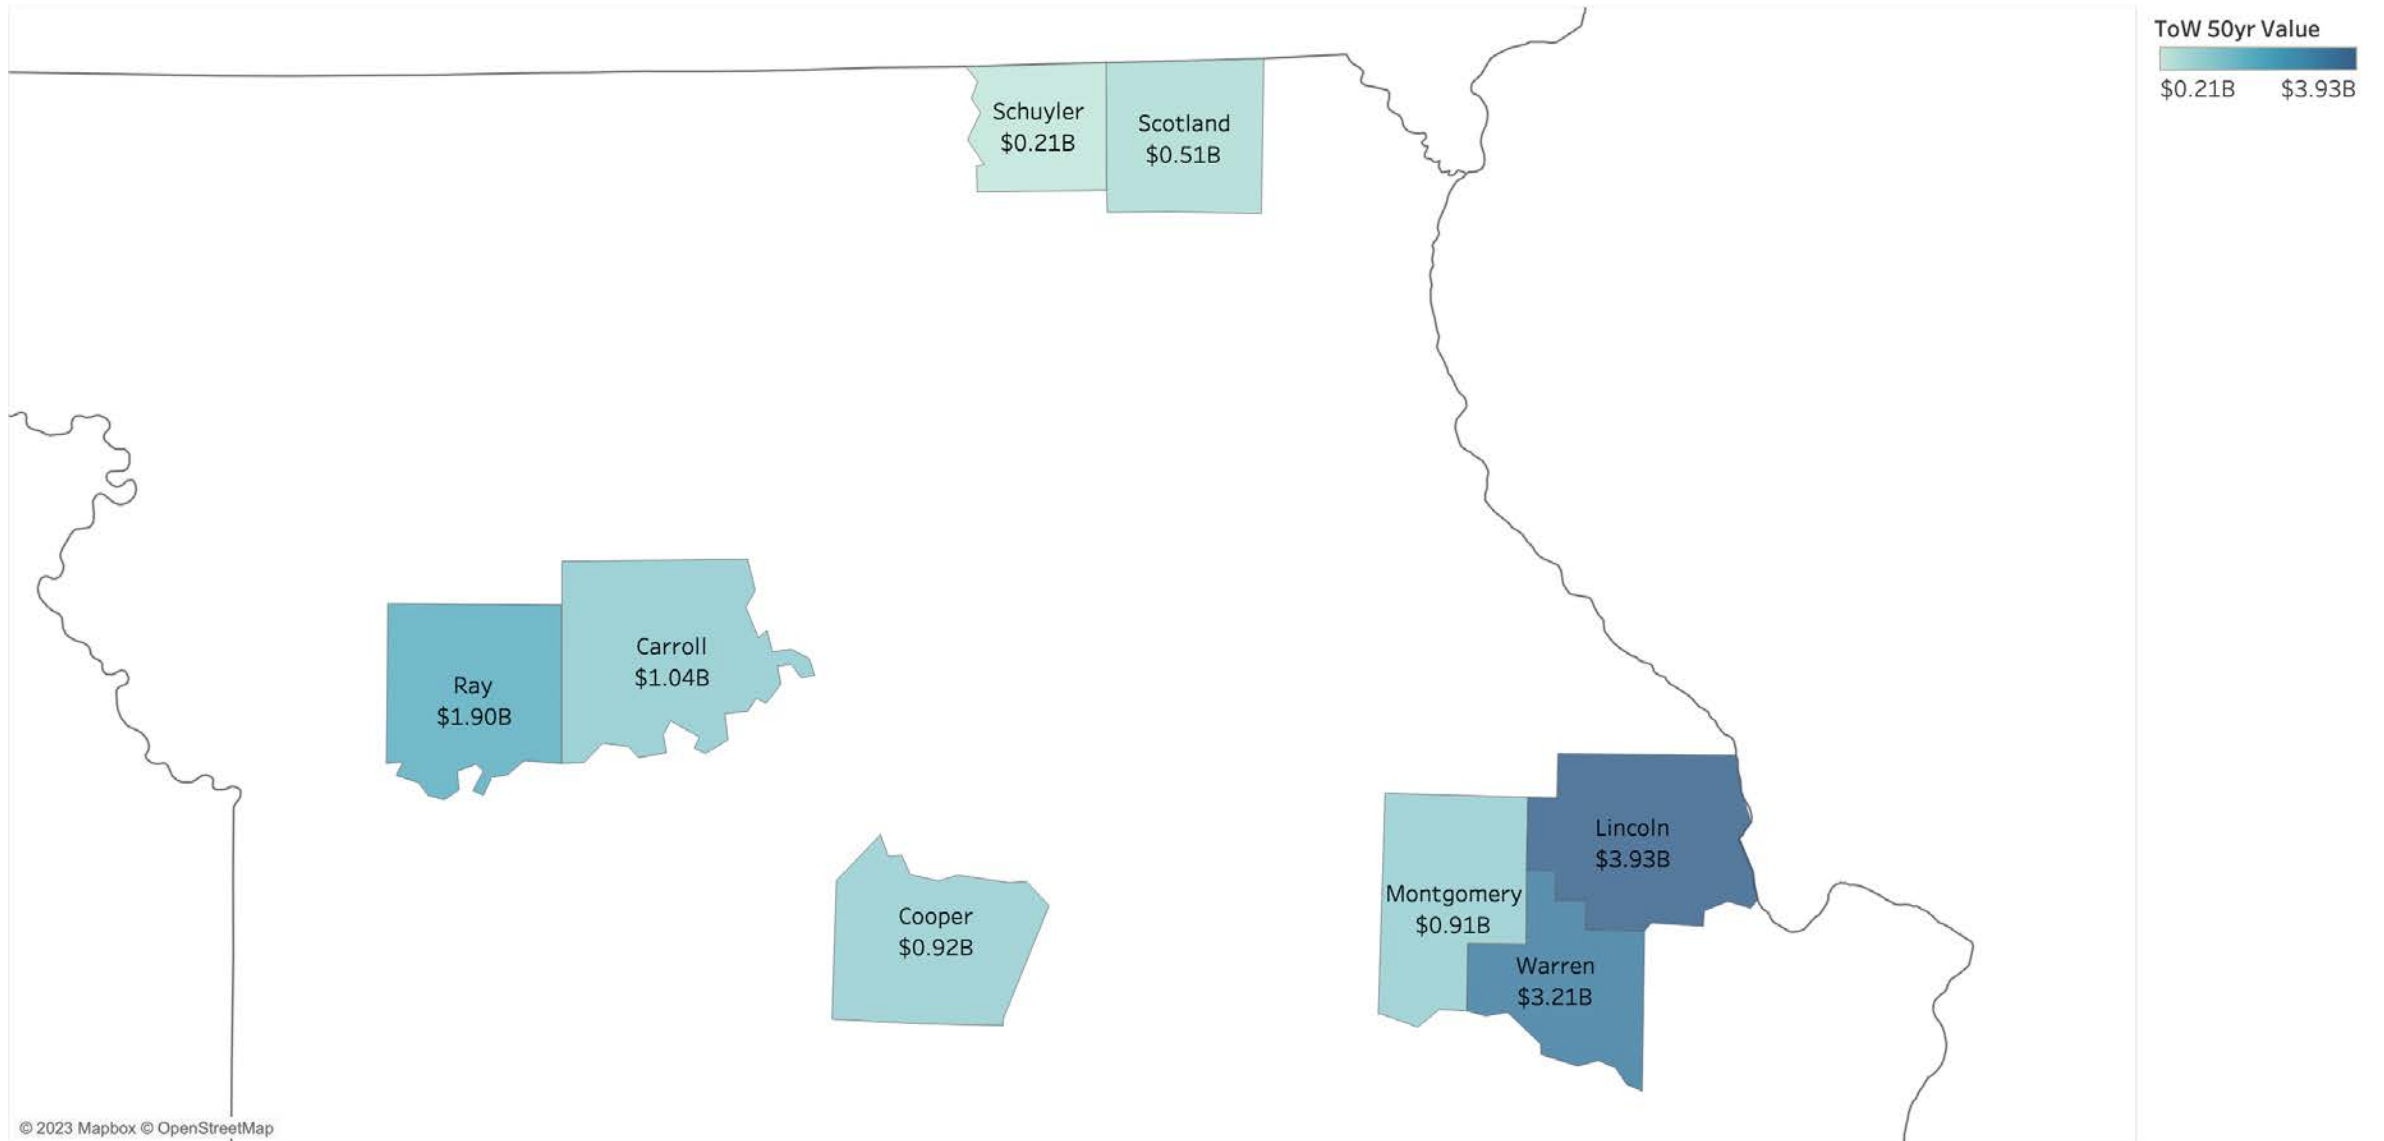

Capturing 5% of the transfer of wealth among undesignated counties would amount to \$193.5 Million for the Alliance.

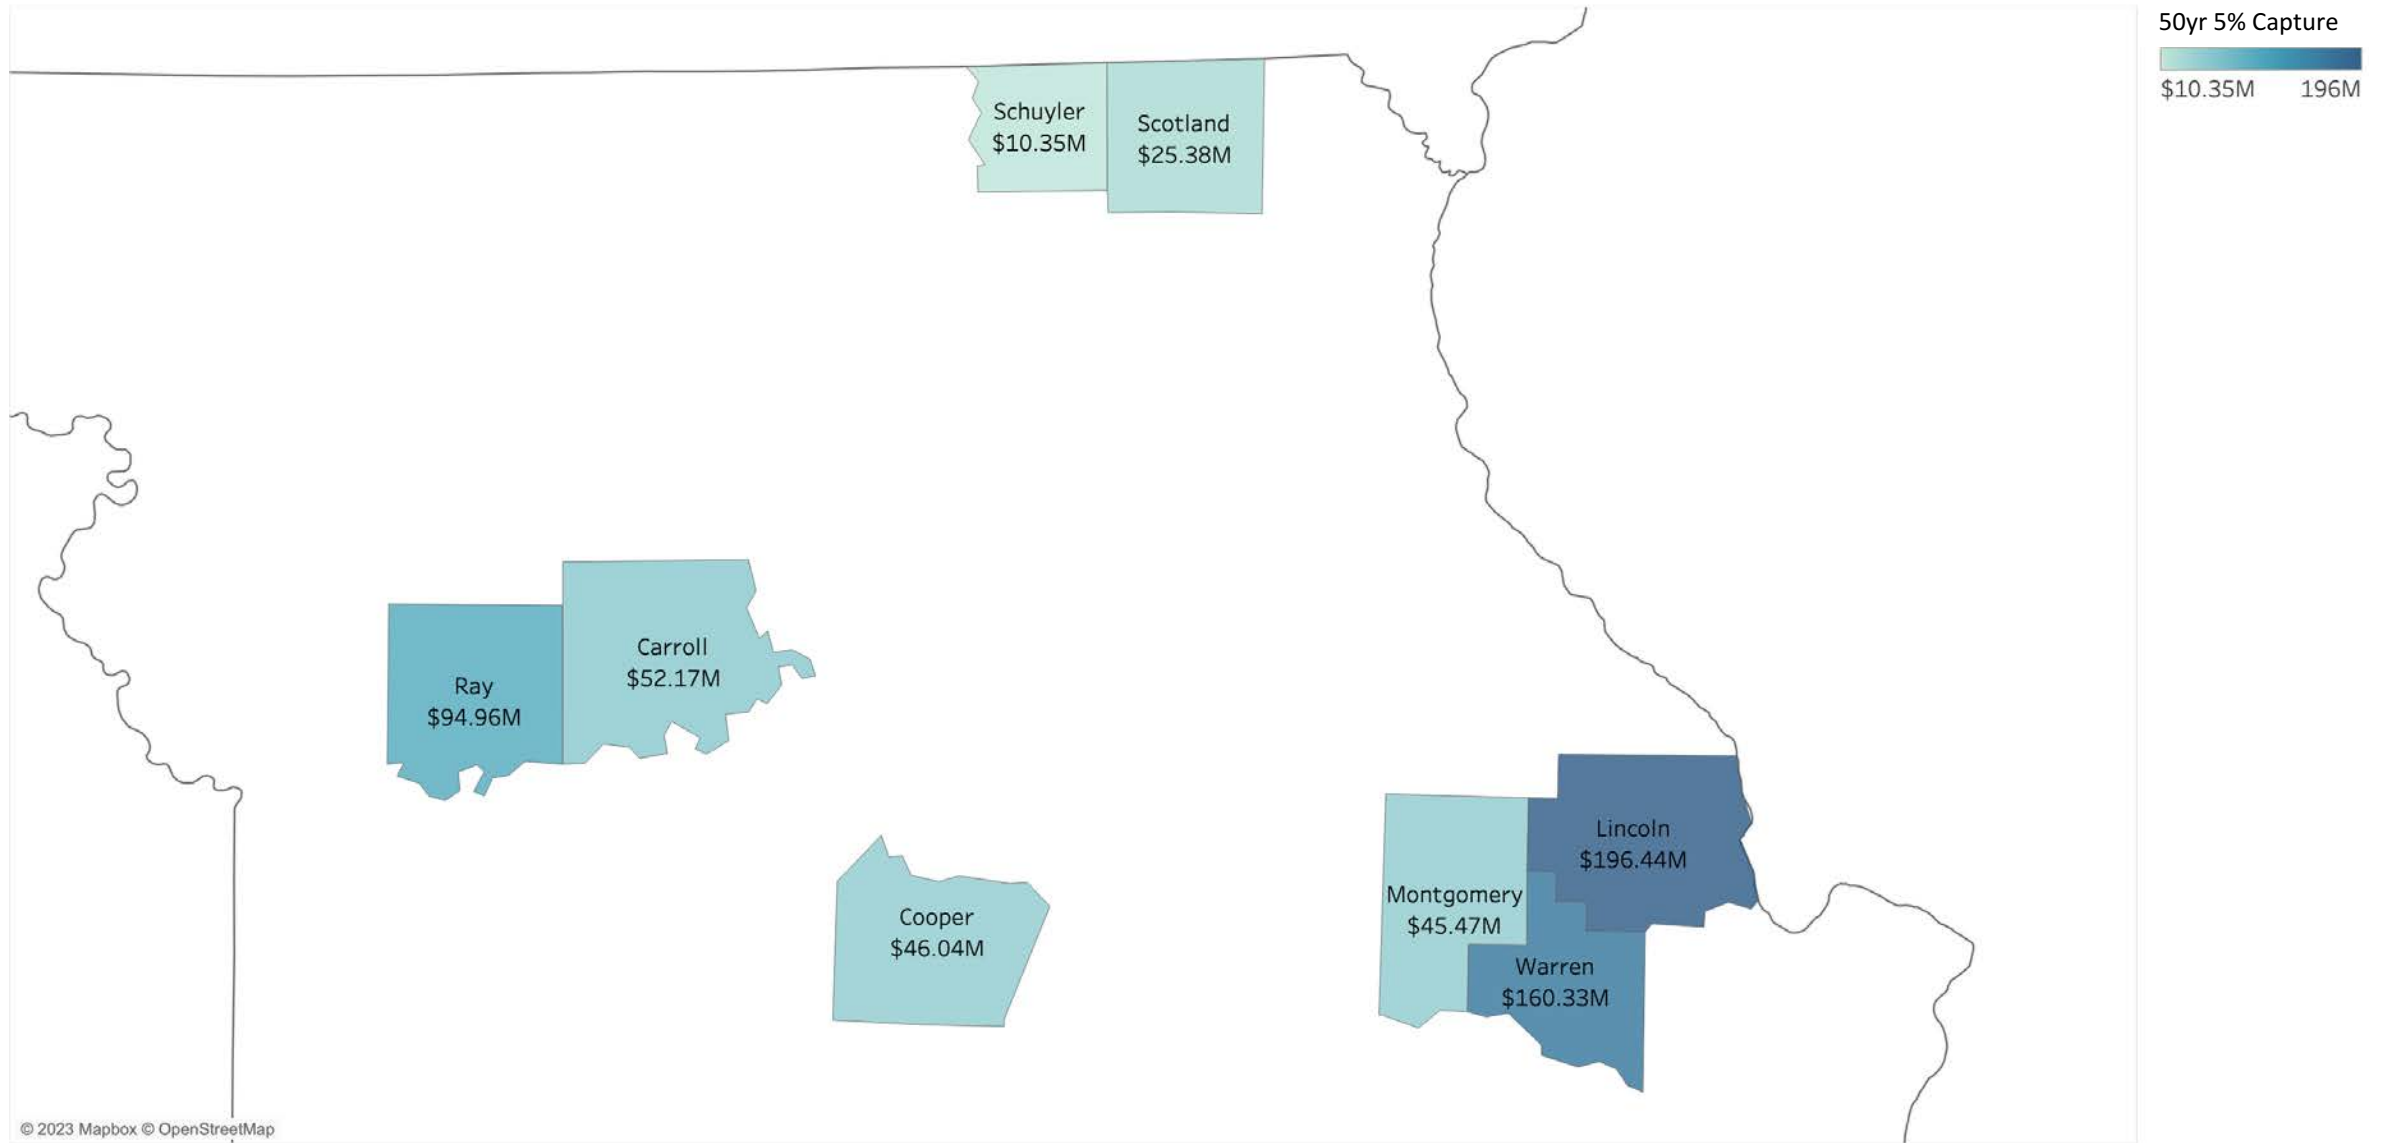

A 5% payout of captured funds would lead to investment of \$9.7 Million in these undesignated counties by 2032.

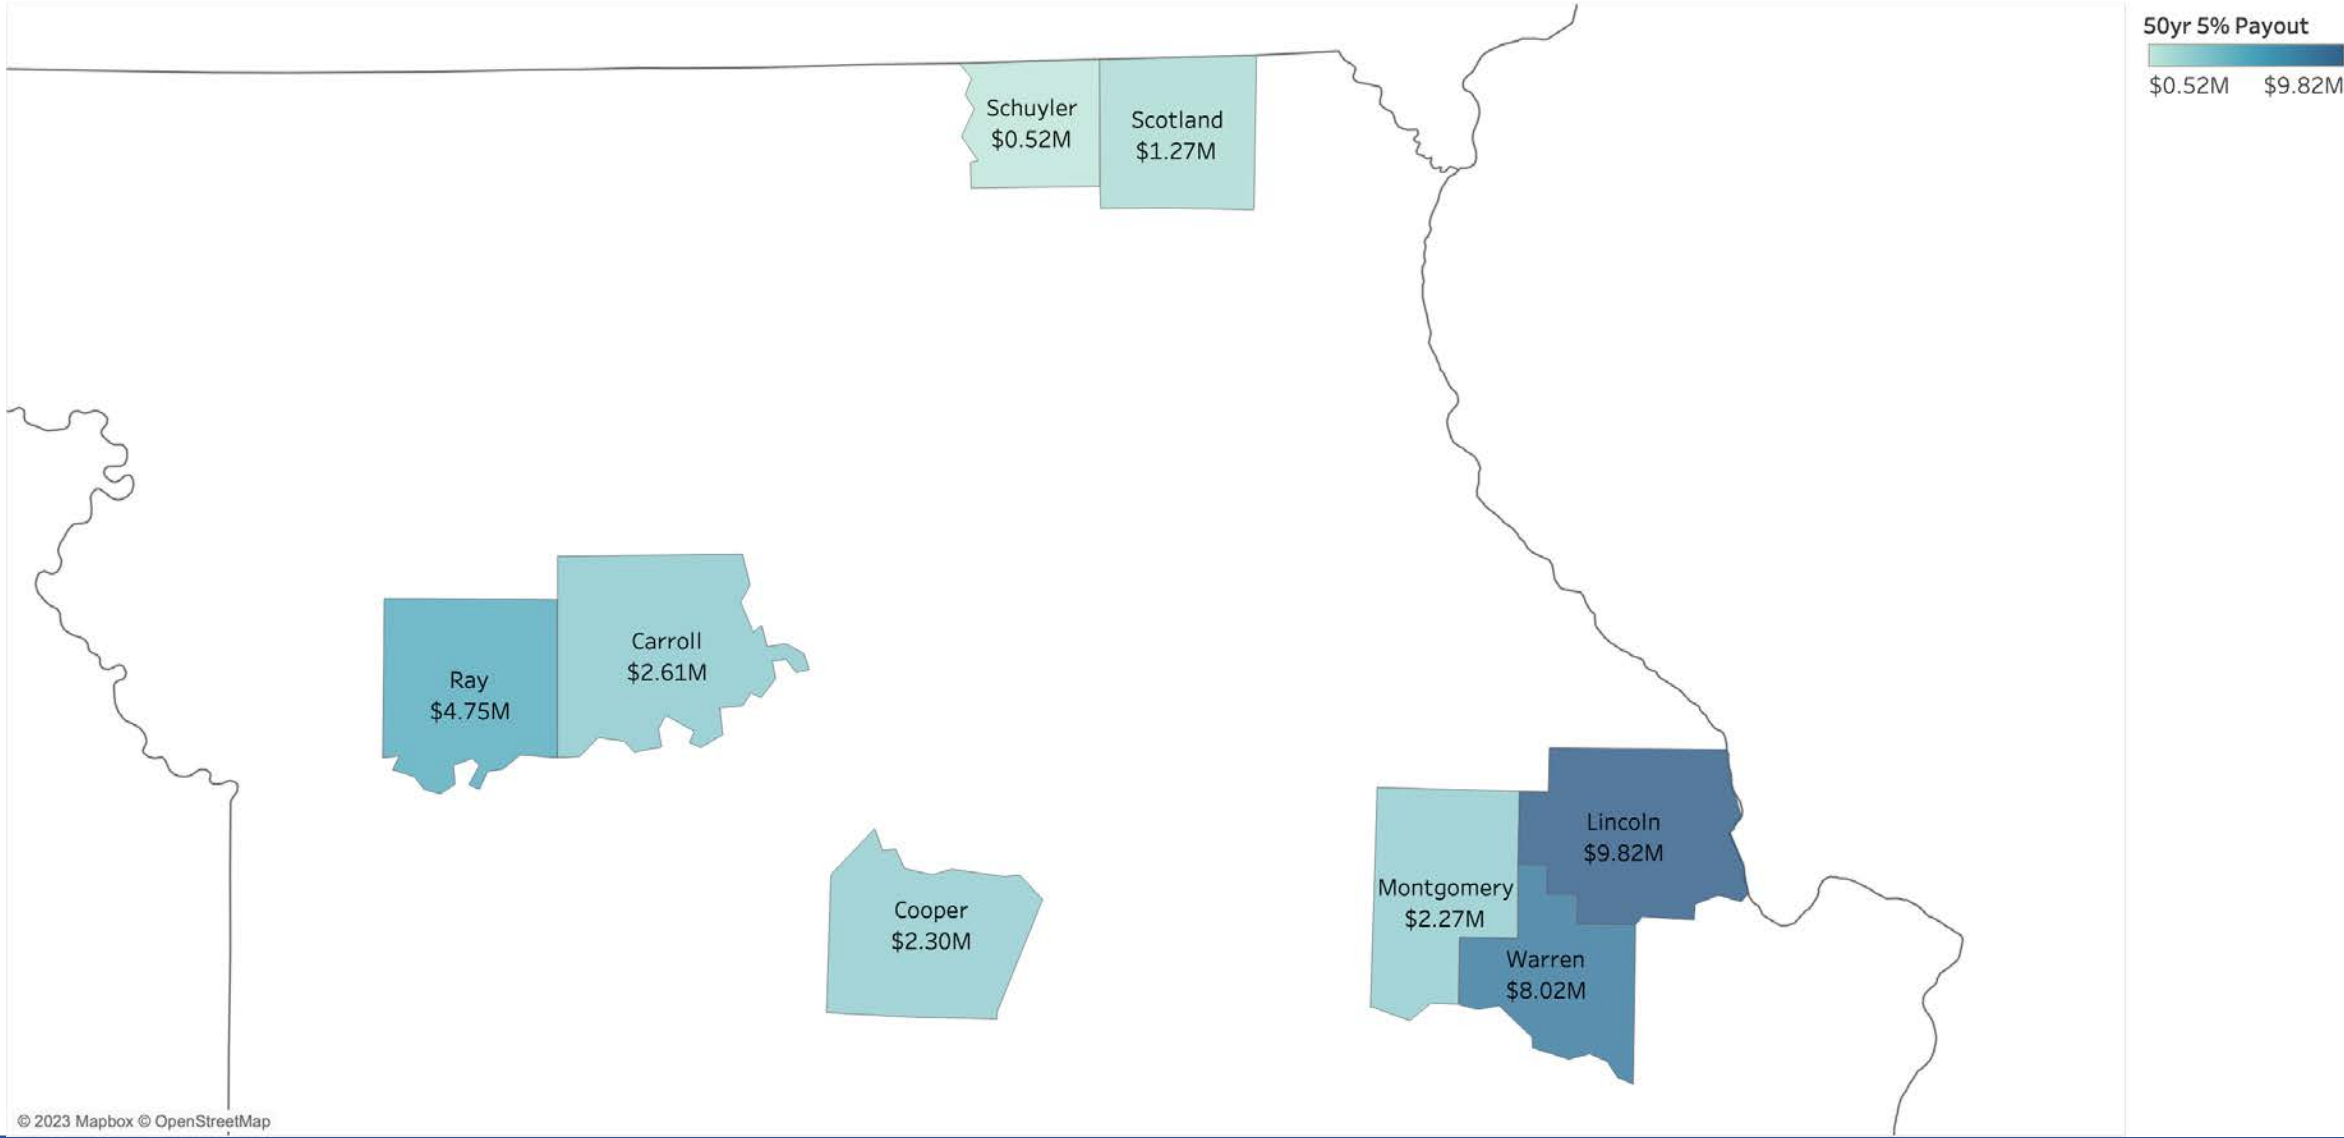

The value of the Transfer of Wealth Opportunity over the next fifty years is \$12.6 Billion in undesignated counties.

A 5% capture would lead to \$631.2 Million for the Alliance from currently undesignated counties.

Paying out 5% of funds captured in these undesignated counties could lead to investment over \$31.5 Million over the next 50 years.
